

Dear Student:

IMPORTANT NOTICE REGARDING YOUR IMMUNIZATION RECORD AND ADMISSION TO THE NURSING PROGRAM.

All new students accepted into the Nursing program at Adams State College are required to submit current immunizations (including pending immunizations in a series) **on the attached immunization certification form, signed by a health care provider or official. No other forms will be accepted.** This form is also **required** for students taking programs that are online.

This requirement is based on federal, state, and local laws and regulations governing immunizations and the health status of college students and student trainees in health care settings. Submission of this form is required for ASC Nursing students.

Your immunization form must be received at the **Nursing Department Office before your sophomore fall semester begins.** Failure to submit these forms on time could affect your admission into the Nursing program.

The law requires all new matriculated students who were born on or after January 1, 1957, to have two mumps, measles, and rubella doses; the first dose administered no earlier than four days before the first birthday, the second dose at least twenty-eight calendar days after the first date.

Measles, mumps, and rubella vaccine is not required for students born before January 1, 1957.

In lieu of immunization, written evidence of laboratory tests showing immunity to measles, mumps, and rubella is acceptable.

In event of an outbreak, those students for whom a medical, religious, or personal exemption has been submitted will be withdrawn from classes until the outbreak is contained.

Return forms to:

Adams State College
Department of Nursing
208 Edgemont Blvd.
Alamosa, CO 81102

If you have any questions concerning the policy or required form, please contact us at: 719-587-8171
