

## Field Experience: Brief Description

### ED 310 Methods of Teaching Science - Elementary

---

**Field focus** Acquaint pre-service teachers with current best practices in curricular matters, especially involving the inquiry-centered approach, standards-based education and evaluation techniques.

---

**Hours in your classroom** Elementary: twenty hours, assigned in two-hour weekly segments, are required for observations/interactions in an elementary classroom.

---

<b>Student Performance Objectives or Tasks</b>	<b>Mentor Support/Interaction/Supervision</b>
Observe dynamics/organization/style of the science classroom	Invite ASC student's questions regarding classroom dynamics/organization about the science classroom
Interact with students and participate in the lesson when appropriate	Allow opportunities for ASC students to interact with individual students
Assist teacher to pass out materials/supplies	Ask the ASC students to assist you in helping with materials
Teach a small group(4-6) 15 minute lesson about a specific content standard assigned in class using best practices	Allow the ASC students to work together in small groups to teach a specific content lesson to a small group of your students
