

Field Experience: Brief Description

ED 328 Methods of Teaching Mathematics - Elementary

Field focus Provide the student with methods and techniques for teaching mathematics in the elementary school.

Hours in your classroom Elementary: twenty hours assigned in a two- hour weekly segment are required for observations/interactions in an elementary classroom.

Student Performance Objectives or Tasks	Mentor Support/Interaction/ Supervision
Observe dynamics/organization/style of the math classroom	Invite ASC student's questions regarding classroom dynamics/organization about the math classroom
Interact with students and participate in the lesson when appropriate	Allow opportunities for ASC students to interact with individual students
Assist teacher to pass out materials/supplies	Ask the ASC students to assist you in helping with materials
Teach a small group(4-6) 15 minute lesson about a specific content standard assigned in class using best practices	Allow the ASC students to work together in small groups to teach a specific content lesson to a small group of your students
Be prepared for class with your observation sheet each visit.	Complete required ASC forms on time (Evaluation, hours)
