Message from the President

Adams State College is a special place that can help to transform your life. Successful Adams State graduates are able to control their lives, rather than life controlling them. Our average class size is 18 students, and nearly all of the classes you will take on our campus will be taught by full-time faculty with the highest degree in their discipline. They will get to know you by your first name and will be available for out-of-class tutoring, assistance and advice.

I cannot promise all of your courses will be easy — they will not be — there is no “easy button” in college. I can promise you, if you study hard and work with your teachers, your life will be transformed. Four-year college graduates are critical thinkers who vote at a higher rate than non-college graduates, are engaged in their communities, earn at least one million dollars more during their work life and live healthier life styles.

Adams State College is the place for you if you prefer small class size, want instruction by professors whose only job is to teach, want to get to know your professors out of class and desire to gain all the advantages of a four-year college education in a comfortable small-town environment.

Thank you for considering Adams State College, and welcome!

Dr. David Svaldi

  Educational Leadership (Principal Licensure)
  Literacy, Language, and Culture
  Reading Teacher
  Teacher of Linguistically Diverse
  Special Education—Generalist

Endorsement Only Programs
A School Counseling (K-12) endorsement program is available to students who already hold a master’s degree in counseling.
Adams State College

Mission
Adams State College dedicates its resources to provide opportunity and access for all students. The college is an innovative leader that recognizes the inherent educational value of diversity. It is a catalyst for the educational, cultural, and economic interests of rural Colorado, the surrounding region, and the global community.

Institutional Goals
• Promote academic excellence
• Cultivate a high-quality, student-centered environment
• Provide educational access and opportunity for success
• Preserve and promote the unique history and culture of the region
• Stimulate economic development in the San Luis Valley
• Improve organizational effectiveness
• Build financial stability

Vision Statement
We will measure our success by the success of our students. We challenge ourselves to become Colorado’s most effective state-assisted, four-year college. Our efforts will be to provide a high-quality educational experience in a supportive environment. Our programs will recognize the value of both continuity and change, will welcome diversity, and will stimulate intellectual growth.

General Information
Since its founding in 1925 as a teacher’s college for rural Colorado, Adams State has always made important contributions in these arenas. The Regional Education Provider designation now clearly directs the college to focus resources, energy, and vision on identifying and meeting needs of the San Luis Valley and Colorado.

This role brings together the programs offered both on campus and through distance-education programs. Adams State's residential campus in Alamosa is at the heart of this mission. The on-campus experience gives students an education that has been recognized statewide for excellence, in a campus setting that is dynamic, supportive, and offers diverse opportunities for involvement and leadership.

Adams State College offers recognized programs of excellence, with the School of Business, Department of Biology, Department of Music, and Graduate Counselor Education program being named Programs of Excellence by the Colorado Commission on Higher Education.

Students receive supportive mentoring and individual attention, due to small class sizes and a faculty committed to superior classroom teaching. Students are encouraged to become involved in the campus community and are given the latitude to discover their strengths.

Adams State emphasizes its service as a gateway to opportunity for San Luis Valley residents, continuing its historic commitment to and tradition of working with underserved populations, including underrepresented minorities, first-generation and low-income students.

• About 40 percent of Adams State undergraduate students come from San Luis Valley high schools.
• More than 36 percent of the student body is from minority groups.
• Twenty-nine percent of the student body is of Hispanic ethnicity.
• Financial aid is awarded to more than 90 percent of Adams State students.

Adams State’s strong on-campus programs are the basis of its off-campus and distance-education programs. Adams State has been unique among the state colleges in providing graduate programs in education and counseling around the state. The REAP (Rural Education Access Program) is successfully helping place-bound students in southeastern Colorado complete Adams State bachelor’s degrees in their communities. Our Extended Campus also offers a range of professional development and noncredit courses.
available online, via correspondence, and at various sites across the state.

To be successful in fulfilling this part of its Regional Education Provider mission, Adams State established partnerships with K-12 education, Trinidad State Junior College, and other postsecondary education institutions in Colorado. One example is a new Title V grant designed to expand educational access for Hispanic students. The $3.4-million grant funds the project, which is in cooperation with Trinidad State Junior College and Otero Junior College.

Accreditation
Adams State College is accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools at 30 North LaSalle Street, Suite 2400, Chicago, Illinois, 60602-2504. (800.621.7440 or http://www.ncahigerlearningcommission.org

Individual programs are accredited through the National Association of Schools of Music, Teacher Education Accrediting Council (TEAC) and the Council for Accreditation of Counseling and Related Educational Programs. Adams State College is an institutional member of the American Council on Education, the American Association of Colleges for Teacher Education, the American Association of State Colleges and Universities, the American Assembly of Collegiate Schools of Business, and the National Association of Schools of Music. The college is approved by the American Association of University Women.

Instruction Buildings
Adams State College's academic facilities all feature the latest technology and computer equipment for all disciplines.

- The School of Business was remodeled in 2004 and features SMART classrooms, lecture halls, and advanced computing labs.
- The Adams State Theatre, equipped with modern stage, lighting, and production equipment, opened in 2001.
- In 2000, an Art Building was created with a SMART classroom, a circular gallery, and modern studio facilities for ceramics, sculpture, metals, fiber, painting, drawing, photography, printmaking, and graphic design.
- Porter Hall, opened in 1998, houses the science and mathematics programs and was specifically designed to house modern laboratories and computer labs. It features the Edward Ryan Geological Museum.
- The Music Building features state-of-the-art computer technology for composing acquired through a Program of Excellence Grant from the Colorado Commission on Higher Education.
- The Education and Social Sciences Building has been updated with a number of SMART classrooms used by programs in education, English and languages, history/government, psychology and sociology.
- The Zacheis Planetarium and Observatory offers Adams State students unique opportunities to expand their knowledge and
experience well beyond the classroom through interaction with the public or individual research projects.

- **Leon Memorial Concert Hall** is an acoustically-designed recital venue featuring a Steinway grand piano and a historic pipe organ.

**Student Union Building**
The Student Union Building is the focus of campus life. It houses the One Stop Student Services Center, La Mesa Dining Hall, and the Adams State College Bookstore. Also located in the SUB are offices of the student government, student newspaper, and a 24-hour computer lab. Other facilities include a food court, coffee shop, convenience store, study rooms, meeting rooms, and the newly remodeled Loft with snacks, games, television sets.

**Rex Activity Center**
Rex Activity Center is a lively facility for fitness, wellness, and recreation. It has state-of-the-art cardiovascular equipment and offers a variety of fitness options, including aerobic sessions, weight training, racquetball, basketball, volleyball, and an 1,800-square-foot climbing wall. It is a great place to get in shape and meet friends.

**Plachy Hall**
The center of physical and recreational activities on campus is Plachy Hall and its surrounding grounds. The facility houses an indoor track, six tennis courts, four handball/racquetball courts, two basketball courts, a modern weight room and indoor Olympic-size swimming pool. All facilities and equipment are available for general student use. It is adjacent to soccer, softball, and football fields, as well as Rex Stadium and outdoor track.

**Richardson Hall**
The oldest building on campus, the administration building was named after the college’s first president, Ira Richardson. Located here are administrative offices, including the Office of Student Affairs and the Office of the President; Office of the Provost; the Graduate School Office; Upward Bound; the Counseling and Career Center; classrooms; an auditorium, the testing and tutoring center; and the Luther Bean Museum and art gallery.

**Residence Halls**
The residence halls vary in size, accommodation, lifestyle, and regulations. There is a living group to match each student’s preference.

**History**
Adams State College, founded in 1921 by the Colorado General Assembly, opened June 15, 1925. The name Adams State honors long-time San Luis Valley resident William “Billy” Adams, former state senator and Colorado governor who tirelessly pursued establishment of the college.

Since 1925, the college has grown from a Normal School that offered a bachelor of arts degree in education with a life certificate to teach in Colorado public schools, to an institution offering bachelor of science, bachelor of arts, bachelor of fine arts, master of arts, associate degrees, and selected preprofessional programs of study. Adams State College maintains its vital role as a leader in teacher education throughout southern and western Colorado and is the region’s primary provider of selected graduate teacher education programs.

**Location**
Adams State College is located in Alamosa, Colorado, a city of 10,000 people. Situated in the San Luis Valley in south-central Colorado, the campus is surrounded by the breathtaking beauty of the Sangre de Cristo and San Juan mountain ranges. With towering peaks higher than 14,300 feet, the mountains provide a variety of winter and summer activities and account for the brisk winter nights and sun-filled days for which the Valley is known. A sense of history and adventure unique to the Southwest creates an environment conducive to both academic and social growth.

Alamosa is serviced by Great Lakes Airlines and bus service. Denver is 220 miles to the north, and Albuquerque, New Mexico, is 200 miles to the south. Within a two-hour drive are five ski areas and historic towns such as Taos, Santa Fe, and Creede.

**Explore the San Luis Valley**
http://student.adams.edu/general_resources.htm
Adams State College is centrally located in the world’s largest alpine valley surrounded by two mountain ranges, one that is the source of the Rio Grande. It is also home to the nation’s newest national park, the Great Sand Dunes National Park and Preserve, the oldest church in Colorado,
located in Conejos, and the oldest town in the state, San Luis.

The history of the area is a rich blend of Hispanic and other cultures that influence life in the San Luis Valley. Outdoor recreation opportunities abound in every season.

The following Web sites provide more information about the area:

Extended Studies
http://exstudies.adams.edu
Adams State College Extended Studies delivers many of the same high-quality courses and programs offered on campus using the flexibility of distance delivery. Adams State College Extended Studies connects with more than 15,000 students, with more than 25,000 enrollments, and 1,400 Adams State and affiliate faculty globally to provide quality learning and teaching opportunities. From personal enrichment courses to distance degree programs, Extended Studies offers educational opportunities to fit a wide range of student needs. The delivery methods include face-to-face, online, video, and print-based courses designed to make learning more convenient and relevant for all types of learners.

Extended Studies works closely with Adams State's academic departments in fulfilling the college mission of providing educational opportunities to students in rural areas or who are otherwise unable to attend the residential campus. Extended Studies works with student cohorts and individual students to provide individual courses and/or entire programs.

Quality assurance, when applied to degrees, programs and courses delivered by Extended Studies, addresses both the academic and operational components. Academic refers to the criteria and processes used to monitor the extent to which our degrees, programs and courses address Extended Studies, Adams State College, Colorado Department of Higher Education (CDHE) and the Higher Learning Commission criteria. Operational refers to the ability of

Extended Studies faculty and staff to deliver degrees, programs and courses in both an efficient and effective manner.

Course and distance degree information, application and registration forms, and answers to frequently asked questions are online on the Extended Studies Web site, http://exstudies.adams.edu or by telephone at 800-548-6679 or 719-587-7671.

- Bachelor of Science in Business Administration Emphasis Areas: General Business Legal Studies, Management, Management Information Systems
- Bachelor of Arts in Interdisciplinary Studies with licensure in Elementary Education: cohort and site-based delivery only
- Bachelor of Arts in Interdisciplinary Studies Emphasis Areas: Business, History, and/or Sociology
- Bachelor of Arts in Sociology Emphasis Areas: Criminology, Criminology-Corrections, Criminology-Law Enforcement, Social Welfare

Graduate Off-Campus Degree Programs
Graduate programs are delivered through Extended Studies and the Graduate School. Contact Extended Studies at 800-548-6679, http://exstudies.adams.edu, or the Graduate School at 866-407-0013, http://www.adams.edu/gradschool

Program preparation for endorsements and/or licenses is offered in the following areas:

- Master of Arts in Education (with emphasis or endorsement in):
  - Curriculum (emphasis only)
  - Educational Leadership (Principal Licensure)
  - Literacy, Language & Culture :
  - Teacher of Linguistically Different
Literacy, Language & Culture: Reading Teacher
• Master of Arts in Human Performance and Physical Education with emphasis in Coaching
• Master of Arts in Counseling

Other Extended Studies Services
Adams State College Extended Studies offers customized education, training courses and services. Contact Extended Studies at 800-548-6679 for your professional needs or visit http://exstudies.adams.edu
• Professional Development
• Teacher In-Service Credit
• Educational Conference Credit
• Customized Certificate Programs
• College at High School
  The College at High School Program is designed to provide Adams State College-level courses to junior and senior high students by high school teachers on high school campuses.
• Independent Study
  More than 200 undergraduate and graduate titles are available (correspondence: print-based and Web-based)
• Test Preparation Programs
  ACT, SAT, GRE, GMAT, LSAT test preparation courses
• Certificate Programs
  Management Information Systems Certificate, Paralegal Certificate, and Legal Studies Certificate programs are offered
• Personal and Professional Enrichment
  More than 200 noncredit titles are available.
• Customized Special Projects

The Graduate School
The Graduate School, along with Adams State’s dedicated and committed faculty and staff, works to ensure access and opportunity for graduate study throughout the state and nation. Graduate study at Adams State College offers individuals the flexibility to earn a master of arts degree full-time on campus, part-time on or off campus at selected sites, or online in some cases.

Adams State College offers MA degrees in five areas:

Art —
Art has the ability to provoke, evoke, stimulate and inspire. As such, it is the mission of the Art Department to develop in students the breadth of understanding necessary to explore new ideas and challenge convention. Our goal is to enable students to create the greatest art of all: art that makes a difference.

The graduate program provides a forum for art education issues through interaction with other professional art educators. In addition, the graduate program serves the practicing artist in his or her endeavor to elevate individual artistic experience to a higher plane. Finally, the graduate program serves as a model for the undergraduate student to observe and understand the professional level of competency attained through the graduate experience.

The program is offered full or part time on campus and may be completed in summer-only format.

Counseling —
Effective counselors are self-aware and committed to continuous process of self-examination. They possess a strong knowledge base and have developed important practical skills. The Counselor Education Program at Adams State reflects this philosophy throughout the program.

Adams State’s Master of Arts in Counseling Program offers tracks in either school or community counseling, as well as the educational component of the certified addictions counselor certification. Our programs are offered either full or part time on campus, part time at selected off-campus sites, or through a summer program. The Counselor Education Program now offers an online degree with two one-week summer residencies.

The Counselor Education Program has been recognized by the state of Colorado as a Program of Excellence, exemplifying distinction in counselor training and delivery. The program is accredited by CACREP, the premier accrediting agency for counselor training.

History, Government, Philosophy —
The HGP Department offers one degree track of a master of arts in humanities with an emphasis in history. The goals of this program are to satisfy students’ desires for additional directed study of United States history, to assist teachers in meeting highly qualified status under the No Child Left Behind Act, and to provide access for students
to earn a master's degree before going on to doctoral studies. Using a mixture of face-to-face and online instruction, this degree track provides access and self-paced study, along with interaction with other graduate students. All professors in this program hold PhDs and are committed to developing and encouraging students to achieve their academic potential.

Human Performance and Physical Education —

The master of arts degree in human performance and physical education supports the mission of the department: preparing health, physical education, and fitness professionals. The degree provides depth and concentration in the pedagogy of physical education and meets the needs of physical educators who are presently teaching at the elementary or secondary school level. The program also targets those who want to pursue a terminal degree to teach in higher education. The program may be tailored to prepare a candidate for a career in sport administration or the fitness industry.

The Department of HPPE is committed to creating an environment where the graduate student's curiosity is stimulated to facilitate lifelong intellectual activity. The program is offered either full or part time on campus or through the specialized 14-month program.

Teacher Education —

The Teacher Education Program seeks students with advanced professional potential. The teacher as a reflective decision maker is the conceptual model for the graduate programs. Courses offered emphasize the development of increasing skills in reflective approaches to decision making in professional practice. The program is geared to developing in-depth understanding of the changing nature of communities, schools instruction, curriculum, school populations, and the relationship of these to the decision making process.

Graduate Teacher Education offers its program throughout the state through a variety of delivery methods. Evening, weekend, and online courses are offered both on campus and at selected off-campus sites, generally in cohort models. The MA degree is offered in education or special education. Preparation for endorsement and/or license is offered in the following areas:

- Education
- * Curriculum
- * Educational Leadership (principal licensure)
- * Literacy, Language, and Culture/Reading Teacher
- * Literacy, Language, and Culture/Teacher of Linguistically Diverse
- * Master's Plus (MA in Education and initial secondary licensure)
- • Special Education Generalist
- • Generalist/Teacher of Linguistically Diverse (restricted)

For more information about application to graduate study at Adams State College, visit our Web site at http://www.gradschool.adams.edu or call toll free at 866-407-0013.

Admission to the College

Adams State College welcomes applications from individuals interested in a personalized, high-quality postsecondary education. The admissions process is designed to support the role and mission of Adams State College, valuing opportunity and access for students of all backgrounds.

The Office of Admissions operates on a rolling admissions basis; however, applicants are strongly encouraged to apply prior to August 1 for the fall semester, December 1 for the spring semester, or May 1 for the summer session. Application materials should be submitted to the Office of Admissions, Adams State College, 208 Edgemont Boulevard, Alamosa, CO 81102. More information is available through the Office of Admissions at 719-587-7712 or 800-824-6494 or via e-mail at ascadmit@adams.edu.

Admission Requirements

First-time Freshman

Students may apply for admission any time after the completion of their junior year in high school. In order to be considered for admission to Adams State College, prospective first-time students must submit the following documents:

1. A completed application for admission — students may apply online at http://www.adams.edu
2. A $30 non-refundable application fee.
3. Official high school transcripts.
4. Official ACT or SAT scores (NOTE: Adams
State does not require the writing portion of either the ACT or SAT).

Adams State College requires a minimum Colorado Department of Higher Education index score of 80 to be considered for admission into the baccalaureate program. In general, an 80 index is equivalent to a 2.4 cumulative high school grade point average and a 19 ACT or 900 SAT score. Applicants indexed below 80 may be considered for conditional admission into the baccalaureate program or admission into the associate program. NOTE: Adams State College’s statutory role and mission enables the college to admit any qualified student who graduates from a San Luis Valley high school.

For admission into the baccalaureate program, applicants must have graduated from an accredited high school and must have completed the following pre-collegiate curriculum:

- Four units of English.
- Three units of mathematics (Algebra I and higher).
- Three units of natural/physical science (two lab-based units).
- Three units of social science (at least one unit of U.S. or world history).
- Two units of a single foreign language.

Applicants who have completed their secondary education through alternative options such as home schooling should submit documentation of their work (e.g., transcript, portfolio, etc.) in lieu of high school transcripts above.

General Educational Development (GED) Students
Students who have completed the GED may be considered for admission by submitting the following documents:

1. A completed application for admission (students may apply online at http://www.adams.edu).
2. A $30 non-refundable application fee.
3. An official GED score report.
4. Official ACT or SAT score report (NOTE: Adams State does not require the writing portion of either the ACT or SAT).

Applicants who successfully complete the GED with a minimum score of 450 may be considered for admission into Adams State College.

Non-Traditional Students
Applicants age 23 years or older when applying for admission are not required to submit ACT or SAT test scores. Students who do not complete the ACT or SAT will be considered for admission into the associate degree program.

Transfer Students
To be considered for admission to Adams State College, prospective transfer students must submit the following documents:

1. A completed application for admission (students may apply online at www.adams.edu).
2. A $30 non-refundable application fee.
3. Official transcripts from all colleges attended.
4. Official high school transcripts and official ACT or SAT scores are required of transfer students with 12 or fewer transferable credits.

Transfer students with 13 or more transferable credits and a cumulative college grade point average of 2.30 or better will be considered for admission into the baccalaureate degree program. Transfer applicants with a cumulative grade point average below 2.30 will be considered on an individual basis.

Transfer students with 12 or fewer transferable credits will be considered for admission based on the first-time freshman admissions requirements.

Returning Students
Any student who has previously attended Adams State College and has been out for at least three semesters (not including summer term) must apply for readmission by completing an application for readmission. Students may apply for readmission in the Office of Admissions or online at http://www.adams.edu. Official transcripts from all colleges attended since last attending Adams State College must be submitted to the Office of Admissions prior to being readmitted.

Non-Degree Seeking Students
Students who do not wish to pursue a degree at Adams State College may apply as non-degree seeking students. Non-degree seeking students must be at least 20 years old and must complete an avocational application/registration form in the Office of Admissions. Avocational (non-degree seeking) students are not formally admitted to Adams State College and are not
guaranteed admission should they submit a formal degree-seeking application at a later date. Avocational students are not eligible for financial aid or scholarships.

High School Concurrent Students
Qualified high school juniors and seniors may be eligible to register for courses on campus at Adams State College. In order to be eligible for the concurrent enrollment program, students must be high school juniors or seniors between the 17 and 21 years old and have a 3.0 cumulative grade point average. Students choosing to take advantage of this program should contact the Office of Admissions.

Transferring Credits
1. Adams State will accept work in which grades of A, B, C, P (Pass), CR (Credit) and S were earned for transfer credit. Courses in which a grade of D was earned are not accepted for transfer unless the course is an integral part of an associate of arts or associate of science degree.

2. Students with advanced placement scores of 3 or higher and CLEP scores in the 50th percentile or higher may receive credit upon approval by the department chair of the appropriate department. Vocational courses and courses which are listed as “no equivalent” at Adams State can be considered for credit after the student completes 24 hours of course work at Adams State with a 2.0 or higher GPA. The credit must be approved by the department chair of the student’s major.

3. There is no limit to the number of transfer hours accepted. However, students are required to complete a minimum number of 30 institutional hours to obtain a bachelor of arts or science degree.

4. Transfer students are urged to visit the campus and meet with an academic advisor or program chair and the records evaluator to ensure a smooth transition of transfer credits.

5. Transfer credit more than 10 years old must be evaluated by the records evaluator /CAPP administrator (if the course falls under the general education requirements “or equivalent”) or the department chair of the area offering the course for which the credit would be issued.

6. The technology proficiency exam and writing assessment are institutional graduation requirements that must be satisfied

Coursework Transfers
Individuals with coursework seeking admission to degree programs at Adams State College will be evaluated using Adams State’s general admission policies and the transfer policy (see below) Adams State will evaluate courses in three categories:

Category 1: General education courses, their equivalents (both in state and out of state), and courses specified in the statewide core transfer process or the guaranteed transfer process with grades of C or better will be evaluated by the designee of the Records Department for acceptance.

Category 2: Upper level courses (300-499) or courses specifically related to a student’s intended major with grades of C or better will be evaluated for acceptance by the department chair for which the credit would be issued.

Category 3: Credits that fall outside of Categories 1 and 2 (i.e., elective credits) will be evaluated for acceptance by the designee of the Records Department and/or the department chair for which the credit would be issued.

Degree Transfers
Individuals with a BA/BS (including degrees more than 10 years old) will have their general education courses accepted in total as meeting Adams State’s general education requirements with the exception of time-sensitive courses (e.g., computer science courses, geography). Time-sensitive courses more than 10 years old will not be accepted. Individuals with an in-state AA/AS degree (including degrees more than 10 years old) will have their general education courses accepted in total as meeting Adams State’s general education requirements. Individuals with an out-of-state AA/AS degree (including degrees more than 10 years old) will have their general education courses accepted if they have successfully completed at least one course in each of the following areas: communications (English), history, science (with a lab), math, art, humanities, social sciences and speech. Courses from these areas that have not been completed may be completed at Adams State. Upon completion, the entire degree will be accepted. Individuals with an associate of applied science degree or an associate in general studies degree will have their general education courses accepted in total as meeting Adams State’s general education requirements if they have successfully completed at least one course in
each of the following areas: communications (English), history, science (with a lab), math, human behavior, art and literature. Courses from these areas that have not been completed may be completed at Adams State. Upon completion the entire degree will be accepted.

Individuals who have satisfied either track of the “common core” will have their general education courses accepted in total as meeting Adams State’s general education requirements.

In order to receive transfer credit from non-accredited schools, the student must complete 24 hours with a minimum 2.0 GPA. Credits may then be presented to the department chair over the course content area and the assistant provost for Academic Affairs for approval.

**Degree/Program Requirements**

1. Students who have not completed the GT Pathways core curriculum will be required to meet all the Adams State general education requirements in effect at the time of admission.

2. The bachelor of arts or science degree is conferred upon completion of a minimum of 120 academic (non-PE) semester hours composed of general education, major requirements, and elective credits. Additionally a scholastic average of at least 2.0 must be earned in all work attempted at Adams State. (2.75 minimum GPA required for admission to teacher education)

3. Forty-two (42) semester hours of the course work required for a degree at Adams State must be upper division (300-499 level) academic hours.

4. Students transferring to Adams State must meet the Adams State requirements in effect during the first semester of their enrollment at Adams State.

5. Students entering Adams State College must demonstrate a baseline proficiency with technology by either: (1) passing the ASC Technology Proficiency Examination with a grade of 70 percent or higher or (2) passing an approved technology course with a grade of C or better. Courses meeting this proficiency are BUS 120 (Business Computer Applications) and CSci 100 (Essentials of Info Technology). This proficiency must be achieved by the end of the sophomore year.

6. All students must fulfill and pass the writing assessment. All students pursuing bachelor of arts or science degrees are required to undergo an assessment of their writing during the semester in which they will have completed 60 credit hours. Students are strongly advised to confer with the chair of their major department or program about the unit’s writing assessment policy as soon as they have chosen a major. Students seeking an associate of arts or associate of science degree should see Academic Advising and Tutoring. All students pursuing bachelor of arts or bachelor of science degrees should see the appropriate department chair.

7. Requirements for majors can be found in the Adams State catalog.

8. Courses to be substituted in the Professional Education Program require teacher education department chair approval.

9. A minor will not be granted until a student completes the requirements for a bachelor’s degree.

10. PE credits of all levels (100-499) may not be applied towards the total number of the 60 required credits for an associate’s degree or the 120 required credits for a bachelor’s degree. In relation to this, 300-499 level PE courses cannot be counted towards the 42 upper-level credits required for the conferring of a BA/BS degree. They can be used to determine financial aid status and academic/athletic eligibility.

**International Students**

http://aac.sa.adams.edu/international_undergrad_app_info.htm

Adams State College welcomes international students. All international students who desire to enter the college must comply with all provisions of the Immigration Act. A complete set of credentials, including verification of financial support, must be sent to the Office of Admissions with a formal application for admission and a $30 non-refundable application fee in U.S. dollars (credit card, check or money order). All information must be in English. The college must have proof of English proficiency. A minimum score of 550 (paper-based) or 213 (computer-based) on the TOEFL exam is considered acceptable, or if a student attends an ESL program, successful completion of level 109 is considered acceptable.

College or university-level work completed outside the United States will be accepted directly in transfer only if the college or university is accredited by one of the U.S. regional accrediting associations. Other collegiate-level
work is acceptable only on the basis of credit by examination. This examination will be conducted by the department chair most closely associated with the academic classes in which the student might wish to transfer. Each department chair will decide whether a written, oral, or credit review of the transcript will be necessary to establish credit.

Admission to Graduate Programs
http://gradschool.adams.edu
Descriptions of graduate programs, admission requirements and related endorsements can be found in the 2007-2008 Graduate Catalog or the Adams State Web site. Please contact the Graduate School at 866-407-0013.

Financial Aid
http://www.adams.edu/finaid
The following information has been prepared to provide a better understanding of the student financial aid programs at Adams State College. The purpose of financial aid is to assist eligible students who, without such aid, would be unable to pursue their educational goals. The primary responsibility to meet college costs lies with the student and the student’s family, with financial aid from the college being a supplementary source of funding. The amount of need-based financial aid offered to a student cannot exceed the student’s documented financial need. A student’s financial need is determined through a uniform need analysis of the student’s and/or family income, assets, etc. in comparison with the anticipated costs of the student’s education. Financial aid records are classified as confidential and are treated accordingly.

Financial Aid Awards
Adams State College Office of Student Financial Aid complies with all regulations, guidelines, polices and procedures of the U.S. Department of Education, the state of Colorado and the administration of Adams State College.

Application for Financial Aid
Submit the Free Application for Federal Student Aid (FAFSA) online at http://www.fafsa.ed.gov
All financial aid applications and forms are available at the One Stop Student Services Center or available online at http://www.adams.edu/finaid

Financial aid is administered without regard to race, color, creed, sex, national origin, handicap, political affiliation, or other non-merit factors. Eligibility for financial aid must be determined each college year; therefore, applications are required to be completed annually.

For information about financial aid, contact the One Stop Student Services Center located in the Student Union Building of Adams State College, Alamosa, CO 81102, call 719-587-7306, toll free 866-344-1687, or e-mail asconestop@adams.edu.

Veterans
The college is authorized by the Colorado State Approving Agency for Veterans Education in accordance with federal law to educate students receiving benefits through the Veterans Administration.

For more information regarding veteran’s benefits, contact the One Stop Student Services Center located in the Student Union Building or at 719-587-7322 to schedule an appointment to visit with the veterans clerk.

Tuition and Fees Per Semester
For current tuition and fees, visit http://businessoffice.adams.edu and click on the “Cost Information” link. The Board of Trustees for Adams State College, the governing entity, reserves the right without notice to alter tuition and fee charges prior to the first day of any semester.

College Opportunity Fund
The College Opportunity Fund (COF), created by the Colorado Legislature, provides a stipend to offset tuition costs for eligible undergraduate Colorado resident students who are attending a state public institution or participating private institution of higher education. The stipend is paid on a per-credit-hour basis to the institution at which the student is enrolled and credited to the student’s account. The per-credit stipend amount will be set annually by the Colorado General Assembly.

The COF stipend is applicable up to 145 hours towards a student’s first baccalaureate degree and up to an additional 30 credit hours toward a second undergraduate major or degree. Students
can check their credit hour balance on the COF Web site at https://cof.college-access.net/cofapp.

Eligible undergraduate students must apply, be admitted, and enroll at a participating institution. Both new and continuing undergraduate Colorado resident students are eligible for the stipend. Students only need apply for the COF stipend once at https://cof.college-access.net/cofapp. Eligible students must authorize use of the stipend each semester to receive payment. Adams State College students can authorize or decline the stipend at http://www.adams.edu/onestop. Eligible students who do not apply for and authorize use of the stipend or who have exceeded maximum COF eligibility are responsible for the full amount of tuition.

College Opportunity Fund Lifetime Credit Hour Limitation Waivers

The COF stipend will pay up to 145 hours toward a student’s first baccalaureate degree and up to an additional 30 credit hours toward a second undergraduate major or degree. Students can check their credit hour balance on the COF Web site at https://cof.college-access.net/cofapp. If a student exceeds the limit prior to meeting his or her academic goals, the student is responsible for the full amount of tuition. However, the student may apply for a waiver from the lifetime credit-hour limitation. Waivers may be granted by the institution and/or the Colorado Department of Higher Education (CDHE).

Colorado Revised Statutes state: “A state institution of higher education may annually grant a one-year waiver of the lifetime credit hour limitation for up to five percent of the eligible undergraduate students enrolled in the state institution of higher education” (C.R.S. 23-18-202(5)(f)). Institutions will grant these waivers each fiscal year. An eligible student may only receive one waiver from an institution. Adams State College’s waiver form is available at the Office of the Associate Provost for Academic Affairs.

The institutional waiver will always precede the CDHE waiver. In other words, students may apply for a waiver from CDHE as necessary after receiving an institutional waiver or if a waiver is not available from their respective institution (presumably because the institution already granted waivers to five-percent of eligible undergraduate students).

COF statute, C.R.S. 23-18-202(5)(e), specifically defines the criteria that must be met in order for a student to qualify for a CDHE waiver from the lifetime credit-hour limitation as follows:
1. The student has extenuating circumstances that exist related to his or her health or physical ability to complete the degree program within the lifetime credit-hour limitation;
2. The student’s enrolled degree program requires more than 120 credit hours to complete, and the CDHE has approved this program;
3. While the eligible undergraduate student was enrolled in a specific degree program, the CDHE approved and the institution implemented an alteration of degree requirements or standards for the specific degree;
4. Requiring the eligible undergraduate student to pay the full amount of total tuition for credit hours that exceed the limitation would cause substantial economic hardship on the student and/or the student’s family.
5. For a list of frequently asked questions, please refer to http://www.adams.edu and click on the College Opportunity Fund link. The College Opportunity Fund is an evolving program and certain provisions may be subject to change.

Payment and Refund of Tuition and Fees

Payment

Students, by the act of registration, automatically incur a financial obligation to the college. This means students who register for one or more classes (unless they officially withdraw from the college within the time specified for a partial refund) are responsible for payment of the full amount of their tuition and fees, whether or not they attend class. Students with unpaid financial obligations of any nature due the college shall not be allowed to register for classes, receive a transcript of credits, or a diploma upon graduation.

Tuition and fee rates are listed online at http://businessoffice.adams.edu
Payment deadlines are listed in the class schedule each semester. A late fee is charged for payment not completed by the deadline. Additional late
payment fees are assessed in subsequent months when payment is not made.

**Refunds of Tuition and Fees Complete Drop/Withdrawals**

If a student plans to withdraw from the college, the following steps must be completed:
1. Initiate the procedure through the Office of Student Affairs, Richardson Hall, Room 234, to obtain the necessary forms.
2. Visit the offices indicated on the forms and obtain the appropriate signatures.
3. Failure to follow this procedure will result in unapproved withdrawal from all courses, forfeiture of any refund of fees for which the student may be eligible and may result in failing grades for the semester.

Students who attempt an “unofficial” withdrawal will still be registered, continue to incur charges, and will have failing grades posted at the end of the semester. Students who are eligible for the COF stipend will have reduced their available COF hours upon withdrawal by the total number of eligible hours in which they were enrolled.

**Refund Schedule**

<table>
<thead>
<tr>
<th>Percent of Total Tuition and Fees</th>
<th>Upon Withdrawal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Week 1 through Census</td>
<td>90%</td>
</tr>
<tr>
<td>Day after Census through Week 5</td>
<td>75%</td>
</tr>
<tr>
<td>Week 6-8</td>
<td>50%</td>
</tr>
</tbody>
</table>

The above calculations are based on the regular semester. If you are taking a shortened course, e.g., weekend or Internet, the calculations below apply to your refund schedule.

<table>
<thead>
<tr>
<th>Upon Withdrawal</th>
<th>Refund/Adjustment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Start of class thru class census</td>
<td>90%</td>
</tr>
<tr>
<td>Day after census through 25 percent of class</td>
<td>75%</td>
</tr>
<tr>
<td>26 percent through 50 percent of class</td>
<td>50%</td>
</tr>
</tbody>
</table>

There are no refunds after 50% of the class has elapsed. As an example, if a student officially withdraws prior to census, the college retains 10 percent of tuition, fees, and other applicable charges. If tuition and fees have been paid in full, the remaining 90 percent is refunded. If tuition and fees have not been paid, the student is billed for 10 percent of applicable costs.

To receive the appropriate refund, it is important you inform Student Affairs (or the Graduate School if you are a graduate student) when you initiate the withdrawal that your course was not based on the regular semester.

The above refund schedule applies to COMPLETE WITHDRAWAL from Adams State College. If you are only taking one class or if your classes are the same duration, the above percentages will be used to calculate your refund/adjustment.

If you drop a course prior to census date for the class, charges will be removed at 100 percent as long as you are enrolled in at least one other course. If you withdraw from a course (post census), charges are due and payable at 100 percent. If you have questions regarding complete withdrawal, course drop, or course withdrawal and how they affect your bill, please contact Student Business Services at 719-587-7728, 800-824-6494, or e-mail ascbus@adams.edu.

**Other ASC Refund Policies Applicable to Complete Drop/Withdrawal**

Refunds for room and meal plans are made per the refund schedule. Room refunds or adjustments are made only after the room is vacated and the occupant has completed the checkout procedure with Adams State housing personnel. Board refunds or adjustments are processed only after notification of cancellation is received at the Adams State Housing Office. After the eighth week of the semester, there are no refunds or adjustments for housing or meal plan charges.

Non-refundable charges are listed below and are considered expended at 100 percent when charged:
- Easy Refund Card Replacement Fee
- New Student ID Fee
- New Student Orientation Fee
- Parking Decal
- Parking Fines
- Emergency Loans
- Emergency Loan Fees
- Deferred Payment Fee
- Late Fee

**Repayment of Financial Aid Funds for Complete Withdrawals**

Students who receive financial aid then withdraw
might be required to repay all or a proportionate amount of aid received. Repayment amounts are determined in accordance with federal, state, and institutional regulations and policies. Where COF hours have been applied, the student will have reduced these if she or he withdraws after the census date as defined in the Academic Calendar. Copies of the repayment policy can be obtained by contacting the Office of Student Financial Aid at 719-587-7306.

Student Information
http://www.sa.adams.edu
Most out-of-class activities and services for students are administered by the Division of Student Affairs. These include pre-college counseling; counseling of a personal and social nature; living accommodations; recreational and social events; outdoor programs; activities affiliated with clubs, organizations, and student government; and placement and career planning.

Academic Advising
http://www.adams.edu/students/academic_advising
Each Adams State College student is assigned an academic advisor in accordance with the proposed major listed on the student’s application for admission. Undeclared majors are advised by Academic Advising. Students also may request a particular faculty member for their advisor, pending availability. Advisor assignments are made by Academic Advising.

It is important that students work closely with their advisors throughout their academic careers, especially in the freshman and sophomore years, in planning relevant course schedules. If a student wishes to change advisors, or if an advisor recommends a change, Academic Advising must be notified. Academic Advising is located in the One Stop Student Services Center in the Student Union Building.

Adams State College is committed to every effort that supports student success. In that spirit, we require our undergraduate degree-seeking students be advised and obtain an advising PIN (Personal Identification Number) from their advisors before registering each fall and spring semester. Students should make arrangements to meet with their advisors as soon as semester schedules are available (online as well as in booklet form) to ensure they are enrolled in the courses needed to meet their educational goals. Students are not required to obtain a PIN for summer registration but are encouraged to meet with their advisor to determine enrollment in appropriate courses.

Advisors are furnished copies of all previous college and high school transcripts. In advising and registering students, academic advisors and other college officials strive to prevent errors. Students, however, are responsible for knowing the requirements of the desired degree programs. This information is available in the catalog. When registering, students are expected to follow the registration procedures as outlined and prescribed by the Office of Records and Registration. Students must assume complete responsibility for registering for those classes that meet their needs.

Adventure Program Center
The Adams State College Adventure Program, established in 1925, is the third oldest college outdoor adventure organization in the country. The Adventure Program provides members of the Adams State community and residents of the San Luis Valley with programs and services that instill an appreciation for nature and outdoor pursuits. In addition, the Adventure Program offers students the opportunity to develop leadership skills through active participation in outings, workshops, and one-credit enrichment courses. The Adventure Program Center is located in the Student Life Center on the first floor of the Student Union building. The center offers weekend outings, workshops and seminars, trip and equipment consultation, and a large inventory of outing equipment, which is available for rent at reasonable prices. For more information, contact the Adventure Program at 719-587-7813.

Alumni Association
The mission of the Adams State College Alumni Association is to reach out to current alumni, future alumni, and the community to cultivate loyalty, pride, and commitment to Adams State College. The association publishes a quarterly magazine for alumni and friends, sponsors homecoming and more than 30 other events for alumni across the country. The Alumni Association provides 10 scholarships to current students. For more information, visit www.adams.edu/alumni
Associated Students & Faculty (AS&F)
There are two seats open to incoming freshmen on the AS&F Senate. The due dates for petitions and platforms and the election date will be published in the South Coloradan. Inquiries about AS&F can be made to the AS&F Office, Student Union Building or phone 719-587-7948.

Campus Media
Campus media at Adams State College operate under the sponsorship of AS&F and the Communications Board. Media on campus are the South Coloradan, the official student newspaper; Sand Hill Review, the college literary magazine; and KASF-FM, the college radio station. Each is maintained by a student staff in consultation with a faculty advisor.

Bookstore
The College Bookstore, where students can purchase necessary textbooks, general reading books, supplies, gifts, soft goods, network supplies and art supplies, is located in the Student Union Building. The College Bookstore is owned by Adams State College.

Campus Card
http://www.adams.edu/students/sub/campus_card/campus_card.php
Campus Card is the identification system on campus. As well as a student ID, the Campus Card is also a debit card. Deposits to the Campus Card may be made at the Office of Housing, the Business Office, the SUB Office, or at any automatic deposit machine. The card then can be used for purchases in the dining room, food court, bookstore, the SUB copy machine, retail stores and laundry machines. A $25 fee is charged for the initial card, and there is a $10 replacement fee for all lost or stolen cards.

There are no required minimum deposits or monthly service charges. Balances and statements are available upon request and at various card terminals.

Dependent cards are available to immediate family members of all students and to all faculty and staff who pay student fees. The cost for a dependent card is $5 each.

Campus Events Scheduling Guideline
The following campus events scheduling guideline has been prepared and endorsed by those groups involved in most scheduling of campus events (i.e. student activities, program council, music/theater) and will be used to minimize conflicts in the scheduling of campus events and to allow adequate time for effective promotion and publicity in the media.

1. Contracts for use of facilities are to be submitted to the appropriate office for authorization:
   • Academic facilities must be submitted to the Office of Academic Affairs.
   • Student Union Building facilities must be submitted to the Office of the Student Union Building Director.
   • Plachy Hall facilities must be submitted to the Office of the Athletic Director.
   • Leon Memorial and Richardson Hall Auditorium must be submitted to the Office of the Guest Services Coordinator.

2. If promotion and media publicity (news releases and/or advertising) are desired, the Communications Department should be notified at least two weeks before the event.

Career Services
Career counseling services are available to help students in the search for a rewarding major and career. Events such as the Backpack to Briefcase Week, the career exploration process, and personality assessments help students with their educational and career planning. Career counselors work with students individually and in groups to assist in choosing a major, developing resumes and cover letters, and in developing superior interviewing skills and job-search techniques. Workshops and presentations are regularly provided throughout the school year. Job and internship placement services are available to students and alumni, and two job fairs are scheduled each year.

Challenge Course (Ropes Course)
The Challenge Course is an experiential learning facility offering participants the opportunity to explore personal and group issues in a supportive but challenging environment. The course consists of low and high elements, which student organizations, residence hall groups, and academic classes and departments can use to help stimulate learning and group development. Student organizations and academic departments
can reserve the Challenge Course by contacting the Adventure Programs Office at 719-587-7962. Groups are encouraged to make reservations a minimum of two weeks prior to their desired workshop date. Student Life will provide the required number of facilitators and assistants at a minimal cost to ensure each group has a safe and productive experience. Group leaders are required to meet with their facilitator prior to their workshop date to discuss the group’s needs, interests, and desired outcomes. For more information, contact the Adventure Programs Office at 719-587-7962.

**Clubs and Organizations**
The college encourages the formation of clubs and organizations that further the interests and opportunities of students in a specified field of endeavor or recreation. For any organization or club to be chartered on campus, it must present a constitution to be approved by the AS&F Senate and the college president. Club funding is contingent on AS&F recognition and AS&F Senate approval. Organizations or clubs will not be recognized on campus if they (1) discriminate according to race, creed, sex, age, or ethnic background or (2) advocate the overthrow of the government of the United States, the State of Colorado, or any of its subsidiaries.

The diversity within the student body allows for a wide range of interests, knowledge, occupations, and backgrounds, which contributes to a unique learning experience. All students are encouraged to participate in the activities on campus. Opportunities are offered through athletic, educational, religious, and service organizations. More information relative to specific clubs and organizations may be obtained from the AS&F Office, the Office of the Director of Student Life, or the Office of Student Affairs.

The following clubs and organizations have been active in recent years at Adams State College. More information regarding these organizations can be obtained from the Associated Students and Faculty (AS&F) president.

- Adams Atoms
- American Choral Directors Association
- ASC Honor Society
- ASC Mathematics, Computer Science, and Engineering Club
- ASC Rugby
- ASC Student’s for the New Left
- Associated Students & Faculty
- Black Student Alliance
- Campus Crusade for Christ/Campus Fusion
- Chemistry Club (Adams Atoms)
- Circle K
- Climbing Club
- Dance Team (through Athletics Department — non-AS&F)
- El Parnaso
- HPPE Club
- Estudiantes Unidos
- Folklorico/Semillas de la Tierra
- Gay Straight Alliance
- Geology Club
- Grizzly Activity Board (formerly Program Council)
- Karate Club
- KASF Radio
- Latter Day Saints Students Association
- Living Poet’s Society
- Music Educators National Conference
- Mock Trial
- Model United Nations
- Native Unity
- Newman Club
- Pacioli Accounting Club
- Phi Beta Lambda
- Poker Club
- President’s Council
- Psychology Club
- Sand Hill Review Literary Magazine
- Science Fiction Club
- Soccer Club (through Athletics Department — non-AS&F)
- South Coloradan Student Newspaper
- Student Ambassadors
- SWAT Team (Students Working for the Awareness of Tobacco)
- Toastmasters
- Tri Beta
- Teacher Education Association
- The President’s Honor Society

**Counseling and Career Center**
The Counseling and Career Center offers services to assist students in their growth and development in academic, personal, and career areas. Personal and career counseling are available to all students and their families. Additionally, the Counseling and Career Center provides the best possible environment for development through consultations with faculty, Student Affairs, and other campus and community agencies. To learn more, visit [http://www.adams.edu/students/ccc](http://www.adams.edu/students/ccc) or stop by 220 Richardson Hall, 719-587-7746.
Counseling Services
Confidential services are provided through individual sessions, couples counseling, family therapy, and group therapy. Issues commonly addressed include depression, addictions, relationships, stress, eating disorders, self esteem, grief, anger management, and more. Support groups are offered on an as needed basis, as well as outreach services which include workshops, classroom presentations, and housing programs. Coordination of the Sexual Assault Response Team (SART) is provided through the center. The Counseling Center also provides a full range of prevention services including awareness programs for alcohol, tobacco, and other drugs, cessation services for these drugs, and information and workshops on healthy living.

Cross-Cultural Center
The mission of the Cross-Cultural Center is to acknowledge, celebrate and promote the diverse cultural experiences of each member of the Adams State College community. The center supports the intellectual, social and cultural development of students by offering opportunities for open dialogue concerning race, class, ethnicity, nationality, gender, sexual orientation and disabilities in a safe and supportive environment. The center sponsors a number of programs during the academic year and collaborates with academic departments and other campus offices to design and implement educational programs that support student learning and development. For more information contact the director of Student Life and Recreation at 719-587-8191.

Day Care Center
The Gingerbread House is a private, licensed childcare center that provides quality day care services when college is in session at a minimal cost for Adams State students with children ages 2 to 10 years. The day care program includes hot lunch and two nutritious snacks daily, planned indoor and outdoor activities to meet both group and individual needs, and guided free play to stimulate self-discovery. Preschool sessions are also offered September through May. The Gingerbread House is located at 318 Girault Avenue, 719-587-7162.

Dining Services
Adams State Campus Dining Services provides meals and refreshments for the campus community. La Mesa Dining Hall offers nutritious, balanced meals for students on a board plan or for the campus community to enjoy. Use of the Adams State College Campus Card in the Food Court and La Mesa Dining Hall is encouraged.

Disability Services
The Counseling and Career Center, 220 Richardson Hall, 719-587-7746, manages services for students with disabilities, with assistance from Student Support Services, # 1 Petteys Hall, 719-587-7632. If you have, or suspect you have, a disability impacting your academic performance, you will need to provide documentation of that disability to the Counseling and Career Center. Students may obtain a disability services handbook, which includes a comprehensive discussion of documentation requirements, by contacting the Counseling and Career Center. A qualified professional who is licensed or certified to diagnose the disability in question must supply documentation. To present their documentation for review, and arrange for accommodations in timely fashion, newly admitted students with disabilities are encouraged to schedule an appointment with the Counseling and Career Center prior to the start of an academic semester. Academic accommodations available to students with disabilities at Adams State may include, but are not limited to, extended time testing, interpreters, note-taker services, reader services (e.g., books on tape, electronic text), and tutoring services.

First-Year Interest Groups
The First-year Interest Group (FIG) program is a year-long initiative that creates a strong community for first-year students-both in the classroom and in the residence halls. Belonging to a FIG is a great way for first-time students to meet other students and to build mentoring relationships with faculty and staff members. Each FIG is based on a shared academic and social interest (i.e., art, music, theatre, psychology, career exploration, among others). Students in a FIG take two or three courses together both semesters of their first year. The courses typically fulfill general education or major requirements. FIG students also take college transitions courses specifically designed for Adams State students taught by Adams State professional staff, who provide significant guidance to the FIG students. Students in FIGs are mentored by returning Adams State students who have successfully completed at least one year on campus. The
FIG mentors are trained to help students with questions or concerns that arise in the first year of college. FIG students are encouraged to live in the FIG wing in Coronado Hall, along with the FIG mentors. The FIG Coordinator’s Office is also in this wing. For more information, please contact the FIG coordinator at 719-587-7858.

Foundation
The Adams State College Foundation, established in 1962, is dedicated to furthering the educational goals of the college by seeking and managing contributions. The foundation continually works to expand financial support for the college to provide resources for development and scholarships for students.

Grizzly Activity Board
Grizzly Activity Board is a volunteer student organization charged with designing and implementing a variety of programs and services, which help to create a lively campus environment. The council is led by a six-member executive board, which consists of a president, vice presidents for programming, collaboration, finance, marketing, and a secretary. Grizzly Activity Board presents live comedy shows featuring nationally recognized performers, concerts, feature films, recreation tournaments, annual campus traditions, and special events including the Medicine Show, among others. Applications for Grizzly Activity Board membership are available throughout the academic year. For more information, stop by the Grizzly Activity Board Office located in the Student Life Center or call 719-587-7226.

Grizzly Den
The Grizzly Den, located in the Student Union Building, has a variety of snack and personal items available.

Health Services
The San Luis Valley Regional Medical Center, located within walking distance from campus, is well staffed and maintained to provide medical services to students.

Information relative to student health insurance is available in the Business Office or online at http://businessoffice.adams.edu (click on “insurance”).

International Student Advisor
An international student advisor is available in Academic Advising (located in the One Stop Student Services Center in the Student Union Building) to help international students with financial, personal, or immigration issues. All international students are required to visit with the international student advisor upon arrival on campus and to maintain contact with the advisor during their stay at the college. Academic advising is done by an academic advisor in the department in which the student majors. For more assistance, call 719-587-7657.

Intramural Sports
The Intramural Sports Program at Adams State College offers a diverse schedule of team and individual activities throughout the academic year. The program is managed by the intramural coordinator. In the past, the Intramural Sports Office has sponsored softball, flag football, volleyball, 3-on-3 basketball, basketball, indoor soccer, golf, bowling, and 5K runs, among others. Registration forms and rules for each sport can be obtained at the Intramural Sports Office in the Rex Activity Center. For more information call 719-587-7018.

Local Activities
Swimming pools, handball courts, horseshoe pits, tennis courts, indoor and outdoor tracks, weight room, and game facilities are available to students. Movie theaters, restaurants, and pubs offer entertaining nightlife.

Musical Activities
http://www.music.adams.edu
Adams State College’s Department of Music offers many opportunities for participation in music ensembles: marching, concert, and jazz bands; concert choir; jazz singers and chamber choir; chamber orchestra; and mariachi. Private lessons in wind, percussion, piano, guitar, strings and voice are also available to music majors and minors. Students are encouraged to participate in any of the department’s ensembles, regardless of major, based upon an audition.

National Student Exchange
The National Student Exchange, a domestic parallel to study abroad, is the only comprehensive, university-level, tuition-reciprocal, student exchange program in the United States. Now with university partners in
Canada, NSE’s exchange sites reflect a diverse group of nearly 180 universities in 48 states, the District of Columbia, three U.S. territories, and five Canadian provinces. These universities have joined NSE to share their resources and to expand student experiences and academic programs in exciting and cost-effective ways.

NSE provides to its member institutions:
• Expansion of course offerings
• Assistance with multicultural objectives
• Enhancement of recruitment and retention initiatives
• Potential for inter-campus joint programming
• Access to numerous international programs of member campuses
• Exchange among university honors programs
• Resident assistant exchanges
• Access to internships and research options
• Tuition reciprocity
• Portability of federally funded financial aid

Founded in 1968, NSE is a not-for-profit, membership consortium which has placed more than 75,000 students. The National Student Exchange provides inter-institutional exchange/study opportunities whereby students may grow academically and personally as well as develop a greater appreciation for the diversity of our country and culture. The program is a model for sharing of academic resources among a nationwide network of colleges and universities. A major benefit of NSE is expanded academic opportunities for students.

Since 1968, NSE membership has grown as has its scope, mission, and service to member universities and exchange students. Throughout these years, NSE continues to be recognized for its unique contribution to the higher education community and for its vision, caring, professionalism, and quality service.

For more information, please contact the director of student life and recreation 719.587.8191 or visit http://www.nse.org.

One Stop Student Services Center
The One Stop Student Services Center serves as a student center for the offices of registration and records, student business services, and financial aid. Based on Adams State’s belief in the value of the individual, its mission is to deliver unparalleled student customer service. Your One Stop Student Services Center will provide quality, professional and courteous assistance in support of your academic and educational financing objectives. One Stop counselors are knowledgeable in enrollment, financial aid, billing and payments or can help you with general information or concerns about the business aspect of being a student. The One Stop Student Services Center is accessible by:

Location: ASC Student Union Building
Phone: 719-587-7306
Toll-free: 1-866-344-1687
Fax: 719-587-7366
E-mail: asconestop@adams.edu
Web: http://www.adams.edu/onestop

Orientation
New student orientation is designed to facilitate the transition of new students into the college, prepare new students for the educational opportunities available at Adams State and initiate the integration of new students into the intellectual, cultural, and social climate of Adams State College. This program reinforces the new students’ decision to attend Adams State College.

Orientation for new students, which includes transfer, non-traditional and commuter students begins the week before classes and continues through the first week of classes. For more information, please contact the director of Student Life and Recreation at 719-587-8191 or visit the Web site at http://orientation.adams.edu

Public Safety and Law Enforcement Services
http://publicsafety.sa.adams.edu
The Adams State College Department of Public Safety provides services to protect and serve the college community. The department maintains a college environment conducive to the pursuit of academic goals.

Both certified full-time classified officers and part-time student officers staff the department. The department also employs civilians in clerical, parking management, and student escort positions. The department collaborates with local law enforcement agencies including Colorado State Patrol, the Alamosa Police Department, and Alamosa County Sheriff’s Office. Each state-certified officer is also a duly sworn
Alamosa County deputy sheriff, which allows the department to function as part of a two-agency group in Alamosa County. The Department of Public Safety assumes a legal but student-centered approach in extending its services and program on campus. The department provides crime prevention presentations and information to the Adams State College community. Authority for public safety is derived from state law. All police activity on campus is coordinated through the Public Safety Department.

The Department of Public Safety also participates in systems designed for life, fire and building safety. The Department of Public Safety also has the obligation to inspect all life, fire, and building safety and health codes and to cause the necessary corrections to be implemented. Members of the department are always available when needed to render assistance to any person.

The Public Safety/Law Enforcement Office is in the Coronado/Girault addition, phone 719-587-7901. Dispatch services for the Adams State Department of Public Safety are available 24 hours a day at 719-589-5807. For emergency assistance, dial 911. The emergency and dispatch phone number is 719-589-5807 or 911.

Reading Enrichment Services
The Adams State Emerging Scholars Program offers a two-course sequence which addresses the reading skills fundamental to college success: ID 095 College Reading and Writing I and ID 096 College Reading and Writing II, each of which is a three-hour course. However, as basic-skills courses, the hours may not be applied to a college degree. Please contact the director of First Year Experience and Engagement at 719-587-7657 concerning these courses.

Rex Activity Center
The Rex Activity Center reopened its doors in 1995 after extensive renovations turned the historic building into a first-rate student recreation facility. The Rex Activity Center is a student-funded facility designed to meet the health and fitness needs of members of Associated Students & Faculty (AS&F). All activity areas in the building are available to students on an unrestricted basis with the exception of those times scheduled for non-academic aerobic classes, climbing wall clinics, workshops, and special events. The facility houses a basketball/volleyball court, two racquetball/volleyball courts, aerobic/dance studio, free weight and cardiovascular areas, 1,800-square-foot climbing wall, and men's and women's locker rooms. A variety of recreational equipment is available at the main desk for students to check out for free or for a reasonable rental fee. The Rex Activity Center also offers wellness workshops and numerous special events including the Homecoming 5K Run, family nights and fall/spring climbing competitions. For more information, contact the Rex Activity Center at 719-587-7018.

Student Government
Each student who pays college service fees is a member of AS&F upon registration. Faculty members also participate. The organization was founded to promote cooperation between the students and faculty. The general social life, social programs, and other student activities of the college are directed through various arms of the AS&F Senate. The AS&F Senate is also a policy-recommending body to the college president. The AS&F Senate serves as a student-lobbying organization for positive changes for the students of Adams State College. Elected officers of the student body and elected faculty members make up the AS&F Senate and are the point of contact for recommending matters pertaining to student life.

Residence Hall Councils: Each residence hall has a governing council. The council assists the residence hall director in recommending policies pertaining to student life within the residence halls. The Residence Hall Council assists in coordinating functions among residence halls.

Student Life and Recreation
The Department of Student Life and Recreation offers a wide variety of social, recreational, and developmental programs and services designed to enrich each student’s college experience. Participation in student life and cocurricular activities at Adams State College supports the academic mission of the institution by contributing to student learning, growth, and development. Student Life is composed of many student-centered areas including Student Leadership Series, Grizzly Activity Board, Rex Activity Center, Intramural Sports, Adventure Programs, Challenge Course, Cross-Cultural Center, Associated Students and Faculty, National Student Exchange, new student orientation and summer activities. In addition, Student Life coordinates several traditional campus events.
such as Welcome Week, Homecoming, and Grizzly Daze. The programs and services offered by Student Life are open to the entire campus community and are generally free of charge. For more information, contact the Director of Student Life and Recreation at 719-587-8191.

**Student Support Services**

Student Support Services provides services to first-generation, low-income students and students with disabilities at Adams State College. Services for qualified students include tutoring, mentoring, academic and life skills workshops, supplemental financial aid for those who qualify, and educational field trips.

The purpose of Student Support Services is twofold: to increase the retention and graduation rates of eligible students, and to foster an institutional climate supportive of first-generation, low-income students and students with disabilities. Because the program is federally funded, all services are free to qualified students.

Students who have recently graduated from high school, have already been accepted into Adams State College, and are planning to attend Adams State for the fall semester are eligible to apply for Student Support Services Summer Scholars Program. Students live on campus for three weeks and are enrolled in a three-week credit English class. They also receive one credit hour for the Adams State College Connections course.

Student Support Services is located in #1 Petteys Hall. The number is 719-587-7632; e-mail is ascsss@adams.edu.

**Student Union Building (SUB)**

[http://collegecenter.sa.adams.edu](http://collegecenter.sa.adams.edu)

The SUB is the lively, friendly hub of the campus. It is designed for all members of the campus community.

The SUB and staff provide facilities, services, and programs for students, faculty, administration, staff, alumni, and guests. Conveniences and services for the campus community are provided through the One Stop Student Services Center, the bookstore, the game room, the information desk, outdoor equipment rental, food service, retail stores, student offices, meeting rooms, and auditorium. The “living room of the campus” provides a setting in which members can get to know and understand one another through informal association outside the classroom. The SUB is an integral part of the educational program of the college. It serves as a laboratory of citizenship, training students for social responsibility and leadership. The various boards, committees, and staff provide a cultural, social, and recreational program designed to make free-time activity complement study and education. These self-directed activities promote maximum opportunities for self-realization and growth.

**Theatre Activities**

[http://theatre.adams.edu](http://theatre.adams.edu)

The Theatre Program produces at least seven performances each year, most directed and designed by theatre majors themselves. However, Adams State students do not need to be theatre majors to audition or work backstage. The Theatre Program provides all students with many opportunities for creativity, personal and professional growth, and quality training.

**Tutoring Center**

The Tutoring Center provides coordination of academic tutoring services. Services are provided on a first-come, first-serve basis and are free of charge. Tutoring is provided by trained peers in a group setting. In addition, the Tutoring Center coordinates note-takers and test-readers for students with accommodations under ADA. It also serves as an alternative test site and a placement testing site. The Tutoring Center is located in Richardson Hall 226.

**Upward Bound**

[http://upwardbound.adams.edu](http://upwardbound.adams.edu)

The Upward Bound Program is designed and funded to work with high school students who have the potential for success in college. The Upward Bound Program strives to unlock each student’s potential through academic skills development and extensive career and personal counseling. The program consists of an academic year program and a summer residential program. The program provides numerous employment possibilities for college students in the education and counseling fields. For more information, please contact the Upward Bound Program, Richardson Hall, Room 245, 719-587-7865.

**The Writing Studio**

[http://www.adams.edu/students/writingstudio](http://www.adams.edu/students/writingstudio)

The Writing Studio supports student learning and
faculty and staff in their development as writers and as educators. Skilled peer tutors provide help to students with every part of the writing process, from generating ideas about assignments to final editing. They offer assistance for every kind of writing in each discipline, ranging from freshman composition papers, biology papers or poetry, to graduate portfolios. The Writing Studio furnishes an extensive collection of books and handouts relating to the writing process, and it has computers available for student use. Tutors are in the Writing Studio free of charge to help students learn to proof and perfect their own work and to help faculty and staff with their writing and course needs. The Writing Studio is located in ES 209.
Phone: 719-587-7898.

Housing and Food Services
Visit [http://housing.sa.adams.edu](http://housing.sa.adams.edu) for current housing information and rates.

The college provides a number of housing accommodations located throughout the campus for undergraduate and graduate students. Since the physical environment of students is an important part of the educational experience, the college takes great pride in providing supervised and carefully planned modern facilities. Various lifestyle options are available within the residence halls so students can select the area that best suits their individual needs.

Each residence hall is staffed with a residence director and several student resident assistants. These key people help create a residential living environment that can sustain productive and creative educational experiences. During the year, students will come into contact with a variety of other students, many of whom have differing lifestyles, social and moral values, and cultural backgrounds.

Note: The college requires all freshman and sophomore students to live in the residence halls, except as excused for definite reasons expressed in writing and approved by the director of Auxiliary Services. Exceptions can be found in the Standards of Residence.

Residence Hall Apartments for Single Students

**McCurry and Savage Halls** (co-ed by apartment — sophomores and above) are designed for comfortable apartment-style living. Three to six students share a three-bedroom apartment, which is fully furnished with the exception of tableware and cooking utensils. A kitchen/living room and one and one-half baths complete the apartment. (Meal ticket optional.)

**Petteys Hall** (co-ed by apartment — sophomores and above) provides group living for three to six students in a three-bedroom apartment. Each apartment is furnished, with the exception of tableware and cooking utensils, and it provides cooking facilities and one and one-half baths. There are four apartments and a common lounge area on the second and third floors. (Meal ticket optional.)

**Moffatt and Houtchens Halls** (co-ed by apartment — juniors and above) are designed for comfortable apartment-style living. Two to six students share a two- or three-bedroom apartment, which is fully furnished with the exception of tableware and cooking utensils. A kitchen/living room and one and one-half baths complete the apartment. (Meal ticket optional.)

**Non-Cooking Residence Halls for Single Students**

**Conour Hall** (co-ed private rooms) is a three-story residence hall, which houses 44 students with one student per room. Individual closet space, drawer space, desk, bookcase, overhead light, and twin bed are provided for each student. Coin and Campus Card operated washing machines and dryers are provided in the laundry room. A private lounge area is located on the first floor. (Meal ticket required.)

**Girault Hall** (co-ed) is a two-story residence hall, which houses 200 students with two students per room. Each student is provided with an individual desk, overhead light, bookcase, bulletin board, closet space, drawer space, and twin bed. The two-story complex has a lounge with a TV viewing area and a study lounge. Coin and Campus Card operated washing machines and dryers are provided in the laundry room. (Meal ticket required.)

**Coronado Hall** (co-ed) provides a spacious lounge that houses a TV area, plus program and student areas. The lounge separates the building into two sections. Each section is a three-story complex housing 244 students. The rooms are
arranged in suites with two bedrooms and a private bath in each suite. Four students are assigned to each suite. Each section provides the student with a laundry room equipped with coin and Campus Card operated washers and dryers. (Meal ticket required.)

**Family Accommodations**

Charges for apartments are based on a monthly schedule. Utilities are furnished in all units. Each apartment is semi-furnished with the exception of linens (window and shower curtains on Faculty Drive), bedding, tableware, and cooking utensils. Application for rentals is made to the director of Auxiliary Services and must be accompanied by a $150 housing deposit, $50 of which is a non-refundable application fee. When proper notice is given and the occupancy is terminated, the $100 deposit, less any deductions for damage, defacement, or outstanding accounts in the Business Office, will be refunded.

**Faculty Drive** — These are two-bedroom apartments located west of the center of the campus. They are four-plex units constructed of red brick. Window and shower curtains are not provided in these units. The furnishings may include a double bed, single beds, chests, electric range, and refrigerator.

**Houtchens Hall** — These are two-bedroom apartments arranged in a three-story residence hall located in the northwest corner of the campus. Window and shower curtains are provided in this hall, and the furnishings are the same as above.

**Moffatt Hall** — These are three-bedroom apartments arranged in a three-story residence hall adjacent to Houtchens Hall. They are furnished, and window and shower curtains are provided.

**Food Services**

Visit [http://adamscampusdining.com](http://adamscampusdining.com) for current food service rates.

La Mesa Dining Hall is open to all students, faculty and guests. It serves three meals per day Monday through Friday and brunch and dinner on Saturday and Sunday. The food court, located in the Student Union (SUB), features Ultimate Baja, Pizza Hut Express, and Grill 155°.

All board charges are payable at the start of each semester. Special arrangements can be made through the Business Office.

Charges for the board plan will accrue on a weekly basis only. Refunds will be made on a weekly basis (with no proration on the weekly charge) up to the last two weeks of the semester. No refunds will be made on the board charges until the meal plan has been properly canceled at the Housing Office. Meal plans must be canceled by Friday so that charges will not accrue for the following week.

The Board of Trustees for Adams State College shall make adjustments to published rent and food charges as deemed appropriate.

**Laundry Services**

Students provide their own towels, pillowcases, sheets, blankets, and other personal articles such as bedspreads and throw rugs. The college provides laundry facilities in residence halls (except Faculty Drive), where students may do their laundry. All laundry rooms can accommodate the Campus Card.

**Payment and Refund of Residence Hall Charges**

All room and board charges are payable at the start of each semester. Special arrangements can be made through the Business Office. No refunds on room charges will be made until the room has been vacated and the occupant properly checked out by housing personnel. The refund policy has been revised and is available in the Housing Standards of Residence Book. All room charges will begin from the official opening of the residence hall, unless prior arrangements have been made with the director of Auxiliary Services.

**NOTE:** Lifestyle options/rates could be revised. Rates may increase slightly in some areas.

**Academic Information**

Visit Adams State College Records Office Website: [http://adams.edu/records](http://adams.edu/records)

**Academic Advising**

[http://www.adams.edu/students/academic_advising](http://www.adams.edu/students/academic_advising)

Students are expected to assume the responsibility for planning academic programs in accordance with college rules, policies, and requirements.
To assist students with this planning, an advisory system has been created. It is designed to provide a close relationship between students and faculty in an effort to help students make appropriate academic choices. Personnel from the Academic Advising and Tutoring Center will serve in an advisory capacity to students.

Each new student is assigned a faculty advisor as soon as he or she has declared a major. The advisor will aid the student in planning course work during registration and will be available for a conference each semester.

Should a student choose to change or add a major field of study, the student should contact the Academic Advising and Tutoring Center to complete appropriate paperwork to be assigned a different advisor for the new field of study.

ACT/SAT Credit in Advance for English
Students who complete the English section of the ACT with a score of 27 or more, or the verbal section of the SAT with a score of 580 or more, receive three hours credit for English 101. Transfer students must provide evidence in the form of official test scores at the time of admission in order to receive this credit. Credit will be granted after census date of the first semester of enrollment.

Advanced Placement
High school students who have performed satisfactorily in advanced college-level courses before college entrance and demonstrated a requisite achievement (minimum score of three) on tests of the Advanced Placement Program of the College Entrance Examination Board may submit the results to Adams State College for consideration of college credit. The Records Office will record the advanced placement and/or college credit based on determinations made by the appropriate department chair. The maximum credit accepted on the general exams is 18 semester hours in the areas of humanities, natural and social sciences. The semester hours of credit for each subject exam, as well as credit by examination in total, will be determined by the appropriate department chair. Credit will be granted after census date of the first semester of enrollment.

Auditing Courses
Students in good academic standing may broaden and deepen their educational experience by auditing courses. Auditing permits a student to attend a course without being required to complete exams and assignments. It is the college’s intent, however, that auditing be a serious commitment on the part of the student and not disrupt the student’s progress toward a degree. Careful consultation with the student’s academic advisor is recommended. Physical education (activity) courses are exempt from auditing. Music (activity) courses available for auditing purposes require the permission of the instructor. Contact the Department of Music for more information.

A student who wishes to audit a course must mark the NC (No Credit) column for the course on the appropriate registration form or NW when registering via the Web. The registration process must be completed before the end of the add/drop period. An audited course does not carry academic credit, nor does it satisfy any degree or program requirement. Regular tuition and fees will apply. Audited courses are not eligible for the COF tuition stipend.

Availability of Classes
Adams State College does not offer all of the classes listed within this catalog each semester or each year.

Adams State College reserves the right to withdraw from its offerings classes with insufficient enrollment during any particular semester. Other courses may be added if there is sufficient demand.

In some programs, certain courses may be offered on an alternate-year basis or as determined by demand. Mandatory advising is in place to assist our students in planning and making satisfactory progress towards obtaining their degrees.

Catalog Applicability
Baccalaureate Students
Entering first-year students seeking the BA, BFA, or BS degree must satisfy the degree requirements listed in the catalog in effect at the time of their first semester of enrollment at Adams State, provided they remain continuously enrolled. Students who interrupt their studies for more than three semesters must satisfy the degree
requirements in effect during the semester they reenroll.

**Associate Degree Students**

Entering first-year students seeking an AA or AS degree must satisfy the degree requirements listed in the catalog in effect at the time of their first semester of enrollment at Adams State College, provided they remain continuously enrolled. Students who interrupt their studies for more than three semesters must satisfy the degree requirements in effect during the semester they reenroll. In any case, students who do not complete the AA or AS degree within four years of their first enrollment must satisfy the degree requirements in effect during the academic year in which they will graduate.

**Class Attendance and Tuition/Fee Payment**

Students are expected to attend all class sessions. The college places the responsibilities of attendance upon the student. Tardiness and absences are dealt with by the instructor. Each student is expected to complete all course requirements regardless. No person shall attend Adams State College classes on a regular basis without being properly registered and without paying appropriate tuition and fees. Exceptions to this policy are made for senior citizens and current or retired Adams State faculty who may attend classes with the permission of the instructor and the associate provost for Academic Affairs. The policy does not apply to designated community activities such as the community orchestra, etc. Visitors may attend class on a one-time basis with permission. See the COF section below for information regarding this tuition off-set program.

**Classification of Students**

Students are classified according to the number of semester hours of credit they have earned. Freshmen are students who have earned fewer than 30 semester hours; sophomores are those who have earned 30 hours but fewer than 60; juniors are those who have earned 60 hours but fewer than 90; seniors are those who have earned 90 hours or more.

**College Opportunity Fund (COF)**

The College Opportunity Fund (COF), created by the Colorado Legislature, provides a stipend to offset tuition costs for eligible undergraduate Colorado resident students who are attending a state public institution or participating private institution of higher education. The stipend is paid on a per-credit-hour basis to the institution where the student is enrolled and credited to the student’s account. The per-credit stipend amount will be set annually by the Colorado General Assembly.

The COF stipend is applicable up to 145 hours toward a student’s first bachelor of arts or science degree and up to an additional 30 credit hours toward a second undergraduate major or degree. Students can check their credit hour balance on the COF Web site at https://cof.college-access.net/cofapp

Eligible undergraduate students must apply, be admitted, and enroll at a participating institution. Both new and continuing undergraduate Colorado resident students are eligible for the stipend. Students only need apply for the COF stipend once at https://cof.college-access.net/cofapp

Eligible students must authorize use of the stipend each semester to receive payment. Adams State College students can authorize or decline the stipend at http://www.adams.edu/onestop

Eligible students who do not apply for and authorize use of the stipend or who have exceeded maximum COF eligibility are responsible for the full amount of tuition.

For a list of frequently asked questions, please refer to http://www.adams.edu and click on the College Opportunity Fund link. The College Opportunity Fund is an evolving program and certain provisions may be subject to change.

The COF stipend is not applicable to the following courses:
- Transcripted credits not directly attributed to college instruction, such as AP, ACE, IB, and CLEP
- Off-campus, extended campus, or continuing education courses that are not state-funded, unless approved by the Colorado Department of Higher Education.
- Non-credit courses
- Audited courses
- Courses and instruction that are fully funded under an institution’s fee-for-service contract
- All courses where the enrollment is closed to the general public, the curriculum is customized for an employer or the course is
funded by customized job training dollars that are separately appropriated and outlined in C.R.S. 23-60-306 and 307.

- All courses offered on a military base

**Connections/LINCS Courses**

Connections is a one-hour course designed for first-year students. This course assists new students with the transition to college life. The topics covered include study skills, navigating the college's administrative community, expectations of higher education, and many other transition events that occur in a student’s first year. Many students take this class; however, students who need to take two or more basic skills courses will be required to take this course.

LINCS (Learning Integrative New Competencies and Skills) is the follow-up course to Connections. During the second semester of college, students need to examine their major choices, study habits, and personal growth. LINCS will help students identify strengths and areas for improvement while providing a supportive classroom environment. This course will be helpful to students who might not know what career options they wish to pursue.

**Continuous Enrollment — See Catalog Applicability section**

**College Office Hours**

Except Saturdays, Sundays, and legal holidays, the administrative staff of the college maintains office hours from 8 a.m. to noon and 1 p.m. to 5 p.m. (summer hours may be from 7:30 a.m. to noon and 1 p.m. to 4:30 p.m.). Some offices are open through the lunch hour, including Admissions, Extended Studies, Records, Financial Aid, External Affairs, Computing Services and the Business Office. If consultations with the president or other members of the staff are desired, it is advisable to request an appointment.

**Commencement**

Graduation ceremonies are conducted at the end of fall and spring semesters. Each semester has a deadline in which all graduation requirements must be completed. All requirements must be completed and grades must be in the student system by June 7 for spring graduation, September 7 for summer graduation and January 7 for fall graduation. Some students may take courses from other schools or through our Extended Studies program and are given deadlines in which to complete their coursework. However, our graduation deadline must be met for the semester in which the student applies to graduate. If students cannot complete their requirements by the deadline for the semester in which they applied, they should reapply for graduation in the subsequent semester. Students who complete degree requirements may participate in commencement. Information sheets giving details about graduation exercises, fees for caps, gowns, and announcements will be mailed approximately one month prior to commencement. Students who complete degree requirements during the summer semester will be added (provided they have applied for graduation) to the fall semester commencement program. Students who will complete degree requirements in the summer and wish to participate in the previous spring commencement ceremony should notify the records evaluator of their desire to participate in this commencement ceremony. Note: Students must be lacking only one course (up to 6 credit hours) in order to participate in any commencement ceremony.

**Course Descriptions**

Course descriptions are listed in alphabetical order by department at the end of this catalog. The course description gives the department number and title, the semester hours of credit offered, an explanation of the content of the course, and other information needed for planning a program. To view the catalog online, go to www.adams.edu/records and click on the “Course Catalog” link.

**Course Load**

The normal course load for undergraduate students is 15 to 17 semester hours. Undergraduate students must maintain at least 12 semester hours to be eligible for full financial aid. Students desiring to take more than 20 semester hours per semester must seek permission from the associate provost for Academic Affairs as well as their advisor. Overload forms may be requested at the One Stop Student Services Center or online by going to http://www.adams.edu/records and clicking on the “Forms” link. Tuition surcharges will be assessed on course loads in excess of 17 credit hours. Academic full-time status requires enrollment for 12 semester hours during any semester.
Course Numbers
Courses numbered 001 through 099 are considered basic skills courses and will not be counted toward the required hours for an associate of arts or science or bachelor of arts, fine arts or science degree. Students enrolled in basic skills courses will be assessed a surcharge. Courses numbered below 300 constitute the lower division. Courses numbered 300 through 499 constitute the upper division. Course numbering is based on a pattern that places all classes numbered 100-199 in the first year, 200-299 in the second year, 300-399 in the third year, and 400-499 in the fourth year. Those numbered 500-599 are graduate courses. Students may take a class numbered more than one year above their class rank with special permission from the department chair and the instructor of the class. Classes numbered 500 to 599 may not be used for undergraduate credit.

Credit by Examination
Students may petition to receive academic credit for a course if, through prior experience and study, they have attained knowledge and skills that constitute the requirements of the course. Students may receive approval of their petitions if the following criteria have been met:
1. The student is enrolled for the course and appropriate tuition and fees have been paid.
2. The instructor teaching the course agrees the student’s experience qualifies the student to be given an opportunity to “test out” for credit.
3. The department chair approves the request and instructional recommendations.

Grades for course work completed by examination will be recorded by the instructor in accordance with the grading system for the class. If credit by examination is requested for a course offered by the college, but not being offered during that particular term, the student may enroll for the course under independent study. Independent study forms are online at http://www.adams.edu/records through the “Forms” link or at the One Stop Student Services Center located in the Student Union Building. (This differs from distance education correspondence courses offered through Adams State College Extended Studies.)

Credit for Military Experience
Students who have served in the military and wish to have their experience considered for college credit need to make an appointment with the associate provost for Academic Affairs during their first semester of attendance at Adams State. Appropriate paperwork, including an official military transcript, will need to be provided. The associate provost for Academic Affairs will evaluate the military credit and make the decision as to how the credit will be awarded.

Credit or No Credit — Audit Courses
See Auditing Courses

Developmental/Remedial
Developmental/remedial courses at Adams State are graded on a satisfactory/unsatisfactory basis. These courses are necessary prerequisites required for graduation. They may not, however, be used to meet graduation requirements per CDHE and institutional policy. These courses are used to determine financial aid status and academic/athletic eligibility as earned hours for freshman.

Emerging Scholars Program
The Emerging Scholars Program provides rigorous, responsive and relevant coursework for Adams State College students requiring developmental classes in math, reading or writing (see Math Placement Policy and Reading/Writing Placement Policy). The program, administered under First Year Experience and Engagement, provides placement testing, academic advising, coursework, tutoring and intervention services. The courses currently offered include MATH 095 Basic Arithmetic Skills, MATH097 Basic Algebra Skills, MATH099 Intermediate Algebra, ID095 College Reading and Writing I and ID096 College Reading and Writing II. Students requiring developmental work in more than one area must also complete ID 110 Connections and ID 096 LINCS. Students entering Adams State College needing any of these courses are encouraged to contact the director of First Year Experience and Engagement at 719-587-7657 for more information.

Evaluation of Degree Requirements
Students are responsible for the fulfillment of graduation requirements. The Academic Advising and Tutoring Center is available to students who are undecided about their academic major. Students will need to work closely with their academic advisor after a major/minor has been
declared. Some students will need more than one advisor, particularly students seeking teacher licensure.

Applications for graduation are available in the One Stop Student Services Center, department chair offices, or online at http://www.adams.edu/records by clicking the “Commencement” link. Students should submit a copy of the completed application form to the office of the department chair in which their first major is located. The original should be submitted to the records evaluator the semester before the semester in which the student plans to graduate but no later than August 31 for fall, January 31 for spring and June 1 for summer graduation (or the next business day if these dates fall on a weekend or a holiday). Students pursuing the associate of arts or associate of science degree should submit a copy of their application for graduation to the Academic Advising and Tutoring Center. A late fee of $20 will be imposed on applications received after February/September for spring/fall graduation, respectively. After review by the department chair or associate provost of Academic Affairs, the copy of the application and supporting documentation will then be forwarded to the records evaluator for final approval. All supporting documentation must be on file in the Records Office before the student will be approved for graduation.

Final Examinations

Final exams must be taken during the time scheduled in the course schedule. Students requesting alternative exam schedules due to conflicts with evening classes should consult with their instructor(s). Students with genuine and demonstrable family crises or medical emergencies that require an alternative schedule should consult the associate provost for Academic Affairs.

First Year Experience and Engagement (FYEE)

The transition from high school or the workplace to college can be challenging; therefore, Adams State College is committed to ensuring each first year student has a genuine opportunity for success. To meet the needs of first-year students, Adams State College offers a group of programs and services to address the sometimes complex academic and social adjustments to college life, including Academic Advising, Connections/LINCS courses, Emerging Scholars, First-year Interest Groups (FIGs), and Tutoring. Please see descriptions of each of these programs and services or contact FYEE at 719-587-7657.

Grade-Point Average Computation

The Adams State College grading system is based on a standard four-point scale, and GPA is calculated by dividing total quality points by credit hours attempted. See example below.

<table>
<thead>
<tr>
<th># of Hours</th>
<th>X</th>
<th>Grade Equivalent</th>
<th>Honor Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example:</td>
<td>3</td>
<td>A=4</td>

</tr>
</tbody>
</table>

Quality Pts 14 Credit Hours Attempted = 22
GPA Calculation 22/14 = 1.58

Grade Report

Students should meet with their instructors throughout the semester to discuss their academic progress. Prior to midterm, students will be notified of all regular session classes in which they are in jeopardy of receiving a failing grade. Final grade reports will be available online as early as the Tuesday evening following the final week of courses. Students who wish to have their grade reports mailed should log in to http://www.adams.edu/onestop and complete the information requested for having a grade report mailed each semester during the timeframe indicated on the Web site.

Grading System and Quality or Honor Points

The grading system used at Adams State is alphabetical grades. Grades are reported at the end of each term.

<table>
<thead>
<tr>
<th>Grade per credit</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Excellent</td>
<td>4</td>

*Credits not used to compute GPA and not counted toward graduation.
**Credits not used to compute GPA but counted toward graduation.
***BASIC SKILLS courses do not count toward graduation.

Credits for courses graded F are used to compute GPA but do not count toward graduation.
P credits may or may not transfer to other colleges and universities.

Graduation with Honors
Students with a cumulative grade-point average of 3.5 to 3.74 graduate cum laude (with honors).

Students with a cumulative grade-point average of 3.75 to 3.89 graduate magna cum laude (with high honors). Students with a cumulative grade-point average of 3.9 or higher graduate summa cum laude (with highest honors). Honors are determined based upon a student’s cumulative GPA at the end of the semester prior to the semester in which the student will graduate. However, these minimum requirements must be maintained through graduation in order to receive the honors notation on official transcripts.

Incompletes
The grade of incomplete (IN) is a temporary mark assigned for course work of acceptable quality that students, through no fault of their own, are unable to complete. It is not given for neglected or unsatisfactory work. The student must complete all remaining course requirements as specified by the instructor no later than one year following the end of the term in which the class was attempted. If the grade has not been assigned after the deadline, the IN will be changed to an IF.

Independent Study Courses
Credit by independent study must be approved by the instructor, the department chair, and the associate provost for Academic Affairs in writing, prior to enrollment. Forms may be obtained at the One Stop Student Services Center or online at http://www.adams.edu/onestop. The subject area to be studied will be determined by agreement between the student and instructor with the approval of the associate provost for Academic Affairs. The course numbers will be 199, 299, 399, and 499 for undergraduate credit; 599 for graduate credit. These courses differ from distance education correspondence courses offered through Adams State College Extended Studies.

International Baccalaureate Program
Adams State College recognizes the International Baccalaureate (IB) program and accords special consideration for students presenting IB credentials on an individual basis. To receive college credit, students who take the Higher Level IB Examination(s) must request their scores be sent to Adams State College. Upon receipt of the scores, an evaluation for credit will be performed. Students will be notified by mail of the evaluation results.

Scores of 4 or higher on the Higher Level IB Examination(s) will receive 3 (2 for specific science courses) or more credits for each examination.

Students who have earned the International Baccalaureate Diploma and achieve a score of 4 or higher on all standard and higher level IB examinations will receive a minimum of 24 hours of general education credits. The area of general education and number of credits will be determined by the courses taken. Official transcripts should be sent from the International Baccalaureate Organization for evaluation.

Internet Courses
Adams State College offers a limited number of Internet courses. Courses with open enrollment can be found in each semester’s course schedule in the section for the relevant academic department. Enrollment in Internet courses could require an additional fee.
No Credit — Audit Desired
See Auditing Courses

Pass/Fail
For all courses graded pass/fail, the grade of P is equivalent to the letter grade C or better. This statement applies to all courses built in the pass/fail grade mode.

Privacy Policy
See Privacy Policy under Campus Policies and Regulations section

Registration
An explanation of registration procedures can be found in the class schedule prior to any registration period. The class schedule is obtainable from the One Stop Student Services Center located in the Student Union Building. Students may register online through the virtual One Stop at http://www.adams.edu/onestop

Repeating Courses
Students may repeat courses, however, only the most recent credit hours attempted are computed in the GPA. Previously attempted courses and grades remain on the academic record but are not computed in the GPA. After repeating a course, students should submit a GPA update form to have their GPA recalculated. Forms are available at the One Stop Student Services Center or online at http://www.adams.edu/onestop and may be submitted to the One Stop Student Services Center. Students who receive approval to take courses from other institutions need to be aware the grade earned will not replace a grade earned at Adams State.

Satisfactory/Unsatisfactory Courses
For all courses graded satisfactory/unsatisfactory, the grade of S is equivalent to the letter grade C or better. This statement applies to all courses built in the satisfactory/unsatisfactory grade mode.

Semester Honors
Students earning a minimum of 12 hours of graded credit in a single term with a term grade-point average of 3.5 or above receive semester honors. Courses graded P, W, IN, S, U, or NC cannot be included in the 12-hour minimum.

Semester Hours Credit
Course credit is based on units designated semester hours. In general, one credit hour represents one class period of 50 minutes per week per semester and, normally, about one to two hours per week of preparation outside of class by the student. Laboratory courses offer one semester hour of credit for each two or three hours of scheduled work in the laboratory during a week.

Semester System
The college operates on a semester system, with the calendar year divided into fall, spring, and summer sessions. The summer session (see below) is integrated with the two semesters of the academic year. This arrangement makes it possible to complete the baccalaureate degree requirements through almost continuous study or arrange the normal work of two semesters in any desirable sequence.

Student Conduct
Students are expected to conduct themselves both within and outside the college in a way that will reflect favorably on themselves and Adams State. A student may be dismissed at any time for misconduct of such nature as to be prejudicial to the college or for conduct that seriously infringes upon the rights of others. In the event of such dismissal, tuition and fees will not be refunded in whole or in part.

Summer Session
Adams State College maintains a summer session designed for undergraduate and graduate students interested in pursuing a college education and in qualifying for degrees and licenses, thus offering students a year-round uniform academic program. Through full-time, year-round attendance, students may reduce the time of their four-year program. See the summer bulletin for programs and course descriptions.

Time Limitation on Credit
Courses more than ten years old with grades of C or better will be evaluated for acceptance by a Records Office designee. These courses include: general education courses, their equivalents, courses specified in the statewide core transfer process or the guaranteed transfer process. Upper level courses (300-400) or courses specifically related to a student’s intended major with grades of C or better will be evaluated for acceptance.
by the department chair in which the course is located. Credit, such as elective credit, will be evaluated for acceptance by the Records Office and/or designee of the department in which the course is located.

Timely Completion of Degree Requirements
Students are expected to complete degree requirements in a timely manner. Normally 15 to 16 credits per semester are necessary to accomplish these expectations.

“Topics in” Courses
“Topics in” courses provide for flexibility in providing studies that meet immediate needs but might not be of long duration. The numbers designated for these classes are 179, 279, 379, 479, 589, and 579 depending on the level of the work presented.

Transcript of Credits
A transcript is a comprehensive record of a student’s academic progress, including transferred undergraduate credits (listed by college/university with the total credits transferred from each), credit earned by examination, and all degrees awarded by Adams State College. Official transcripts are printed on tamper-proof paper and include the Adams State College seal and the signature of the registrar. While every effort is made to ensure prompt delivery of requested transcripts, please allow 10 business days for processing the request. Under extenuating circumstances, an unofficial transcript may be faxed for a fee, paid in advance. Transcripts will not be released if the student has an outstanding debt to the college. Transcripts may be requested online by going to http://www.adams.edu/onestop. Adams State College will not be held responsible for deadlines which are not our own.

Transfer Credit
Currently enrolled students who plan to take courses at another college or university (during the summer break for example) and transfer the credits to Adams State must have the coursework approved by the department chair in the content area prior to enrolling as a transient student elsewhere. General education courses may be approved by the Records Office or its designee. Forms for this purpose are available from the

One Stop Student Services Center located in the Student Union Building or online at http://www.adams.edu/records under the “forms” link. Failure to receive this approval may result in the transfer courses not being accepted toward an Adams State College degree or teacher licensure program.

Upper Division Hours
For graduation with a four-year degree, a minimum of 42 semester hours (non-PE) must be 300-499 level courses.

Withdrawal from College
If a student plans to withdraw from the college, the following steps must be completed:
1. Consult with the Office of Student Affairs in Room 234, Richardson Hall, to obtain the necessary withdrawal forms.
2. Visit the offices indicated on the forms and obtain the appropriate signatures. The Business Office will keep one of the forms.
3. Take the remaining form to the Office of Records, RH 188. Failure to follow this procedure will result in unapproved withdrawal from all courses, forfeiture of any refund of fees for which the student may be eligible, and may result in failing grades for the semester.

Any reasons for complete withdrawal after the date to be identified by the registrar as the last day to completely withdraw from all classes will require verification by the Office of Student Affairs for the student to receive a non-punitive grade of W. Students who are eligible for the COF stipend will have reduced their available COF hours upon withdrawal by the total number of eligible hours in which they were enrolled.

Workshops
Workshops are designed to respond to educational needs involving considerable participation by students. The numbers designated for these classes are 192, 292, 392, 492, and 592, depending on the level.
Programs of Study and Degree Requirements

Two-Year Concentrations: Associate of Arts Degree
Associate of Science Degree

Purpose
The college's goal is to prepare and educate students for a successful life and rewarding professional opportunities. Adams State College accomplishes these ends by providing the best possible instruction, which enables students to enter the working world equipped with the knowledge and skills needed to professionally succeed. Additionally, students are exceptionally well prepared to transfer to a four-year BA or BS degree program at Adams State or elsewhere.

Two-Year Academic Programs
Adams State College offers courses of study preparing students for entry-level positions in a variety of occupations. The AA/AS degrees at Adams State require the completion of the college's general education requirements and a minimum of 22 credit hours. Fifteen (15) of those 22 credit hours may be in a concentration approved by the director of First Year Experience or the associate provost for Academic Affairs. The following concentrations are currently available:

Associate of Science
- Chemical Analysis
- General Business
- Communications Technology
- Geographic Information Systems

Associate of Arts
- Multimedia Journalism
- Theatre
- Early Childhood Education
- Elementary Education
- General Business
- Art (Studio)

Interested students should consult with Academic Advising. Other concentrations may be available.

Associate of Arts Requirements
1. Technology Proficiency: All A.A. candidates must demonstrate baseline technological proficiency prior to graduation. The requirement may be met by scoring 70 percent or higher on the Adams State Technology Proficiency Examination, or by passing an approved course with a grade of C or better.

Courses meeting this proficiency are BUS 120 (Business Computer Applications) and CSCI 100 (Essentials of Info Technology).

2. Writing Assessment: Students must submit a portfolio of writing to Academic Advising by mid semester of the semester prior to graduation. Check with Academic Advising for requirements.

3. Completion of the following required courses in general education:

Area I. Communications — 6 credit hours required
Credit (P) is given for ENG 101 if AP score of 3 or better on English language/comp, ACT score of 27 or better, or SAT score of 500 or better (before 4/95) or 580 or better (after 4/95)
ENG 101 Communication Arts [GT-CO1] 3
ENG 102 Communication Arts [GT-CO2] 3

Area II. Arts and Humanities — 9 credit hours required
AR 103 Art Appreciation [GT-AH1] 3
ENG 203 Major Themes in Literature [GT-AH2] 3
MUS 100 Introduction to Music Literature [GT-AH1] 3
THTR 180 Introduction to Theatre [GT-AH1] 3

Area III. Social & Behavioral Sciences /History — 9 credits hours required
At least one course but not more than two courses must be a HGP/HIST (HI) course
ECON 201 Economics & Today’s Society [GT-SS1] 3
PSYC 101 Introduction to Psychology [GT-SS3] 3
SOC 201 The Sociological Imagination [GT-SS3] 3
HGP 110 Development of Civilization [GT-HI1] 3
HGP 111 Development of Civilization [GT-HI1] 3
HIST 202 American History to 1865 [GT-HI1] 3
HIST 203 American History 1865 to Present [GT-HI1] 3

Area IV. Mathematics — 3 credit hours required
MATH 104 Finite Mathematics [GT-MA1] 3
MATH 106 College Algebra [GT-MA1] 3
MATH 107 Trigonometry and Analytic Geometry [GT-MA1] 3
MATH 120 Single Variable Calculus I [GT-MA1] 5
MATH 121 Single Variable Calculus II [GT-MA1] 5
MATH 150 Liberal Arts Mathematics [GT-MA1] 3
MATH 155/156 Integrated Math I/II [both sections must be taken] [GT-MA1] 6

Area V. Physical and Natural Sciences — 8 credit hours required
Transfer students may use one non-laboratory science
course to meet half of this requirement, reducing the total to 7 credit hours.

Electives to total 60 academic semester hours in consultation with the Academic Advising and Tutoring Center.

Associate of Science Requirements

1. Technology Proficiency: All AS candidates must demonstrate baseline technological proficiency prior to graduation. The requirement may be met by scoring 70 percent or better on the Adams State Technology Proficiency Examination or passing an approved course with a grade of C or better. Courses meeting this proficiency are BUS 120 (Business Computer Applications) and CSCI 100 (Essentials of Info Technology).

2. Writing Assessment: Students must submit a portfolio of writing to the Academic Advising and Tutoring Center by mid semester of the semester prior to graduation. Check with the Academic Advising and Tutoring Center for portfolio requirements.

3. Completion of the following required courses in general education:

Area I. Communications — 6 credit hours required

Credit (P) is given for ENG 101 if AP score of 3 or more on English language/comp, ACT score of 27 or more, or SAT score of 500 or more (before 4/95) or 580 or more (after 4/95)

Area VI. Required Course — 3 credit hours
SPCH 100 Speech Fundamentals 3

4. Completion of electives
Electives to total 60 academic semester hours in consultation with the academic advisement center.

Bachelor’s Degrees

General Information for the Bachelor of Arts or Science Degrees
The bachelor of arts or science degree is conferred upon completion of a minimum of 120 academic (non-PE) semester hours of credit. A cumulative scholastic average of 2.0 must be earned in all work attempted at Adams State College. All general education, major, minor, area of concentration, or teacher licensure requirements must be satisfied before a degree is awarded. All students must demonstrate baseline technological proficiency by the end of the sophomore year. The requirement can be met by scoring 70 percent or better on the Adams State Technology Proficiency Examination or by passing an approved course with a grade of a C or better. Courses meeting this proficiency are Bus 120 (Business Computer Applications) and CSci100 (Essentials of Info Technology). No D grade may apply to a major or minor field.

College Accountability/Assessment Program
Information provided through assessment activities enables Adams State College to continually improve educational services.

Adams State College students are asked to participate in the college’s Assessment Program in a number of ways. Students may be asked to complete an ACT or other entering freshman survey, the ETS Measure of Academic Proficiency and Progress Test (after completion of 30-60 credit hours), or other test of achievement in general education, an ETS Major Field Achievement Test, or other test of achievement in the major, an ACT or other Student Opinion Survey prior to graduation, and an alumni survey during post-undergraduate years. The results of all individual student assessments are held confidential, although a student may receive a copy and interpretation of his or her results. Results are not placed on student transcripts. Institutional reports to the governing board, Colorado Department of Higher Education, and state legislature will use only group data so that no individual student is identified.

Remediation Test Administration Policy and Options
Students are advised upon admission to Adams State of their need to complete placement testing by the start of their first semester on campus. These tests are administered during new student orientation prior to the start of Fall classes, once during each semester at a predetermined time and by appointment. Testing dates are specified in the academic calendar. Students who were not tested during a regularly scheduled time may elect to test at the Academic Advising and Tutoring Center and should schedule an appointment by calling 719-587-8189.

Since Adams State has a two-year statutory role and mission, developmental courses are available on campus each semester through the Emerging Scholars Program. Another avenue for remediation is through the Colorado Consortium: an Adams State student may enroll for any of the required developmental courses through the correspondence program (contact Adams State College Extended Studies for details).

Math Placement Policy
Students entering Adams State College with an ACT mathematics score of less than 19 are required to take the Adams State ACCUPLACER Elementary Algebra Test prior to their first day of classes. Students who do not score at the appropriate level on this examination must successfully complete one or more leveling courses.

Recommended placement based on this exam is described in the tables below.

<table>
<thead>
<tr>
<th>Course</th>
<th>ACCUPLACER</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 106</td>
<td>109 or above</td>
</tr>
<tr>
<td>MATH 104 or 150</td>
<td>85 or above</td>
</tr>
<tr>
<td>MATH 099 Intermediate Algebra</td>
<td>55-84</td>
</tr>
<tr>
<td>MATH 097 Basic Algebra Skills</td>
<td>40-54</td>
</tr>
<tr>
<td>MATH 095 Arithmetic Skills</td>
<td>39 and lower</td>
</tr>
</tbody>
</table>

Note: To enroll in Math 120 Calculus as a first course, an ACT math score of 26 or higher or permission of department is required.
Students with an Accuplacer score between 85 and 109 wishing to enroll in Math 106 should contact the department chair of Chemistry, Computer Science, and Mathematics or the director of First Year Experience and Engagement.

**Reading/Writing Placement Policy**
Incoming students with an ACT score of 18 or higher or a 95 or above on the writing segment of the Accuplacer test will be placed in Eng 101. Students entering Adams State with an ACT reading sub-score of less than 18 are required to take the Adams State ACCUPLACER Reading Test prior to their first day of classes. Students entering Adams State with an ACT English sub-score of less than 19 are required to complete the ACCUPLACER Sentence Test prior to their first day of classes.

Students who do not score at the indicated level on the examinations must successfully complete one or more leveling courses offered through the Emerging Scholars Program. Recommended placement based on this exam is described in the table below.

<table>
<thead>
<tr>
<th>Course</th>
<th>ACCUPLACER Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 101 Communication Arts I</td>
<td>ACCUPLACER Reading 80 or above and Sentence 95 or above</td>
</tr>
<tr>
<td>ID 096 College Reading and Writing II</td>
<td>ACCUPLACER Reading 79 or below or Sentence 94 or below</td>
</tr>
<tr>
<td>ID 095 College Reading and Writing I</td>
<td>ACCUPLACER Reading 79 or below and Sentence 94 or below</td>
</tr>
</tbody>
</table>

Students will also take the English Placement Exam (EPE) during the first developmental reading and writing class meeting. Arrangements can be made for those who enroll later.

Depending upon EPE results, an instructor may advise students to change their placement, may require them to take assignments to the Writing Studio, the Tutoring Center or Student Support Services, may require follow-up with an academic advisor or course teacher, or may advise other appropriate strategies based on test results.

**Satisfaction of Remediation Requirements**
Students are deemed to have satisfied the remediation requirements upon completing all relevant developmental courses offered through the Emerging Scholars Program (MATH 095, MATH 097, MATH 099, ID 095, ID 096), as indicated by placement using ACT and/or ACCUPLACER test scores, with a C or better or a P.

**General Studies Requirements**
http://www.adams.edu/academics/gened/gened.php
1. An understanding of and facility in the basic modes of communication and an ability to initiate inquiry, question conventional wisdom, and analyze problems;
2. A critical understanding of the current state of knowledge, of the methods by which that knowledge has been produced, and of the interrelationships among the major academic divisions of knowledge: fine arts, humanities, and the natural and social sciences;
3. The development of a global perspective (cultural, historical, societal, and scientific) from which a strong set of ethical and moral values can evolve;
4. An awareness of the importance and desirability of continuing to pursue intellectual growth throughout one's lifetime.

The above goals are deliberately pursued within specific general studies requirements, as well as within the academic major. Programs are designed to produce the following student outcomes.

**General Studies Student Performance Outcomes**
At the conclusion of baccalaureate study at Adams State College, graduates will —
- demonstrate an ability to:
  1. Read, write, speak, and listen accurately, effectively, and critically;
  2. Distinguish fact from opinion and think independently;
  3. Function as productive members of groups;
  4. Access information effectively;
  5. Think analytically, cooperatively, and creatively.
- demonstrate an understanding of:
  1. The major fields of knowledge and their interrelationships;
  2. Quantitative methods and their uses;
  3. Implications and uses of technology;
4. Diverse moral and ethical philosophies;
5. One’s place within a larger historical and multicultural framework.

- demonstrate an increased awareness of the importance of:
  1. The aesthetic dimensions of human experience;
  2. Community involvement;
  3. Diverse cultures, persons, and ideas.

Proficiencies
All students will demonstrate proficiency in writing and in the use of computer technology according to the information given below. All students will complete requirements in general studies areas I-VI.

Writing Assessment
All students pursuing bachelor of arts or bachelor of science degrees will be required to undergo an assessment of their writing during the semester in which they will have completed 60 semester hours of credit (typically, at the end of the sophomore year). Individual departments or programs may set their own requirements for evaluating their majors’ writing abilities and achievements. Students are strongly advised to confer with the chair of their major department or program about the unit’s writing assessment policy as soon as they have chosen a major.

All students are advised to keep a file of their returned and graded written assignments (papers, essay examinations, reports, etc.) in preparation for this assessment. Students unable to show evidence of writing proficiency might be required to take additional writing instruction. Ordinarily, this will involve taking Eng 200, College Writing Review, and passing the course with a grade of C or better. Students who have not satisfied the writing assessment requirement will not be permitted to take upper level classes beyond 90 semester hours.

Technology Proficiency
http://student.adams.edu/tech/explanation.html
All students must demonstrate a baseline proficiency with technology by either (1) passing the Adams State Technology Proficiency examination with a grade of 70 percent or better or (2) passing an approved technology course with a grade of C or better. This proficiency must be achieved by the end of the sophomore year. If this is not completed on time, students must enroll in one of the approved classes until proficiency is met. Currently approved courses include Bus 120 – Business Computer Applications I and CSci 100 (Essentials of Information Technology). Details regarding topics covered on the examination are available at http://student.adams.edu/tech/explanation.html

Area I. Communications — 6 credit hours required
Credit (P) is given for ENG 101 if AP score of 3 or better on English language/comp, or ACT score of 27 or better, or SAT score of 500 or better (before 4/95) 580 or more (after 4/95)

PHYS 225 College Physics I with Lab [GT-SC1] 5
PHYS 230-231 General Physics I with Lab [GT-SC1] 5
ENV 101 Introduction to Environmental Science [GT-SC1] 4

Area VI. Required Course — 3 credit hours
SPCH 100 Speech Fundamentals 3

Guaranteed Transfer Courses
Adams State College is a participant in the statewide guaranteed transfer process for general education courses. A student successfully completing any of the Adams State courses listed below is guaranteed the courses will transfer to any state-supported college or the University of Colorado. The receiving institution is required by Colorado Revised Statutes 23-1-108 (7) (a), 23-1-108.5, and 23-1-125 to accept the course as meeting some portion of its general education requirements. These courses are also designated in the course schedule with a Z footnote code.
AR 103 (GT-AH1)
MATH 104 (GT-MA1)
BIOL 101 (GT-SC1)
MATH 106 (GT-MA1)
BIOL 203 (GT-SC1)

PSYC 101 (GT-SS3)
GEOG 201 (GT-SC1)
SCI 155 (GT-SC1)
HGP 110 (GT-HI1)
SCI 156 (GT-SC1)
HGP 111 (GT-HI1)
SOC 201 (GT-SS3)
HIST 202 (GT-HI1)
THTR 180 (GT-AH1)
HIST 203 (GT-HI1)

All the courses listed in the ASC general education curriculum, except for SPCH 100, are approved for guaranteed transfer to other colleges and universities within the State of Colorado. Adams State will accept any GT-Pathways approved course for transfer into our general education curriculum in the appropriate area.

Additional Majors and Second Degrees
Second (or Additional) Majors
A student may earn a second or additional major by completing all requirements for the major as determined by the assistant provost for Academic Affairs. If a requirement for one major coincides with a requirement for the student’s other major or majors, the student will be required to satisfy the requirement only once.

Second Bachelor of Arts or Science Degree
A student who holds a bachelor of arts or science degree from a regionally accredited college or university may earn a second bachelor of arts or science degree at Adams State College by satisfying the following requirements:
1. Satisfy all current college general studies requirements. Transfer policy states that individuals with BA/BS degrees (including more than 10 years old) will have their general education courses accepted in total as meeting Adams State’s general education requirements, with the exception of time-sensitive courses (e.g. computer science, geography). Time-sensitive courses for general education, as determined by the associate provost for Academic affairs and the relevant department chair, will not be accepted more than 10 years old.
2. Satisfy all requirements for a major different from the major or majors earned for the first degree.
3. Courses from the first major or majors that meet the requirements of the second degree
must be approved by the department chair of the second major. Time sensitive courses for the major, as determined by the department chair, (e.g. computer science, geography, graphic design, etc.) will not be accepted more than 10 years old.

Bachelor of Arts in Interdisciplinary Studies
The bachelor of arts in interdisciplinary studies is intended for students whose academic and/or professional interests would not be served by a traditional major in a single discipline.

The BA in interdisciplinary studies is designed to allow students whose academic interests do not fit an existing major to devise, in consultation with an advisor and the associate provost for Academic Affairs, a major that encompasses two or more disciplines. The student must demonstrate the proposed program has sufficient internal coherence to warrant the term “major.” Upon successful completion of the degree program, students will have a well built foundation not only in general education, but also in at least two areas of concentrated study.

Department of Art
Art has the ability to provoke, evoke, stimulate and inspire. The Art Department uses this statement as the basis of its mission. The art programs are designed to develop in students the breadth of understanding necessary to explore new ideas and challenge convention. Its mission is to enable students to create the greatest art of all: art that makes a difference.

The curriculum is designed to prepare students for careers as professional artists, designers, and art educators. All students taking art classes, both majors and non-majors, are challenged to think and solve problems creatively, to develop their ability to communicate through visual, oral and written languages, and to understand the role of the visual arts in multiple cultures and its relationship to past and present theory. A major in art may also be attractive to students who do not know precisely which career they wish to pursue after graduation. A well-rounded liberal arts program provides many opportunities for students able to benefit from a small department devoted to the development of the individual and to academic excellence.

More information about the art programs, facilities, faculty and the Art Department galleries is available online at http://www.art.adams.edu

Faculty
Anderson, Centofanti, Doell, Eriksen, Provence, Schilling.

Degree Programs
Bachelor of Fine Arts —
Majors available in
- Ceramics
- Drawing
- Fiber
- Graphic Design
- Metals/jewelry
- Painting
- Photography
- Printmaking
- Sculpture

Bachelor of Arts —
Required major in the following:
- Art Education (K-12 Licensure)
- Liberal Arts (Studio Art)
BA concentrations available in
- Art History
- Ceramics
- Design
- Drawing
- Fiber
- Metals & Jewelry
- Painting
- Photography
- Printmaking
- Sculpture

Bachelor of Arts Degree Requirements
Art Education (K-12) Emphasis: Elementary and Secondary Teacher Licensure
1. Completion of the general studies requirements for the bachelor of arts degree plus the K-12 licensure requirements listed under the Department of Teacher Education.
2. Completion of the following required courses:
   AR 105 Intro to Art Criticism
AR 206 Design 3
AR 207 Design 3
AR 208 Drawing 3
AR 216 Introduction to Art Education 3
AR 220 Painting 3
AR 240 Fiber 3

OR
AR 290 Metals and Jewelry 3
AR 250 Sculpture 3
AR 260 Printmaking 3

OR
AR 261 Printmaking 3
AR 270 Ceramics 3
AR 280 Photography 3
AR 334 Elementary School Art Education Methods 3
AR 335 Secondary School Art Education Methods 3
AR 364 History of Art 3
AR 365 History of Art 3
AR 366 History of Art 3
Plus 3 hours from the following:
AR 302 Graphic Communications 3
AR 306 Design Problems 3
AR 310 Graphic Design 3
TOTAL 48

3. Completion of departmental assessment procedures.

4. Complete a 9-hour area of emphasis in one of the following areas: art history, ceramics, drawing, fiber, metals & jewelry, painting, design, photography, printmaking, sculpture (these 9 hours will include classes from the above areas to add a maximum of 6 hours depending on the chosen emphasis).

5. Students may be excused from basic studio courses on the basis of a portfolio of their work by the department chair.

6. Students enrolling in AR 335 must also enroll in ED 416, ED 426, ED 429, ED 436L and be admitted to the Teacher Education Program.

Liberal Arts Emphasis (Art Studio)
1. Completion of the general studies requirements for the bachelor of arts degree.

2. Completion of the following required courses:
   AR 105 Intro to Art Criticism 3
   AR 206 Design 3
   AR 207 Design 3
   AR 208 Drawing 3
   AR 209 Drawing 3
   AR 308 Drawing 3
   AR 364 History of Art 3
   AR 365 History of Art 3
   AR 366 History of Art 3
   AR 498 Professional Seminar 3

3. Completion of six semester hours from the following:
   AR 220 Painting 3
   AR 260 Printmaking 3
   OR
   AR 261 Printmaking 3
   AR 280 Photography 3

4. Completion of six hours from the following:
   AR 240 Fiber 3
   AR 250 Sculpture 3
   AR 270 Ceramics 3
   AR 290 Metals and Jewelry 3

5. Completion of 3 hours from the following:
   AR 302 Graphic Communications 3
   AR 306 Design Problems 3
   AR 310 Graphic Design 3
TOTAL 39

6. Plus a 12-hour area of emphasis in one of the following areas: art history, ceramics, drawing, fiber, metals & jewelry, painting, design, photography, printmaking, and sculpture.

7. Additional hours in the major are to be selected in consultation with their advisor.

8. Completion of departmental assessment procedures.

9. Students may be excused from basic studio courses on the merit of this portfolio (art studio) by the department chair.

Bachelor of Fine Arts Degree Requirements
Majors available in the following studio areas:
• Ceramics
• Drawing
• Fiber
• Graphic Design
• Metals/Jewelry
• Painting
• Photography
• Printmaking
• Sculpture

1. Completion of the general studies requirements for the bachelor of arts.

2. Completion of the following required courses:
   AR 105 Intro to Art Criticism 3
   AR 206 Design 3
   AR 207 Design 3
   AR 208 Drawing 3
   AR 209 Drawing 3
   AR 308 Drawing 3
   AR 364 History of Art 3
   AR 365 History of Art 3
   AR 366 History of Art 3
   AR 367 Women Artists In Art History 3
   AR 498 Professional Seminar 3

   Plus 6 Hours from the following:
AR 220 Painting
AR 260 Printmaking
AR 280 Photography

Plus 6 Hours from the following:
AR 240 Fiber
AR 250 Sculpture
AR 270 Ceramics
AR 290 Metals & Jewelry

Plus 3 Hours from the following:
AR 302 Graphic Communications
AR 306 Design Problems
AR 310 Graphic Design

3. Completion of departmental assessment procedures.

4. Completion of ONE of the following Studio Majors:

Ceramics Major
AR 270 Ceramics
AR 370 Intermediate Ceramics I
AR 372 Intermediate Ceramics II
AR 472 Advanced Ceramics I
AR 473 Advanced Ceramics II
AR 497 BFA Thesis

Recommended Art Electives: Sculpture, Metals/Jewelry, Fiber, Photography

Drawing Major
AR 410 Advanced Drawing I
AR 411 Advanced Drawing II
AR 260 Beginning Printmaking I or
AR 261 Beginning Printmaking II
AR 497 BFA Thesis

Plus 6 Credits from:
AR 280 Photography
AR 306 Design Problems
AR 360 Intermediate Printmaking
AR 462 Advanced Printmaking I
AR 463 Advanced Printmaking II

Minor in Art
A minor is available by taking 18 semester hours in the following core and selected areas:
1. Complete ALL of the following:
   - AR 206 Design 3
   - AR 207 Design 3
   - AR 208 Drawing 3
2. Select one 2D studio course:
   - AR 220 Painting 3
   - AR 260 Printmaking 3
   - AR 280 Photography 3
3. Select one 3D studio course:
   - AR 250 Sculpture 3
   - AR 270 Ceramics 3
   - AR 290 Metals and Jewelry 3
4. Select one course from the following:
   - AR 306 Design Problems 3
   - AR 364 History of Art 3
   OR
   - AR 365 History of Art 3
   OR
   - AR 366 History of Art 3
TOTAL 18

Associates of Arts: Art (Studio)
1. Completion of college general education requirements.
2. Completion of the following required courses:
   - AR 105 Intro to Art Criticism 3
   - AR 206 Design 3
   - AR 207 Design 3
   - AR 208 Drawing 3
3. Choose 1 course from the following:
   - AR 220 Painting 3
   - AR 260 Printmaking 3
   - AR 261 Beginning Printmaking II 3
   - AR 280 Photography 3
4. Choose 1 course from the following:
   - AR 240 Fiber 3
   - AR 250 Sculpture 3
   - AR 270 Ceramics 3
   - AR 290 Metals and Jewelry 3
5. General Education
   1 course in General Education should be AR 103 Art Appreciation
6. Electives to make a total of 60 credits

Department of English, Theatre, Communications, and World Languages
The Department of English, Theatre, Communications, and World Languages prepares students to communicate in a new century. The English program offers a variety of emphases that ready students to engage the world on a number of different levels. The liberal arts emphasis provides a rich and broad study in literature, criticism, and effective writing. This knowledge prepares students for graduate studies or careers in business, government, and more specialized fields such as public relations and advertising. The mass communications emphasis prepares students to enter the exciting world of print or broadcast journalism; students gain real-world experience working on the student newspaper or the campus radio station. The secondary education emphasis, a combined degree with teacher education, prepares students to teach English at the high school level. The creative writing emphasis is the newest in the program. It allows students to explore their creativity while learning to write for many different audiences in many different genres.

The World Languages Program currently offers two emphases in Spanish: liberal arts and secondary education. The program offers a wide variety of classes covering the language, literature, and culture of Spain and Latin America. There are also career-oriented classes such as Spanish for Translation, Spanish for Health Professions, and Spanish for Business. The Spanish student organization, El Parnaso, is one of the oldest on campus. The San Luis Valley is a rich cultural area to study the Spanish language. In addition to the diverse indigenous populations that form the basis of its human geography, it has a deep political and cultural history as a territory of both Spain and Mexico before becoming part of the United States in the mid-19th century.

The Theatre Program at Adams State College is known across the country as an outstanding program that prepares actors, directors, designers, and technicians for graduate schools, teaching, and for the profession itself. The program is housed in one of the premier facilities in the region: a state-of-the-art building, which opened in 2001. This intensive program offers classroom instruction allowing students to engage in all areas of study. A rigorous production schedule, which
includes many student-directed productions, allows students to achieve complete performance training throughout their college careers. The program has won numerous awards at the Rocky Mountain Theatre Festival. One of the greatest points of the program is its small class size and personal attention that each student receives.

Faculty
Abeyta, Baker, Gonzalez, Guerrero-Murphy, MacWilliams, Mazel, Newman, Owens, Rayas-Solis, Taylor.

Degree Programs
Bachelor of Arts: English
Emphasis required in one of the following:
- Secondary Teacher Licensure
- Communications
- Creative Writing

Social Studies Emphasis • Secondary Teacher Licensure
1. Successful Completion of the following courses: (6 hours)
   ECON 255 Economics 3
   GEOG 300 Geography 3
2. Successful completion of a Social Science Elective (3 hours: select one)
   ANTH 201 Introduction to Anthropology 3
   SOC 318 Race, Class & Gender 3
3. Successful completion of a comparative government elective (3 hours: select one)
   GOVT 307 Introduction to World Governments 3
   GOVT 308 Pacific Rim and the 21st Century World 3
4. Successful completion of social studies depth and content courses (15 hours from the following block: select five)
   ECON 256 Economics 3
   PSYC 315 Multicultural Issues in a Pluralistic Society 3
   HIST 328 Chicano History 3
   HIST 357 Mexico 3
   HIST 363 Civil War and Reconstruction 3
   HIST 427 U. S. Since 1945 3
   HIST 433 Modern Europe 3
5. Successful completion of the required field-based methods course (3 hours)
   HGP 316 Methods of Teaching Social Studies 3
   TOTAL 30
6. All students seeking social studies licensure are encouraged to seek competency in a foreign language.
7. Completion of senior assessment procedures.

History, Government, and Philosophy Minors
Minors and areas of concentration are available through consultation with the department chair. The minor consists of 18 credit hours, including some core courses.

Anthropology Minor
There are two possible tracks for the completion of the anthropology minor:

**Track one** —
- ANTH 201 Introduction to Anthropology 3
- ANTH 205 Physical Anthropology 3
- ANTH 300 Archaeology 3
- ANTH 310 Anthropological Linguistics 3
- ANTH 339 Archaeology Field School 6
   TOTAL 18

**Track two** —
- ANTH 201 Introduction to Anthropology 3
- ANTH 205 Physical Anthropology 3
- ANTH 300 Archaeology 3
- ANTH 310 Anthropological Linguistics 3
- ANTH 349 Internship in Museums 6
   TOTAL 18

Pre-Law Program
The Pre-Law Program at Adams State College is not a major, but a series of liberal arts courses recommended by the pre-law advisor based upon the individual needs of the students and the challenging requirements for gaining admission into law school. Students major in a variety of disciplines. Irrespective of discipline, students should possess certain core competencies. The 48-hour program below is designed to assist students in demonstrating these competencies.

**Pre-law Studies Core**
- GOVT 291 American Government 3
- HIST 202 U.S. to 1865 3
- HIST 203 U.S. since 1865 3
- GOVT 429 Constitutional Law I 3
- GOVT 430 Constitutional Law II 3
- GOVT 460 Pre-law Studies Seminar 3
- GOVT 466 Ancient Political Theory 3
- GOVT 467 Modern Political Theory 3
- ECON 255 Economics 3
- BUS 207 Accounting I 3
- MATH 205 Intro to Statistical Methods 3
- OR
- PSYC 211 Statistics 3
- PHIL 205 Logics 3
- OR
- PHIL 202 Ethics 3
   TOTAL 36

Pre-law elective classes 12 hours
   TOTAL 48

This component consists of 12 hours of upper-division courses selected in conjunction with the pre-law advisor. It includes at least 6 hours of literature and/or composition, with the remaining
six hours consisting of government/political science courses with extensive research and writing components or a supervised internship, when available, with the Office of the Public Defender or Colorado Rural Legal Services. The internship involves a writing requirement.

For more information about this program, including its track record of placing students in law schools across the country, contact Edward R. Crowther, Ph. D., Pre-Law Advisor, Adams State College, Alamosa, CO. 81102. 719-587-7466. ercrowth@adams.edu

**Assessment**

All students with majors in the Department of History, Government, and Philosophy are required to complete the senior assessment procedures. The results of these procedures are used to evaluate and improve the effectiveness of the programs within the unique role and mission of Adams State College.

**AA Social Studies**

**History (9 hours)**

NOTE: these classes are to be taken in addition to those taken for Area II)

- HGP 110 Development of Civilization 3
- HGP 111 Development of Civilization 3
- HIST 202 U.S. to 1865 3
- HIST 203 U.S. since 1865 3

**Government (3 hours)**

- GOVT 291 American Government 3

**Social Sciences (6 hours)**

- ANTH 201 Introduction to Anthropology 3
- ANTH 205 Physical Anthropology 3
- ECON 255 Principles of Economics I 3

**Philosophy (6 Hours)**

- PHIL 201 Introduction to Philosophy 3
- PHIL 202 Ethics 3
- PHIL 205 Logic 3

Elective hours (minimum of 2 hours)

Students may, in consultation with the department chair of History, Government and Philosophy, select enrichment courses with an HGP/HIST/GOVT/PHIL/ANTH prefix, another course at the 100-200 level approved by the department chair, or any course from the menu above not taken to fulfill content area requirements.

---

**Department of Music**

http://www.adams.edu/academics/music

Music at Adams State is an active and vital program, committed to musical excellence within a small college environment. Each year, more than 400 of the 2,200 on-campus students participate in music through classes, lessons and performing ensembles. The Colorado Commission on Higher Education designated the Adams State Department of Music a Program of Excellence, the third Adams State program to receive this honor.

Adams State College is an accredited institutional member of the National Association of Schools of Music.

The Department of Music offers a bachelor of arts degree in music with emphases in liberal arts, music performance, or music composition (submitted for approval). Students in any area of emphasis should have the preparation and background necessary to succeed in their chosen fields.

**Faculty**

Camp, Doyle, Jackson, Keitges, W. Lipke, Schildt.

**Degree Programs**

**Bachelor of Arts: Music**

With emphases available in:

- Music Performance
- Liberal Arts
- Music Composition
  (submitted for approval)

**Music Education K-12 Teacher Licensure**

**Bachelor of Arts Degree Requirements**

**Placement Examinations**

Transfer and new students in music must take placement examinations as appropriate in applied music and music theory.

**Music Education with K-12 Choral or K-12 Instrumental Concentration**

1. Completion of the general studies requirements for the bachelor of arts degree, which must include MUS 100, plus the K-12 teacher licensure requirements listed under the Department of Teacher Education.

2. Completion of the following required courses in music:

- MUS 000 Recital Attendance (7 semesters) 0
- MUS 103 Introduction to Music Technology 1
Major in Music with an Emphasis in Performance

1. Completion of the general studies requirements for the bachelor of arts degree, which must include MUS 100.

2. Completion of the following required courses in music:
   - MUS 000 Recital Attendance (7 semesters) 0
   - MUS 103 Introduction to Music Technology 1
   - MUS 104 Music Theory I 3

3. Completion of ONE of the following areas of specialization:
   - **Choral**
     - MUS 247 Concert Choir (or approved upper-division large ensemble) 7
     - MUS 423 Choral Literature & Methods 3
     - MUS 460 Advanced Choral Conducting 2
     - MUS 226 Languages for Singing 3
   - **Instrumental**
     - MUS 245 Band (or approved upper-division large ensemble) 7
     - MUS 321 Voice Methods 1
     - MUS 424 Instrumental Literature and Methods 3
     - MUS 461 Advanced Instrumental Conducting 2
     - MUS 486 Marching Band Techniques 2

   TOTAL 62

4. Completion of upper-division jury exam and completion of piano proficiency exam prior to student teaching.

5. Completion of department senior assessment procedures.

Major in Music with an Emphasis in Liberal Arts

1. Completion of the general studies requirements for the bachelor of arts degree, which must include MUS 100.

2. Completion of the following required courses in music:

   - MUS 333 Form & Analysis 2
   - MUS 340 Applied Music 2
   - MUS 341 Conducting Techniques 2
   - MUS XXX Upper Division Music Electives 3

3. Completion of upper division jury exam and completion of piano proficiency exam.

4. Completion of piano proficiency exam.

5. Completion of the following courses (18 hours):
   - MUS 242, 243, 342, 343 Applied Composition 8
   - MUS 375 Computer Music 3
   - MUS 444 Senior Project in Composition 2
   - MUS 445 Senior Recital in Composition 2
   - MUS XXX Upper Division Music Theory or Composition Electives 3

TOTAL 58

42 credit hours of 300 and 400 level courses required. 120 total hours minimum.

Additional Requirements for Music Majors

Departmental policies and regulations affecting music majors and minors are published annually in the Department of Music Handbook for Music Students. Included are requirements for recital attendance and ensemble participation, as well as departmental assessment procedures such as proficiency exams, admission to upper-division study, and admission to teacher certification/licensure programs. A copy of the Department of Music Handbook for Music Students is available from the department office for each music major and minor. Please see the Course Specific Fees section of this catalog for information on applied music fees.

Minor in Music

A minor in music is available under any bachelor's degree program at the college through the Department of Music.

The requirements are as follows:

- MUS 000 Recital Attendance (2 semesters) 0
- MUS 100 Introduction to Music Literature 3
- MUS 103 Introduction to Music Technology 1
- MUS 104 Music Theory I 3
- MUS 108 Aural Skills I 1
- MUS 204 Music Theory II 3
- MUS 208 Aural Skills II 1
- MUS 240 Applied Music 2
- MUS 241 Applied Music 2
- MUS 245 Band, MUS 247 Concert Choir
- MUS 250 Orchestra (7 semesters of the same large ensemble) 7
- MUS 304 Advanced Music Theory & Counterpoint 3
- MUS 308 Advanced Aural Skills 1
- MUS 320 Advanced Piano Class 1
- MUS 326 Music History I 3
- MUS 327 Music History II 3
- MUS 333 Form & Analysis 2
- MUS 340 Applied Music 2
- MUS 341 Conducting Techniques 2
- MUS XXX Upper Division Music Electives 3
- MUS 375 Computer Music 3
- MUS 444 Senior Project in Composition 2
- MUS 445 Senior Recital in Composition 2
- MUS XXX Upper Division Music Theory or Composition Electives 3

TOTAL 58
Department of Psychology
http://psych.adams.edu
The bachelor of arts degree with a major in psychology functions as a preprofessional program for graduate study or preparation for a career in mental health, personnel work, education, business, and other occupations requiring a person to understand and interact with human behavior. A minor in psychology is also available.

Faculty
Cramblet, Demski, Kelso, King, Mollet, Weiss

Degree Programs
• Bachelor of Arts: Psychology
• Bachelor of Arts: Sport Psychology

Bachelor of Arts Degree Requirements

Psychology Major
1. Completion of the general studies requirements for the Bachelor of Arts degree.
2. Completion of the following required courses (at least 12 hours of which must be completed at Adams State College):
   - PSYC 204 Child Development 3
   - PSYC 205 Adolescent and Adult Development 3
   - PSYC 211 Introduction to Statistics 4
   - PSYC 245 Brain & Behavior 3
   - PSYC 330 Professional Seminar 1
   - PSYC 355* Experimental Psychology w/lab 4
   - LS 225 Research Skills for the Behavioral Sciences 1
   - PSYC 414 Cognitive Psychology 3
   - PSYC 430 Abnormal Psychology 3
   - PSYC 465 Theories of Personality 3

   SUB-TOTAL 27

   *LS 225 Research Skills for the Behavioral Sciences is a pre/co-requisite for PSYC 355.

   Completion of six hours of electives from the following:
   - PSYC 410 Social Psychology 3
   - PSYC 416 Behavioral Neuroscience 3
   - PSYC 456 Theories of Learning 3
   - PSYC 458 Sensation & Perception 3
   - PSYC 468 History & Systems 3
   and six hours of 3 credit 300-400 level Psychology electives

   TOTAL PSYCHOLOGY MAJOR 39

3. All psychology majors must complete the following major assessment plan prior to graduation:
   a. Complete a major field examination.
   b. Submit all major papers (300 and 400 level) to professors in duplicate. (This will allow the department to accumulate a portfolio of the student's work.)
   c. Participate in an exit interview with a committee of psychology faculty (arranged with advisor).

Sport Psychology Major
The bachelor of arts degree with an interdisciplinary major in sport psychology functions as a pre-professional program for graduate study in sport psychology, in sport and exercise physiology, and/or in counseling.
   - PSYC 205 Adolescent & Adult Development 3
   - PSYC 211 Introduction to Statistics 4
   - PSYC 245 Brain & Behavior 3
   - COUN 312 Introduction to Counseling 3
   - PSYC 355* Experimental Psychology 4
   - LS 225 Research Skills for the Behavioral Sciences 1
   - PSYC 385 Cognitive & Behavior Modification 3
   - PSYC 410 Social Psychology 3

OR
   - PSYC 465 Theories of Personality 3
   - HPPE 100 Foundations of Physical Education 2
   - BIOL 112 Human Anatomy 4
   - HPPE 209 Care/Prevention of Athletic Injury 2
   - HPPE 226 Exercise Physiology 3
   - HPPE 340 Kinesiology 3
   - HPPE 341 Human Motor Development 3
   - HPPE 327 Tech. in Coaching Strength/Cond 3

   OR
   - HPPE 422 Exercise Eval & Fitness Manage 3
   - HPPE 32X Techniques of Coaching (320, 21, 22, 23, 24, or 25) 3
   - HPPE 436 Sport & Exercise Psychology 3
   - HPPE 486 Sport Management Practicum 3

   SUBTOTAL 49

   *LS 225 Research Skills for the Behavioral Sciences is a pre/corequisite for PSYC 355.

   Completion of six hours of electives from the following:
   - PSYC 315 Multicultural Issues 3
   - PSYC 316 Drugs, Society, & Human Behavior 3
   - PSYC 360 Psychology of Gender 3
   - PSYC 380 Health Psychology 3
   - PSYC 410 Social Psychology 3

   OR
   - PSYC 365 Theories of Personality 3
   - PSYC 430 Abnormal Psychology 3
   - PSYC 458 Sensation & Perception 3

   TOTAL 55

Minor in Psychology
   - PSYC 204 Child Development 3
   - PSYC 205 Adolescent and Adult Development 3
   - PSYC 211 Introduction to Statistics 4
   - PSYC 245 Brain & Behavior 3
   and nine hours of 3 credit 3-400 level Psychology electives

   TOTAL PSYCHOLOGY MINOR 22

The minor is available with courses to be selected in consultation with an advisor from the
Department of Psychology. A minimum of 22 hours is required, nine hours of which must be completed at Adams State College.

Department of Sociology
The Department of Sociology blends the academic with the practical. Students are instructed in the major sociological theories underlying social life and society and are provided opportunities to apply this knowledge hands-on in the community. The sociology department is committed to preparing students for careers in human services and criminal justice, as well as for admission to graduate programs in sociology, social work, and criminology. Sociology majors complete 46 credit hours of sociology courses and select at least one emphasis area either in criminology or social welfare.

In addition, students complete one or more semester-long internships in a community agency specializing either in human services or criminal justice. The internships are designed to provide marketable skills and experiences that enhance employment and graduate school possibilities. Sociology graduates are employed in a variety of work settings; a sampling of job titles includes Colorado state trooper, child protective services caseworker, family preservation specialist, probation officer, local law enforcement officer, corrections counselor, social services coordinator for the elderly, administrative liaison for children and families, forensic social worker, community corrections officer, caseworker for troubled youth, and victim’s advocate.

Faculty
Brown, Gonzales, Martin, McNeilsmith, Parks, and Young

Degree Programs
Bachelor of Arts in Sociology
Emphasis required in one of the following:
• Criminology
• Social Welfare

Bachelor of Arts Degree Requirements
Sociology Major
1. Students must complete the general studies requirements for the Bachelor of Arts degree.

2. Completion of sociology SOC 201, The Sociological Imagination is a prerequisite for all other sociology courses.

3. All sociology majors must take the following 34 hours of core courses:
   SOC 201 The Sociological Imagination 3
   SOC 245* Criminology 3
   SOC 251* Social Problems and Social Welfare Strategies 3
   SOC 311 Social Statistics 4
   SOC 318 Race, Class, and Gender 3
   SOC 395 Pre-Professional Seminar in Sociology 2
   SOC 401 Social Psychology 3
   SOC 445 Sociological Theory 3
   SOC 455 Sociological Research Methods 4
   Sociology Electives 6

Sociology Elective Courses**
   SOC 315 Sociology of Education 3
   SOC 320 Marriages and Families 3
   SOC 379/479 Special Topics in Sociology 3
   SOC 419 Gender and Society 3
   SOC 425 Environment and Society 3
   SOC 444 Deviance and Control 3
   *LS 225, Research Skills for the Behavioral Sciences (1) is a prerequisite/corequisite for SOC 245 and SOC 251.
   **For students choosing the Criminology emphasis, SOC 352, SOC 370, and SOC 470 are also available as elective courses; for students choosing the Social Welfare emphasis, SOC 346, SOC 347, and SOC 447 are also available as elective courses.

4. Students choose either the Criminology or Social Welfare emphasis to complete the final 12 hours required for the 46-hour sociology major:

Criminology Emphasis
   SOC 346 Criminal Justice 3
   SOC 347 Juvenile Delinquency 3
   SOC 447 Correctional Systems 3
   SOC 494 Internship in Criminal Justice 3

Social Welfare Emphasis
   SOC 352 Human Behavior and the Social Environment 3
   SOC 370 Poverty and Social Inequality 3
   SOC 470 Social Welfare Policy 3
   SOC 493 Internship in Social Welfare 3

5. All sociology majors must meet the requirements of the Local Writing Assessment in Sociology.

6. All sociology majors must complete the following sociology assessment plan:
   a. ETS Field Test in Sociology
   b. Major Research Project in Sociological Research Methods
   c. Internship Final Review
Minor in Sociology:
Minors (18 hours excluding SOC 201) are available through consultation with any sociology faculty member.

School of Business
http://schoolofbusiness.adams.edu
The mission of the School of Business is to deliver a contemporary, integrated undergraduate business curriculum emphasizing teaching excellence in a student-centered environment. The School of Business offers several degree programs: bachelor of science degree in business administration with emphases in accounting, agribusiness, economics, finance, general business, management, management information systems, marketing, and small business; bachelor of arts degree in business administration with emphases in advertising, applied business (pending approval), business teacher education, general business, and pre-international business. Minors are offered in consultation with the department chair in all the above emphases except economics, small business, pre-international business, business education, and advertising. The requirement for the business minor is 18 hours.

The School of Business has one national professional business fraternity: Phi Beta Lambda. Other student clubs include: Pacioli Club (in accounting) and an Adams State Toastmaster’s Chapter.

The school sponsors an annual Distinguished Executive Program, a Community Partnership Office, and Business Support Center. The accounting program is recognized by the Colorado State Board of Accountancy.

The student will acquire competency to apply sound business practices and to understand the evolving business and economic environment under which business decisions must be made. Graduates are prepared for a variety of jobs in accounting, finance, management, marketing, research in both the public and private sectors, small business, and teaching.

Faculty
Keiser, Chair; Campbell, Congress, A. Coolbaugh, C. Coolbaugh, Corning, Fleming, Lyell, Newell, Reid, Ross, Stagner, Valdez, Vallone, Weston.

This curriculum mirrors the requirements of bachelor of arts in business administration, general business emphasis. All current Adams State requirements in general education, writing and technology proficiency, 120 total credits and 42 upper-division credits remain in force. The significant difference between this emphasis and all other emphases in both the B.A. and B.S. in business administration is the acceptance of up to 30 semester technical credits which will be applied in the elective area.

Decisions on the acceptance of individual technical courses will be made by the student’s advisor, subject to the approval of the department chair. Acceptance of technical credits applies only to this emphasis within this degree.

#### Business Teacher Education Emphasis

Completion of the following courses plus the secondary teaching certification/licensure requirements listed under the Department of Teacher Education.

- BUS 103 Introduction to Business 3
- BUS 120 Business Computer Applications I 3

**Department of Human Performance and Physical Education (HPPE)**

It is the mission of the Department of Human Performance and Physical Education to provide skilled leadership and proper utilization of facilities and equipment in order to produce qualified physical education teachers, athletic

---

**Pre-International Business Emphasis**

This emphasis prepares a student for graduate study in the field of international business. A student seeking this emphasis completes all courses for the bachelor of arts degree in business administration-general business emphasis [except for Bus 318 Business Statistics and Bus 430 Production & Operations Management], plus the following:

- Foreign Language (chosen in consultation with the department chair) 12-18
coaches, and fitness specialists. The program in HPPE is designed to help students gain an understanding of the discipline. This will enable them to be professionally comfortable delivering information and making appropriate decisions regarding the manner of the delivery, as well as content, scope, and sequence. In addition, students will gain an appreciation for the value of promoting healthy, active lifestyles.

The HPPE K-12 teaching emphasis is designed for students who desire to teach physical education. Students who pursue this degree should also seek admittance to the Department of Teacher Education Program.

The HPPE sport and exercise management option is intended for individuals seeking employment in the fitness industry or to eventually enroll in graduate school.

The major prepares an individual for the following vocational and educational opportunities:
- Corporate health fitness management
- Commercial sport/exercise management (health clubs, fitness centers)
- Work-site health promotions
- Industrial sports management (sporting goods industry)
- Educational athletic administration (athletic director, sport business manager)
- Advanced degree programs in physical education (exercise physiology, bio-mechanics)

A sports psychology major is available and is administered through the Department of Psychology. This major combines courses in HPPE and psychology. Please refer to the psychology section of this catalog for information.

Faculty
T. Laker, Chair, M. Chilson, T. Robinson, J. Storm.

Degree Programs
Bachelor of Arts: Human Performance and Physical Education (HPPE)
Emphasis in:
- K-12 Physical Education Teaching Emphasis
- Sport and Exercise Management

Coaching minor
HPPE minor

Bachelor of Arts Degree Requirements
Human Performance and Physical Education (HPPE)
1. Completion of the general studies requirements for the bachelor of arts degree.
2. Completion of the following core courses:
   - HPPE 100 Foundations of Physical Education 2
   - HPPE 226 Exercise Physiology 3
   - HPPE 247 Emergency Response 2
   - HPPE 340 Kinesiology 3
   - HPPE 440 Organization/Administration of PE 2
   TOTAL 12

HPPE majors are required to complete at least one emphasis from the following:

K-12 Physical Education Teaching Emphasis
- BIOL 112* Human Anatomy 4
- HPPE 105 Beginning Swimming 1
- HPPE 130 Teaching Individual/Dual Activities 2
- HPPE 131 Teaching Individual/Dual Activities 2
- HPPE 230 Teaching Team Activities 2
- HPPE 260 Tests & Measurements in Physical Ed 2
- HPPE 310 Dance Fundamentals K-12 2
- HPPE 311 Methods of Teaching Health Education 2
- HPPE 312 Physical Education in the Elementary 3
- HPPE 315 Methods of Teaching Elementary PE 3
- HPPE 341 Human Motor Development 3
- HPPE 448 Adapted Physical Education 3
- HPPE 450 Senior Seminar in Teaching PE 2
TOTAL 34

Sport and Exercise Management Emphasis
- BIOL 112* Human Anatomy 4
- HPPE 109 Care and Prevention of Athletic Injuries 2
- HPPE 301 Sport and Fitness Nutrition 2
- HPPE 314 Health Promotion 2
- HPPE 327 Tech. of Coaching Strength/Conditioning 3
- HPPE 422 Exercise Evaluation/Fitness Management 3
- HPPE 436 Sport and Exercise Psychology 3
- HPPE 485 Practicum in Sport/Exercise Management 3
TOTAL 22

* Students completing the advanced degree track may substitute BIOL 205 and BIOL 206 for BIOL 112

Sport and exercise management students must also choose either the business or the advanced degree track

Business track: (15 hours required)
- BUS 207 Introduction to Accounting I 3
- BUS 304 Principles of Marketing 3
- BUS 345 Advertising 3
BUS 361 Principles of Management 3
BUS 362 Human Resource Management 3
BUS 365 Small Business Management 3
CSCI 100 Essentials of Information Technology 3
Elective 3

**Advanced degree track: (14 hours required)**

**Writing Assessment Policy**

**Procedure**

1. All full-time HPPE faculty will be involved in the assessment of HPPE majors. This committee will be responsible for conducting two assessments each academic year; one in the fall and the other in the spring.

2. All students majoring in HPPE will undergo an initial assessment of their writing during the semester in which they are enrolled in HPPE 100. Assessments will take place within two weeks following midterm. Students will be informed about their performance on the assessment prior to registration for the next term. This will provide sufficient time for students who need remediation.

3. The assessment will be an essay examination. Students will be given a topic and asked for a reaction and opinion to that topic. The actual content of the response, although important, will not be the focus of the evaluation. Students will write a minimum of three pages on the topic. A rubric will be used to grade students on writing mechanics, grammar, spelling, and depth of response.

4. All HPPE majors, including transfer students, must demonstrate proficiency in writing. If they have completed 60 hours, transfer students must take the HPPE writing assessment in their initial term of attendance.

**Criteria**

1. A four-part rubric will be used to evaluate and assess the writing of our students. The rubric will be scored as follows: Unsatisfactory, partially proficient, proficient, or advanced.

2. HPPE students must score at proficient in order to successfully pass the assessment examination.

**Remediation Plan**

1. HPPE students who score unsatisfactory or partially proficient on the assessment examination will be required to enroll in English 200, College Writing Review. Students who do not successfully improve their writing will not be allowed to graduate.

**Review Plan**

1. HPPE students’ work will be reassessed, using the same criteria as before, in HPPE 440.

**Minor in Coaching**

The coaching minor in HPPE is designed for those who are not majoring in HPPE, but would like to coach at the amateur level, including elementary, junior high, secondary, or post-secondary levels.

A minor in coaching consists of the following:

**Core Curriculum**

- HPPE 209 Care/Prevention of Athletic Injuries 2
- HPPE 247 First Aid: Responding to Emergencies 2
- HPPE 250 Introduction to Coaching 1
- HPPE 301 Sport and Fitness Nutrition 2
- HPPE 32X* Tech of Coaching & Officiating 3
- HPPE 327 Tech of Coaching Strength/Conditioning 3
- HPPE 436 Sport and Exercise Psychology 3
- HPPE 480 Coaching Practicum 3

**TOTAL HOURS IN MINOR** 19

*Students may choose from 320 Basketball, 321 Football, 323 Softball, 324 Track and Field, 325 Volleyball, 326 Wrestling, 328 Soccer.

A coaching practicum is required for the minor. The practicum can be accomplished, with the approval of the department chair, by assisting with an elementary, junior or senior high program, or with a college sport program. Completion of the practicum will qualify the individual for the Adams State College coaching certification. Prior to enrolling in the practicum, it is recommended for the student to complete the Techniques of Coaching and Officiating course in the particular sport relative to the practicum experience.

**Minor in HPPE**

A minor in HPPE is available in consultation with the department chair. It generally consists of 18 hours of core HPPE courses. Physical education activity classes cannot be used to fulfill minor requirements.
Department of Undergraduate Teacher Education

Undergraduate Programs
http://teachered.adams.edu
At Adams State College our programs for initial licensure prepare teacher education candidates who exhibit leadership, demonstrate professional competence, and facilitate learning for all students.

Based upon the model of the professional educator as a reflective decision-maker, the Department of Teacher Education prepares:

- Educational leaders who actively participate in school improvement, applying the skills necessary to facilitate school reform while fostering collaboration and cooperation amongst multiple stakeholders
- Competent professionals who seek out and manage resources to support instruction, engage in constructive discourse on a wide-range of educational issues, understand and implement state standards, and model best practices
- Culturally responsive teachers who facilitate learning for all students

Content and pedagogical preparation includes:

- a liberal arts education and content area knowledge in the area of licensure
- application of evidence-based theories and strategies of learning and instruction to classroom practice, including:
  - literacy
  - Colorado Content Standards based curriculum
  - instructional management
  - formal and informal assessment practices
  - instructional strategies that address a wide range of learning styles, including effective strategies for linguistically and culturally diverse students

The Department of Teacher Education is authorized by the Colorado State Board of Education and accredited by the Teacher Education Accreditation Council (TEAC) to provide licensure and endorsement programs.

Faculty

Degree Programs
Bachelor of Arts: Interdisciplinary Studies
- with Elementary Licensure
- Elementary Licensure with Early Childhood Endorsement
- with Elementary Licensure with Special Education Generalist Endorsement

Licensure
- Teacher Licensure — Elementary
- Teacher Licensure — Elementary added endorsement: Early Childhood Education
- Teacher Licensure — Elementary added endorsement: Special Education Generalist
- Teacher Licensure — Secondary
- Teacher Licensure — K-12 (Art, Music, Physical Education)

Initial Licensure Programs
The Department of Teacher Education at Adams State College provides preparation for three initial teaching licenses that are granted by the State of Colorado.

Initial Licensure Areas
Elementary Education
Students preparing to be elementary teachers complete an undergraduate degree (B.A) in Interdisciplinary Studies with coursework and field experience in literacy and language, content methods, and educational practices. A minor or emphasis in an approved academic area is required (minor: mathematics, science, music, Spanish; emphasis areas: art, social studies, literacy, physical education).

A program of study preparing the student for initial licensure in elementary education with an endorsement in Early Childhood Education or Special Education Generalist is also offered. These two endorsements require coursework, field hours, and student teaching in addition to that required for the initial elementary license.

Secondary Education
Students preparing to teach in a content area, grades 7-12, must complete an undergraduate degree in a state approved content area (business, English, mathematics, science, social studies, foreign language) with coursework and field experience in educational practices, content area literacy, and content methods.
K-12 Education

Students preparing to teach music, art, or physical education across K-12 must complete an undergraduate degree in one of those fields with coursework and field experience in educational practices, content area literacy, and content methods.

Stages in the Program

The three stages in the program provide for sequential development of research-based knowledge about student learning and instructional practice. The program of preparation for initial licensure begins with an introduction to teaching and education in a series of prerequisite courses in education. Coursework taken after admission to the program provides a research-based foundation that is both theoretical and practical, for student teaching. Student teaching is a one-semester, full time internship in the classroom.

Undergraduate students typically enter the program in their junior year, after completing general education requirements, content coursework, and requirements for the academic major.

Pre-admission: In the undergraduate program, students explore teaching as a career in two courses, ED 200: Perspectives in Teaching and Learning and ED 220: The Exceptional Learner. The student may apply for admission to the teacher education program upon successful completion of ED 200 and ED 220; specific program prerequisites which may include additional education courses; and the general education courses, including ENG 101, ENG 102 and MATH 104.

Admission and Continuation

Once admitted to the program, students complete the series of professional core education courses in their licensure program of studies. A state mandated professional exam, either the PLACE or PRAXIS II, must also be passed before moving to student teaching.

Student Teaching

During the last semester of the program, students teach in a classroom with a licensed, mentor teacher in a K-12 Colorado public school classroom.

Admission to Initial Licensure Preparation Programs

Formal admission is required for all initial licensure programs and is required for enrollment in professional core courses and student teaching.

Once all prerequisites have been met, the student may apply for admission to one of the initial licensure programs. Application deadlines exist for each program.

Application for Admission to Initial Licensure Programs

Submit to the Department of Teacher Education the completed admission application and accompanying documents that include:

- Admission essay
- Resume of experience including work with children
- Two letters of recommendation
- Signed degree plan completed with the Undergraduate Teacher Education Advisor

Deadlines for application

Undergraduate program: October 15 for admission in the following Spring semester; February 15 for admission in the following Fall semester.

At the time the application is submitted, the student will schedule a theme writing session and an admission interview.

The student is notified in writing about the outcome of the admission application.

Prerequisites for Admission

Undergraduate Program

Academic Prerequisites

- Current enrollment, in good standing, at Adams State College.
- Technology Proficiency Requirement
- Completed Technology Proficiency Exam or CSCI 100 or BUS 120 with a grade of “C” or better
- Completion of General Education requirements
- Complete 30 hours of undergraduate coursework from an accredited college or university prior to the semester of application to program
• Cumulative and semester GPA of 2.75 or better
• Completion of the following pre-requisite courses with a grade of C or better:
  • ED 200
  • ED 220
  • ED 230 (elementary only)
  • ENG 101
  • ENG 102
  • MATH 104 or higher
  • PSYC 204 (elementary only)

Program Prerequisites
Submission of completed Colorado Bureau of Investigation background check form
Possession of an Adams State College, Department of Teacher Education identification card.

Evidence (signed attendance) of participation in Professional and Ethical Behavior Orientation and acceptance of Professional Conduct Agreement for APPLE Students

Teacher Education Field Experience and Student Teaching
Students are placed in K-12 classrooms throughout the initial licensure program for a total of 800 field experience hours, as required by the State of Colorado.

Field placement hours are a requirement of specific courses in the initial licensure program and include assignments that correspond to the courses. Field hours must be completed during enrollment in required courses. All placements are in regular K-12 classrooms in Colorado public schools during the regular school day. Students are advised to plan their personal schedules in order to be available during school hours.

Before formal admission to the initial licensure programs, 40 hours of experience in the K-12 classroom allows the student to explore both elementary and secondary settings, reflect on teaching as a career, and examine the “way schools work.” Students observe, work one-on-one with students, and assist the classroom teacher.

Once admitted to the program, the student applies evidence-based theories and strategies of learning and instruction to classroom practice during core courses and student teaching.

Prior to enrollment in any course requiring a field placement, the student must complete and submit the Colorado Bureau of Investigation background check application, to the Undergraduate Teacher Education Office.

All field placements, including student teaching, are made by the Undergraduate Teacher Education Office. All contacts with the K-12 schools are made by the Department of Teacher Education. Students may not initiate their own placement contacts or arrangements. Violation of these guidelines is grounds for suspension or dismissal from the program. Placements are made in a variety of settings and involve the professional judgment of the Department of Teacher Education, based upon a number of factors. Students should anticipate the need to make their own arrangements for transportation to field placements sites. Students may not be placed in schools that they have attended or in which relatives work or are in attendance. This information must be disclosed by the candidate.

Student Teaching
Student teaching is the final phase in the preparation for initial licensure. Student teaching is a full-time, one semester assignment in a K-12 classroom. Under the supervision of a mentor teacher, student teachers assume responsibility for instructional planning and student learning. They must also review and modify practice based upon evidence-based theories and strategies in order to insure learning success for all students.

In the semester prior to student teaching, candidates complete a written applications and provide supporting documents for placement. These documents are available on the website for the Department of Teacher Education. Placement areas are limited to the San Luis Valley and the metropolitan areas of Denver, Colorado Springs, and Pueblo.

To be placed for student teaching, the candidate must:
• Be admitted and in good standing in an ASC initial licensure program
• Maintain a 2.75 semester and cumulative GPA
• Pass the appropriate PLACE or PRAXIS II exam prior to applying for placement (The student is responsible for all fees and costs)
• Have a current signed degree plan on file in the undergraduate office
• Completed all program coursework with a C or better.

The departmental “Handbook for Student Teaching and Field Experience,” found on the website for the Department of Teacher Education, provides more specific information and requirements related to student teaching.

**Recommendation for Licensure**

Upon completing all program requirements, the candidate may be recommended by the Department of Teacher Education to the Colorado Department of Education for initial licensure. These requirements include, but are not limited to: all program coursework, proficiencies, field hours, student teaching, a 2.75 cumulative GPA, and graduation.

Application forms for initial licensure are found on the website for the Colorado Department of Education (CDE). The candidate submits the CDE form, “Institutional Recommendation for Teachers, Principals and Superintendents /Directors of Special Education,” to the undergraduate office in the Department of Teacher Education. After the appropriate records are reviewed, this document is signed and returned to the candidate who completes the application and delivers it to the licensing unit at the Colorado Department of Education. The student is responsible for all fees and costs.

**Student Responsibility**

As a student entering a program for professional preparation to become a licensed teacher in the State of Colorado, you are responsible for understanding and following the requirements, procedures, and policies in the most current Adams State College Undergraduate and Graduate Catalogues, the Initial Licensure Handbook, and additional program materials related to your specific licensure program, including your signed degree plan. If you have questions, or need clarification, contact the Department of Teacher Education. Failure to read and understand requirements for your program does not excuse you from responsibility for program compliance.

An overview is provided each semester during a workshop on basic professional and academic expectations. This is required of all ED 200 students. Evidence of attendance and signed agreement of compliance with requirements, procedures, and policies is required.

Information in the most current Adams State College Undergraduate and Graduate Catalogues, which are accurate at the time of publication, take precedence over other published ASC information, except in the case of requirements from the State of Colorado and other accrediting agencies.

Before enrolling in any coursework that requires presence in a K-12 classroom for practicum or student teaching, the student must submit a completed set of fingerpints and application for background check through the Department of Teacher Education at Adams State College — http://www.cde.state.co.us/cdeprof/fingerprints.htm

**Academic and Professional Standards**

While enrolled in prerequisite courses in the Department of Education, admission to the initial licensure programs, placement in schools for field experience, and during student teaching, students are expected to maintain academic and professional standards in accord with the profession of teaching.

Expectations include, but are not limited to:

• Adherence to the ASC Code of Conduct regarding academic performance, including academic honesty
• Maintaining the minimum semester and cumulative GPA (2.75 undergraduate and initial licensure, 3.0 Masters Plus)
• Adherence to the ASC Code of Conduct regarding conduct
• Compliance to professional attitudes and dispositions (see Professional and Ethical Behavior Checklist)
• Demonstration of state mandated teaching competencies (Performance Based Standards for Colorado Teachers)  
  http://www.cde.state.co.us/cdeprof/download/pdf/li_perfbasedstandards.pdf
• Knowledge of school and district rules for teacher behavior.
• Direct supervision by a licensed classroom teacher while working with K-12 students during practicum assignments and student teaching. The classroom teacher must be immediately accessible. Personal involvement in the K-12 setting, e.g. parental involvement
or substitute teaching, must be clearly separated from practicum and student teaching.

- Appropriate interactions with students

Note: The faculty reserves the right to suspend, place on probation or remove from the program any candidate who, in their professional judgment, fails to satisfy requirements of scholarship, performance, academic or professional ethics or integrity or personal suitability. The principal or teacher at a host school may request the removal of a candidate at any time.

If a student chooses not to apply for licensure upon completion of a program, Adams State College is under no obligation to recommend the student for licensure if the past course work does not conform to current program requirements.

Students are urged to confer with assigned advisors early and often concerning the progress of their programs. It is necessary to attend the orientation held once each semester and consult with the Department of Teacher Education to receive information about the admissions process and courses which are prerequisites to the professional core and courses required in the professional core.

Course Requirements for Teacher Licensure Programs

Interdisciplinary Studies Degree with Elementary Licensure

Note: A student must be admitted to the Teacher Education Program prior to taking the professional education courses. Grade of C or better must be earned in each professional education course.

Prerequisite to Professional Core
- ED 200 Perspectives in Teaching & Learning 3
- ED 220 The Exceptional Learner 3
- PSYC 204 Child Development 3
- ED 230 Literacy & Language Development I 3

Professional Core
(Must be admitted to Teacher Education Program to enroll)
- ED 300 Literacy & Language Development II 3
- ED 310 Methods of Teaching Science 3
- ED 328 Methods of Teaching Math 3
- ED 345 Educational Psychology 3
- ED 404 Literacy & Language Development III 2
- ED 414 Classroom Instructing & Management – Elementary 2
- ED 424 Educational Practices & Assessment-

Elementary 2
- ED 434L Field Experience Lab — Elementary 3
- ED 435 Student Teaching — Elementary 15

NOTE: Courses completed to meet any other degree or general education requirements cannot be used to fulfill the requirements listed below:

Interdisciplinary Studies Major Courses
(30-37 hours)
- HIST 202 American History to 1865 3
- HIST 203 American History 1865 to Present 3
- HPPE 300 Promoting a Healthy & Safe Environment 3
- GEOG 300 World Geography 3

Choose One Course
- AR 103 Art Appreciation 3
- ENG 203 Major Themes in Lit 3
- MUS 100 Intro to Music 3
- MUS 102 Introduction to Jazz 3
- THTR 180 Introduction to Theatre 3

Choose One Course
- MATH XXX(Above Gen Ed) 3
- PSYC 211 Intro to Statistics 4

Content Area Emphasis
Select an approved content area emphasis with your advisor and complete the corresponding curriculum 15-21

General Education
See Adams State approved general education requirements in the General Catalog) 34

Interdisciplinary Studies Degree with Elementary Licensure with Added Endorsement in Early Childhood Education requires:

1. *Admission to the Teacher Education Program.
2. Completion of all requirements for Elementary Education License.
3. Completion of the following courses.

Prerequisite to Professional Core
- ECE 110 Introduction to ECE 3
- ECE 112 Practicum in ECE 2
- ECE 115 Health, Safety, Nutrition 3
- ECE 220 Infants & Toddlers: Dev Theory & Prac 4
- ED 230 Literacy & Language Development I 3

4. Professional Core
(Must be admitted to Teacher Education Program to enroll)
- ECE 310 Introduction to ECE 3
- ECE 424 Advanced Methods & Tech in ECE 4
- ECE 425 Student Teaching Early Childhood 8

*Professionals who hold an active Colorado teaching license, and who meet the requirements for admission to the college will be granted admission to the added endorsement program in early childhood education.
Secondary Education Licensure Program
(33 hours)
Prerequisite to Professional Core
ED 200 Perspectives in Teaching & Learning 3
ED 220 The Exceptional Learner 3

Professional Core
(Must be admitted to Teacher Education Program to enroll)
*ED 416 Classroom Instruction & Management—Sec/K-12 2
*ED 426 Educational Practices & Assessment—Sec/K-12 2
*ED 429 Content Area Reading 2
*ED 436L Field Experience Lab —Secondary/K-12 3
ED 445 Student-Teaching—Secondary 15
*Content Methods 3
(*These courses must be taken concurrently)
Major Content Area Hours: 47

General Education
See Adams State approved general education requirements in the General Catalog 34

K-12 Licensure
Prerequisite to Professional Core
ED 200 Perspectives in Teaching & Learning 3
ED 220 The Exceptional Learner 3

Professional Core
(Must be admitted to Teacher Education to enroll)
*ED 416 Classroom Instruction & Management—Sec/K-12 2
*ED 426 Educational Practices & Assessment—Sec/K-12 2
*ED 429 Content Area Reading 2
*ED 436L Field Experience Lab —Secondary/K-12 3
ED 445 Student-Teaching—Secondary 15
*Content Methods: 3-9
(*These courses must be taken concurrently)
Major Content Area Hours: 41-47

General Education: 38
(See Adams State approved general education requirements in the General Catalog)

Special Education Generalist
Prerequisites to the Professional Core
ED 200 Perspectives in Teaching and Learning 3
PSYC 204 Child Development 3
ED 230 Literacy & Language Development I 3

Professional Core
ED 300 Literacy & Language Development II 3
ED 310 Methods of Teaching Science 3
ED 328 Methods of Teaching Math 3
ED 345 Educational Psychology 3
ED 404 Literacy & Language Development III 2
ED 414 Classroom Instruction & Management—Elementary 2
ED 424 Educational Practices & Assessment—Elementary 2
ED 434L Field Experience Lab—Elem/Special Ed 3
ED 435 Student Teaching —Elementary/Elementary SPED 15

Content Area Emphasis: Special Education
SPED 341 SPED for Culturally/Linguistic Diverse Students 2
SPED 342 Identification/Teaching SPED Students 3
SPED 343 Behavioral Management in Instruction 3
SPED 344 Domains of Learning 3
SPED 440 Assessment in Special Education 3
SPED 463 Special Education Law 3
SPED 493 Current Trends & Issues in Special Education 3
SPED 495 Student Teaching —Secondary Special Education 3
Choose 12 hours in licensure content area 12
TOTAL 35

Department of Biology and Earth Sciences
http://smt.adams.edu/departments.html
Students may choose from programs in biology and in earth sciences, which lead to a bachelor's degree and, if elected, pre-professional preparation or secondary teacher licensure.

The Department of Biology and Earth Sciences facilitates student learning through careful advisement, small classes, and an excellent teaching faculty. Current facilities include modern laboratory instrumentation, field equipment, and networked computer systems.

The Biology Program offers the following degree programs: bachelor of arts degree in biology (liberal arts and science education options), bachelor of science degree in biology (cellular and molecular biology, organismal biology, and wildlife options). The secondary teacher licensure program qualifies students for the Colorado standard teaching license in science education. Students following the bachelor of science and bachelor of arts degree programs prepare
themselves for careers in biology in private industry or in the medical or paramedical arts, as well as for graduate study in biology or allied fields.

The Earth Sciences Program offers four bachelor’s degree programs: bachelor of arts degrees in geology, earth science (physical geography: resource planning and management), and in earth sciences (science education), and a bachelor of science degree in geology. The Earth Sciences Program also offers opportunities for professional software training and for incorporating Geographic Information System (GIS) technology into coursework.

Faculty
Armstrong, Beeton, Benson, Brink, Herrington, Yao, Ybarrondo

Degree and Licensure Programs
Bachelor of Arts
- Biology
- Geology
- Physical Geography: Resources Planning and Management
- Secondary Teacher Licensure available in
  - Biology
  - Earth Sciences

Bachelor of Science
- Biology
- Earth Sciences

Associate of Science
With emphasis in
  Geographic Information Science (GIS)

Two-Year Concentrations
- Pre-Professional and Allied Health Programs
  - Pre-Dentistry
  - Pre-Engineering
  - Pre-Medicine
  - Pre-Nursing
  - Pre-Optometry
  - Pre-Osteopathy
  - Pre-Pharmacy
  - Pre-Physical Therapy
  - Pre-Veterinary Medicine

Minors
- Biology
- Geology

Bachelor of Arts Degree Requirements
Biology (Liberal Arts) Major
1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper-division courses.
2. Completion of the following required courses:
   - BIOL 203 General Biology 5
   - BIOL 204 General Biology 5
   - BIOL 321 Genetics 3
   - BIOL 323 Cellular Biology 3
   - BIOL 325 Cellular Biology/Genetics Lab 1
   - BIOL 330 Ecology 4
   - BIOL 332 Evolution 3
   - Two 400 level biology courses of student’s choosing 6
3. Required support courses:
   - CHEM 111 Introductory Chemistry 4
   - CHEM 111L Introductory Chemistry Lab 1
   - CHEM 112 Introductory Organic and Biological Chemistry 4
   - CHEM 112L Intro Organic and Biological Chemistry Lab 1
   - OR
     - CHEM 131 General Chemistry 4
     - CHEM 131L General Chemistry Lab 1
     - CHEM 132 General Chemistry 4
     - CHEM 132L General Chemistry Lab 1
   - AND
     - CHEM 321 Organic Chemistry 4
     - CHEM 321L Organic Chemistry Lab 1
     - MATH 205 Introduction to Statistical Methods 3
4. Students electing to take the B.A. in biology must also complete a minor of their choice.

Biology (Science Education) Secondary Teacher Licensure
1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper-division courses.
2. Completion of the secondary teacher licensure requirements listed under the Department of Teacher Education.
3. Completion of the following required courses:
   - BIOL 203 General Biology 5
   - BIOL 204 General Biology 5
   - BIOL 321 Genetics 3
   - BIOL 323 Cellular Biology 3
   - BIOL 325 Cellular Biology/Genetics Lab 1
   - BIOL 330 Ecology 4
   - BIOL 332 Evolution 3
   - BIOL 493 Thesis I 1

A minimum of 4 credits is required from the following courses:
   - BIOL 417 Vascular Plant Systematics 4
   - BIOL 420 Mycology 4
   - BIOL 423 Plant Physiology 4
BIOL 430 Plant Ecology
A minimum of 3 credits is required from the following courses:
- BIOL 440 Invertebrate Zoology
- BIOL 460 Ornithology
- BIOL 461 Entomology
- BIOL 463 Ichthyology
- BIOL 464 Mammalogy
- BIOL 471 Herpetology

A minimum of 3 credits is required from the following:
- BIOL 404 Physiological Zoology
- BIOL 408 Developmental Biology
- BIOL 411 Comparative Anatomy
- BIOL 448 Microbiology

Required support courses:
- CHEM 112 Introductory Organic and Biological Chemistry
- CHEM 112L Intro Organic and Biological Chemistry Lab
- PHYS 225 College Physics I
- PHYS 226 College Physics II
- SCI 350 Methods of Teaching Science-Secondary

Bachelor of Science Degree Requirements

Bachelor of Science: Biology (Cellular and Molecular Biology)
Recommended for students interested in allied health professions or graduate school in cellular or molecular biology.
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper-division courses.
2. Completion of the following required courses:
   - BIOL 203 General Biology
   - BIOL 204 General Biology
   - BIOL 321 Genetics
   - BIOL 323 Cellular Biology
   - BIOL 325 Cellular/Genetics Lab
   - BIOL 330 Ecology
   - BIOL 332 Evolution
   - BIOL 476 Molecular Biology
   - BIOL 493 Thesis I
   - BIOL 494 Thesis II

A minimum of 7 credits is required from the following courses:
- BIOL 407 Comparative Animal Physiology
- BIOL 408 Developmental Biology
- BIOL 411 Comparative Anatomy
- BIOL 448 Microbiology
- BIOL 451 Endocrinology

Required support courses:
- CHEM 131 General Chemistry/Lab
- CHEM 132 General Chemistry/Lab
- CHEM 321 Organic Chemistry/Lab
- CHEM 322 Organic Chemistry/Lab
- CHEM 401 Structural Biochemistry/Lab
- CHEM 402 Biochemistry II
- MATH 205 Introduction to Statistical Methods
- PHYS 225 College Physics I
- PHYS 226 College Physics II

Bachelor of Science: Biology (Organismal Biology)
The course requirements listed here are designed to meet the requirements for positions with state and federal agencies, for teaching in public schools, or for graduate school in organismal biology and ecology.

Successful completion of the following academic program is required for this degree:
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper-division courses.
2. Completion of the following required courses:
   - BIOL 203 General Biology
   - BIOL 204 General Biology
   - BIOL 321 Genetics
   - BIOL 323 Cellular Biology
   - BIOL 325 Cellular Biology/Genetics Lab
   - BIOL 330 Ecology
   - BIOL 332 Evolution
   - BIOL 493 Thesis I
   - BIOL 494 Thesis II

A minimum of 4 credits is required from the following:
- BIOL 417 Vascular Plant Systematics
- BIOL 420 Mycology
- BIOL 423 Plant Physiology
- BIOL 430 Plant Ecology

A minimum of 4 credits is required from the following:
- BIOL 407 Comparative Animal Physiology
- BIOL 408 Developmental Biology
- BIOL 411 Comparative Anatomy
BIOL 476 Molecular Biology 4

A minimum of 6 credits is required from the following:
- BIOL 404 Physiological Zoology 3
- BIOL 440 Invertebrate Zoology 4
- BIOL 460 Ornithology 3
- BIOL 461 Entomology 3
- BIOL 463 Ichthyology 3
- BIOL 464 Mammalogy 3
- BIOL 471 Herpetology 3

Required support courses:
- CHEM 131 General Chemistry/Lab 5
- CHEM 132 General Chemistry/Lab 5
- CHEM 321 Organic Chemistry/Lab 5
- CHEM 322 Organic Chemistry/Lab 5
- MATH 205 Introduction to Statistical Methods 3
- PHYS 225 College Physics I 5
- PHYS 226 College Physics II 5

Bachelor of Science: Biology (Wildlife)
The course requirements listed here are designed to meet the requirements for federal and state wildlife and Forest Service positions.

1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper division courses.

2. Completion of the following required courses:
- BIOL 203 General Biology 5
- BIOL 204 General Biology 5
- BIOL 321 Genetics 3
- BIOL 323 Cellular Biology 3
- BIOL 325 Cellular Biology/Genetics Lab 1
- BIOL 330 Ecology 4
- BIOL 332 Evolution 3
- BIOL 467 Wildlife Management 2
- BIOL 469 Fisheries Management 2
- BIOL 493 Thesis I 1
- BIOL 494 Thesis II 1

A minimum of 6 credits is required from the following courses:
- BIOL 460 Ornithology 3
- BIOL 464 Mammalogy 3
- BIOL 471 Herpetology 3

A minimum of 6 credits is required from the following courses:
- BIOL 404 Physiological Zoology 3
- BIOL 411 Comparative Anatomy 4
- BIOL 440 Invertebrate Zoology 4
- BIOL 461 Entomology 3
- BIOL 463 Ichthyology 3

A minimum of 6 credits (9 credits for forest service) is required from the following courses:
- BIOL 417 Vascular Plant Systematics 4
- BIOL 420 Mycology 4
- BIOL 423 Plant Physiology 4
- BIOL 430 Plant Ecology 4

Required support courses:
- CHEM 111 Introductory Chemistry 4
- CHEM 111L Introductory Chemistry Lab 1
- CHEM 112 Introductory Organic and Biological Chemistry 4
- CHEM 112L Intro Organic and Biological Chemistry Lab 1
- MATH 106 College Algebra 3
- MATH 205 Introduction to Statistical Methods 3

Minor in Biology
Completion of at least 18 hours selected in consultation with the department chair or completion of the following required courses:
- BIOL 203 General Biology 5
- BIOL 204 General Biology 5
- BIOL 321 Genetics 3
- BIOL 323 Cellular Biology 3
- BIOL 325 Cellular Biology/Genetics Lab 1
- BIOL 330 Ecology 4
- BIOL 332 Evolution 3

Emphasis in Biology • Elementary Education Licensure
Eighteen hours selected in consultation with the department chair.

Bachelor of Arts Degree Requirements
Bachelor of Arts: Geology

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper division courses.

2. Completion of the following required courses:
- GEOL 111 Physical Geology 4
- GEOL 112 Historical Geology 4
- GEOL 121 Field Study 1 1
- GEOL 122 Field Study 2 1
- GEOL 321 Geomorphology with Environmental Applications 4
- GEOL 331 Mineralogy 4
- GEOL 334 Petrology 4
- GEOL 340 Introduction to Hydrogeology 4
- GEOL 343 Sedimentology and Stratigraphy 4
- GEOL 371 Structural Geology 4
- GEOL 446 Field Methods 2

Required support courses:
- BIOL 203 General Biology/Lab 5
- CHEM 131 General Chemistry 4
- CHEM 131L General Chemistry Lab 1
- CHEM 132 General Chemistry 4
- CHEM 132L General Chemistry Lab 1
- MATH 106 College Algebra 3
Bachelor of Arts: Physical Geography: Resources Planning and Management
Recommended for students interested in professional careers with natural resources planning and management agencies (e.g., BLM, CDOW, USFS, USFWS) in addition to regional resources associations (e.g., water users' associations) requiring significant facility with principles of resources use and planning and Geographic Information Systems (GIS).

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.
2. Completion of the following required courses:
   - GEOL 101 Weather, Climate and Vegetation 4
   - GEOL 111 Physical Geology 4
   - GEOG 201 Intro to Cartography and GIS 3
   - GEOG 212 Natural Resource Management on Public Lands 3
   - GEOG 315 Quantitative Geography 3
   - GEOG 440 Senior Capstone in Geography 2
3. A minimum of 4 credits is required from the following:
   - GEOG 301 Applications in GIS 4
   - GEOG 420 Remote Sensing 4
4. A minimum 10 credit hours from the following:
   - GEOG 307 Biogeography 3
   - GEOG 311 Climatology 4
   - GEOL 321 Geomorphology 4
   - GEOL 330 Nature and Properties of Soils 4
5. A minimum 6 credit hours from the following:
   - GEOG 404 Biogeography of the Rocky Mountain Region 3
   - GEOG 407 Vegetation Analysis 3
   - GEOG 411 Mountain Geography 3
   - GEOG 421 Glacial and Periglacial Geography 3
   - GEOG 340 Introduction to Hydrogeology 4
6. Required support courses:
   - BIOL 203 General Biology 5
   - CHEM 111 Introductory Chemistry 4
   - CHEM 111L Introductory Chemistry Lab 1
   - MATH 106 College Algebra 3

Secondary Teacher Licensure in Earth Science
The secondary teacher licensure program qualifies a student for a Colorado standard teaching license in science education.

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses, and the secondary teacher licensure requirements listed under the Department of Teacher Education.
2. Completion of the following required courses:
   - GEOL 111 Physical Geology 4
   - GEOL 112 Historical Geology 4
   - GEOL 321 Geomorphology with Environmental Applications 4
   - GEOL 331 Mineralogy 4
   - GEOL 334 Petrology 4
   - GEOL 343 Sedimentology and Stratigraphy 4
   - GEOL 371 Structural Geology 4
3. Required support courses:
   - BIOL 203 General Biology 5
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - MATH 106 College Algebra 3
   - GEOG 300 World Geography 3
   - PHYS 210 Introduction to Astronomy 4
   - PHYS 225 College Physics I 5
   - SCI 350 Methods of Teaching Science 3
4. A minor in biology, chemistry, mathematics, or physics is highly recommended for placement in a teaching position.

Bachelor of Science: Geology
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.
2. Completion of the following required courses:
   - GEOL 111 Physical Geology 4
   - GEOL 112 Historical Geology 4
   - GEOL 121 Field Study 1
   - OR
   - GEOL 122 Field Study 2
   - GEOL 321 Geomorphology with Environmental Applications 4
   - GEOL 331 Mineralogy 4
   - GEOL 332 Optical Mineralogy 1
   - GEOL 334 Petrology 4
   - GEOL 336 Optical Petrology 1
   - GEOL 340 Introduction to Hydrogeology 4
   - GEOL 343 Sedimentology and Stratigraphy 4
   - GEOL 350 Field Excursion to the Texas Region 2
   - OR
   - GEOL 351 Field Excursion to the Arizona Region 2
   - OR
   - GEOL 352 Field Excursion to the Utah Region 2
   - GEOL 371 Structural Geology 4
   - GEOL 446 Field Methods 2
GEOL 495 Field Geology
GEOL 433 Environmental Geochemistry

3. Required support courses:
CHEM 131 General Chemistry
CHEM 131L General Chemistry Lab
CHEM 132 General Chemistry
CHEM 132L General Chemistry Lab
MATH 106 College Algebra
MATH 107 Trigonometry and Analytical Geometry
PHYS 225 College Physics I
PHYS 226 College Physics II

Minor in Geology
GEOL 111 Physical Geology
GEOL 112 Historical Geology
GEOL 121 Field Study 1
GEOL 122 Field Study 2
GEOL 35X Field Excursions
(Geol 350, 351, or 352)
GEOL 3XX Electives

The Mathematics Program offers four degree programs in mathematics and computer science: a bachelor of arts degree in mathematics, a bachelor of arts degree in mathematics with secondary teacher licensure, and bachelor of science degrees in mathematics with emphases in either computer science or physics. Students following the various degree programs may prepare themselves for teaching, positions in private industry or government, or for graduate study in mathematics, computer science, or an allied field.

Students in the department with an interest in physics or astronomy are encouraged to become involved with the Zacheis Planetarium and Observatory. The planetarium is the center for many physics projects. In the past, students have developed computer controls and have done work on various imaging and graphics problems.

Faculty
Aldrich, Astalos, Emmons, Gilchrist, Ikle, Jones, Miller, Morris, Nehring, Rudolph, Sellman, Weathers.

Department of Chemistry, Computer Science, and Mathematics

The Department of Chemistry, Computer Science, and Mathematics is a diverse department offering bachelor's degrees in chemistry, computer science, mathematics. We have interdisciplinary degree plans involving physics, as well as secondary licensure degrees, and some pre-professional program areas of studies. For more information regarding any of our disciplines or degree programs, visit us on the Web at http://www.adams.edu/academics/math.

The Chemistry Program offers the following degree programs: bachelor of arts degree in chemistry, bachelor of arts degree in chemistry (science education), bachelor of arts degree in chemistry for allied health professions, and bachelor of science degrees in chemistry, biochemistry, and chemical physics. The secondary teacher licensure program qualifies a student for a Colorado standard teaching license in science education. The department prepares chemistry majors for graduate schools, the medical or paramedical arts, industrial and government positions, and teaching.
Bachelor of Arts Degree Requirements

Bachelor of Arts: Chemistry

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.

2. Courses are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include:
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - CHEM 132 General Chemistry 4
   - CHEM 132L General Chemistry Lab 1
   - CHEM 321 Organic Chemistry 4
   - CHEM 321L Organic Chemistry Lab 1
   - CHEM 322 Organic Chemistry 4
   - CHEM 322L Organic Chemistry Lab 1
   - CHEM 331 Analytical Chemistry 3
   - CHEM 331L Analytical Chemistry Lab 2
   - CHEM 332 Analytical Chemistry 3
   - CHEM 332L Analytical Chemistry Lab 2
   - CHEM 401 Biochemistry Lecture/Thermodynamics 3
   - CHEM 401L Biochemistry I Lab 1
   - CHEM 402 Biochemistry II Lecture/Quantum Mechanics 3
   - CHEM 471 Chemistry Seminar 1
   - CHEM 472 Chemistry Seminar 1
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5

Either of the following mathematics sequences:
   - MATH 106 College Algebra 3
   - MATH 107 Trigonometry & Analytical Geometry 3
   OR
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5

Either of the following physics sequences:
   - PHYS 225 College Physics I 5
   - PHYS 226 College Physics II 5
   OR
   - PHYS 230 General Physics I 4
   - PHYS 231 General Physics I Lab 1
   - PHYS 232 General Physics II 4
   - PHYS 233 General Physics II Lab 1

3. A minor in biology is required.

Note: This degree is not appropriate for those planning a career in chemistry, but is intended for students entering professional school in the health professions.

Bachelor of Arts: Chemistry (Science Education) — Secondary Teacher Licensure

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses. In addition, students must satisfy the secondary teacher licensure requirements listed under the Department of Teacher Education.

2. Courses are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include:
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - CHEM 132 General Chemistry 4
   - CHEM 132L General Chemistry Lab 1
   - CHEM 321 Organic Chemistry 4
   - CHEM 321L Organic Chemistry Lab 1
   - CHEM 322 Organic Chemistry 4
   - CHEM 322L Organic Chemistry Lab 1
   - CHEM 331 Analytical Chemistry 3
   - CHEM 331L Analytical Chemistry Lab 2
   - CHEM 332 Analytical Chemistry 3
   - CHEM 332L Analytical Chemistry Lab 2
   - CHEM 401 Biochemistry Lecture/Thermodynamics 3
   - CHEM 401L Biochemistry I Lab 1
   - CHEM 402 Biochemistry II Lecture/Quantum Mechanics 3
   - CHEM 471 Chemistry Seminar 1
   - CHEM 472 Chemistry Seminar 1
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5

Either of the following mathematics sequences:
   - MATH 106 College Algebra 3
   - MATH 107 Trigonometry & Analytical Geometry 3
   OR
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5

Either of the following physics sequences:
   - PHYS 225 College Physics I 5
   - PHYS 226 College Physics II 5
   OR
   - PHYS 230 General Physics I 4
   - PHYS 231 General Physics I Lab 1
   - PHYS 232 General Physics II 4
   - PHYS 233 General Physics II Lab 1

3. A minor in biology is required.

Note: This degree is not appropriate for those planning a career in chemistry, but is intended for students entering professional school in the health professions.

Bachelor of Arts: Chemistry for Allied Health Professions

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.

2. Courses in chemistry are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include:
   - CHEM 334 Environmental Chemistry 2
   - CHEM 334L Environmental Chemistry Lab 1
CHEM 322L Organic Chemistry Lab 1
CHEM 331 Analytical Chemistry 3
CHEM 331L Analytical Chemistry Lab 2
CHEM 332 Analytical Chemistry 3
CHEM 332L Analytical Chemistry Lab 2
CHEM 334 Environmental Chemistry 2
CHEM 334L Environmental Chemistry Lab 1
(or other Environmental course approved by Coordinator)
CHEM 431 Physical Chemistry Lecture/Thermodynamics 3
CHEM 471 Chemistry Seminar 1
CHEM 472 Chemistry Seminar 1
MATH 120 Single Variable Calculus I 5
PHYS 225 College Physics I 5
PHYS 226 College Physics II 5
SCI 156 Integrated Science II: Natural Science 4
ED 350 Methods in Secondary Science and Mathematics 3

The following course is highly recommended:
CHEM 461 Inorganic Chemistry 3

Note: The program of study is very specific requiring close counseling with your advisor to assure timely graduation.

Bachelor of Science Degree Requirements

Bachelor of Science: Chemistry
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.
2. Courses are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include:
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - CHEM 132 General Chemistry 4
   - CHEM 132L General Chemistry Lab 1
   - CHEM 321 Organic Chemistry 4
   - CHEM 321L Organic Chemistry Lab 1
   - CHEM 322 Organic Chemistry 4
   - CHEM 322L Organic Chemistry Lab 1
   - CHEM 331 Analytical Chemistry 3
   - CHEM 331L Analytical Chemistry Lab 2
   - CHEM 332 Analytical Chemistry 3
   - CHEM 332L Analytical Chemistry Lab 2
   - CHEM 431 Physical Chemistry Lecture/Thermodynamics 3
   - CHEM 432 Physical Chemistry Lecture/Quantum Mechanics 3
   - CHEM 433 Physical Chemistry Lab 2
   - CHEM 434 Physical Chemistry Lab 2
   - CHEM 471 Chemistry Seminar 1
   - CHEM 472 Chemistry Seminar 1
   - One of the following two chemistry sequences:
     - CHEM 401 Biochemistry/lab 4
     - CHEM 402 Biochemistry II 3
   - OR
     - CHEM 461 Inorganic Chemistry 3
     - CHEM 462 Inorganic Chemistry 2
     - CHEM 462L Inorganic Chemistry Lab 1
     - MATH 120 Single Variable Calculus I 5
     - MATH 121 Single Variable Calculus II 5
   - One of the following two mathematics courses:
     - MATH 220 Multivariable Calculus 4
     - OR
     - MATH 327 Differential Equations 3
     - PHYS 230 General Physics I 4
     - PHYS 231 General Physics I Lab 1
     - PHYS 232 General Physics II 4
     - PHYS 233 General Physics II Lab 1
   - The following courses are recommended:
     - CHEM 216 Glassblowing 1
     - CHEM 424 Advanced Organic Chemistry 3
     - CHEM 445 Polymer Chemistry 3
     - CHEM 334 Environmental Chemistry 2
     - CHEM 334L Environmental Chemistry Lab 1
     - ECON 255 Principles of Economics I 3
     - MATH 321 Linear Algebra 3
     - PHYS 300 Electronics and Electrical Measurements 3

   Notes:
   - Students planning graduate work in chemistry should take CHEM 461, 462. Students planning graduate work in biochemistry or biology should take CHEM 401, 402. Taking both is highly recommended for students going to graduate school in either field.
   - For students oriented in the physical or theoretical areas of chemistry, both MATH 220 and 327 are recommended.

Bachelor of Science: Biochemistry
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.
2. Courses are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include:
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - CHEM 132 General Chemistry 4
   - CHEM 132L General Chemistry Lab 1
   - CHEM 321 Organic Chemistry 4
   - CHEM 321L Organic Chemistry Lab 1
   - CHEM 322 Organic Chemistry 4
   - CHEM 322L Organic Chemistry Lab 1
   - CHEM 331 Analytical Chemistry 3
   - CHEM 331L Analytical Chemistry Lab 2
   - CHEM 332 Analytical Chemistry 3
   - CHEM 332L Analytical Chemistry Lab 2
   - CHEM 431 Physical Chemistry Lecture/Thermodynamics 3
   - CHEM 432 Physical Chemistry Lecture/Quantum Mechanics 3
   - CHEM 433 Physical Chemistry Lab 2
   - CHEM 434 Physical Chemistry Lab 2
   - CHEM 471 Chemistry Seminar 1
   - CHEM 472 Chemistry Seminar 1
   - One of the following two chemistry sequences:
     - CHEM 401 Biochemistry/lab 4
     - CHEM 402 Biochemistry II 3
   - OR
     - CHEM 461 Inorganic Chemistry 3
     - CHEM 462 Inorganic Chemistry 2
     - CHEM 462L Inorganic Chemistry Lab 1
     - MATH 120 Single Variable Calculus I 5
     - MATH 121 Single Variable Calculus II 5
   - One of the following two mathematics courses:
     - MATH 220 Multivariable Calculus 4
     - OR
     - MATH 327 Differential Equations 3
     - PHYS 230 General Physics I 4
     - PHYS 231 General Physics I Lab 1
     - PHYS 232 General Physics II 4
     - PHYS 233 General Physics II Lab 1
   - The following courses are recommended:
     - CHEM 216 Glassblowing 1
     - CHEM 424 Advanced Organic Chemistry 3
     - CHEM 445 Polymer Chemistry 3
     - CHEM 334 Environmental Chemistry 2
     - CHEM 334L Environmental Chemistry Lab 1
     - ECON 255 Principles of Economics I 3
     - MATH 321 Linear Algebra 3
     - PHYS 300 Electronics and Electrical Measurements 3
CHEM 331 Analytical Chemistry 3
CHEM 331L Analytical Chemistry Lab 2
CHEM 332 Analytical Chemistry 2
CHEM 332L Analytical Chemistry Lab 2
CHEM 401 Biochemistry I 1
CHEM 401L Biochemistry I Lab 1
CHEM 402 Biochemistry II 3
CHEM 431 Physical Chemistry Lecture/Thermodynamics 3
CHEM 433 Physical Chemistry Lab 2
CHEM 471 Chemistry Seminar 1
CHEM 472 Chemistry Seminar 1
CHEM 476 Molecular Biology 4
MATH 120 Single Variable Calculus I 5
Either of the following physics sequences:
PHYS 225 College Physics I 5
PHYS 226 College Physics II 5
OR
PHYS 230 General Physics I 4
PHYS 231 General Physics I Lab 1
PHYS 232 General Physics II 4
PHYS 233 General Physics II Lab 1
Biol 203 General Biology 5
Biol 204 General Biology 5
Biol 321 Genetics 3
Biol 323 Cellular Biology 3
Biol 325 Cellular Biology/Genetics Lab 1
Biol 332 Evolution 3
1 semester of a 400 level biology or chemistry course not specified above 3-4

Bachelor of Science: Chemical Physics
Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper division courses.

Courses are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include

CHEM 131 General Chemistry 4
CHEM 131L General Chemistry Lab 1
CHEM 132 General Chemistry 4
CHEM 132L General Chemistry Lab 1
CHEM 321 Organic Chemistry 4
CHEM 321L Organic Chemistry Lab 1
CHEM 331 Analytical Chemistry 3
CHEM 331L Analytical Chemistry Lab 2
CHEM 332 Analytical Chemistry 3
CHEM 332L Analytical Chemistry Lab 2
CHEM 431 Physical Chemistry Lecture/Thermodynamics 3
CHEM 432 Physical Chemistry Lecture/Quantum Mechanics 3
CHEM 433 Physical Chemistry Lab 2
CHEM 434 Physical Chemistry Lab 2
CHEM 461 Inorganic Chemistry 3
CHEM 471 Chemistry Seminar 1
CHEM 472 Chemistry Seminar 1
PHYS 230 General Physics I 4
PHYS 231 General Physics I Lab 1
PHYS 232 General Physics II 4
PHYS 233 General Physics II Lab 1
PHYS 300 Electronics and Electrical Measurement 3
PHYS 302 Mechanics 4
PHYS 304 Electricity and Magnetism 4
PHYS 306 Modern Physics 4
MATH 120 Single Variable Calculus I 5
MATH 121 Single Variable Calculus II 5
MATH 220 Multivariable Calculus 4
MATH 327 Differential Equations 3

The following courses are highly recommended:
CHEM 322 Organic Chemistry 4
CHEM 322L Organic Chemistry Lab 1
CHEM 462 Inorganic Chemistry 2
CHEM 462L Inorganic Chemistry Lab 1

Elementary Education Licensure — Minor in Chemistry
Eighteen hours selected in consultation with the coordinator of the program. Either CHEM 111 or 131 may be selected, but not both courses.

Minor in Chemistry
Completion of at least 18 semester hours, including CHEM 131, 132 and a one year sequence of upper division chemistry. The minor must be approved by the coordinator of the chemistry program.

Bachelor of Science: Chemical Physics
Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper division courses.

Courses are to be selected by the student in consultation with the coordinator of the chemistry program and the advisor to include

CHEM 131 General Chemistry 4
CHEM 131L General Chemistry Lab 1
CHEM 132 General Chemistry 4
CHEM 132L General Chemistry Lab 1
CHEM 321 Organic Chemistry 4
CHEM 321L Organic Chemistry Lab 1
CHEM 331 Analytical Chemistry 3
CHEM 331L Analytical Chemistry Lab 2
CHEM 332 Analytical Chemistry 3
CHEM 332L Analytical Chemistry Lab 2
CHEM 431 Physical Chemistry Lecture/Thermodynamics 3
CHEM 432 Physical Chemistry Lecture/Quantum Mechanics 3
CHEM 433 Physical Chemistry Lab 2
CHEM 434 Physical Chemistry Lab 2
CHEM 461 Inorganic Chemistry 3
CHEM 471 Chemistry Seminar 1
CHEM 472 Chemistry Seminar 1
PHYS 230 General Physics I 4
PHYS 231 General Physics I Lab 1
PHYS 232 General Physics II 4
PHYS 233 General Physics II Lab 1
PHYS 300 Electronics and Electrical Measurement 3
PHYS 302 Mechanics 4
PHYS 304 Electricity and Magnetism 4
PHYS 306 Modern Physics 4
MATH 120 Single Variable Calculus I 5
MATH 121 Single Variable Calculus II 5
MATH 220 Multivariable Calculus 4
MATH 327 Differential Equations 3

The following courses are highly recommended:
CHEM 322 Organic Chemistry 4
CHEM 322L Organic Chemistry Lab 1
CHEM 462 Inorganic Chemistry 2
CHEM 462L Inorganic Chemistry Lab 1

Elementary Education Licensure — Minor in Chemistry
Eighteen hours selected in consultation with the coordinator of the program. Either CHEM 111 or 131 may be selected, but not both courses.

Minor in Chemistry
Completion of at least 18 semester hours, including CHEM 131, 132 and a one year sequence of upper division chemistry. The minor must be approved by the coordinator of the chemistry program.

Bachelor of Arts Degree Requirements

Bachelor of Arts: Mathematics
1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper-division courses.

2. Completion of the following required courses or their equivalents:
MATH 120 Single Variable Calculus I 5
MATH 121 Single Variable Calculus II 5
MATH 220 Multivariable Calculus 4
MATH 250 Introduction to Mathematical Thought 3
MATH 321 Linear Algebra 3
MATH 322 Algebraic Structures I 3
MATH 403 Senior Assessment 2
MATH 420 Advanced Analysis I 3

3. Plus a minimum of 9 credits selected from the following list:
MATH 323 Algebraic Structures II 3
MATH 327 Differential Equations 3
Students interested in pursuing a career teaching high school mathematics are strongly encouraged to consider the secondary licensure - Track 1 (above).

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper-division courses.

2. Completion of the secondary teacher licensure requirements listed under the Department of Teacher Education including ED 350 Methods in Secondary Science and Mathematics.

3. Completion of the following required courses or their equivalents:
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5
   - MATH 150 Liberal Arts Mathematics 3
   - MATH 205 Introduction to Statistical Methods 3
   - MATH 250 Introduction to Mathematical Thought 3
   - MATH 331 Modern Geometry 3
   - MATH 335 History of Mathematics 3
   - MATH 403 Senior Assessment 2

4. Plus a minimum of 6 credits selected from the following list, of which not more than one can be a computer programming course:
   - CSCI 150 Programming BASIC (currently using Visual Basic) 3
   - CSCI 208 Computer Science I 3
   - MATH 140 Geometry with Technology 3
   - MATH 210 C++ for Scientists and Engineers 3
   - MATH 220 Multivariable Calculus 3
   - MATH 321 Linear Algebra 3
   - MATH 322 Algebraic Structures I 3
   - MATH 327 Differential Equations 3
   - MATH 330 Numerical Analysis 3
   - MATH 340 Probability and Statistics 3
   - MATH 420 Advanced Analysis II 3
   - MATH 430 Complex Analysis 3

Note: Colorado does not grant licensure for the middle-school grades separate from high-school, and furthermore defines the term “highly qualified” (used in the No Child Left Behind Act) as 24 credits in a content area. This degree track exceeds the 24 credit “highly qualified” definition; it follows the suggestions set forth by the Mathematical Association of America (MAA) for prospective middle-school teachers (grades 6-8) and provides appropriate background for someone to meet the Colorado Model Content Standards for mathematics at the middle-school level. However, the coursework in this degree track does NOT provide sufficient background in several areas as described in the guidelines set forth by the MAA for preparing high school teachers (grades 9-12), nor does it meet the requirements for secondary licensure (mathematics) in

Bachelor of Arts: Mathematics — Secondary Teacher Licensure — Track 2

This degree track is designed to meet the needs of individuals interested in teaching mathematics at the middle-school level, and to increase the number of middle-school teachers with a strong mathematics background.

Bachelor of Arts: Mathematics — Secondary Teacher Licensure — Track 1

1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper division courses.

2. Completion of the secondary teacher licensure requirements listed under the Department of Teacher Education including ED 350 Methods in Secondary Science and Mathematics.

3. Students are strongly encouraged to select the following three courses as their upper division mathematics electives:
   - MATH 331 Modern Geometry 3
   - MATH 335 History of Mathematics 3
   - MATH 340 Probability and Statistics 3
all states (i.e., a traditional BA degree in mathematics). In summary, this degree track is designed to meet the needs of middle school teachers, provides adequate preparation for a high school teacher in a rural environment, and exceeds the 24 credit hours of content benchmark set by the state for secondary licensure in a content area.

Bachelor of Science Degree Requirements
Bachelor of Science: Mathematics — Computer Science
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper-division courses.
2. Completion of the following required courses or their equivalents:
   - CSCI 200 Discrete Concepts 3
   - CSCI 208 Computer Science I 4
   - CSCI 209 Computer Science II 4
   - CSCI 245 WWW Design and Programming 3
   - CSCI 250 Human-Computer Interaction 3
   - CSCI 301 Software Development and Professional Practice I 2
   - CSCI 302 Software Development and Professional Practice II 2
   - CSCI 308 Architecture and Operating Systems 3
   - CSCI 325 Algorithm Design and Analysis 3
   - CSCI 330 Al and Information 3
   - CSCI 345 Net-Centric Computing 3
   - CSCI 410 Computer Graphics and Multimedia 3
   - CSCI 445 Architecture for Networks & Communications 3
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5
   - MATH 220 Multivariable Calculus 4
   - MATH 250 Introduction to Mathematical Thought 3
   - MATH 321 Linear Algebra 3
   - MATH 322 Algebraic Structures I 3
   - MATH 340 Probability & Statistics 3
   - MATH 403 Senior Assessment 2

Note: For students who plan to pursue graduate studies in computer science, PHYS 300 Electronics and Electrical Measurements is strongly recommended. Also, CSCI 302 must be completed during the May summer session of odd years.

Bachelor of Science: Mathematics — Physics Emphasis
1. Completion of the general studies requirements for the bachelor of science degree including a total of 120 hours of acceptable coursework, 42 hours of which must be in upper-division courses.
2. Completion of the following course requirements:
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - CHEM 132 General Chemistry 4
   - CHEM 132L General Chemistry Lab 1
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5
   - MATH 220 Multivariable Calculus 4
   - MATH 321 Linear Algebra 3
   - MATH 327 Differential Equations 3
   - MATH 330 Numerical Analysis 3
   - MATH 403 Senior Assessment 2
   - PHYS 230 General Physics I 4
   - PHYS 231 General Physics I Lab 1
   - PHYS 232 General Physics II 4
   - PHYS 233 General Physics II Lab 1
   - PHYS 244 Electric Circuits 3
   - PHYS 300 Electronics and Electrical Measurement 3
   - PHYS 302 Mechanics 4
   - PHYS 304 Electricity and Magnetism 4
   - PHYS 306 Modern Physics 4

Plus one of the following courses:
   - CSCI 208 Computer Science I 4
   - MATH 210 C++ for Scientists & Engineers 3

Minors Requirements
Minor in Mathematics
   - MATH 120 Single Variable Calculus I 5
   - MATH 121 Single Variable Calculus II 5
   - MATH 220 Multivariable Calculus 4
   - MATH 250 Introduction to Mathematical Thought 3
   - MATH XXX Electives approved by the department chair 3

Minor in Communications Technology
This interdisciplinary minor is a good choice for a student not in computer science, but interested in building and maintaining Web sites. The minor requires the following core:
   - CSCI 150 Programming in BASIC (currently using Visual Basic) 3
   - CSCI 208 Computer Science I 4
   - CSCI 245 WWW Design and Programming 3
   - CSCI 250 Human-Computer Interaction 3
   - CSCI 320 Advanced Internet 3
   - CSCI XXX Electives approved by the department chair 3

Minor in Computer Science
   - CSCI 200 Discrete Concepts 3
   - CSCI 208 Computer Science I 4
   - CSCI 209 Computer Science II 4
   - CSCI XXX Electives approved by the department chair 9
Minor in Physics
Candidates for the minor in physics are required to take the following course work:
- PHYS 230 General Physics I 4
- PHYS 231 General Physics I Lab 1
- PHYS 232 General Physics II 4
- PHYS 233 General Physics II Lab 1
- PHYS 306 Modern Physics 4
- PHYS XXX Electives approved by the department chair 4

General Science Degree Requirements
Bachelor of Arts: Interdisciplinary Studies — General Science Secondary Teacher Licensure
1. Completion of the general studies requirements for the bachelor of arts degree including a total of 120 hours of acceptable course work, 42 hours of which must be in upper division courses.
2. Completion of the secondary teacher licensure requirements listed under the Department of Teacher Education including ED 350 Methods in Secondary Science and Mathematics.
3. Completion of the following required courses or their equivalents:
   - BIOL 203 General Biology 5
   - BIOL 204 General Biology 5
   - BIOL 321 Genetics 3
   - BIOL 332 Evolution 3
And either:
   - BIOL 323 & 325 Cellular Biology and Lab 4
   OR
   - BIOL 330 Ecology 4
   - CHEM 131 General Chemistry 4
   - CHEM 131L General Chemistry Lab 1
   - CHEM 132 General Chemistry 4
   - CHEM 132L General Chemistry Lab 1
   - CHEM 321 Organic Chemistry 4
   - CHEM 321L Organic Chemistry Lab 1
   - CHEM 331 Analytical Chemistry 4
   - CHEM 331L Analytical Chemistry Lab 1
   - GEOL 111 Physical Geology 4
   - GEOL 112 Historical Geology 4
And one of the following courses:
   - GEOL 321 Geomorphology 4
   - GEOL 331 Mineralogy 4
   - GEOL 340 Intro to Hydrology 4
   - GEOL 343 Sedimentology 4
   - GEOL 371 Structural Geology 4
Either of the following combinations:
   - PHYS 225 & 226 College Physics 10
   - PHYS 230, 231, 232 & 233 General Physics 10

Note: Due to mathematics prerequisites in some of the science courses, students would need to complete MATH 106, 107 or 120 as their general education mathematics course.

Minor in General Science
Eighteen credit hours from the following list in consultation with the department chair of Chemistry, Computer Science, and Mathematics.
- BIOL 203 General Biology 5
- CHEM 111 Introductory Chemistry 4
- CHEM 111L Introductory Chemistry Lab 1
- GEOL 111 Physical Geology 4
- PHYS 210 Introduction to Astronomy 4
- PHYS 225 College Physics I 5

Pre-Professional and Allied Health Programs Degree Requirements
Pre-Dentistry
It is recommended students prepare for professional school admittance in dentistry by completing the B.S. (cellular and molecular biology) degree in biology or the B.S. (biochemistry) degree in chemistry prior to application for dental school admission. Most dental schools require the courses listed below. Be aware prerequisites vary among dental schools. What follows is typical of the minimum prerequisites. Early consultation with the pre-dental advisor is recommended to plan a program. Some upper-division courses have prerequisites not listed below.
- BIOL 203 General Biology 5
- BIOL 204 General Biology 5
- BIOL 321 Genetics 3
- BIOL 323 Cellular Biology 3
- BIOL 332 Evolution 3
- BIOL 407 Comparative Animal Physiology 4
- BIOL 411 Comparative Anatomy 4
- CHEM 131 General Chemistry 4
- CHEM 131L General Chemistry Lab 1
- CHEM 132 General Chemistry 4
- CHEM 132L General Chemistry Lab 1
- CHEM 321 Organic Chemistry 4
- CHEM 321L Organic Chemistry Lab 1
- CHEM 332 Organic Chemistry 4
- CHEM 332L Organic Chemistry Lab 1
- CHEM 322 Organic Chemistry 4
- CHEM 322L Organic Chemistry Lab 1
- MATH 106 College Algebra 3
- MATH 107 Trigonometry and Analytic Geometry 3
- PHYS 225 College Physics I 5
- PHYS 226 College Physics II 5
- ECON 255 Principles of Economics 3
- ENG 101 Communication Arts I 3
- ENG 102 Communication Arts II 3
- ENG 103 Major Themes in Literature 3
- SPCH 100 Speech Fundamentals 3
- Approved sequence in fine arts/humanities 6

Pre-Engineering (Recommended Curriculum)
Colorado School of Mines, Colorado State University, and the University of Colorado will
Adams State College offers a variety of courses that will prepare students for entry into one of the many bachelor's degree (BSN) granting nursing programs in the state and in the region. The specific requirements for each program vary widely and sometimes include courses not offered at Adams State or offered only through distance-learning arrangements with other institutions. Students interested in completing a degree-based nursing program should consult the regional Colorado Nursing Task Force coordinator (719-598-4977) and the Adams State nursing advisor to choose an appropriate program. After this choice is made, an appropriate two-year Adams State pre-nursing course of study can be designed. The following Adams State courses are typical of

**Pre-Medicine**

Admission to postgraduate professional training in medicine is extremely competitive. As a rule, students can seek admission having earned a degree in any of a variety of disciplines, as long as specific courses have been completed as part of the program. Most medical schools require the courses listed below. Some medical schools have additional prerequisites. It is recommended that students complete a B.S. degree in biology (cellular and molecular biology) or a B.S. degree in chemistry (biochemistry). It is highly recommended that students consult with the Adams State pre-medical advisor early in their program for information and schedule planning.

- BIOL 203 General Biology
- BIOL 204 General Biology
- CHEM 131 General Chemistry
- CHEM 131L General Chemistry Lab
- CHEM 132 General Chemistry
- CHEM 132L General Chemistry Lab
- CHEM 321 Organic Chemistry
- CHEM 321L Organic Chemistry Lab
- CHEM 322 Organic Chemistry
- CHEM 322L Organic Chemistry Lab
- CHEM 132 General Chemistry
- CHEM 132L General Chemistry Lab
- CHEM 321 Organic Chemistry
- CHEM 321L Organic Chemistry Lab
- CHEM 322 Organic Chemistry
- CHEM 322L Organic Chemistry Lab
- ENG 101 Communication Arts I
- ENG 102 Communication Arts II
- ENG 203 Major Themes in Literature
- MATH 106 College Algebra
- MATH 107 Trigonometry and Analytic Geometry
- PHYS 225 College Physics I
- PHYS 226 College Physics II
- PHYS 225 College Physics I
- PHYS 226 College Physics II
- PHYS 327 Differential Equations
- PHYS 243 Dynamics
- PHYS 244 Electric Circuits
- **Approved electives in fine arts/humanities or history/government**

**Technical electives depend on the choice of major and the engineering program. The selection of electives should be made after consulting with a pre-engineering advisor to ensure proper transfer of credit. Common choices include:**

- Chem 132 General Chemistry and Geol 111 Physical Geology.
- **Humanities and social science electives are dependent on the intended major. Students should consult with their pre-engineering advisor before selecting these courses. Possible courses include Econ 255 Principles of Economics I, AR 103 Art Awareness, Psyc 106 General Psychology, and courses in English literature, foreign languages, history, music, and philosophy.**

**Pre-Nursing**

Adams State College offers a variety of courses that will prepare students for entry into one of the many bachelor's degree (BSN) granting nursing programs in the state and in the region. The specific requirements for each program vary widely and sometimes include courses not offered at Adams State or offered only through distance-learning arrangements with other institutions. Students interested in completing a degree-based nursing program should consult the regional Colorado Nursing Task Force coordinator (719-598-4977) and the Adams State nursing advisor to choose an appropriate program. After this choice is made, an appropriate two-year Adams State pre-nursing course of study can be designed. The following Adams State courses are typical of...
requirements for entry into a bachelor's degree program in nursing.

- BIOL 205 Human Anatomy and Physiology 4
- BIOL 206 Human Anatomy and Physiology 4
- BIOL 125 Nutrition 2
- BIOL 215 Microbiology for Non-Majors 4
- CHEM 111 Introductory Chemistry 4
- CHEM 111L Introductory Chemistry Lab 1
- CHEM 112 Introductory Organic and Biological Chemistry 4
- CHEM 112L Intro Organic and Biological Chemistry Lab 1
- ENG 101 Communication Arts I 3
- ENG 102 Communication Arts II 3
- MATH 205 Introduction to Statistical Methods 3
- PSYC 101 Introduction to Psychology 3
- PSYC 204 Child Development 3
- PSYC 205 Adolescent and Adult Development 3
- SOC 201 Introduction to Sociology 3
- Approved courses in fine arts/humanities 3
- Approved courses in: history, economics, or political science 3

Pre-Optometry
Adams State College offers pre-professional training to prepare students for admission to optometry schools. Typically, these institutions admit students who have completed a bachelor's degree. It is recommended that students plan to complete either the BS degree in biology (cellular and molecular biology) or BS degree in chemistry (biochemistry), with attention to the completion of the following suggested course list. Prerequisites vary among optometry schools. Students should check with the schools for specific requirements, preferably early in their undergraduate career.

Students should consult with the Adams State pre-optometry advisor early in their program for information and schedule planning.

- BIOL 205 Human Anatomy and Physiology 4
- BIOL 206 Human Anatomy and Physiology 4
- BIOL 215 Microbiology for Non-Majors 4
- CHEM 111 Introductory Chemistry 4
- CHEM 111L Introductory Chemistry Lab 1
- CHEM 112 Introductory Organic and Biological Chemistry 4
- CHEM 112L Intro Organic and Biological Chemistry Lab 1
- ENG 101 Communication Arts I 3
- ENG 102 Communication Arts II 3
- MATH 205 Introduction to Statistical Methods 3
- PSYC 101 Introduction to Psychology 3
- PSYC 204 Child Development 3
- PSYC 205 Adolescent and Adult Development 3
- SOC 201 Introduction to Sociology 3
- Approved courses in fine arts/humanities 3
- Approved courses in: history, economics, or political science 3

Either of the following sequences in physics:
- Phys 225 College Physics I 5
- Phys 226 College Physics II 5
- OR
  - PHYS 230 General Physics I 4
  - PHYS 231 General Physics I Lab 1
  - PHYS 232 General Physics II 4
  - PHYS 233 General Physics II Lab 1
  - PSYC 101 Introduction to Psychology 3
  - SOC 201 The Sociological Imagination 3

Pre-Pharmacy
Adams State College offers pre-professional training to prepare students for admission to pharmacy school. A minimum of two years, but typically three years, of study is required. Students apply to the pharmacy school(s) of their choice towards the end of the fall semester of their sophomore or junior year. Most pharmacy schools now offer only the doctor of pharmacy degree (Pharm.D.), which requires four additional years of study after admission to the pharmacy school. As with all professional schools, admission to pharmacy school is competitive, and students must do well in their courses at Adams State in order to gain admission. All pharmacy schools require certain pre-professional courses, which students can take at Adams State, and some schools also require applicants to take the Pharmacy College Admission Test (PCAT). Early in the first year at Adams State, students should check specific requirements for the pharmacy schools to which they plan to apply and should meet with the pre-pharmacy advisor to help plan an appropriate program of study.

Core science and mathematics courses required for most programs:

- CHEM 131 General Chemistry 4
- CHEM 131L General Chemistry Lab 1
- CHEM 132 General Chemistry 4
- CHEM 132L General Chemistry Lab 1
- CHEM 321 Organic Chemistry 4
- CHEM 321L Organic Chemistry Lab 1
- CHEM 322 Organic Chemistry 4
- CHEM 322L Organic Chemistry Lab 1
- BIOL 203 General Biology 5
- BIOL 204 General Biology 5
- BIOL 205 Human Anatomy and Physiology 4
- OR
  - BIOL 215 Microbiology for Non-Majors and Lab 5
  - MATH 120 Single Variable Calculus I 5
  - PHYS 225 College Physics I 5

Notes: Some schools require two semesters of anatomy and physiology. Some schools require the human anatomy be cadaver based, which is not available at Adams State.
Students who are not prepared to start calculus during their first year should plan to take Math 106 and 107 before Math 120. Some schools require 2 semesters of calculus. Some schools also require Math 205 Statistics.

Some schools require 2 semesters of physics.

Other pre-professional courses required for most programs:

- ENG 101 Communication Arts I 3
- ENG 102 Communication Arts II 3
- ECON 255 Principles of Economics I 3
- SPCH 100 Speech Fundamentals 3
- One course in Psychology, Sociology, or History 3
- Social science and humanities electives 9-15

All schools require some degree of proficiency with computer technology.

Pre-Physical Therapy
A physical therapy degree is an advanced degree program offered at selected universities. Some programs are at the master’s degree level, but many are at the doctorate level. All require a bachelor's degree with a minimum G.P.A. of 3.0 (average acceptance G.P.A. of 3.5) and a GRE score higher than 1,500 (with a minimum of 500 in each section) for admission. In addition, most require a minimum number of hours working with a physical therapist. The bachelor’s degree may be in any major, but a set of core courses in the sciences and other disciplines is required. Often, a list of recommended courses is suggested. Students must check with the schools to which they will apply for specific requirements, preferably early in their undergraduate career, because of the wide diversity of requirements. This will facilitate scheduling of the required courses along with major and general education requirements.

Core science and math courses required for many programs include:

- BIOL 203 General Biology 5
- BIOL 321 Genetics 3
- BIOL 406 Comparative Animal Physiology 4
- CHEM 131 General Chemistry 4
- CHEM 131L General Chemistry Lab 1
- CHEM 132 General Chemistry 4
- CHEM 132L General Chemistry Lab 1
- MATH 106 College Algebra 3
- MATH 107 Trigonometry and Analytic Geometry 3
- PHYS 225 College Physics I 5
- PHYS 226 College Physics II 5
- PSYC 101 Introduction to Psychology 3

Other courses that may be required or recommended:

- BIOL 125 Nutrition 2
- CHEM 321 Organic Chemistry 4
- CHEM 321L Organic Chemistry Lab 1
- CHEM 401 Biochemistry I 3
- CHEM 401L Biochemistry I Lab 1
- HPPE 226 Exercise Physiology 2
- HPPE 340 Kinesiology 3
- MATH 205 Introduction to Statistical Methods 3
- PSYC 204 Child Development 3
- PSYC 205 Adolescent and Adult Development 3
- PSYC 430 Abnormal Psychology 3
- SOC 201 The Sociological Imagination 3

*Most schools require General Chemistry but some will allow Chem 111 and 112, Introductory Chemistry.

Math 106 and 107 are pre- or corequisites for General Chemistry and College Physics. A sufficiently high score on the mathematics portion of the ACT or SAT may waive these particular math requirements, but you need to take one math course as part of your general education requirements.

Pre-Physician Assistant
Admission to physician assistant programs is extremely competitive, roughly equivalent to admission to medical school. Students may seek admission having earned a degree in any of a variety of disciplines, as long as specific courses have been completed as part of the program. The following are the specific course requirements for admission to the University of Colorado Child Health Associate/Physician Assistant Program. We recommend students complete a BS degree in biology (cellular and molecular biology) and seek consultation with the appropriate advisor. Some upper-division courses have prerequisites not listed below.

- BIOL 203 General Biology 5
- BIOL 204 General Biology 5
- BIOL 321 Genetics 3
- BIOL 406 Comparative Animal Physiology 4
- CHEM 131 General Chemistry 4
- CHEM 131L General Chemistry Lab 1
- CHEM 132 General Chemistry 4
- CHEM 132L General Chemistry Lab 1
- MATH 205 Introduction to Statistical Methods 3
- PSYC 211 Introduction to Statistics 3
- PSYC 101 Introduction to Psychology 3
- PSYC 204 Child Development 3
- Upper division science

90 • Adams State College • Undergraduate Catalog 2007–2008
Graduate Record Examination (GRE) and the GRE Writing Assessment are also required.

Pre-Veterinary Medicine
Students should prepare for admittance to professional schools in veterinary medicine by completing a B.S. degree in biology (cellular and molecular biology) or a B.S. degree in chemistry (biochemistry) prior to application for veterinary school admission. Veterinary schools often list minimum course requirements for admission. What follows is typical of these minimum course lists. Students are strongly urged to consult as early as possible with the biology pre-veterinary advisor to plan a program. Some upper-division courses have prerequisites not listed below.

Plus additional, required general education courses.

Other Health-Related Careers
Recommended curriculum patterns are available from the Allied Health Advisory Committee for hospital administration, pre-podiatry, and pre-chiropractic programs.

Nursing
The Bachelor of Science in Nursing Program is an RN-to-BSN completion program. It serves as an instrument for advancing the nursing practice of registered nurses. The RN to BSN education will result in increased nursing professionalism and a higher quality of nurse-delivered health care, especially in a rural setting. The program is composed of courses and field experiences that will provide registered nurses with added knowledge and the development of higher level thought processes. The resulting maturation will allow integration of current health care models and evidence based practice to the daily delivery of nursing care.

Faculty
Jojola, Elliott, and Beck, Sahud

Bachelor of Science in Nursing
1. Proof of RN licensure program summary:
   • 30 hours in the major
   • 60 or 63 hours in supporting courses/general education
   • 30 hours credit for the RN
   • 120 minimum hours for the degree, 39 of which must be upper division hours
2. Completion of the following (as indicated):
   Communication (6 credit hours required)
   ENG 101 Communication Arts I 3
   ENG 102 Communication Arts II 3
   Social and Behavioral Sciences (9 or 12 credit hours required)
   PSYC 101 General Psychology 3
   PSYC 204 Child Development 3
   PSYC 205 Adolescent and Adult Development 3
   PSYC 233 Lifespan Development for Nurses 3

   (instead of the combination Psyc 204 & 205)
   SOC 201 The Sociological Imagination 3

   History Courses (3 credit hours required)
   HGP 110 Development of Civilization 3
   HGP 111 Development of Civilization 3
   HIST 202 American History to 1865 3
   HIST 203 American History 1865 to present 3

   Arts and Humanities (6 credit hours required)
   (courses must be from different areas)
   AR 103 Art Appreciation 3
   ENG 203 Major Themes in Literature 3
   MUS 100 Introduction to Music Literature 3
   THTR 180 Introduction to Theatre 3
   Quantitative Thinking (7 credit hours required)
   (of which 4 must be PSYC 211)
   PSYC 211 Intro. to Statistics (with lab) 4
   MATH 104 Finite Mathematics 3
   MATH 106 College Algebra 3
   MATH 120 Single Variable Calculus I 5
MATH 150 Liberal Arts Mathematics 3
Science Foundations & Issues (19 credit hours required)
  BIOL 125 Nutrition 2
  BIOL 205 Anatomy & Physiology I 4
  BIOL 206 Anatomy & Physiology II 4
  BIOL 182 Micro for Non-majors 4
  CHEM 111 Introductory Chemistry with Lab 5
Required Course (3 Credit Hours)
  SPCH 100 Speech Fundamentals 3
Other courses needed for BSN Degree (7 credit hours) (prerequisites for nursing program)
  NURS 301 Pharmacology 3
  NURS 305 Pathophysiology 4
3. Nursing Courses (must be admitted to the nursing program to take):
  NURS 310 Nursing Theory 2
  NURS 320 Health Care Ethics 2
  NURS 330 Nursing Management I (lecture) 3
  NURS 340 Nursing Management II (field) 3
  NURS 350 Rural Health Care 2
  NURS 360 Service Learning I (field) 1
  NURS 370 Service Learning II (field) 1
  NURS 410 Nursing Research 3
  NURS 430 Health Assessment Across the Lifespan 4
  NURS 440 Professional Practice 3
  NURS 460 Community Health I (lecture) 3
  NURS 470 Community Health II (field) 2
  NURS 480 Senior Seminar 1

Women’s Studies Minor
The minor in women’s studies is an interdisciplinary program designed to examine the position of women in culture and society, to integrate a new understanding of women into traditional academic fields, and to heighten the student’s awareness of the range of human experience, potential, and accomplishment. Other related courses in consultation with the women’s studies advisor (chair of the Department of ETCFL) may be substituted.

Requirements: Students must take 18 semester hours, approved by the advisor and the department head, from the following list of courses:
Many special topics courses (numbered 379) can be approved by the department chair.

Required Course
  *WS 201 Introduction to Women’s Studies
Electives
  AR 367 Women in Art History 3
  ENG 385 Women and Literature 3
  GOVT 393 Women, Politics, and Culture 3
  HIST 320 History of American Women 3
  PSYC 360 Psychology of Gender 3
  SOC 318 Race, Class and Gender 3
  SOC 419 Gender Roles in Society 3
  THTR 255 Women and Drama 3
  *WS 201 Introduction to Women’s Studies 3
*Required of all minors, who are advised to take the course early in their studies.

Division of Library Science
www.library.adams.edu
The Nielsen Library provides for the selection, acquisition, cataloging, classification, storage, and retrieval of information published in a variety of print and non-print formats. The Nielsen Library offers an introductory research course teaching students how to effectively use its resources and services for academic work and lifelong learning.

Nielsen Library Staff
http://www.adams.edu/library/staff/staff.php
Dianne Machado, Director; Glenda Geu, Systems and Automation Librarian; David Goetzman, Cataloging and Circulation Librarian; Brooke Phillips, Instruction and Reference Librarian; Mary Walsh; Reference Services Coordinator; Debra West, Interlibrary Loan and Distance Librarian; Murleen Goodrich, Library Technician; Karen Melgares, Library Technician; Evelyn Rizzi, Library Technician.
Course Offerings

ANTH 179 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ANTH 192 - Workshops
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ANTH 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

ANTH 201 — Introduction to Anthropology
Credit Hours: 3.00
The course will examine the field of anthropology. The concept of culture will be introduced as an overarching approach to understanding human behavior that draws on the other social and behavioral sciences. Introductory discussions of physical (biological) anthropology, archeology, and anthropological linguistics will precede a more in-depth examination of cultural anthropology.
Prerequisites: none

ANTH 205 — Physical Anthropology
Credit Hours: 3.00
The course will examine physical anthropology as a sub discipline of anthropology. The goal is to understand how the physical realities of being human affects the nature of culture. The central theme will be the evolution of humans from the earliest hominid forms to modern Homo sapiens. The course will focus on the mechanisms of evolution, an understanding of primate behavior in general, and the fossil evidence for hominid development.
Prerequisites: none

ANTH 234 — Southwestern Archeology
Credit Hours: 3.00
Development of tribes of the Gran Chichimeca northern Mexico and southwestern United States.
Prerequisites: none

ANTH 279 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ANTH 285 — Folklore and Women
Credit Hours: 3.00
This course focuses on women's folk traditions in terms of life cycle and role and explores the range of women's occupations and related traditional knowledge. Looks at women as traditional, verbal, visual, or musical artists.
Prerequisites: none

ANTH 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ANTH 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

ANTH 300 — Archaeology
Credit Hours: 3.00
This course will provide an overview of archaeological method and theory, with a particular emphasis on American archaeology, and will provide a general survey of prehistory with an emphasis on the western United States.
Prerequisites: none

ANTH 310 — Anthropological Linguistics
Credit Hours: 3.00
After a general introduction to the nature of language (descriptive linguistics) the course will focus on human communication and the uses of language (psycholinguistics and sociolinguistics) and on the language cognition relationship (cognitive anthropology and symbolic anthropology).
Prerequisites: none

ANTH 320 — Southwestern Indians
Credit Hours: 3.00
Origin, social organization, and relations of southwestern Pueblo and non-Pueblo tribes.
Prerequisites: none

ANTH 339 — Field School in Archaeology
Credit Hours: 6.00
The purpose of this course is to provide students with the basic skills, and the theories from which they are derived, necessary to do archaeological
fieldwork. The student will learn basic techniques of site identification and recording, excavation, and artifact processing and analysis. In addition, they will learn instrument surveying and introductory applications of geographic information systems. The skills taught will be appropriate for either prehistoric or historic sites.

Prerequisites: none

**ANTH 349 — Internship in Museums**  
Credit Hours: 6.00  
This course provides the students with practical experience in the day-to-day operation and organizational and financial challenges of a small museum.

Prerequisites: none

**ANTH 379 — Special Topics**  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.

Prerequisites: none

**ANTH 392 — Workshop**  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**ANTH 399 — Individual Studies**  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field.  
By faculty permission and approval of the department head.

Prerequisites: none

**ANTH 479 — Special Topics**  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.

Prerequisites: none

**ANTH 492 — Workshop**  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**ANTH 499 — Individual Studies**  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field.  
By faculty permission and approval of the department chair.

Prerequisites: none

---

**AR 103 — Art Appreciation GT-SS3**  
Credit Hours: 3.00  
Satisfies part of the humanities requirement. An introduction to art appreciation that provides a foundation in the basic concepts, materials, and processes of the visual arts, as well as a brief history of art.

Prerequisites: none

**AR 105 — Intro to Art Criticism**  
Credit Hours: 3.00  
A course that introduces students to art criticism. Exercises in reading about art, observing art, talking and writing about art, and talking to artists will develop the student’s ability to articulate and critique a wide variety of artworks.

Prerequisites: none

**AR 179 — Special Topics**  
Credit Hours: 1.00 to 3.00  
Offered periodically to meet student special interests in the field.

Prerequisites: none

**AR 192 — Workshop**  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**AR 199 — Individual Studies**  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field.  
By faculty permission and approval of the department chair.

Prerequisites: none

**AR 206 — Design 2D**  
Credit Hours: 3.00  
A foundation studio course for two-dimensional design fundamentals.

Prerequisites: none

**AR 207 — Design/3D**  
Credit Hours: 3.00  
An introduction to three-dimensional design concepts and sculptural form.

Prerequisites: none

**AR 208 — Drawing**  
Credit Hours: 3.00  
Develop basic drawing skills using a variety of media and subject matter (models, still lifes, landscapes, etc.). An emphasis on composition, contour, gesture, value, and linear perspective.

Prerequisites: none
AR 209 — Beginning Drawing II
Credit Hours: 3.00
This course is a further exploration of drawing with emphasis on integrating the principles of drawing and design into a meaningful composition on a two-dimensional surface. Problems of color and spatial organization are also stressed. A variety of subject matter will be considered. Instructor permission may be obtained to register for this course.
Prerequisites: AR 208 Minimum Grade: C or T

AR 216 — Introduction to Art Education
Credit Hours: 3.00
This course is a study of art education as influenced by educational and philosophical developments throughout history as well as an exploration of current art education topics and approaches for teaching art in traditional and non-traditional settings. A background check must be completed through the Department of Teacher Education.
Prerequisites: Background check completed Score of: 1

AR 220 — Painting
Credit Hours: 3.00
Studio problems exploring characteristics and techniques of painting media with emphasis on color, form, and structure as related to the painting surface.
Prerequisites: none

AR 240 — Fiber
Credit Hours: 3.00
Exploration of fiber as a primary vehicle for artistic expression. Fiber techniques may include papermaking, bookmaking, weaving on multi-harness floor looms, tapestry and portable looms, surface design treatments such as direct painting, printing, stichery and resists such as batik. Fiber and fabric manipulation includes dyeing, sewing, construction, casting, armatures, spinning, and felting.
Prerequisites: none

AR 250 — Sculpture
Credit Hours: 3.00
Introduction to the basic tools and techniques of material manipulation with references to historical precedents as well as contemporary examples.
Prerequisites: none

AR 260 — Beginning Printmaking I
Credit Hours: 3.00
An introduction to basic black and white printmaking techniques using relief, collograph, and intaglio processes.
Prerequisites: none

AR 261 — Beginning Printmaking II
Credit Hours: 3.00
An introduction to basic black and white printmaking techniques using monotype and lithography processes.
Prerequisites: none

AR 270 — Ceramics
Credit Hours: 3.00
Basic techniques of studio ceramics, beginning handbuilding techniques and throwing, materials, slips, oxides, glazing, and firing.
Prerequisites: none

AR 279 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

AR 280 — Photography
Credit Hours: 3.00
A foundation course exploring the history and process of black and white photography as a medium for creative expression.
Prerequisites: none

AR 290 — Metals and Jewelry
Credit Hours: 3.00
Design and construction of ornamental metal emphasizing basic fabrication, surface treatments, forming for jewelry and sculpture.
Prerequisites: none

AR 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

AR 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

AR 301 — Typography
Credit Hours: 3.00
This course is intended primarily for art majors who chose graphic design as their area of emphasis. It is also open to any other art major or non-art major. This course will focus on a broad study of typography, its terminology, history and application in the field of graphic design.
Prerequisites: AR 206 Minimum Grade: C or T
AR 302 — Graphic Communications
Credit Hours: 3.00
A study of the techniques of computer graphic design, intended for non-art majors, concentrating on information design. Students learn InDesign software and work on design projects such as brochures and newsletters. Students also study social and political issues relating to graphic design.
Prerequisites: none

AR 306 — Design Problems
Credit Hours: 3.00
An advanced design class. Using Adobe Illustrator, students will study design concepts related to computer graphics, illustration and typography as well as historical traditions in graphic design.
Prerequisites: AR 206 Minimum Grade: C or T

AR 308 — Intermediate Drawing I
Credit Hours: 3.00
Emphasizing human anatomy for the artist; development of personal direction and characteristics.
Prerequisites: AR 209 Minimum Grade: C or T

AR 309 — Intermediate Drawing II
Credit Hours: 3.00
Emphasizing human anatomy for the artist; development of personal direction and characteristics.
Prerequisites: AR 308 Minimum Grade: C or T

AR 310 — Graphic Design I
Credit Hours: 3.00
An advanced study of the design relating to the work of the graphic designer. Students learn Adobe Photoshop software and work on advanced design projects such as book and CD covers, posters, corporate identity projects, and package design, etc.
Prerequisites: AR 302 Minimum Grade: C or T OR AR 306 Minimum Grade: C or T

AR 311 — Graphic Design II
Credit Hours: 3.00
An advanced study of the design relating to the work of the graphic designer. Students learn Photoshop software and work on advanced design projects such as book and CD covers, posters, corporate identity projects, and package design, etc.
Prerequisites: AR 310 Minimum Grade: C or T

AR 320 — Intermediate Painting I
Credit Hours: 3.00
Intermediate study of painting media with emphasis on perceptual abilities and personal expression.
Prerequisites: AR 220 Minimum Grade: C or T

AR 321 — Intermediate Painting II
Credit Hours: 3.00
Intermediate study of painting media with emphasis on perceptual abilities and personal expression.
Prerequisites: AR 320 Minimum Grade: C or T

AR 334 — Elem School Art Ed Methods
Credit Hours: 3.00
A course designed to explore the theoretical and practical approaches to implementing a program of art education for grades K-6. Emphasis is placed on strategies that will encourage a discipline-based art education model of instruction. Through hands-on involvement in various art media, students are given opportunities for creative problem solving. A background check must be completed through the Department of Teacher Education.
Prerequisites: AR 216 Minimum Grade: C or T and Background check completed Score of: 1

AR 335 — Sec School Art Ed Methods
Credit Hours: 3.00
In this advanced course of study, students are given the opportunity to explore more completely those professional practices utilized in the teaching of art in the secondary school. Through hands-on involvement in various media, students are given opportunities for creative problem solving. This course is intended for juniors and seniors. Freshmen and sophomores cannot enroll in this course. A background check must be completed through the Department of Teacher Education. This check must be completed before a student can do any field experience hours. Students must be enrolled in the Teacher Education Program before they can enroll in the Methods Course.
Corequisites: ED 416, ED 426, ED 429, ED 436L
Prerequisites: AR 334 Minimum Grade: C or T and Background check completed Score of: 1 and admitted to Teacher Education Preparation Program Score of: 1

AR 340 — Intermediate Fiber I
Credit Hours: 3.00
Further exploration of the expressive capability of fibers. More complex exploration of techniques surveyed in AR 240. Increased emphasis on skill, design and personal expression. Techniques explored will vary in spring and fall semesters; 2D and 3D solutions.
Prerequisites: AR 240 Minimum Grade: C or T
AR 341 — Intermediate Fiber II  
Credit Hours: 3.00  
Further exploration of the expressive capability of fibers. More complex exploration of techniques surveyed in AR 340. Increased emphasis on skill, design and personal expression. Techniques explored will vary in spring and fall semesters; 2D and 3D solutions.  
Prerequisites: AR 340 Minimum Grade: C or T

AR 350 — Intermediate Sculpture I  
Credit Hours: 3.00  
Continue to build on information regarding the tools and techniques of material manipulation with references to historical precedents as well as contemporary examples.  
Prerequisites: AR 250 Minimum Grade: C or T

AR 351 — Intermediate Sculpture II  
Credit Hours: 3.00  
Continue to build on information regarding the tools and techniques of material manipulation with references to historical precedents as well as contemporary examples.  
Prerequisites: AR 350 Minimum Grade: C or T

AR 360 — Intermediate Printmaking  
Credit Hours: 3.00  
Further exploration of printmaking using all processes. Emphasis on composition, media exploration, and color processes.  
Prerequisites: AR 260 Minimum Grade: C or T or AR 261 Minimum Grade: C or T

AR 364 — History of Art  
Credit Hours: 3.00  
Survey of architecture, painting, sculpture, and other visual art forms from prehistoric times through the middle ages.  
Prerequisites: none

AR 365 — History of Art  
Credit Hours: 3.00  
Survey of architecture, painting, sculpture, and other visual art forms of Early Renaissance to the 19th Century and of the East.  
Prerequisites: none

AR 366 — History of Art  
Credit Hours: 3.00  
Survey of architecture, painting, sculpture, and other visual art forms from the 19th century to the present.  
Prerequisites: none

AR 367 — Women Artists in Art History  
Credit Hours: 3.00  
A survey of women artists in the history of art from antiquity to the present.  
Prerequisites: none

AR 370 — Intermediate Ceramics I  
Credit Hours: 3.00  
Problems in utilitarian and non-utilitarian ceramic forms, ceramic materials, glaze composition, and combined techniques in clay.  
Prerequisites: AR 270 Minimum Grade: C or T

AR 371 — Intermediate Ceramics II  
Credit Hours: 3.00  
Problems in utilitarian and non-utilitarian ceramic forms, ceramic materials, glaze composition, and combined techniques in clay.  
Prerequisites: AR 370 Minimum Grade: C or T

AR 379 — Topics in Art  
Credit Hours: 1.00 to 3.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

AR 380 — Intermediate Photography I  
Credit Hours: 3.00  
Continued exploration of photography as an art medium with emphasis on expression and technique and with introductions to color, large format, and non-silver processes.  
Prerequisites: AR 280 Minimum Grade: C or T

AR 381 — Intermediate Photography II  
Credit Hours: 3.00  
Continued exploration of photography as an art medium with emphasis on expression and technique and with introductions to color, large format, and non-silver processes.  
Prerequisites: AR 380 Minimum Grade: C or T

AR 390 — Interm Metals and Jewelry I  
Credit Hours: 3.00  
Further study in metal manipulation, exploring raising holloware, casting techniques, and stone setting. Instructor permission may be obtained to register for this course.  
Prerequisites: AR 290 Minimum Grade: C or T

AR 391 — Interm Metals and Jewelry II  
Credit Hours: 3.00  
Further study in metal manipulation, exploring raising holloware, casting techniques, and stone setting. Instructor permission may be obtained to register for this course.  
Prerequisites: AR 390 Minimum Grade: C or T

AR 392 — Workshop  
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.

**AR 399 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**AR 410 — Advanced Drawing**
Credit Hours: 3.00
Advanced personal concepts, media experimentation, and aesthetics.
Prerequisites: AR 309 Minimum Grade: C or T

**AR 411 — Advanced Drawing II**
Credit Hours: 3.00
Exploration of drawing as a medium for expression with emphasis on developing a personal style. Progress towards developing a cohesive body of work.
Prerequisites: AR 410 Minimum Grade: C or T

**AR 422 — Advanced Painting I**
Credit Hours: 3.00
Advanced studio problems, emphasizing perceptual and conceptual abilities and personal expression as related to painting media.
Prerequisites: AR 321 Minimum Grade: C or T

**AR 423 — Advanced Painting II**
Credit Hours: 3.00
Advanced studio problems, emphasizing perceptual and conceptual abilities and personal expression as related to painting media.
Prerequisites: AR 422 Minimum Grade: C or T

**AR 442 — Advanced Fiber I**
Credit Hours: 3.00
Advanced problems in fibers. Concentration in weaving, paper and books, surface design and or fiber/fabric manipulation determined with the instructor. Personal expression and design execution emphasized.
Prerequisites: AR 341 Minimum Grade: C or T

**AR 443 — Advanced Fiber II**
Credit Hours: 3.00
Advanced problems in fibers. Concentration in weaving, paper and books, surface design and or fiber/fabric manipulation determined with the instructor. Personal expression and design execution emphasized. A single area of focus will be determined in consultation with the instructor.
Prerequisites: AR 442 Minimum Grade: C or T

**AR 452 — Advanced Sculpture I**
Credit Hours: 3.00
Advanced work in diverse materials.
Prerequisites: AR 351 Minimum Grade: C or T

**AR 453 — Advanced Sculpture II**
Credit Hours: 3.00
Advanced work in diverse materials.
Prerequisites: AR 452 Minimum Grade: C or T

**AR 462 — Advanced Printmaking I**
Credit Hours: 3.00
Emphasis on exploring the unique qualities of all printmaking processes and combining them as a means towards personal expression in the medium.
Prerequisites: AR 360 Minimum Grade: C or T

**AR 463 — Advanced Printmaking II**
Credit Hours: 3.00
Emphasis on exploring the unique qualities of all printmaking processes and combining them as a means towards personal expression in the medium.
Prerequisites: AR 462 Minimum Grade: C or T

**AR 472 — Advanced Ceramics I**
Credit Hours: 3.00
Advanced techniques: glaze calculation, kiln design and construction, and individual concepts in clay.
Prerequisites: AR 371 Minimum Grade: C or T

**AR 473 — Advanced Ceramics II**
Credit Hours: 3.00
Advanced techniques: glaze calculation, kiln design and construction, and individual concepts in clay.
Prerequisites: AR 472 Minimum Grade: C or T

**AR 479 — Topics in Art**
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**AR 484 — Advanced Photography I**
Credit Hours: 3.00
Advanced problems in photography, including readings in history of photography and explorations toward personal expression.
Prerequisites: AR 381 Minimum Grade: C or T

**AR 485 — Advanced Photography II**
Credit Hours: 3.00
Advanced problems in photography, including readings in history of photography and explorations toward personal expression.
Prerequisites: AR 484 Minimum Grade: C or T
AR 492 — Workshop  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

AR 494 — Adv Metals and Jewelry I  
Credit Hours: 3.00  
Advanced metal techniques in the production of functional and non-functional forms. Instructor permission may be obtained to register for this course.  
Prerequisites: AR 391 Minimum Grade: C or T

AR 495 — Adv Metals and Jewelry II  
Credit Hours: 3.00  
Advanced metal techniques in the production of functional and non-functional forms. Instructor permission may be obtained to register for this course.  
Prerequisites: AR 494 Minimum Grade: C or T

AR 497 — BFA Thesis  
Credit Hours: 9.00  
The BFA thesis will involve written research and the creation of a cohesive body of creative work in one of the major disciplines. Exhibition of representations of the creative work will be required in a group exhibition. A supporting paper that describes the body of work, its conceptual framework, artistic influences, and use of media contextualized within art history, must accompany the creative work. The supporting paper must be defended during the student’s final oral examination. This course requires instructor approval for registration purposes.  
Prerequisites: none

AR 498 — Professional Seminar  
Credit Hours: 3.00  
Designed to be the academic capstone experience for all students who have majored in art. In addition to satisfactory performance in the classroom, the student must participate in the senior exhibition and take the major field assessment examination. Required of all graduating seniors.  
Prerequisites: none

AR 499 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

BIED 320 — 1st/2nd Language Acquisition  
Credit Hours: 3.00  
Prerequisites: BIED 310 Minimum Grade: C or T and BIED 315 Minimum Grade: C or T

BIOL 112 — Human Anatomy  
Credit Hours: 4.00  
A lecture/laboratory course that uses the body-system approach to study the structure of the human body. Typically taken by EPLS students. Topics include gross anatomy, histology, the relationship between structure and function, and anatomical changes associated with disease processes. Course includes three hours of lecture and two hours of laboratory per week.  
Prerequisites: none

BIOL 112L — Human Anatomy Lab  
Credit Hours: 0.00  
Corequisites: BIOL 112  
Prerequisites: none

BIOL 125 — Nutrition  
Credit Hours: 2.00  
A study of the fundamentals of human nutrition with emphasis on the impact of diet on health. Topics include the chemical nature and physiological roles of nutrient groups, principles of weight control, nutritional requirements at different life stages, eating disorders, food safety, world hunger, and the role of nutrition in the prevention and treatment of disease. Course includes two hours of lecture per week.  
Prerequisites: none

BIOL 179 — Special Topics  
Credit Hours: 1.00 to 5.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

BIOL 192 — Workshop  
Credit Hours: 1.00 to 4.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

BIOL 199 — Individual Studies  
Credit Hours: 1.00 to 5.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of department chair.  
Prerequisites: none

BIOL 203 — General Biology GT-SC1  
Credit Hours: 5.00
A two-semester lecture/laboratory sequence introducing the fundamental principles of biology at the molecular, cellular, and organismal levels. General Biology is the foundation course for Biology majors and is prerequisite to all 300 and 400 level courses in Biology. Course includes 5 hours of lecture and 2 hours of laboratory per week. Corequisites: BIOL 203L
Prerequisites: none

BIOL 203L — General Biology Lab
Credit Hours: 0.00
Corequisites: BIOL 203
Prerequisites: none

BIOL 204 — General Biology GT-SC1
Credit Hours: 5.00
A two-semester lecture/laboratory sequence introducing the fundamental principles of biology at the molecular, cellular, and organismal levels. General Biology is the foundation course for Biology majors and is prerequisite to all 300 and 400 level courses in Biology. Course includes five hours of lecture and two hours of laboratory per week. Corequisites: BIOL 204L
Prerequisites: BIOL 203 Minimum Grade: C or T

BIOL 204L — General Biology Lab
Credit Hours: 0.00
Corequisites: BIOL 204
Prerequisites: (BIOL 203 Minimum Grade: C or T and BIOL 203L)

BIOL 205 — Human Anatomy & Physiology
Credit Hours: 4.00
A lecture/laboratory course that uses the body-system approach to study the structure and function of the human body. Recommended for pre-nursing and certain EPLS and allied health programs. Topics include gross anatomy, histology, cell function, regulation of body activities, and pathological changes in disease. Course includes three hours of lecture and one hour of recitation and two hours of laboratory per week. Corequisites: none

BIOL 205L — Human Anatomy & Physiology Lab
Credit Hours: 0.00
Corequisites: BIOL 205
Prerequisites: none

BIOL 206 — Human Anatomy & Physiology
Credit Hours: 4.00
A lecture/laboratory course that uses the body-system approach to study the structure and function of the human body. Recommended for pre-nursing
tation per week. Concurrent registration in BIOL 323 and BIOL 325 is recommended.
Prerequisites: (BIOL 203 Minimum Grade: C or T and BIOL 204 Minimum Grade: C or T and CHEM 111 Minimum Grade: C or T and CHEM 112 Minimum Grade: C or T OR CHEM 131 Minimum Grade: C or T and CHEM 132 Minimum Grade: C or T

BIOL 323 — Cellular Biology
Credit Hours: 3.00
The study of higher plant and animal cells and tissues at the biochemical level including: organelle structure, function, and metabolic role; cell growth, differentiation, and specialization; and a survey of instrumentation and methodologies for investigating life processes at the biochemical level. Course includes three hours of lecture per week. Concurrent registration in BIOL 321 and BIOL 325 is recommended.
Prerequisites: BIOL 203 Minimum Grade: C or T and BIOL 204 Minimum Grade: C or T and CHEM 111 Minimum Grade: C or T and CHEM 112 Minimum Grade: C or T OR CHEM 131 Minimum Grade: C or T and CHEM 132 Minimum Grade: C or T

BIOL 325 — Cellular Biology/Genetics Lab
Credit Hours: 1.00
Required companion laboratory to be taken concurrently with Biol 321 and Biol 323. Laboratory exercises in this course are designed to demonstrate, complement, and extend concepts considered in Biol 321 and Biol 323. Students will engage in exercises involving a variety of techniques in which data pertinent to both disciplines will be gathered and analyzed. Course includes three hours of laboratory per week.
Corequisites: BIOL 321, BIOL 323
Prerequisites: BIOL 203 Minimum Grade: C or T and BIOL 204 Minimum Grade: C or T and CHEM 111 Minimum Grade: C or T and CHEM 112 Minimum Grade: C or T OR CHEM 131 Minimum Grade: C or T and CHEM 132 Minimum Grade: C or T

BIOL 330 — Ecology
Credit Hours: 4.00
An introduction to major ecological concepts and models at the levels of individuals, populations, communities, and ecosystems. The laboratory includes laboratory and field exercises, and an introduction to data collection and analysis. Previous credit or concurrent registration in MATH 205 and BIOL 332 are recommended. Course includes three hours of lecture and three hours of laboratory per week.
Prerequisites: BIOL 203 Minimum Grade: C or T and BIOL 204 Minimum Grade: C or T

BIOL 330L — Ecology Laboratory
Credit Hours: 0.00
Corequisites: BIOL 330
Prerequisites: BIOL 203 Minimum Grade: C or T and BIOL 204 Minimum Grade: C or T

BIOL 332 — Evolution
Credit Hours: 3.00
A study of the history and development of evolutionary theory. Consideration is given to evidence for and mechanisms of evolution from anatomical, developmental, geological, mathematical, and molecular perspectives. Credit or concurrent registration in BIOL 330 is recommended. Course includes three hours of lecture per week.
Prerequisites: BIOL 203 Minimum Grade: C or T and BIOL 204 Minimum Grade: C or T and BIOL 321 Minimum Grade: C or T

BIOL 379 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

BIOL 392 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

BIOL 399 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

BIOL 404 — Physiological Zoology
Credit Hours: 3.00
Consideration of structural, functional, and behavioral aspects of physiological mechanisms within an ecological context. Adaptations of animals in response to common, changing, and/or extreme environmental stresses will be emphasized at both proximate and ultimate levels of inquiry. Course includes three hours of lecture per week and is offered during spring term of odd-numbered years.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 407 — Comparative Animal Physiology**
Credit Hours: 4.00
A lecture and laboratory course in which physiological principles common to all major animal phyla are discussed. Consideration of function ranges from biochemical to organismal levels and the comparative method is emphasized in the examination of physiological adaptations required to live in a variety of environments. Course includes three hours of lecture and three hours of laboratory per week and is offered during fall term of even-numbered years. Biochemistry (CHEM 401 and 402) and senior standing are recommended. Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T and CHEM 321 Minimum Grade: C or T and CHEM 321L Minimum Grade: C or T and CHEM 322 Minimum Grade: C or T and CHEM 322L Minimum Grade: C or T

**BIOL 408 — Developmental Biology**
Credit Hours: 4.00
A lecture and laboratory exploration of the principles of cellular differentiation, morphogenesis, and development with emphasis on underlying genetic mechanisms. Course includes three hours of lecture and three hours of laboratory per week. Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

**BIOL 411 — Comparative Anatomy**
Credit Hours: 4.00
An integrated lecture/laboratory investigation of the anatomy and functional morphology of the major groups of chordates and vertebrates with emphasis on the comparative method, anatomical changes through evolutionary history, and inferential reconstruction of phyletic evolutionary descent. Course includes three hours of lecture and three hours of laboratory per week and is offered during fall term of odd-numbered years. Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

**BIOL 417 — Vascular Plant Systematics**
Credit Hours: 4.00
A study of the vascular plants, including taxonomy and identification, reproduction, evolution, ecological relations, collection, and preservation. Course includes three hours of lecture and three hours of laboratory per week and is offered during fall term of odd-numbered years. Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

**BIOL 420 — Mycology**
Credit Hours: 4.00
A study of the biology of fungi with emphasis on their identification, classification, morphology, development, ecology, and economic significance. Course includes three hours of lecture and three hours of laboratory per week and is offered in spring term of odd-numbered years. Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

**BIOL 423 — Plant Physiology**
Credit Hours: 4.00
A study of the mechanisms of plant function throughout development from seeds through reproduction. This course includes consideration of metabolism (photosynthesis, respiration, mineral nutrition), water relations, gas exchange, and developmental growth in response to hormones. Course includes three hours of lecture and three hours of laboratory per week and is offered during fall term of even-numbered years. Successful completion of, or concurrent registration in, MATH 205 and PHYS 221 is recommended. Prerequisites: BIOL 321 Minimum Grade: C and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

**BIOL 430 — Plant Ecology**
Credit Hours: 4.00
A study of the physiological mechanisms underlying plant responses to abiotic and biotic constraints. Topics will include the function of plants and plant communities in relation to soils, climate, other plants, animals, and human activity. Course includes three hours of lecture and three hours of laboratory/field exercises per week.
and is offered during spring term of even-numbered years. BIOL 417 is recommended.
Prerequisites: BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 440 — Invertebrate Zoology**
Credit Hours: 4.00
A survey of the major groups of invertebrate animals from the Protozoa through Chordata with emphasis on anatomy, ecology, evolution, physiology, and taxonomy. Relationships will be demonstrated through study of selected invertebrate types including marine, freshwater, and terrestrial species. Course includes three hours of lecture and three hours of laboratory per week and is offered during spring term of even-numbered years.
Prerequisites: BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 448 — Microbiology**
Credit Hours: 4.00
The study of bacteria, fungi, protozoans, and viruses with emphasis on their morphology, physiology, and medical and ecological interactions with human populations. Laboratory exercises are designed to provide experience in handling microorganisms, bacterial identification, isolation/titration of bacteriophages, and other basic principles of microbiology. Course includes three hours of lecture and three hours of laboratory per week. CHEM 321 and 322 are recommended.
Prerequisites: BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 451 — Endocrinology**
Credit Hours: 3.00
The study of the production, regulation, and function of classical hormones and paracrine regulatory molecules. Emphasis will be placed on human endocrinology, but the material will also include discussions of the evolution of hormone families and comparisons between species. Class activities will include histological study of endocrine tissue, videos of hormonal action, analysis of experiments in journal articles and discussions of medical case histories. Course includes three hours of lecture per week and is offered during the fall term of even-numbered years.
Prerequisites: BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 460 — Ornithology**
Credit Hours: 3.00
An integrated lecture and laboratory course covering the major taxonomic groups of birds, their ecology, evolutionary relationships, fossil history, identification, and unique aspects of their anatomy, behavior and physiology. Lecture topics are supplemented with laboratory and field identification, and preparation of museum specimens. Course includes three hours of lecture per week and is offered during spring term of odd-numbered years. Additional laboratory/field exercises are required.
Prerequisites: BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 461 — Entomology**
Credit Hours: 3.00
Biology of the insects with emphasis on anatomy, physiology, natural history, life cycles, evolution, and identification of major groups. Collection of local species required. Students should meet with instructor during spring or summer prior to enrolling. Course includes three hours of lecture per week and is offered during fall term of odd-numbered years. Additional laboratory/field exercises are required.
Prerequisites: BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 463 — Ichthyology**
Credit Hours: 3.00
An integrated lecture and laboratory course covering the major taxonomic groups of fishes, their ecology, evolutionary relationships, fossil history, identification, and unique aspects of their anatomy, behavior and physiology. Course includes three hours of lecture per week and is offered during fall term of odd-numbered years. Additional laboratory/field exercises are required.
Prerequisites: (BIOL 321 Minimum Grade: C or T
and BIOL 323 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T
BIOL 464 — Mammalogy
Credit Hours: 3.00
An integrated lecture and laboratory course covering the major taxonomic groups of mammals, their ecology, evolutionary relationships, fossil history, identification, and unique aspects of their anatomy, behavior and physiology. Course includes three hours of lecture per week and is offered during spring term of even-numbered years. Additional laboratory/field exercises are required.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

BIOL 467 — Wildlife Management
Credit Hours: 2.00
Study of the ecological foundation, historical development, techniques, and current perspectives and problems in wildlife management. Course includes two hours of lecture per week and is offered during fall term of even-numbered years. MATH 205 is recommended.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

BIOL 469 — Fisheries Management
Credit Hours: 2.00
A study of the ecological foundation, historical development, techniques, and current perspectives and problems in inland fisheries management. Emphasis will be on the application of scientific management of fishes, their habitats, and managing human use of inland fisheries. Fisheries Management does not include a separate laboratory section, but will include various field trips to give students the opportunity to observe and apply management techniques discussed in class. Course includes two hours of lecture per week and is offered during fall term of odd-numbered years. MATH 205 is recommended.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

BIOL 471 — Herpetology
Credit Hours: 3.00
An integrated lecture and laboratory course covering the major taxonomic groups of amphibians and reptiles, their ecology, evolutionary relationships, fossil history identification, and unique aspects of their anatomy, behavior and physiology. Course includes three hours of lecture per week and is offered during fall term of even-numbered years. Additional laboratory/field exercises are required.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T

BIOL 476 — Molecular Biology
Credit Hours: 4.00
An introduction to the study of nucleic acids, genomes and molecular mechanisms with emphasis on genome organization, gene expression, and the techniques used in the study of molecular biology. Laboratory exercises will include standard methodologies such as restriction mapping, cloning, hybridization, DNA libraries, and PCR. Course includes three hours of lecture and four hours of laboratory per week. Senior standing is recommended.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T and CHEM 401 Minimum Grade: C or T

BIOL 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

BIOL 492 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

BIOL 493 — Thesis I
Credit Hours: 1.00
First in a series of two capstone courses for Biology majors designed to review and synthesize their biological background. Preparation of an independent research paper, or formal literature review of a selected topic in biology. Emphasis is on writing as a process and effective peer review. Course includes 2 hours of lecture per week. A minimum of one semester of 400 level biology coursework with grades C or better, or permission of the biology department, is required.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 330 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T
and BIOL 325 Minimum Grade: C or T
and BIOL 330 Minimum Grade: C or T
and BIOL 332 Minimum Grade: C or T

**BIOL 494 — Thesis II**
Credit Hours: 1.00
Second in a series of two capstone courses for biology majors designed to review and synthesize their biological background. Development of oral presentation skills is emphasized. Students will prepare and deliver several short oral presentations as well as one formal seminar on a biological topic. Course includes two hours of lecture per week.
Prerequisites: BIOL 493 Minimum Grade: C or T

**BIOL 499 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**BUS 103 — Introduction to Business**
Credit Hours: 3.00
An overview of business and economics for the non-major, and a first step for all business majors. The course both defines and applies the fundamental principles of economics, management, marketing, management information systems (MIS), accounting and finance, including personal finance.
Prerequisites: none

**BUS 114 — Personal Finance**
Credit Hours: 3.00
An introductory course designed to expose students to practical means of making decisions on a host of financial dilemmas: banking, budgeting, consumer protection laws, credit, housing, insurance, interest, investments, and retirement.
Prerequisites: none

**BUS 120 — Bus Computer Applications I**
Credit Hours: 3.00
The focus of this course is to provide first and second year students with the computer and information system skills to support computer requirements for the School of Business program and meet essential business career demands. The course will cover an introduction to computers and information system technologies. In addition, the goal of the course is to learn basic skills in the Windows operating system, Internet essentials, and Microsoft Office.
Prerequisites: none

**BUS 179 - Special Topics**
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**BUS 192 - Workshops**
Credit Hours: 1.00 to 3.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**BUS 199 — Individual Studies**
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**BUS 203B — Elementary Shorthand**
Credit Hours: 2.00 to 4.00
Prerequisites: none

**BUS 207 — Introduction to Accounting I**
Credit Hours: 3.00
Course begins with necessary bookkeeping skills for recording simple financial transactions and preparing basic financial statements. Theory behind accounting rules is emphasized so the student can apply knowledge gained to ever changing real-world situations.
Prerequisites: none

**BUS 208 — Introduction to Accounting II**
Credit Hours: 3.00
Continuation of Bus 207. Covers accounting for capital provided through the partnership and corporate forms of business enterprise. At the conclusion of this course, the student will be able to read and interpret the three principal financial statements: the income statement, balance sheet, and statement of changes in financial position. Topics related to managerial accounting also covered.
Prerequisites: BUS 207 Minimum Grade: C or T

**BUS 211 — Business Law**
Credit Hours: 3.00
Study of the legal principles pertaining to contracts, agency, negotiable instruments, corporations, partnerships, and government regulations. Research of actual cases is required.
Prerequisites: none

**BUS 265 — Business Communications**
Credit Hours: 3.00
Lab/discussion atmosphere. Focused on improving student skills in reading, writing and oral presentation. Improving student skills in understanding and communicating in an increasingly diverse global environment. Using communication theory, psychology, and business skills to improve student verbal and non-verbal listening skills.
Prerequisites: none

**BUS 279 — Special Topics**  
Credit Hours: 1.00 to 3.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

**BUS 292 — Workshop**  
Credit Hours: 1.00 to 3.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

**BUS 299 — Individual Studies**  
Credit Hours: 1.00 to 3.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

**BUS 304 — Principles of Marketing**  
Credit Hours: 3.00  
Description and analysis of the marketing mix variables (price, place, product, promotion). Study of the various institutions involved in marketing. Emphasis on the methods available to marketers for building long-term relationships with customers. The importance of a customer perspective is stressed.  
Prerequisites: BUS 103 Minimum Grade: C or T

**BUS 305 — Intermediate Accounting I**  
Credit Hours: 4.00  
Study of assets and liabilities with particular emphasis on problems of measurement and the resultant effect on income and on problems of financial statement presentation. Exploration of authoritative literature in the field is a significant element. Term paper required.  
Prerequisites: BUS 207 Minimum Grade: C or T and BUS 208 Minimum Grade: C or T

**BUS 306 — Intermediate Accounting II**  
Credit Hours: 4.00  
Study of assets and liabilities with particular emphasis on problems of measurement and the resultant effect on income and on problems of financial statement presentation. Exploration of authoritative literature in the field is a significant element. Term paper required.  
Prerequisites: BUS 305 Minimum Grade: C or T

**BUS 307 — Managerial Cost Accounting I**  
Credit Hours: 3.00  
Principles and methods of recording and interpreting cost data. Major emphases on developing accounting information for planning, control, and decision making.  
Prerequisites: BUS 208 Minimum Grade: C or T

**BUS 308 — Managerial Cost Accounting II**  
Credit Hours: 3.00  
Principles and methods of recording and interpreting cost data. Major emphases on developing accounting information for planning, control, and decision making.  
Prerequisites: BUS 307 Minimum Grade: C or T

**BUS 309 — Secretarial Procedures**  
Credit Hours: 4.00  
Topics include records management, machine transcription, word processing, office simulations, reprographics, mailing, stenograph, and supervised work experience.  
Prerequisites: none

**BUS 313 — Meth of Teaching Bus Education**  
Credit Hours: 3.00  
Topics include high school business curriculum, high school business student organizations, distributive education, cooperative office education, vocational certification, business textbook catalogs, equipment, and classroom techniques using learning styles and multimedia methods. Students must take this course concurrently with courses in the senior block in education prior to the student teaching semester. These courses include: ED 416, ED 426, ED 429, ED 436, and ED 436L. A background check must be completed through the Department of Teacher Education before a student can do any field experience hours. Students must be enrolled in the Teacher Education Program before they can enroll for this course.  
Prerequisites: BUS 120 Minimum Grade: C or T and BUS 207 Minimum Grade: C or T and BUS 208 Minimum Grade: C or T and admitted to Teacher Education Preparation Program Score of: 1

**BUS 315 — Sales and Sales Management**  
Credit Hours: 3.00  
This course is designed to introduce students to management techniques as they relate specifically to the marketing and sales areas. Topics covered include: the selling process, compensation
systems, motivation and leadership, time and territory management, sales forecasting, quotas, and evaluating the sales force.
Prerequisites: BUS 304 Minimum Grade: C or T

**BUS 318 — Business Statistics**
Credit Hours: 3.00
Provides a basic understanding of the fundamental principles with emphasis on the application of statistical techniques to the analysis and solution of real business problems.
Prerequisites: MATH 104 Minimum Grade: C or T OR MATH 106 Minimum Grade: C or T OR MATH 107 Minimum Grade: C or T OR MATH 120 Minimum Grade: C or T

**BUS 320 — Bus Computer Applications II**
Credit Hours: 3.00
The focus of this course is to explore application software on a comprehensive level to gain expertise to support decision-making and manage information. Study includes intermediate Word and Excel applications; intermediate to advanced PowerPoint; intermediate Access, integration of Office applications, and an introduction to HTML and building web pages.
Prerequisites: BUS 120 Minimum Grade: C or T

**BUS 323 — Computerized Accounting**
Credit Hours: 1.00
Designed to develop student’s basic and applied understanding of accounting information systems. Emphasis placed on obtaining hands-on experience with a computer and familiarity with a number of accounting software programs.
Prerequisites: BUS 207 Minimum Grade: C or T

**BUS 324 — Data Communications & Network**
Credit Hours: 3.00
Network+Guide to Networks, Fourth Edition is designed to prepare users for CompTIA's newly-revised 2005 Network+ certification exam and will also offer mapping features to the exam objectives. Within this course there is current coverage of networking hardware and software along with the skills necessary to succeed in the dynamic field of networking. Students will acquire thorough explanations of networking fundamentals such as protocols, network design and implementation, and troubleshooting and support.
Prerequisites: none

**BUS 330 — Linux Shell Script Programming**
Credit Hours: 3.00
This course will empower students to be successful system and network administrators using Linux shell script programming. Students will acquire the ability to read and write shell script programs as well as many other essential skill needed for any Linux system administrator. Using numerous examples and case studies, students will master shell script programming for Linux.
Prerequisites: none

**BUS 335 — Consumer Behavior**
Credit Hours: 3.00
Study of consumer behavior as it relates to the marketing functions. Emphasis on the models of consumer behavior and their applications to practical marketing problems.
Prerequisites: BUS 304 Minimum Grade: C or T

**BUS 340 — HTML: Concepts/Fundamentals**
Credit Hours: 3.00
This course is intended as an introductory course on creating Web pages. The objectives of this course are: to teach the fundamentals of developing Web pages using HTML; to acquaint students with the XHTML guidelines; to show students how to create Web pages suitable for course work, professional purposes, and personal use; to expose students to common Web page formats and functions; to promote curiosity and independent exploration of the World Wide Web resources; to develop an exercise-oriented approach that allows students to learn by example; to encourage independent study and help those who are learning how to create Web pages in a distance education environment.
Prerequisites: none

**BUS 345 — Advertising**
Credit Hours: 3.00
Discusses the history, purposes, and regulations of the advertising industry. Topics covered include creative principles, media advantages and disadvantages, media planning, regulation of advertising, and coordination with other promotion activities.
Prerequisites: BUS 304 Minimum Grade: C or T

**BUS 349 — Dev Modern Web w/Dreamweaver**
Credit Hours: 3.00
A hands-on, step-by-step approach to Dreamweaver MX 2004, including working with text, inserting graphics, creating links, tables, tracing images, forms, templates, and frames. Web design techniques will also be examined and incorporated into a final project.
Prerequisites: BUS 120 Minimum Grade: C OR CSCI 100 Minimum Grade: C

**BUS 350 — Database w/Dreamweaver w/Linux**
Credit Hours: 3.00
This course is designed to provide individuals with a complete introduction to database concepts and the relational database model. Topics include QBE, SQL normalization, design methodology, DBMS functions, database administration, and other database management approaches, such as client/server databases, object oriented databases, and data warehouses. At the completion of this course, students should be able to understand a user's database requirements and translate those requirements into a valid database design.

Prerequisites: BUS 349 Minimum Grade: C or T

BUS 355 — Fundamentals of Income Tax
Credit Hours: 4.00
Study of federal income tax on individual and property transactions. Objectives of taxation given major emphasis. The Internal Revenue Code is discussed in addition to the text in order to acquaint the student with the ultimate source of tax law. Income tax return problems and tax cases may be assigned to provide practical application of the tax law.

Prerequisites: BUS 208 Minimum Grade: C or T and ECON 255 Minimum Grade: C or T

BUS 356 — Retailing
Credit Hours: 3.00
Study of marketing and management problems faced in the operation of a retail business. Emphasis is given to techniques for solving problems in location, management, and merchandising, especially with the integration of Internet retailing (E-Tailing) as both a competitor and an extension of the storefront business.

Prerequisites: BUS 304 Minimum Grade: C or T

BUS 360 — Govt & Institution Accounting
Credit Hours: 3.00
Study of accounting procedures related to governmental units and nonprofit institutions.

Prerequisites: BUS 208 Minimum Grade: C or T

BUS 361 — Principles of Management
Credit Hours: 3.00
Explores theory and practice of managing an organization and its personnel with emphasis on planning, designing, and controlling to meet the needs of modern public or private organizations. Includes emerging trends and international issues.

Prerequisites: none

BUS 362 — Human Resource Management
Credit Hours: 3.00
Analysis of techniques used to organize, motivate, and manage personnel in public or private organizations. Includes case studies and examines current literature and the current legal environment.

Prerequisites: BUS 361 Minimum Grade: C or T

BUS 363 — Managerial Finance
Credit Hours: 3.00
Bus 318 recommended. Illustrates the ways finance and financial management are utilized in successfully managing a modern business enterprise. Considerable emphasis placed on financial planning and forecasting, management of short- and long-term assets, and the firm's capital structure and cost of capital.

Prerequisites: BUS 208 Minimum Grade: C or T and ECON 255 Minimum Grade: C or T and ECON 256 Minimum Grade: C or T

BUS 365 — Small Business Management
Credit Hours: 3.00
Practical analysis of problems faced by a small business with emphasis on techniques of starting, financing, and managing for successful operation. Business plan required.

Prerequisites: BUS 207 Minimum Grade: C or T and BUS 208 Minimum Grade: C or T and BUS 304 Minimum Grade: C or T and BUS 361 Minimum Grade: C or T

BUS 370 — Understand/Troubleshoot PC
Credit Hours: 3.00
Gain a basic understanding of how personal computers work. Topics include hardware, how hardware and software work together, understanding the motherboard, the CPU, and troubleshooting basics, managing memory, understanding, installing, and troubleshooting disk drives, supporting input, output, and multimedia devices, supporting printers, installing and using Windows XP Professional, managing and supporting Windows XP, connecting PCs to networks and the Internet, purchasing or building a personal computer, and maintenance and troubleshooting fundamentals.

Prerequisites: none

BUS 371 — Secretarial Computer Practicum
Credit Hours: 3.00
Advanced training in computerized word processing, electronic filing, and other software application. Continuous development of skill and proficiency.

Prerequisites: none

BUS 373 — Investment Analysis
Credit Hours: 3.00
Bus 318 recommended. The course is a study of personal investment planning, traditional and alternative investment vehicles, investment media, investment strategy, and portfolio analysis. The
student will become familiar with both money market and capital investment markets as well as strategies for assessing returns and risks of various security instruments.
Prerequisites: BUS 208 Minimum Grade: C or T and BUS 363 Minimum Grade: C or T and ECON 255 Minimum Grade: C or T

BUS 379 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

BUS 381 — Business Internship I
Credit Hours: 1.00 to 3.00
Junior standing and approval of the department chair required. The internships are planned, meaningful work experiences that are academic in nature. Supervision consists of a site supervisor who is a qualified professional in the business or organization where the internship is arranged and a faculty sponsor who is a full-time professor in the School of Business, usually from the student’s major. The site supervisor evaluates the work performed by the student on the job. The faculty sponsor is responsible for maintenance of academic quality and assigns the course grade. (30 contact hours = 1 credit hour). Variable 1-3 hours.
Prerequisites: none

BUS 383 — Internatl’l Financial Mgmt
Credit Hours: 3.00
Provides students with the fundamentals of the international financial environment and international financial markets.
The emphasis will be on managerial perspectives such as export and import, financing techniques, exchange rate risk management, and issues arising in the financing of foreign affiliates.
Prerequisites: BUS 363 Minimum Grade: C or T

BUS 385 — Sports Marketing
Credit Hours: 3.00
Illustrates the dynamic, progressive and influential nature of sports marketing. Explores the sport marketing concept as a consumer-driven, integrated, goal-oriented philosophy for a team, event, organization or athlete. Topics covered include: athletic endorsements, team sports, event sponsorships and alternative sports.
Prerequisites: none

BUS 386 — Principles of Real Estate
Credit Hours: 3.00
Broad analysis of real estate principles including legal description, agency and listing agreements, financing, property management, fair housing, appraisal, tax considerations, closing, record keeping, and trust accounts. Partially satisfies requirements to sit for State Licensing exam.
Prerequisites: BUS 211 Minimum Grade: C or T

BUS 387 — Colo Real Estate Contracts
Credit Hours: 3.00
Provide an in-depth understanding of Colorado peculiar real estate law including State approved contracts for the listing and sale of property, the uniqueness of being legally able to prepare legal documents associated with the closing of the sale of property, and to complete the students preparation to sit for the Colorado Real Estate Licensing Exam. Additionally, to provide the student with an overall understanding of real property ownership as it applies to real life situations that almost all students will encounter after graduation.
Prerequisites: BUS 386 Minimum Grade: C or T

BUS 388 — Real Estate Closing/Prac Apps
Credit Hours: 3.00
This course consists of two parts. Part one contains an introduction to real estate closing and prorations, and explains the Real Estate Settlement Procedures Act (RESPA). Part two covers practical applications and attempts to educate the student on the material which will be covered on the State License Exam and walks the student through the process of closing and what documents will be encountered and their explanations.
Prerequisites: BUS 386 Minimum Grade: C or T

BUS 392 — Workshops
Credit Hours: 0.33 to 3.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

BUS 399 — Individual Studies
Credit Hours: 1.00 to 4.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

BUS 401 — Organizational Behavior
Credit Hours: 3.00
Participants in the course will explore the theory of human relations in organizations. The emphasis will be on the application of behavioral science knowledge to contemporary organizational issues, which may include individual and group dynamics, motivation, leadership, organizational struc-
ture, morale, power, labor-management behavior, organizational change, and development.
Prerequisites: BUS 361 Minimum Grade: C or T

**BUS 404 — Advanced Business Statistics**
Credit Hours: 3.00
Involves in-depth study of analysis of variance and takes up topics of correlation, multiple regression, and statistical designs as they relate to business problems.
Prerequisites: BUS 318 Minimum Grade: D or T

**BUS 405 — Advanced Accounting**
Credit Hours: 4.00
Bus 405 involves preparation and study of the need for consolidated financial statements. Additionally, it examines accounting problems associated with partnerships and foreign currency transactions.
Prerequisites: BUS 306 Minimum Grade: C or T

**BUS 407 — Auditing I**
Credit Hours: 3.00
Study of ethical standards, auditing standards, audit procedures, and evolution of internal control to learn how financial statements are examined and audit reports prepared.
Prerequisites: BUS 305 Minimum Grade: C or T and BUS 306 Minimum Grade: C or T and BUS 318 Minimum Grade: C or T

**BUS 408 — Auditing II**
Credit Hours: 3.00
Course content includes application of auditing concepts and theory covered in Auditing I. Students will apply auditing concepts and techniques to the performance of an audit. Topics covered include completing working papers and audit programs, answering review notes, and preparing audit reports.
Prerequisites: BUS 407 Minimum Grade: C or T

**BUS 410 — Office Management**
Credit Hours: 3.00
Analysis of principles, problems, and methods of scientific office management. Study of management information systems.
Prerequisites: BUS 370 Minimum Grade: D or T

**BUS 411 — Information & Records Mgmt**
Credit Hours: 3.00
Furnishes guidelines for the establishment, implementation, and maintenance of manual and computerized records control programs in all types of organizations from small, individually-owned businesses to large corporations, as well as governmental units at the local, state, regional, and national levels.
Prerequisites: BUS 120 Minimum Grade: C or T

**BUS 414 — Commercial Banking**
Credit Hours: 3.00
Explores function and role of commercial banks, including operation, loan policies, security instruments, and socioeconomic impact.
Prerequisites: BUS 207 Minimum Grade: C or T and BUS 211 Minimum Grade: C or T and ECON 255 Minimum Grade: C or T

**BUS 416 — Business Financial Problems**
Credit Hours: 3.00
General examination of financial problems faced by business firms with the purpose of developing integrated theories of financial policy at the firm level. Case studies used extensively.
Prerequisites: BUS 363 Minimum Grade: C or T

**BUS 418 — Advanced Management Seminar**
Credit Hours: 3.00
Senior status required. Use of case studies and readings in current management literature to analyze the process of making decisions and setting policies for modern organizations.
Prerequisites: BUS 361 Minimum Grade: C or T and BUS 362 Minimum Grade: C or T

**BUS 419 — Current Topics in Management**
Credit Hours: 3.00
Surveys current management issues in a competitive and rapidly changing business environment that more than ever is: challenged by global opportunities and threats; concerned with families and quality of work life; confronted by legal and ethical dilemmas; connected by technology; consumer oriented to provide high quality goods and services at low prices.
Prerequisites: none

**BUS 425 — Systems Analysis**
Credit Hours: 3.00
This course provides an introduction to Systems Analysis and Design. Topics include analyzing the business case, requirements modeling, data and process modeling, and development strategies. Students also learn about output and user interface design, data design, systems architecture and implementation, and systems operation, support and security.
Prerequisites: BUS 320 Minimum Grade: C or T

**BUS 430 — Production & Operations Mgmt**
Credit Hours: 3.00
Application of managerial decision making techniques. Covers forecasting, inventory management, and quality control.
models, linear programming, facility layout and the Transportation Model, process selection and capacity planning, design of work systems, location planning, quality control, scheduling, and project management. Available computer package utilized to solve related problems. Prerequisites: BUS 318 Minimum Grade: C or T and MATH 104 Minimum Grade: C or T

BUS 441 — International Marketing
Credit Hours: 3.00
An advanced course in marketing covering the adaptations needed when marketing outside national boundaries. Includes discussions of cultures; product and marketing modifications necessary in a variety of situations; and study of various world regions and their consumption, terrain, demographics, and geographics as they influence marketing practices. Prerequisites: BUS 304 Minimum Grade: C or T

BUS 448 — Direct Marketing
Credit Hours: 3.00
Focuses on relationship marketing, interactive marketing, integration of consumer data, Internet marketing (E-commerce), media advertising, catalogs, mailing lists, telemarketing, and the use of direct marketing techniques to replace or enhance the traditional marketing methods of retail and direct sales. Prerequisites: BUS 304 Minimum Grade: C or T

BUS 450 — Services Marketing
Credit Hours: 3.00
The economy of the U.S., as well as much of the world economy is dominated by services. Service organizations require a distinctive approach to marketing strategy—both in development and execution. This distinctive approach requires expansion of ideas from other marketing courses to make them specifically applicable to services marketing. Prerequisites: BUS 304 Minimum Grade: C or T

BUS 454 — Market Research & Information
Credit Hours: 3.00
Study of the theory and methods used in marketing research to address marketing problems. May include the completion of a research project where students learn by performing a research project from problem formulation to writing a research report. Also prepares the students for evaluating research performed by others. Prerequisites: BUS 304 Minimum Grade: C or T and BUS 318 Minimum Grade: C or T

BUS 455 — Advanced Income Taxation
Credit Hours: 4.00
Concentrates on the federal income tax consequences of the formation, normal operation, and the dissolution of corporations, partnerships, and fiduciaries. Other taxation problems of special interest may be covered. Prerequisites: BUS 355 Minimum Grade: C or T

BUS 460 — Marketing Management
Credit Hours: 3.00
12 hours of marketing courses and senior status required. Capstone course in marketing. Study of the problems face by marketing managers as they make decisions and develop policies. Prerequisites: BUS 454 Minimum Grade: C or T

BUS 465 — Unix Using Linux
Credit Hours: 3.00
Guide to UNIX. Using Linux is a practical, hands-on course that teaches the fundamentals of the UNIX operating system concepts, architecture and administration. These concepts are taught using Linux, a free, PC-compatible UNIX clone that is an ideal teaching tool for many basic and advanced UNIX commands. The power, stability, and flexibility of UNIX has contributed to its popularity in mission-critical business and networking applications. Specific topic coverage includes: the essence of UNIX; exploring the UNIX file system and file security; UNIX editors; UNIX file processing; advanced file processing; introduction to shell script programming; advanced shell programming; exploring UNIX utilities; Perl and CGI programming; developing UNIX applications in C and C++; and the X Window System. Prerequisites: none

BUS 466 — Business Ethics
Credit Hours: 3.00
Explores and puts into perspective the ethical role of business institutions and governments. Emphasizes the need to examine the world of work from an ethical viewpoint. Prerequisites: none

BUS 471 — Intermediate Accounting III
Credit Hours: 4.00
Study of assets and liabilities with particular emphasis on problems of measurement and the resultant effect on income and on problems of financial statement presentation. Exploration of authoritative literature in the field is a significant element. Prerequisites: BUS 306 Minimum Grade: C or T

BUS 472 — CPA Review
Credit Hours: 3.00
Review of accounting theory, practice, and audit-
ing for individuals preparing to sit for the CPA examination.
Prerequisites: BUS 306 Minimum Grade: D or T

BUS 479 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

BUS 480 — Business Policy
Credit Hours: 3.00
Senior status required. Designed to help students understand planning activities, determination of alternatives, policy formulation, execution of plans, development of corporate company strategy as currently used by business enterprises. Involves extensive case study.
Prerequisites: BUS 207 Minimum Grade: C or T and BUS 208 Minimum Grade: C or T and BUS 304 Minimum Grade: C or T and BUS 361 Minimum Grade: C or T and BUS 363 Minimum Grade: C or T

BUS 481 — Business Internship II
Credit Hours: 1.00 to 3.00
Senior standing and approval of the department chair required. The internships are planned, meaningful work experience that are academic in nature. Supervision consists of a site supervisor who is a qualified professional in the business or organization where the internship is arranged and a faculty sponsor who is a full-time professor in the School of Business, usually from the student’s major. The site supervisor evaluates the work performed by the student on the job. The faculty sponsor is responsible for maintenance of academic quality and assigns the course grade (30 contact hours=1 credit hour)
Prerequisites: none

BUS 482 — Business Consulting
Credit Hours: 3.00
Under close supervision of faculty members, student provides comprehensive assistance to business for problem solving or developing alternative course of action. Particular area of emphasis chosen to maximize professional growth of student and application of acquired knowledge.
Prerequisites: none

BUS 483 — Bus Intern-Secretarial Proc
Credit Hours: 3.00
Under close supervision of faculty members, each student is involved in professional secretarial office work. Particular area of emphasis chosen to maximize professional growth and application of acquired knowledge.
Prerequisites: none

BUS 499 — Individual Studies
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

CHEM 111 — Introductory Chemistry GT-SC1
Credit Hours: 4.00
A study of the fundamental concepts of chemistry. The course is satisfactory for nursing students, for biology majors who take only one year of chemistry, for EPLS advanced track, and for students preparing to take CHEM 131. It will not satisfy the requirements for a chemistry major or minor. It is not suitable for the pre-professional programs such as pre-med, pre-dental, pre-vet or medical technology. Four lectures, one lab lecture, and two hours of laboratory per week.
Corequisites: CHEM 111L
Prerequisites: ACT MATH Score of: 19 OR SAT MATH Score of: 440 OR ACCUPLACER Score of: 085 OR MATH 099 Minimum Grade: S or T OR MATH 106 Minimum Grade: T OR MATH 120 Minimum Grade: T

CHEM 111L — Introductory Chemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 111
Prerequisites: none

CHEM 112 — Intro Organic/Biological Chem
Credit Hours: 4.00
A study of the fundamental concepts of organic chemistry and biochemistry. Will not satisfy requirement for a chemistry major, minor or pre-professional studies (pre-med, etc.)
The course is satisfactory for biology majors who take only one year of chemistry, and for EPLS advanced track. Four lecture, one lab lecture, and two hours of laboratory per week.
Corequisites: CHEM 112L
Prerequisites: CHEM 111 Minimum Grade: C or T OR CHEM 131 Minimum Grade: C or T and CHEM 132 Minimum Grade: C or T
CHEM 112L — Intro Organic/Biol Chem Lab
Credit Hours: 1.00
Corequisites: CHEM 112
Prerequisites: none

CHEM 131 — General Chemistry GT-SC1
Credit Hours: 4.00
A study of the principles and applications of chemistry suitable for science majors who plan additional course work in biology, chemistry, geology, physics, or mathematics. Organic chemistry is briefly included. The laboratory work consists of learning basic techniques and studying chemical and physical principles discussed in the lecture. Four lectures, one lab lecture, and two hours of laboratory per week. This course is designed for students who have had high school chemistry, although it is not a prerequisite.
Corequisites: CHEM 131L
Prerequisites: ACT MATH Score of: 19
OR SAT MATH Score of: 440
OR ACCUPLACER Score of: 085
OR MATH 099 Minimum Grade: S or T
OR MATH 101 Minimum Grade: C or T
OR MATH 106 Minimum Grade: C or T
OR MATH 104 Minimum Grade: C or T
OR MATH 107 Minimum Grade: C or T
OR MATH 120 Minimum Grade: C or T

CHEM 131L — General Chemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 131
Prerequisites: none

CHEM 132 — General Chemistry GT-SCI1
Credit Hours: 4.00
A study of the principles and applications of chemistry suitable for science majors who plan additional course work in biology, chemistry, geology, physics, or mathematics. Organic chemistry is briefly included. The laboratory work consists of learning basic techniques and studying chemical and physical principles discussed in the lecture. Four lectures, one lab lecture, and two hours of laboratory per week. This course is designed for students who have had high school chemistry, although it is not a prerequisite.
Corequisites: CHEM 132L
Prerequisites: CHEM 131 Minimum Grade: C or T

CHEM 179 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

CHEM 192 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

CHEM 199 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

CHEM 216 — Glassblowing
Credit Hours: 1.00
Demonstrations and practice in the fundamental operations involved in the construction of glass laboratory apparatus, including cutting, drawing, bending, flanging, annealing, joining, and modifying glass; also includes introduction to artistic glassblowing.
Prerequisites: CHEM 111 Minimum Grade: D or T or CHEM 131 Minimum Grade: D or T

CHEM 279 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

CHEM 292 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

CHEM 299 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

CHEM 321 — Organic Chemistry
Credit Hours: 4.00
A study of the relationship between structure and reactivity of carbon-containing compounds. Laboratory time will be divided among techniques, preparation, and mechanistic studies. Four lectures,
CHEM 321 — Organic Chemistry Lab
Credit Hours: 1.00
Corequisites: none

CHEM 321L — Organic Chemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 321
Prerequisites: none

CHEM 322 — Organic Chemistry
Credit Hours: 4.00
A study of the relationship between structure and reactivity of carbon-containing compounds. Laboratory time will be divided among mechanistic studies, introductory qualitative analysis, and independent project work. Lectures, one lab lecture and three hours laboratory per week.
Corequisites: CHEM 322L
Prerequisites: CHEM 321 Minimum Grade: C or T

CHEM 322L — Organic Chemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 322
Prerequisites: none

CHEM 331 — Analytical Chemistry
Credit Hours: 3.00
The theory and application of classical and instrumental quantitative analysis with additional emphasis on the fate and analysis of chemicals in the environment. Three lectures per week and one four-hour laboratory period every week.
Corequisites: CHEM 331L
Prerequisites: CHEM 132 Minimum Grade: C or T and MATH 106 Minimum Grade: C or T and MATH 107 Minimum Grade: C or T OR CHEM 132 Minimum Grade: C or T and MATH 120 Minimum Grade: C or T

CHEM 331L — Analytical Chemistry Lab
Credit Hours: 2.00
Corequisites: CHEM 331
Prerequisites: none

CHEM 332 — Analytical Chemistry
Credit Hours: 3.00
A continuation of Chem 331 with additional coverage of chemical equilibria and electrochemistry. Three hours of lecture and four hours of laboratory every week.
Corequisites: CHEM 332L
Prerequisites: CHEM 331 Minimum Grade: D or T

CHEM 332L — Analytical Chemistry Lab
Credit Hours: 2.00
Corequisites: CHEM 332
Prerequisites: none

CHEM 334 — Environmental Chemistry
Credit Hours: 2.00
A course that studies the sources, fate, and control of chemicals in the environment. Two lectures and three hours of laboratory per week.
Corequisites: CHEM 334L
Prerequisites: CHEM 331 Minimum Grade: C or T

CHEM 334L — Environmental Chemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 334
Prerequisites: none

CHEM 379 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

CHEM 392 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

CHEM 399 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

CHEM 401 — Biochemistry
Credit Hours: 3.00
A study of structural biochemistry. Course begins with a review of water, the lipophilic environment, noncovalent bonding, and bioenergetics. Topics include amino acids, peptides, proteins, nucleic acids, carbohydrates, and lipids. Enzymes are discussed with emphasis on mechanisms and kinetics. Three lectures and three hours of laboratory per week.
Corequisites: CHEM 401L
Prerequisites: CHEM 322 Minimum Grade: C or T

CHEM 401L — Biochemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 401
Prerequisites: none

CHEM 402 — Biochemistry II
Credit Hours: 3.00
A study of biochemical metabolism. Topics include catabolism, anabolism, and metabolic control. Three hours of lecture per week.
Prerequisites: CHEM 401 Minimum Grade: C or T
CHEM 424 — Advanced Organic Chemistry
Credit Hours: 3.00
A third semester course in organic chemistry, designed for students who wish to gain a better background in the subject. Topics include bioorganic chemistry, pericyclic reactions, and natural products synthesis. Offered in spring semesters upon sufficient demand. Three hours of lecture per week.
Prerequisites: CHEM 322 Minimum Grade: C or T

CHEM 431 — Phys Chem Lec/Thermodynamics
Credit Hours: 3.00
Thermodynamics as applied to chemistry and physics. Specific topics include the laws of thermodynamics, thermochemistry, reaction and phase equilibrium, solutions, and electrochemistry. An introduction to chemical kinetics is included.
Prerequisites: CHEM 132 Minimum Grade: C or T and MATH 120 Minimum Grade: C or T and PHYS 221 Minimum Grade: D or T and PHYS 222 Minimum Grade: D or T and PHYS 223 Minimum Grade: D or T and PHYS 224 Minimum Grade: D or T and CHEM 132 Minimum Grade: C or T and MATH 120 Minimum Grade: C or T and PHYS 230 Minimum Grade: D or T and PHYS 231 Minimum Grade: D or T and PHYS 232 Minimum Grade: D or T and PHYS 233 Minimum Grade: D or T

CHEM 432 — Phys Chem Lec/Quantum Mechanic
Credit Hours: 3.00
Quantum mechanics with applications to atomic structure, bonding, solid state, and spectroscopy. An introduction to kinetic molecular theory of gas, transport properties, and statistical mechanics is included.
Prerequisites: CHEM 132 Minimum Grade: C or T and MATH 120 Minimum Grade: D or T and MATH 121 Minimum Grade: D or T and PHYS 221 Minimum Grade: D or T and PHYS 222 Minimum Grade: D or T and PHYS 223 Minimum Grade: D or T and PHYS 224 Minimum Grade: D or T and PHYS 231 Minimum Grade: D or T and PHYS 232 Minimum Grade: D or T and PHYS 233 Minimum Grade: D or T

CHEM 433 — Physical Chemistry Laboratory
Credit Hours: 2.00
The principles of physical chemistry applied in the laboratory. Four hours laboratory plus one hour lecture per week.
Corequisites: CHEM 431
Prerequisites: CHEM 431 Minimum Grade: D or T

CHEM 434 — Physical Chemistry Laboratory
Credit Hours: 2.00
The principles of physical chemistry applied in the laboratory. Four hours laboratory plus one hour lecture per week. Chem 434 includes an independent project.
Corequisites: CHEM 432
Prerequisites: CHEM 431 Minimum Grade: D or T

CHEM 445 — Polymer Chemistry
Credit Hours: 3.00
Introduction to the chemistry of organic, inorganic, and bio-polymers, with an emphasis on synthesis, mechanism, and reaction kinetics. Modern methods of polymer characterization are also covered. Offered upon sufficient demand. Three hours of lecture per week.
Prerequisites: CHEM 322 Minimum Grade: C or T and CHEM 431 Minimum Grade: D or T

CHEM 461 — Inorganic Chemistry
Credit Hours: 3.00
Theoretical aspects of inorganic chemistry based upon periodic relationships, symmetry, structure bonding, and reactivities. Three lectures per week. Offered fall semesters of odd-numbered years.
Prerequisites: CHEM 321 Minimum Grade: C or T and CHEM 322 Minimum Grade: C or T and CHEM 331 Minimum Grade: C or T and CHEM 332 Minimum Grade: C or T

CHEM 462 — Inorganic Chemistry
Credit Hours: 2.00
Descriptive inorganic chemistry utilizing theoretical concepts; practices of inorganic chemistry in the laboratory, including synthesis and characterization of compounds. Two lectures and two hours of laboratory per week. Offered spring semesters of even-numbered years.
Corequisites: CHEM 462L
Prerequisites: CHEM 461 Minimum Grade: D or T

CHEM 462L — Inorganic Chemistry Lab
Credit Hours: 1.00
Corequisites: CHEM 462
Prerequisites: none

CHEM 471 — Chemistry Seminar
Credit Hours: 1.00
Capstone course intended for senior chemistry majors consisting of seminars presented by guest speakers, staff, and students; an assessment exam
CHEM 472 — Chemistry Seminar Continuation
Credit Hours: 1.00
Prerequisites: CHEM 471 Minimum Grade: C or T

CHEM 476 — Molecular Biology
Credit Hours: 4.00
An introduction to the study of nucleic acids, genomes and molecular mechanisms with emphasis on genome organization, gene expression, and the techniques used in the study of molecular biology. Laboratory exercises will include standard methodologies such as restriction mapping, cloning, hybridization, DNA libraries, and PCR. Senior standing is recommended. Course includes three hours of lecture and four hours of laboratory per week.
Prerequisites: BIOL 321 Minimum Grade: C or T and BIOL 323 Minimum Grade: C or T and BIOL 325 Minimum Grade: C or T and BIOL 332 Minimum Grade: C or T and CHEM 401 Minimum Grade: C or T

CHEM 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

CHEM 490 — Research in Chemistry
Credit Hours: 1.00 to 3.00
Independent investigation in the field of chemistry offered to superior students upon arrangement with the instructor.
Prerequisites: none

CHEM 492 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

CHEM 499 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

COUN 215 — American Sign Language I
Credit Hours: 3.00
Prerequisites: none

COUN 312 — Introduction to Counseling
Credit Hours: 3.00
This course provides an introduction to the profession of counseling and the importance of interpersonal communication skills and self-awareness across a variety of disciplines. Topics include an introduction to different counseling approaches, such as individual, family, and group counseling.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T or PSYC 205 Minimum Grade: C or T

COUN 321 — American Sign Language II
Credit Hours: 3.00
Prerequisites: PSYC 215 Minimum Grade: C or T or COUN 215 Minimum Grade: C or T

COUN 351 — American Sign Language III
Credit Hours: 3.00
Prerequisites: PSYC 215 Minimum Grade: C or T and PSYC 321 Minimum Grade: C or T OR COUN 215 Minimum Grade: C or T and COUN 321 Minimum Grade: C or T

COUN 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

COUN 392 — Workshops
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

COUN 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

COUN 411 — Transpersonal Psychology
Credit Hours: 3.00
This course will attempt to tap into this reservoir, to journey into the depth of consciousness of the human being. Essentially, transpersonal psychology is an approach to psychology, psychotherapy, and personal growth which integrates psychology and spirituality. The focus of transpersonal psychology goes beyond behaviorism, psychoanalysis, cognitive
psychology, and humanistic psychology. Transper-sonal psychology is concerned with the study of humanity's highest potential, and with the recogni-
tion, understanding, and realization of unitive,
spiritual, and transcendent states of consciousness.
(Lajoie & Shapiro, 1992)
Prerequisites: none

**COUN 471 — American Sign Language IV**
Credit Hours: 3.00
The focus of this no-voice course is to give the student a higher level of a continuous and advanced level of American Sign Language and will include more Deaf Community involvement as well as Deaf culture to add on to the students’ current basis for in-depth specific signs and norms. The course will help the student to increase not only additional signing vocabulary but also understand the advanced grammatical uses of ASL. The student will augment a deeper awareness of the deaf community and usage of a manual language in many areas such as Law Enforcement, Education, (as in mainstreaming), Social Services, Counseling, Employment, and other areas where contact with the deaf is needed for maximum communication and interaction.
Prerequisites: PSYC 215 Minimum Grade: C or T and PSYC 321 Minimum Grade: C or T and PSYC 351 Minimum Grade: C or T
OR COUN 215 Minimum Grade: C or T and COUN 321 Minimum Grade: C or T and COUN 351 Minimum Grade: C or T

**COUN 479 — Special Topics**
Credit Hours: 1.00 to 6.00
Available under each prefix. Offered periodically to meet student special interests in the field.
Prerequisites: none

**CS 179 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**CS 192 — Workshop**
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**CS 199 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**CS 220 — Semillas de la Tierra: Dance**
Credit Hours: 1.00
A study of Mexican dance technique that centers on choreography, stage design, and physical conditioning. Includes history and meaning of dances.
Prerequisites: none

**CS 279 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**CS 292 — Workshop**
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**CS 299 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**CS 379 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**CS 392 — Workshop**
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**CS 399 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**CS 479 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**CS 492 — Workshop**
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none
CS 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

CSCI 100 — Essentials of Info Technology
Credit Hours: 3.00
Introduction to fluency with information technology. While this course satisfies the Technology Proficiency Requirement, its depth goes beyond simple proficiency and provides the student with a robust understanding of what is needed to use information technology effectively across a broad range of applications for personal, workforce, educational, and societal needs. Course includes two hours of lecture and one lab period per week.
Prerequisites: none

CSCI 100L — Essentials of Info Tech Lab
Credit Hours: 0.00
Corequisites: CSCI 100
Prerequisites: MATH 101 Minimum Grade: C
OR ACT MATH Score of: 19
OR ASC MATH PLACEMENT Score of: 23

CSCI 150 — Programming in BASIC
Credit Hours: 3.00
A study of the interactive programming language, visual BASIC.
Prerequisites: MATH 099 Minimum Grade: S or T
OR ACT MATH Score of: 19
OR ASC MATH PLACEMENT Score of: 23

CSCI 179 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

CSCI 192 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

CSCI 199 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

CSCI 200 — Discrete Concepts
Credit Hours: 3.00
A course on the fundamentals of discrete (as opposed to continuous) processes. The course is a foundational course for computer science majors and is meant to be taken early in the program. The course covers a variety of discrete mathematical topics required for a solid background in computer science, including logic, machine number representation, algorithms, recursion, basic counting techniques, graphs and trees, Boolean algebra, finite state automata, computability theory, regular expressions, and complexity classes.
Prerequisites: MATH 106 Minimum Grade: C or T and CSCI 150 Minimum Grade: C or T
OR CSCI 208 Minimum Grade: C or T
OR MATH 210 Minimum Grade: C or T

CSCI 208 — Computer Science I
Credit Hours: 4.00
An intensive first course in structured programming (currently using C++) and fundamental techniques for proper software engineering. It contains control structures, abstract data structures including arrays and files, algorithms for sorting and searching, an introduction to computer numeric representation, and an introduction to assembly language.
Prerequisites: MATH 099 Minimum Grade: S or T
OR ACT MATH Score of: 19
OR ASC MATH PLACEMENT Score of: 23
OR ACCUPLACER Score of: 085

CSCI 209 — Computer Science II
Credit Hours: 4.00
An intensive second course in structured and object-oriented programming. It includes an introduction to object-oriented programming, static and dynamic implementation of list data types, external modules, graphics, and large program design and implementation.
Prerequisites: CSCI 208 Minimum Grade: D or T

CSCI 236 — Research in Computer Science
Credit Hours: 1.00
An independent research course. The student will work with a professor on a research project either designed by the student or the professor. The student’s research must result in a paper or project and a presentation before a group of peers and professors.
Prerequisites: CSCI 209 Minimum Grade: C or T

CSCI 245 — WWW Design and Programming
Credit Hours: 3.00
Introduces students to the world of computer science through the World-Wide Web, focusing on the techniques of web-page creation. No
programming background is required, although students will learn some programming through scripting languages.
Prerequisites: CSCI 100 Minimum Grade: C or T
OR CSCI 208 Minimum Grade: C or T

**CSCI 250 — Human Computer Interaction**
Credit Hours: 3.00
Presents a comprehensive introduction to the principles and techniques of human-computer interaction.
Prerequisites: CSCI 208 Minimum Grade: D or T

**CSCI 279 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**CSCI 292 — Workshop**
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**CSCI 299 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

**CSCI 301 — Soft Develop & Prof Pract I**
Credit Hours: 2.00
Combines a range of topics integral to the design, implementation, and testing of medium-scale software systems including fundamental design patterns, software development processes and project management. Students will form teams and create a design for a medium scale software system. In addition to material on software architecture and engineering, this course also includes material on professionalism and ethical responsibilities in software development and design.
Prerequisites: CSCI 250 Minimum Grade: C or T
and CSCI 208 Minimum Grade: C or T

**CSCI 302 — Soft Develop & Prof Pract II**
Credit Hours: 2.00
The follow up course for CSCI 301 in which students will implement, with their team, a software design from CSCI 301. Students will experience project management and software development processes directly. The course will focus on programming techniques and the last stages of the software development process, including design, validation, evolution, human computer interaction, using API’s, software tools and software development environments.
Prerequisites: CSCI 301 Minimum Grade: C or T

**CSCI 308 — Architecture/Operating Systems**
Credit Hours: 3.00
Introduction to the concepts of computer architecture and operating systems, including assembly level machine organization, representation of data, memory systems, bus principles, digital logic, microprograms, functional machine architecture, RISC, CISC, parallel architectures, an overview of operating systems and operating systems principles, concurrency, and memory management.
Prerequisites: CSCI 209 Minimum Grade: D or T

**CSCI 315 — Users Services Practicum**
Credit Hours: 3.00
Assisting computer users with application and instructional software, aiding peers with program development and debugging, and managing day-to-day demands of the computer lab. The course is graded P/F.
Prerequisites: CSCI 150 Minimum Grade: D or T
OR CSCI 208 Minimum Grade: D or T
OR MATH 210 Minimum Grade D or T

**CSCI 316 — Computer Operations**
Credit Hours: 3.00
The practical use, operation, repair, and maintenance of computer systems and networks. Emphasizes hardware and software aspects of systems currently used in research and industry.
Prerequisites: CSCI 100 Minimum Grade: C or T
OR CSCI 208 Minimum Grade: C or T

**CSCI 320 - Advanced Internet**
Credit Hours: 3.00
Advanced topics and hands-on experience with hardware and software systems used for providing internet services in industry, education and government. The course will survey systems and service options, examine how to establish and maintain services, and explore implications of new technology for future internet and intranet systems.
Prerequisites: CSCI 245 Minimum Grade: C or T

**CSCI 325 — Algorithm Design & Analysis**
Credit Hours: 3.00
Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analy-
sis, algorithmic strategies, and an introduction to automata theory and its application to language translation.
Prerequisites: MATH 200 Minimum Grade: D or T and CSCI 209 Minimum Grade: D or T

**CSCI 330 — Al & Information**  
Credit Hours: 3.00  
Introduces the basics of artificial intelligence and information management. In artificial intelligence the course will examine search techniques, knowledge representation and machine learning. In information utilization and management the course will examine database systems, data modeling, relational databases and query languages.  
Prerequisites: CSCI 209 Minimum Grade: C or T

**CSCI 345 — Net-Centric Computing**  
Credit Hours: 3.00  
Introduces the structure, implementation, and theoretical underpinnings of computer networking and the applications that have been enabled by that technology. The course focuses on the design and implementation of Internet and World Wide Web based application. Other topics include the fundamentals of communications, network management, data compression, Multi-media data technologies, and wireless computing.  
Prerequisites: CSCI 308 Minimum Grade: C or T

**CSCI 379 — Special Topics**  
Credit Hours: 1.00 to 5.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

**CSCI 392 — Workshop**  
Credit Hours: 1.00 to 4.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

**CSCI 399 — Individual Studies**  
Credit Hours: 1.00 to 5.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

**CSCI 410 — Computer Graphics & Multimedia**  
Credit Hours: 3.00  
Offers an introduction to computer graphics, which has become an increasingly important area within computer science. Computer graphics, particularly in association with the multimedia aspects of the World-Wide-Web, have opened up exciting new possibilities for the design of human-computer interfaces. The purpose of this course is to investigate the principles, techniques, and tools that have enabled these advances.  
Prerequisites: CSCI 209 Minimum Grade: C or T and MATH 200 Minimum Grade: C or T and MATH 321 Minimum Grade: C or T

**CSCI 436 — Research in Computer Science**  
Credit Hours: 1.00  
An independent research course. The student will work with a professor on a research project either designed by the student or the professor. The student's research must result in a professional quality paper or project and a presentation before a group of peers and professors.  
Prerequisites: none

**CSCI 445 — Architect for Networks & Comm**  
Credit Hours: 3.00  
Presents the concepts of computer architecture that are central to communications and networking. Topics include distributed algorithms, concurrency, System performance evaluation, network architectures, embedded systems, protocol design, scripting and the impact of architectural issues on distributed systems.  
Prerequisites: CSCI 308 Minimum Grade: C or T and CSCI 345 Minimum Grade: C or T

**CSCI 479 — Special Topics**  
Credit Hours: 1.00 to 5.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

**CSCI 492 — Workshop**  
Credit Hours: 1.00 to 4.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

**CSCI 499 — Individual Studies**  
Credit Hours: 1.00 to 5.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

**ECE 340 — Family Sys/Soc Iss Erly Child**  
Credit Hours: 3.00  
Students will be introduced to the interrelationships of family systems and will develop an awareness of the educator's role in supporting young children and their families. Cultural diversity,
parenting styles, environmental influences, and resources for families will be emphasized.
Prerequisites: none

**ECE 424 — Adv Methods/Tech in ECE Curric**
Credit Hours: 4.00
Required lab arranged. Examine components of effective instruction in early childhood (ages 3 to 8 years), including theoretical bases, developmentally appropriate environment, organization and management, teacher's role, curriculum models, content and evaluation, and strategies materials to meet diverse learning needs.
Prerequisites: ECE 215 Minimum Grade: C or T

**ECE 425 — Student Teaching-Early Childh**
Credit Hours: 4.00 to 8.00
The purpose of this course is to expose the student to a semester of teaching, observing, and participating in classroom related experience in a preschool setting. The experience will be supervised by one or more cooperating teachers and coordinated by a college supervisor. For an added endorsement in Early Childhood Education, students must teach in two different age ranges (primary: K-2, and pre-primary: age 3-5 years).
Prerequisites: ECE 110 Minimum Grade: C or T and ECE 112 Minimum Grade: C or T and ECE 115 Minimum Grade: C or T and ECE 320 Minimum Grade: C or T and ECE 340 Minimum Grade: C or T and ECE 424 Minimum Grade: C or T

**ECON 201 — Economics and Today’s Society**
Credit Hours: 3.00
A core curriculum course developing student understanding of how the economic behavior of individuals, families, businesses, and governments reflects their drive to meet their needs and satisfy their wants in a world of economic and environmental scarcity. Course will help explain the causes and solutions to issues such as energy scarcity, unemployment, inflation, pollution, poverty, healthcare, discrimination, and other world conditions.
Prerequisites: none

**ECON 255 — Principles of Economics I**
Credit Hours: 3.00
Detailed macro/micro approach to the workings of the market system with actual applications to problems of energy, unemployment, inflation, pollution, poverty, health, discrimination, and other important issues.
Prerequisites: none

**ECON 256 — Principles of Economics II**
Credit Hours: 3.00
Detailed macro/micro approach to the workings of the market system with actual applications to problems of energy, unemployment, inflation, pollution, poverty, health, discrimination, and other important issues.
Prerequisites: ECON 255 Minimum Grade: D or T

**ECON 379 — Special Topics**
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: ECON 255 Minimum Grade: D or T and ECON 256 Minimum Grade: D or T

**ECON 399 — Individual Studies**
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: ECON 255 Minimum Grade: D or T and ECON 256 Minimum Grade: D or T

**ECON 425 — Economic Policy**
Credit Hours: 3.00
Study of the structure and functions of the U.S. economic system and the use of monetary, fiscal, and other policies to stabilize the economy. Considerable emphasis placed on forecasting economic conditions and the timing of, as well as the complex interplay of, policy and economic forces.
Prerequisites: ECON 255 Minimum Grade: C or T and ECON 256 Minimum Grade: C or T and MATH 104 Minimum Grade: C or T

**ECON 433 — Managerial Economics**
Credit Hours: 3.00
Bus 318 recommended. Application and integration of microeconomic theory and the tools of decision science to managerial decision-making. Particular emphasis placed on estimating demand and cost functions as well as the effects of time and uncertainty.
Prerequisites: ECON 255 Minimum Grade: C or T and ECON 256 Minimum Grade: C or T and MATH 104 Minimum Grade: C or T

**ECON 474 — Seminar Current Econ Issues**
Credit Hours: 3.00
Analysis in seminar format of a broad range of vital economic issues affecting American society.
Prerequisites: ECON 255 Minimum Grade: C or T and ECON 256 Minimum Grade: C or T
ECON 479 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: ECON 255 Minimum Grade: D or T and ECON 256 Minimum Grade: D or T

ECON 499 — Individual Studies
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: ECON 255 Minimum Grade: D or T and ECON 256 Minimum Grade: D or T

ED 179 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ED 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

ED 200 — Perspectives Teaching/Learning
Credit Hours: 3.00
A study of school, societal and cultural issues and their influences on teaching and learning. As an introductory course, the purpose is to learn about teaching as a career choice, the historical development of American education, social and political structures in the schools, and power groups influencing educational policy. Issues of educational reform will include civil rights, students’ rights, ethnic, gender, and racial issues, individualizing instructions, special education, learning theory models, (inclusive of diversity issues related to electronic media) and alternative school structures. Emphasis is placed on the orientation and development of a proficient and reflective professional educator. A thirty (30) hour, pre-professional, supervised, field-based experience is a course requirement. Students will be required to wear photo identification as they participate in this field experience. Photo IDs must be obtained from the ASC College Center Campus Card Office PRIOR to the beginning of the field experience component. Background check must be completed before classes begin.
Prerequisites: Background check completed Score of: 1

ED 220 — The Exceptional Learner
Credit Hours: 3.00
This course is designed to survey the foundations of special education, including historical, philosophical perspectives, legal issues and current trends in instruction and programming. Students will explore the role of general education as it relates to the education of the student with exceptional needs. Emphasis will be placed on developing knowledge of various disabling conditions, available resources and educational alternatives. Students will learn about the ethical and sociopolitical influences on prevention, intervention and educational programs for students with special needs, from birth through post-secondary ages. Learning characteristics and the diverse needs of students who receive special education services will also be studied. From a pedagogically sound, as well as developmentally appropriate perspective, the similarities and differences within and between exceptionalities and typical development will be emphasized. A ten (10) hour, pre-professional, supervised, field-based experience is a course requirement. Students will be required to wear photo identification as they participate in this field experience. Photo IDs must be obtained from the ASC College Center Campus Card Office PRIOR to the beginning of the field experience component. Background check must be completed before classes begin.
Prerequisites: Background check completed Score of: 1

ED 230 — Lit/Language Development I
Credit Hours: 3.00
This beginning course in reading and writing defines the relationship among a) cognitive and linguistic development, b) emergent literacy, c) the history of reading instruction, and, d) the neuro-physiology (brain-research) of language learning [i.e., speaking, reading, writing, visual representation, and, listening]. There is a dual focus on the processes of reading and writing and the expectations at each level of proficiency and how those expectations are related to: a) phonics, b) concepts about print, c) gaining meaning from text, d) developmental stages of spelling, e) phonemic awareness, word identification, stages of graphophonics and sign vocabulary, and f) the writing process. Additionally, this course will include an introduction to children’s literature (narratives) as a vehicle for exploring literary elements and integrated language arts. PLEASE NOTE: A segment of the Professional Portfolio will be required in this course.
Prerequisites: none
ED 279 — Special Topics
Credit Hours: 0.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ED 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ED 300 — Literacy & Language Dev II
Credit Hours: 3.00
This second course in the Literacy and Language Development sequence focuses on reading and writing methodology and curricula in language development, content area literacy, vocabulary development, study skills, and, inferential and critical comprehension skills. Using the reading and writing processes as basic foundations, this course will provide the balanced practices related to the implementation of literacy instruction. The course will also include an extension of children's literacy (expository) as a vehicle for exploring a variety of genres. Best practices research in the reading and writing instruction will be embedded throughout the courses.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1
OR ED 230 Minimum Grade: C or T

ED 310 — Methods/Teaching Science-Elem
Credit Hours: 3.00
This course is designed to provide the student with methods and techniques for teaching mathematics in the elementary school along with a study of current National and Colorado State Standards for elementary school mathematics. This course will provide a deep understanding of the concepts covered in elementary school. Techniques for assessing student knowledge and ways of integrating mathematics with other disciplines will also be covered. Students will have successfully completed MATH 155 minimum grade C and MATH 156 minimum grade C OR two classes from the following (all minimum grade C): MATH 106, MATH 107, MATH 120, MATH 121 MATH 150, PSYC 211.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1
and Background check completed Score of: 1

ED 328 — Methods/Teaching Math-Elem
Credit Hours: 3.00
This course is designed to provide the student with methods and techniques for teaching mathematics in the elementary school along with a study of current National and Colorado State Standards for elementary school mathematics. This course will provide a deep understanding of the concepts covered in elementary school. Techniques for assessing student knowledge and ways of integrating mathematics with other disciplines will also be covered. Students will have successfully completed MATH 155 minimum grade C and MATH 156 minimum grade C OR two classes from the following (all minimum grade C): MATH 106, MATH 107, MATH 120, MATH 121 MATH 150, PSYC 211.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1
and Background check completed Score of: 1

ED 345 — Educational Psychology
Credit Hours: 3.00
Designed to explore the background of educational psychology. Major topic areas include: research, value and utilization, student characteristics and diversity, learning theories and their application, motivation, teaching methods and practices, evaluating student learning, and standardized measurements. Students will develop increased ability to understand and assess the interrelationships of intellectual, cognitive, instructional, personality, social and cultural influences, theories, and factors as they affect the learning environment. Students will cover assessment procedures, analysis of data, legal and ethical responsibilities as part of necessary research and evaluation within the school learning environment. Emphasis is placed on developing knowledge of historical and current research and its meaning for interaction and planning in the school setting.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 350 — Method/Tchg Science & Math-Sec
Credit Hours: 3.00
This course is designed to support the beginning secondary math or science teacher. Presuming a solid foundation of conceptual knowledge in the content area, the course emphasizes the development of a framework of instructional knowledge and skills to provide successful learning for all students. This framework includes: 1) Content Knowledge that reflects conceptual understanding and ability to relate concepts across the content area and to other disciplines. 2) Pedagogical content knowledge
that includes design and implementation of developmentally appropriate standards based on curriculum, diverse instructional strategies and assessments that identify and meet the needs of all students, and identification of resources for curriculum and instruction. 3) Knowledge of student patterns of thinking in mathematics and science that supports strategies to assess student understanding and informs instructional decisions. 4) Issues of diversity and equity, in recognizing that mathematics and science are academic gatekeepers for many students and that curriculum and instruction must provide access for all students, especially students who are linguistically and culturally diverse. Students will have successfully completed 24 semester hours of credit in MATH and/OR SCIENCE with a grade C or better.

Prerequisites: admitted to Teacher Education Preparation Program Score of: 1 and Background check completed Score of: 1

ED 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ED 392 — Workshops
Credit Hours: 0.50 to 5.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ED 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ED 404 — Literacy and Language Dev III
Credit Hours: 2.00
This third course in the Literacy and Language Development sequence focuses on individualized assessment for the diagnosis of reading and writing and spelling disabilities. This course also helps the teacher licensure candidate create a body of evidence using multiple assessments (both formal and informal) which informs the design of an Individual Literacy Plan (ILP); student study teams (SST); remediation plans; special education staffings; and, instructional improvement. Additionally, the exploration of recognizing cognitive discrepancies among students; the recognition of perceptual-communicative disorders; the understanding of achievement and cognitive discrepancies; the uses and purposes of standardized testing; and the aforementioned concepts in their relationship to improving instruction and student performance will be emphasized. A twenty (20) hour, pre-professional, supervised, field-based experience is a course requirement. Elementary licensure candidates will be required to wear photo identification as they participate in this field experience. Photo Ids must be obtained from the ASC College Center Campus Card Office PRIOR to the beginning of the field experience component. This is a REQUIREMENT, not an option. This course is offered through Extended Studies through the REAP program only.
Corequisites: ED 405L
Prerequisites: ED 300 Minimum Grade: C or T and ED 300L Minimum Grade: C or T and admitted to Teacher Education Preparation Program Score of: 1

ED 405L — Literacy & Language III Lab
Credit Hours: 0.00
This course is offered through Extended Studies through the REAP program only.
Corequisites: ED 405
Prerequisites: ED 300 Minimum Grade: C and ED 300L Minimum Grade: C and admitted to Teacher Education Preparation Program Score of: 1
ED 410 — Class Instruct/Mngmnt
Credit Hours: 3.00
This course is designed to introduce candidates for licensure to basic theory and principles of practice in the area of classroom management and behavior evaluation and change. Emphasis is placed on developing a critical thinking approach to evaluation and planning to successfully deal with management in the classroom. Additional focus will be on the successful management of time, communication, and record-keeping procedures that support and enhance student learning. Additionally, licensure candidates will design a management plan. This data will be added to the portfolio initiated in the Perspectives in Teaching and Learning course. Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 414 — Class Instruct/Mngmnt — Elem
Credit Hours: 2.00
This course is designed to introduce elementary licensure candidates to basic theory and principles of practice in the areas of classroom instruction, classroom management, and behavior evaluation and change. Emphasis is placed on developing a critical thinking approach to the design and implementation evaluation and planning to successfully deal with management in the classroom. Additional focus will be on classroom instruction that promotes student achievement, the successful management of time, communication, and record-keeping procedures that support and enhance student learning. Additionally, licensure candidates will design a management plan. This data will be added to the portfolio initiated in the Perspectives in Teaching and Learning course. Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 416 — Sec/K-12 Class Instruct/Mngmnt
Credit Hours: 2.00
This course is designed to introduce licensure candidates to basic theory and principles of practice in the areas of classroom instruction, classroom management, and behavior evaluation and change. Emphasis is placed on developing a critical thinking approach to the design and implementation evaluation and planning to successfully deal with management in the classroom. Additional focus will be on classroom instruction that promotes student achievement, the successful management of time, communication, and record-keeping procedures that support and enhance student learning. Additionally, licensure candidates will design a management plan. This data will be added to the portfolio initiated in the Perspectives in Teaching and Learning course. Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 420 — Ed Practices/Assessment
Credit Hours: 3.00
This course is designed to assist the elementary and secondary licensure candidate in learning the theoretical foundations, skills and strategies to assess students in ways that inform instruction and improve learning. Candidates will explore the purposes of assessment, learn when and how to use a variety of assessment methods, learn to construct valid classroom instruments (i.e. selected-response, constructed-response, and performance assessments), learn how to minimize assessment bias, and use appropriate accommodations that ensure student learning in a standard-based curriculum. A twenty-hour, pre-professional, supervised, field-based experience must be completed as a course requirement. This course is offered through Extended Studies through the REAP program only. Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 424 — Elem Ed Practices/Assessment
Credit Hours: 2.00
The Teacher Education Program Portfolio will be continued in this course. The required elements for the program portfolio will include student constructed assessment tools, a Standard-Based Mini Unit, electronic data on alternative assessments, and an assessment reporting profile. Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 426 — Sec/K-12 Ed Practice/Assmnt
Credit Hours: 2.00
This course is intended to assist the secondary licensure candidate in learning the theoretical foundations, skills and strategies to assess students in ways that inform instruction and improve learning. Candidates will explore the purposes of assessment, learn when and how to use a variety of assessment methods, learn to construct valid classroom instruments (i.e. selected-response, constructed-response, and performance assessments), learn how to minimize assessment bias, and use appropriate accommodations that ensure student learning in a standard-based curriculum.
The Teacher Education Program Portfolio will be continued in this course. The required elements for the program portfolio will include student constructed assessment tools, a Standard-Based Mini Unit, electronic data on alternative assessments, and an assessment reporting profile.

Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 429 — Content Area Literacy
Credit Hours: 2.00
Approaches and strategies for teaching secondary reading in various subject areas. Topics include textbook selection and readability, comprehension skills, study skills, and meeting needs of diverse student populations.

Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

ED 434L — Field Experience Lab — Elem
Credit Hours: 3.00
This course will continue its 120 hours of lab broken down as follows:
* 20 hours in EPLS 300
* 20 hours in Math 328
* 20 hours for ED 404
* 20 hours for ED 310
* 20 hours for ED 414
* 20 hours for ED 424

Prerequisites: admitted to Teacher Education Preparation Program Score of: 1
and Background check completed Score of: 1

ED 435 — Student Teaching-Elementary
Credit Hours: 1.00 to 15.00
Corresponds with the public school calendar for one full semester. Student teacher candidates must pass state required field content examination, ie: the Program for Licensing Assessments for Colorado Educators (PLACE) or Praxis II content exam prior to the student teacher semester. The student teaching experience requires many new responsibilities. The experience provided to student teacher candidates during this field experience is comprehensive. Students must complete all components explained in the Student Teaching Handbook. An Educational Field Experience Team in place during the apprenticeship will help student teacher candidates acquire the necessary skills in the practice of building a community of learners while teaching and learning. The community of learners includes the student teacher candidate, the cooperating mentor teacher, the college field supervisor, the building principal, and the classroom students. The student teaching experience requires a minimum of 640 hours of contact time.

Prerequisites: admitted to Teacher Education Preparation Program Score of: 2
and Background check completed Score of: 1

ED 436L — Field Experience Lab-Sec/K-12
Credit Hours: 3.00
Reflections and proficiencies demonstrated during this course will continue its 120 hours of lab broken down as follows:
* 20 hours in ED 429
* 20 hours in ED 416
* 20 hours for ED 426
* 60 hours for the appropriate content methods course

Prerequisites: admitted to Teacher Education Preparation Program Score of: 1
and ED 416 Minimum Grade: C or T
and ED 426 Minimum Grade: C or T
and ED 429 Minimum Grade: C or T
and Background check completed Score of: 1
OR admitted to Teacher Education Preparation Program Score of: 1

ED 445 — Student Teaching-Secondary
Credit Hours: 1.00 to 15.00
Corresponds with the public school calendar for one full semester. Student teacher candidates must pass state required field content examination, ie: the Program for Licensing Assessments for Colorado Educators (PLACE) or Praxis II content exam prior to the student teacher semester. The student teaching experience requires many new responsibilities. The experience provided to student teacher candidates during this field experience is comprehensive. Students must complete all components explained in the Student Teaching Handbook. An Educational Field Experience Team in place during the apprenticeship will help student teacher candidates acquire the necessary skills in the practice of building a community of learners while teaching and learning. The community of learners includes the student teacher candidate, the cooperating mentor teacher, the college field supervisor, the building principal, and the classroom students. The student teaching experience requires a minimum of 640 hours of contact time.

Prerequisites: admitted to Teacher Education Preparation Program Score of: 2
and Background check completed Score of: 1

ED 455 — Student Teaching K-12
Credit Hours: 1.00 to 15.00
Corresponds with the public school calendar for one full semester. Student teacher candidates must
pass state required field content examination, i.e., the Program for Licensing Assessments for Colorado Educators (PLACE) or Praxis II content exam prior to the student teacher semester. The student teaching experience requires many new responsibilities. The experience provided to student teacher candidates during this field experience is comprehensive. Students must complete all components explained in the Student Teaching Handbook. An Educational Field Experience Team in place during the apprenticeship will help student teacher candidates acquire the necessary skills in the practice of building a community of learners while teaching and learning. The community of learners includes the student teacher candidate, the cooperating mentor teacher, the college field supervisor, the building principal, and the classroom students. The student teaching experience requires a minimum of 640 hours of contact time.

Prerequisites: admitted to Teacher Education Preparation Program Score of: 2 and Background check completed Score of: 1

ED 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ED 492 — Workshops
Credit Hours: 0.50 to 5.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ED 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ENG 101 — Communication Arts I GT-C01
Credit Hours: 3.00
A course designed to provide students with the reading, writing, and critical thinking skills necessary to produce effective college-level expository writing. Students are placed in this course according to current state placement policy.
Prerequisites: ACT Reading Score of: 19 and ACT Writing Score of: 18
OR ACCUPLACER Writing Score of: 095 and ACCUPLACER Reading Score of: 080
OR ENG 099 Minimum Grade: S or T
OR ID 096 Minimum Grade: S or T

ENG 102 — Communication Arts II GT-C02
Credit Hours: 3.00
The emphasis in this course is upon source-based writing designed to develop skills in critical reading, thinking, and writing. A series of written assignments, including a fully documented paper and oral presentation, are required.
Prerequisites: ENG 101 Minimum Grade: D or T
OR ACT Reading Score of: 27
OR ENG 101 Minimum Grade: P

ENG 179 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ENG 192 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ENG 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ENG 200 — College Writing Review
Credit Hours: 3.00
Designed for referred students at the sophomore or junior level, the course emphasizes composition and writing in the disciplines. Students will polish their writing skills and develop portfolios.
Prerequisites: ENG 101 Minimum Grade: C or T and ENG 102 Minimum Grade: C or T

ENG 203 — Major Themes in Literature
Credit Hours: 3.00
This course is designed to expose students to a variety of literature and to develop critical thinking, reading, and writing skills.
Prerequisites: ENG 101 Minimum Grade: C or T

ENG 210 — The Study of Literature
Credit Hours: 3.00
This course covers fundamental literary terms and concepts. Focus on close analyses of texts: tone, symbolism, figurative language, speaker, diction, and syntax. Introduction to literary theories. Mechanics of incorporating primary and secondary sources using MLA style. Development of analytical reading and writing skills. PREREQUISITE to ALL HIGHER NUMBERED LITERATURE
COURSES.
Prerequisites: ENG 101 Minimum Grade: C or T

ENG 225 — Honors English
Credit Hours: 3.00
For selected students with a high degree of self-motivation.
Prerequisites: none

ENG 226 — Basic Grammar & Hist:English
Credit Hours: 3.00
Fundamentals of English grammar and a brief, non-technical history of the language, including historical perspectives on varieties of contemporary American English. Students will review basic grammatical elements.
Prerequisites: ENG 101 Minimum Grade: C or T

ENG 255 — Women and Drama
Credit Hours: 3.00
A survey of the history and literature associated with women in theatre. Includes the history of actual women involved in the evolution of western and eastern theatre traditions as well as drama scripts which deal with the subject of women's issues. Greek through contemporary drama.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 258 — Mythology
Credit Hours: 3.00
An in-depth study of classical mythology to familiarize students with the principle classical allusions encountered in Western imaginative literature.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 279 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ENG 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ENG 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ENG 300 — Interrelations of the Arts
Credit Hours: 3.00
An examination of the ways in which the fine arts are interrelated, with particular attention given to the differing treatments of important literary, musical, and artistic themes. (Same as Phil 300.)
Prerequisites: none

ENG 303 — Non-Fiction Workshop
Credit Hours: 4.00 to 5.00
Prerequisites: none

ENG 309 — Eng Lit I: Beowulf-Trans Write
Credit Hours: 3.00
Historical survey of English literature.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 310 — Eng Lit: Romans-Modern
Credit Hours: 3.00
Continuing historical survey of English literature.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 311 — World Literature I
Credit Hours: 3.00
Selected masterpieces of world literature from ancient times to 1700. Includes some works from outside the Western tradition.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 312 — World Literature II
Credit Hours: 3.00
Selected masterpieces of world literature from 1700 to the present. Includes some works from outside the Western tradition.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 314 — Adolescent Literature
Credit Hours: 3.00
A course designed to acquaint prospective teachers of English with representative literature of adolescence.
Prerequisites: ENG 210 Minimum Grade: D or T

ENG 315 — Children's Literature
Credit Hours: 3.00
Survey of literature for children (ages 0-14) from ancient times to the present. Evaluation and use of books and other resources in the home, in public libraries, and in school media centers.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 316 — Methods/English in Sec School
Credit Hours: 3.00
A study of effective teaching methods used in presenting grammar, composition, and literature to junior and senior school students. Usually taken as part of the Education licensure senior block. Students should have strong preparation in upper-division English content courses. This course requires department chair approval for
ENG 327 — Intro to Creative Writing  
Credit Hours: 3.00  
In this course students will learn various techniques of writing poetry, fiction, and other creative prose forms, to develop aesthetic standards, and to evaluate their writing and that of their classmates according to their standards. The writing process, including strategies for invention and revision, will be emphasized, and ideas for the teaching of creative writing will be presented.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 328 — Creative Non-Fiction  
Credit Hours: 3.00  
This course covers advanced techniques in nonfiction writing encompassing a variety of styles, forms, and topics, encouraging exploration of the genre's innumerable possibilities while developing the student's personal and critical theories of writing.  
Prerequisites: none

ENG 350 — 20th C Brit & Commonwealth Lit  
Credit Hours: 3.00  
Emphasis on the major writers of the British Commonwealth and the movements they are associated with, including, traditionalists, modernists, and post-modernists. Each course offering is limited to a consideration of three or four authors in depth.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 355 — The Novel  
Credit Hours: 3.00  
Selected novels written between the 18th century and the present.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 356 — The Russian Novel  
Credit Hours: 3.00  
A study of major Russian novels.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 357 — Introduction to Linguistics  
Credit Hours: 3.00  
This course provides a comprehensive introduction to phonetics and phonology, morphology, syntax, and semantics. Additional topics will include first and second language acquisition, language variance, and written language.  
Prerequisites: ENG 226 Minimum Grade: C or T

ENG 358 — Bible as Literature  
Credit Hours: 3.00  
This course analyzes the Bible as literature, examines the use of biblical motifs, imagery, and themes in post-biblical texts, and explores the First Amendment challenges confronting those who plan to teach Bible-as-literature courses in the public schools.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 363 — Advanced Composition  
Credit Hours: 3.00  
Advanced techniques of effective writing for a variety of purposes. Includes a unit on writing for the World Wide Web.  
Prerequisites: ENG 102 Minimum Grade: C or T

ENG 365 — Ethnic & Minority Literature  
Credit Hours: 3.00  
A study of the literature of Native American, African-American, Chicano, and other American ethnic and minority groups.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 375 — Chicano Literature  
Credit Hours: 3.00  
This course explores the canon of Chicana/o Literature and its multiple influences. Specifically, the course deals with the cultural, political and societal climates that necessitated the literature. The course will focus on oral tradition and its evolution into other genres of Chicana/o Literature (poetry, fiction, & essay).  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 379 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 385 — Women and Literature  
Credit Hours: 3.00  
A survey of literature written by women beginning with Sappho and focusing on the western tradition. An introduction to feminist literary criticism.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 392 — Workshop  
Credit Hours: 0.50 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 394 — American Literature I  
Credit Hours: 3.00  
Pre-Columbian to 1865 survey of American Literature from its native and colonial beginnings through the mid-nineteenth century.  
Prerequisites: ENG 210 Minimum Grade: C or T
ENG 395 — American Literature II  
Credit Hours: 3.00  
Survey of American literature from 1865 to the present. Thematic emphases include the development of African American, Native American, and feminist literary traditions; industrialization, urbanization, and the closing of the frontier; realism, naturalism, and modernism; the Lost Generation; and the Sixties and postmodernism.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 399 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 403 — Shakespeare  
Credit Hours: 3.00  
Combines study of comedies, histories, and tragedies.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 407 — Chaucer  
Credit Hours: 3.00  
Concentrates mainly on the Canterbury Tales, but covers other major works as time permits.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 409 — Renaissance Literature  
Credit Hours: 3.00  
Survey of Renaissance literature, with emphasis on Milton.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 416 — The Teaching of Writing  
Credit Hours: 3.00  
A study of theories about writing through reading, research, reflection, writing and practice. Students will practice the teaching of writing and develop instructional strategies and philosophies for all levels including college.  
Prerequisites: none

ENG 425 — English Syntax  
Credit Hours: 3.00  
A descriptive study of English syntax in the framework of generative-transformational grammar, with emphasis on theoretical approaches developed in the 1980's and later.  
Prerequisites: ENG 357 Minimum Grade: C or T

ENG 426 — Creative Writing: Poetry  
Credit Hours: 3.00  
This course will teach students to develop their craft and creativity in the genre of poetry. Students will submit original poems weekly, read selected works of contemporary published poetry, and critique their own work and the work of their classmates. They will practice revision and submit revised work in a portfolio of at least 12 pages.  
Prerequisites: ENG 327 Minimum Grade: C or T

ENG 427 — Creative Writing: Fiction  
Credit Hours: 3.00  
This course will teach students to develop their craft and creativity in the genre of prose fiction (short story and novel) and autobiographical narrative. Students will submit their original writing, read works of published fiction, and critique their own work and the work of their classmates.  
Prerequisites: ENG 327 Minimum Grade: C or T

ENG 428 — Senior Writing Project  
Credit Hours: 3.00  
Prerequisites: ENG 210 Minimum Grade: C or T and ENG 327 Minimum Grade: C or T and ENG 426 Minimum Grade: C or T and ENG 427 Minimum Grade: C or T

ENG 443 — 20th Century American Novel  
Credit Hours: 3.00  
Selected American Novelists 1900 to present.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 450 — Romantic and Victorian Lit  
Credit Hours: 3.00  
Selected works of major English writers of the Romantic and Victorian periods.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 458 — Modern Poetry  
Credit Hours: 3.00  
Study of modern and contemporary poetry with emphasis on American poets.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 465 — Modern Drama  
Credit Hours: 3.00  
Study of representative modern European and American plays.  
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 470 — Classical Drama  
Credit Hours: 3.00  
A chronological study of the major periods of dramatic literature, from the emergence of Greek Tragedy in the 5th century B.C. to the development of European Realism in the late 19th century. The focus of the course will be placed equally upon script analysis and dramaturgy.  
Prerequisites: ENG 210 Minimum Grade: C or T
ENG 472 — Contemporary Drama
Credit Hours: 3.00
This course will require students to analyze and discuss contemporary dramas of two types: those which do not necessarily fit the typical genres, structure, and styles of modernist drama (e.g., commercial drama, television drama, commercial film script), and those which focus on the concerns of marginalized groups in America (e.g., gay and lesbian, African-American, Asian-American, Native- Americans, Latinos, etc.).
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 475 — Problems in American Studies
Credit Hours: 3.00
Emphasizes specific topics in American studies, including readings in the literature and an investigation of current problems, including the American character, popular culture and ethnic and women's studies.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 480 — Contemporary Literary Theory
Credit Hours: 3.00
Study of the developments of literary critical theory and practice from the beginning of the 20th century to the present. Some emphasis on important earlier theories as they relate to contemporary developments.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 490 — Studies in Major Authors
Credit Hours: 3.00
Study of major figures in fiction, dramatic literature, and poetry. Author(s) will be selected by instructor.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 492 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 495 — Senior Seminar
Credit Hours: 3.00
This course is designed to be the academic capstone experience for all students who are majoring in English/Liberal Arts and to prepare students for graduate studies in the field. Subject matter will vary depending upon the instructor’s specialization or area of interest. All seminar students will write a major research essay that reflects the student’s mastery of library usage, research methodology, breadth of knowledge, critical thinking, and writing ability.
Prerequisites: ENG 210 Minimum Grade: C or T

ENG 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ENV 101 — Intro to Environmental Sci
Credit Hours: 4.00
An introductory level study of ecosystems, evolution population growth dynamics and problems, atmospheric and geologic processes, nonrenewable resource use, soil and land use, nutrient cycling, energy use, pollution and conservation strategies.
Prerequisites: MATH 099 Minimum Grade: D

ENV 101L — Intro to Environmental Sci Lab
Credit Hours: 0.00
Prerequisites: none

ENV 179 — Special Topics
Credit Hours: 1.00 to 6.00
Prerequisites: none

ENV 179L — Special Topics Lab
Credit Hours: 0.00
Prerequisites: none

FR 103 — Elementary French I
Credit Hours: 4.00
Covers the principles of pronunciation and essentials of grammar in addition to practice in conversation, composition, and reading.
Prerequisites: none

FR 104 — Elementary French II
Credit Hours: 4.00
Covers the principles of pronunciation and essentials of grammar in addition to practice in conversation, composition, and reading.
Prerequisites: none

FR 135 — Begin Conversational French
Credit Hours: 2.00
Practice in speaking French. Discussion based on cultural topics.
Prerequisites: none

FR 179 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

FR 192 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

FR 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

FR 201 — Intermediate French I
Credit Hours: 3.00 to 5.00
Prerequisites: none

FR 203 — Intermediate French
Credit Hours: 3.00
A review of grammar, practice in composition, speaking and understanding French, intensive work in reading, and some discussion of the literature read.
Prerequisites: FR 103 Minimum Grade: D or T and FR 104 Minimum Grade: D or T

FR 204 — Intermediate French
Credit Hours: 3.00
A review of grammar, practice in composition, speaking and understanding French, intensive work in reading, and some discussion of the literature read.
Prerequisites: FR 103 Minimum Grade: D or T and FR 104 Minimum Grade: D or T)

FR 235 — Continuing Conv. French
Credit Hours: 2.00
Practice in speaking French. Discussion based on cultural topics.
Prerequisites: FR 135 Minimum Grade: D or T

FR 279 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

FR 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

FR 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

FR 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

FR 392 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

FR 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

FR 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

FR 492 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

FR 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

GEOG 101 — Weather Climate and Vegetation
Credit Hours: 4.00
Introduction to the Earth’s climate system focusing on the elements and controls of climate, and their implications for hydrology, vegetation, and soils. Emphasizes the spatial distribution of physical features across the Earth’s surface and interactions with the biotic components (including humans), especially those leading to global
environmental change.
Prerequisites: none

GEOG 201 — Intro to Cartography and GIS
Credit Hours: 3.00
This course is a broad introduction to mapping sciences and arts, with an emphasis on the theory and practice of cartography. The objective is to help students develop the faculty to think critically about cartographic processes and representations as well as develop their skills in creating maps. Geographic Information Systems (GIS) will be introduced as a multi-disciplinary tool that builds on the fundamentals of cartography. Course included two combined lecture and laboratory sessions per week. The prerequisite for this course is to satisfy the Technology Proficiency requirement.
Prerequisites: none

GEOG 212 — Nat Res Mgt on Public Lands
Credit Hours: 3.00
Reviews public lands management from both a theoretical and descriptive perspective. The major political forces affecting public lands, and the specific details of energy policy, forests, rangelands, national parks, and wildlife on public lands are discussed.
Prerequisites: GEOG 101 Minimum Grade: C or T

GEOG 215 — Cultural Geography of Lat Am
Credit Hours: 3.00
An introduction to the study of contemporary Latin America. Particular attention will be given to the region's cultural and sociological characteristics and to the quest for economic development.
Prerequisites: none

GEOG 300 — World Geography
Credit Hours: 3.00
A study of historical, political, economic, and demographic aspects of world geography emphasizing the role of geography in the development of nations. This course will fulfill the Colorado Department of Teacher Education requirement in geography for social studies licensure.
Prerequisites: none

GEOG 301 — Applications in GIS
Credit Hours: 4.00
Multidisciplinary applications of spatial data types and analyses utilizing geographic information systems (GIS) with an emphasis towards computer organization and documentation of the data and procedures (metadata). Application of computer-assisted drafting programs, such as AutoCAD, GIS ARC/View 9.0, for choropleth, planimetric, topographic, and site-plan mapping. Course includes three hours of lecture and two hours of laboratory per week.
Prerequisites: GEOG 201 Minimum Grade: C or T and GEOG 210 Minimum Grade: C or T

GEOG 307 — Biogeography
Credit Hours: 3.00
This class is required in the BA Physical Geography and Natural Resources Management degree. The course builds upon topics introduced in the introductory physical geography courses and synthesizes concepts addressed in other upper-division courses dealing with vegetation science, climatology, soil, historical geology, ecology, and evolution to explain patterns and processes influencing past and present distributions of organisms.
Prerequisites: GEOG 101 Minimum Grade: C or T

GEOG 311 — Climatology
Credit Hours: 4.00
This course examines the global patterns of climate and the processes that shape them. Particular attention is given to climate change mechanisms (past & present), human-induced changes to the climate system, and likely future changes. Field and computer based methodology relevant to the field of climatology is also emphasized.
Prerequisites: GEOG 101 Minimum Grade: C or T

GEOG 315 — Quantitative Geography
Credit Hours: 3.00
Application of probability theory, statistical procedures, and dimensional analysis to problems in economic and cultural geography, climatology, landforms, and related fields. Graphic representation of data. Course includes two hours of lecture and two hours of laboratory per week.
Prerequisites: MATH 205 Minimum Grade: C or T

GEOG 330 — Nature and Properties of Soils
Credit Hours: 4.00
Analyzes soil as natural bodies and managed resources, focusing on impacts of landforms, hydrology, nutrients, and organisms on soils. The laboratory includes analysis of soil patterns, methods of sampling, and techniques of determining physical and chemical properties of soils. Course includes three hours of lecture and two hours of laboratory per week.
Prerequisites: CHEM 111 Minimum Grade: C or T and GEOL 111 Minimum Grade: C or T

GEOG 404 — Biogeography of the Rky Mtns
Credit Hours: 3.00
This course examines the biogeography of the Rocky Mountain region from an historical and ecological perspective. Biogeographical theory and its application to management and human
modification of ecological communities will also be examined.
Prerequisites: none

**GEOG 407 — Vegetation Analysis**
Credit Hours: 3.00
Techniques of describing, sampling, classifying, and analyzing change in vegetation applied to a variety of local vegetation types. Includes field and computer lab components.
Prerequisites: none

**GEOG 411 — Mountain Geography**
Credit Hours: 3.00
This class focuses on the physical science of mountains, including the origin of mountains as well as the climatic, geomorphic, and ecological processes and patterns found in mountain environments. The impact of mountains on human settlement and activities are discussed, as well as how humans have impacted mountain environments.
Prerequisites: none

**GEOG 420 — Remote Sensing**
Credit Hours: 4.00
The course considers acquisition and interpretation remote sensed environmental data, theory and sensors, and manual and computerized interpretation methods.
Prerequisites: none

**GEOG 421 — Glacial and Periglacial Geog**
Credit Hours: 3.00
This course will examine geomorphological aspects of the cryosphere, giving emphasis to the study of landforms and sediments created by ice sheets and periglacial processes both past and present. Where relevant, the applied aspects of glacial and periglacial geomorphology will be given specific attention.
Prerequisites: none

**GEOG 440 — Senior Capstone in Geography**
Credit Hours: 2.00
Capstone experiences integrate material learned in the major through independent research and creative thinking by students. The capstone experience may include a primary research experience (such as field project or internship) or a substantive exploration of a geographic topic. Emphasis is also place on effective writing and oral presentation skills. Departmental approval required for a capstone project.
Prerequisites: none

**GEOL 111 — Physical Geology**
Credit Hours: 4.00
An introduction to the materials of the earth and the internal and surficial processes that have acted upon the earth through time. Laboratory work includes identification and classification of minerals and rocks and exercises involving topographic and geological maps.
Prerequisites: none

**GEOL 112 — Historical Geology**
Credit Hours: 4.00
Introduction to the geological evolution of the earth through time using basic principles of stratigraphy and paleontology. Laboratory work includes identification and classification of fossils and correlation of sedimentary environments.
Prerequisites: GEOL 111 Minimum Grade: C or T

**GEOL 121 — Field Study I**
Credit Hours: 1.00
Local geology of the San Luis Valley and surrounding areas on day trips. Grades are pass/fail only. Outdoor activity required.
Prerequisites: GEOL 111 Minimum Grade: C or T

**GEOL 122 — Field Study II**
Credit Hours: 1.00
Local geology of the San Luis Valley and surrounding areas on day trips. Grades are pass/fail only. Outdoor activity required.
Prerequisites: GEOL 111 Minimum Grade: C or T

**GEOL 179 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**GEOL 192 — Workshop**
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**GEOL 199 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By permission of instructor and approval of the department chair.
Prerequisites: GEOL 111 Minimum Grade: C or T

**GEOL 279 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none
GEOL 292 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

GEOL 299 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field.
By permission of the instructor and approval of the department chair.
Prerequisites: GEOL 111 Minimum Grade: C or T

GEOL 321 — Geomorphology w/Env Appllic
Credit Hours: 4.00
A study of the processes that control the development of the materials and landforms found on the earth’s surface. An emphasis is placed upon the hydrologic variables in generating landforms and human interactions with these formative processes. Field trips, topographic map, and aerial photo exercises are required. Spring semester of even-numbered academic years.
Prerequisites: GEOL 111 Minimum Grade: C or T

GEOL 331 — Mineralogy
Credit Hours: 4.00
Systematic identification of natural minerals and gemstones utilizing their physical and crystallographic characteristics. Fall semester of odd-numbered academic years.
Prerequisites: GEOL 111 Minimum Grade: C or T

GEOL 332 — Optical Mineralogy
Credit Hours: 1.00
A laboratory course based upon the interaction of light as it passes through non-opaque minerals. Students are to learn the optical properties of the common rock-forming minerals as identified using a petrographic microscope. Completion of GEOL 331 with a grade of C or better or concurrent registration required.
Prerequisites: GEOL 331 Minimum Grade: C or T

GEOL 334 — Igneous/Metamorphic Petrology
Credit Hours: 4.00
The study of the occurrence and origin of igneous, sedimentary and metamorphic rock. Laboratory exercises will emphasize the petrographic analysis of hand-samples.
Course includes field trips. Spring semester of odd-numbered academic years. GEOL 334 is a complimentary course with GEOL 343 Sedimentology and Stratigraphy.
Prerequisites: GEOL 331 Minimum Grade: C or T

GEOL 336 — Optical Petrology
Credit Hours: 1.00
The laboratory study of the occurrence and origin of igneous, sedimentary and metamorphic rock using a petrographic microscope. Laboratory exercises will emphasize the petrographic analysis of thin sections. Companion laboratory to Petrology (GEOL 334) for BS Geology students. Course includes field trips. Spring semesters of odd-numbered academic years.
Corequisites: GEOL 334
Prerequisites: GEOL 331 Minimum Grade: C or T and GEOL 332 Minimum Grade: C or T

GEOL 340 — Intro to Hydrogeology
Credit Hours: 4.00
Dynamics of the groundwater system and its relationship with surface water systems of rivers, lakes, and oceans. Fall semester of even-numbered academic years.
Prerequisites: MATH 106 Minimum Grade: C or T and GEOL 111 Minimum Grade: C or T

GEOL 343 — Sedimentology & Stratigraphy
Credit Hours: 4.00
The study of the origin and occurrence of sedimentary materials and their vertical succession. Sediment dynamics and structures will be explored within various depositional settings.
Course includes required field trips. Fall semester of odd-numbered academic years. GEOL 343 is complimentary to GEOL 334 Igneous and Metamorphic Petrology.
Prerequisites: GEOL 112 Minimum Grade: C or T

GEOL 350 — Geologic Excurs/Texas Region
Credit Hours: 2.00
A field trip of approximately one week, generally during spring break, every third year, to the Texas region of the western U.S. Each field excursion may be taken only once for credit. An additional fee is required. Course offering is subject to faculty availability.
Prerequisites: GEOL 112 Minimum Grade: C or T

GEOL 351 — Geol Excursion/Arizona Region
Credit Hours: 2.00
A field trip of approximately one week, generally during spring break, every third year, to the Arizona region of the western U.S. Each field excursion may be taken only once for credit. An additional fee is required. Course offering is subject to faculty availability.
Prerequisites: GEOL 112 Minimum Grade: C or T

GEOL 352 — Geol Excursion/Utah Region
Credit Hours: 2.00
A field trip of approximately one week, generally during spring break, every third year, to the Utah region of the western U.S. Each field excursion may be taken only once for credit. An additional fee is required. Course offering is subject to faculty availability.

Prerequisites: GEOL 112 Minimum Grade: C or T

**GEOL 371 — Structural Geology**
Credit Hours: 4.00
Recognition, representation, and significance of geologic structures of the earth's crust. Course includes occasional required field trips. Fall semester of even-numbered academic years.

Prerequisites: GEOL 111 Minimum Grade: C or T

**GEOL 379 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.

Prerequisites: none

**GEOL 388 — Problems in Geology**
Credit Hours: 1.00 OR 2.00
Opportunity for laboratory or field research into problems of special interest. Fall and spring semesters upon sufficient interest. Instructor permission and approval of department chair required.

Prerequisites: none

**GEOL 392 — Workshop**
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**GEOL 399 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the program coordinator.

Prerequisites: none

**GEOL 433 — Environmental Geochemistry**
Credit Hours: 3.00
A lecture course examining the interaction of geological materials with the surface environment. Processes of transport and fate of contaminants and pollutants from natural and manmade sources will be addressed, as well as the geology of some natural resources that contribute pollutants. Spring semester of odd-numbered academic years.

Prerequisites: GEOL 111 Minimum Grade: C or T and CHEM 131 Minimum Grade: C or T and CHEM 132 Minimum Grade: C or T

**GEOL 446 — Field Methods**
Credit Hours: 2.00
Techniques and concepts of basic geologic field mapping and section measuring including the use of the plane table and alidade, theodolite, Brunton compass, and GPS. Spring semester of even-numbered academic years.

Prerequisites: GEOL 371 Minimum Grade: C or T and GEOL 350 Minimum Grade: C or T OR GEOL 351 Minimum Grade: C or T OR GEOL 352 Minimum Grade: C or T

**GEOL 479 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.

Prerequisites: none

**GEOL 488 — Problems in Geology**
Credit Hours: 1.00 OR 2.00
Opportunity for laboratory or field research into problems of special interest. Fall and spring semesters upon sufficient interest. Instructor permission and approval of department chair required.

Prerequisites: none

**GEOL 492 — Workshop**
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**GEOL 495 — Field Geology**
Credit Hours: 6.00
Course teaches fundamental applications of traditional geological field mapping methods and recognition of geological features in an outdoor setting. Report writing, presentations, and planning for fieldwork are also covered. Modern technology is included wherever appropriate to learning field-based methods. Spring semester of even-numbered academic years.

Prerequisites: GEOL 446 Minimum Grade: C or T

**GEOL 499 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.

Prerequisites: none

**GOVT 179 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.

Prerequisites: none
GOVT 192 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

GOVT 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

GOVT 206 — Contemporary American Politics
Credit Hours: 3.00
Organization, operation, and practical concerns of politics from precinct to national levels.
Prerequisites: none

GOVT 279 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

GOVT 291 — American Government
Credit Hours: 3.00
A survey of national governmental/political processes, American democracy, the Constitution, political parties, the executive/congressional/judicial branches, and contemporary issues.
Prerequisites: none

GOVT 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

GOVT 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

GOVT 300 — Introduction to World Politics
Credit Hours: 3.00
This course is of interest to history/government students who want a better understanding of the international political arena. The course also helps students understand contemporary world affairs.
Prerequisites: none

GOVT 301 — Chang Dynamics/Int’l Relations
Credit Hours: 3.00
This course is intended to supplement Govt 300 but can stand on its own. It introduces students to specific topics in the international arena.
Prerequisites: none

GOVT 307 — Intro to World Governments
Credit Hours: 3.00
This course is specifically designed to prepare education majors for the licensing exam. It is also of interest to history/government students who want a better understanding of institutions and systems.
Prerequisites: none

GOVT 308 — Pacific Rim/21st Century World
Credit Hours: 3.00
This course is of interest to history/government students who want a better understanding of international politics in the Pacific Rim region. The course also helps students understand the relationship between politics and economics.
Prerequisites: none

GOVT 325 — Political Mvmnts/Latin America
Credit Hours: 3.00
This course broadens students’ understanding of Latin America by introducing them to their political aspirations and modes of organization. The course is a useful option for those pursuing Latin America as a regional emphasis in either history or government.
Prerequisites: none

GOVT 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

GOVT 392 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

GOVT 393 — Women, Politics, and Culture
Credit Hours: 3.00
Interdisciplinary analysis of politics and culture. Course examines the role of gender in the political culture of the United States and selected societies in industrialized and developing nations. Of special interest to those wishing to pursue an interest in women's studies and/or cultural anthropology.
Prerequisites: none

GOVT 399 — Individual Studies
Credit Hours: 1.00 to 9.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

GOVT 429 — Constitutional Law I
Credit Hours: 3.00
A chronological examination of leading Supreme Court decisions from the formation of the republic under the constitution through the 1920's.
Prerequisites: none

GOVT 430 — Constitutional Law II
Credit Hours: 3.00
American courts, decisions, and problems of the twentieth century. Recent events are approached in a special seminar format.
Prerequisites: none

GOVT 436 — American Thought
Credit Hours: 3.00
The historical, philosophical, and literary ideas that have influenced American life and thought. (Same as Hist 436 and Phil 436.)

Credit Hours: 3.00
This course will examine U.S.-Latin American Relations from the Monroe Doctrine to the present. The course will explore recent developments in U.S.-Latin American relations, particularly the growing interdependence and the impact of the end of the Cold War.
Prerequisites: none

GOVT 470 — Readings
Credit Hours: 3.00
Prerequisites: none

GOVT 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

GOVT 492 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

GOVT 499 — Individual Studies
Credit Hours: 1.00 to 15.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HCA 302 — Epidemiology
Credit Hours: 3.00
This course consists of an examination of epidemiological concepts and methods of studying the distribution and determinants of morbidity and mortality in human populations. The knowledge and skills acquired should enable one to understand and critically review scientific literature dealing with epidemiologic concepts and measures.
Prerequisites: HCA 361 Minimum Grade: C or T

HCA 304 — Health Care Marketing
Credit Hours: 3.00
This course involves analysis, evaluation, and implementation of marketing within health care and managed-care environments. Designed to develop skills in segmenting customer and medical markets, brand products and services, enhance a communication strategy to the consumer, and
develop pricing approaches. Methods and models of marketing fundamentals will be introduced.

Prerequisites: none

**HCA 311 — Health Care Law & Ethics**
Credit Hours: 3.00
This course presents an overview of the legal and ethical issues faced by health care consumers, practitioners, and administrators. The course will introduce students to the legal aspects of health care at the federal, state, and local levels. Topics covered will include criminal and civil claims against health care providers, corporate and individual liability, and legal and ethical decision-making.
Prerequisites: HCA 361 Minimum Grade: C or T

**HCA 312 — Health Care Med Terminology**
Credit Hours: 1.00
This course will focus on the many components of medical terms and how break down a medical term by simply knowing the meaning of the prefix or suffix. By learning the individual parts of a medical word, students will be able to define, pronounce, and spell medical terms using prefixes, suffixes, roots, and combining forms related to the anatomy and physiology of the human body. Class will focus on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis, and reconstruction of terms. Emphasis is on spelling, definition, and pronunciation. Introduction to operative, diagnostic, therapeutic, and symptomatic terminology of all body systems, as well as systemic and surgical terminology is included.
Prerequisites: none

**HCA 313 — Health Care Medical Billing**
Credit Hours: 1.00
The student will experience a supervised practical experience or simulated work experience intended to reinforce the student’s skills in medical coding and insurance claim processing. This course is an introduction to Medical Billing where the students will learn about medical billing with a basic overview of gathering and entering data, paper claims processing, electronic claims processing, posting payments, and billing clients. Medical billing course will also include types of insurance coverage, group health, individual policies, Medicare and Medicaid, procedures and diagnoses, and insurance claim processing. Different types of insurance coverage including Workers Compensation and Personal Injury (PIP). Students will learn the front office and back office responsibilities as it related to billing, understanding the super bills

**HCA 314 — Health Care Medicare/Medicaid**
Credit Hours: 1.00
By the end of the course, students should be able to: understand Medicare & Medicaid services, Medicare, Medicaid, and SCHIP play in assuring access to health care for millions of Americans; recognize ways in Medicare, Medicaid, and SCHIP interact with states, health service organizations, and individuals using health services in this country; understand how Medicare, Medicaid and SCHIP influence health care policy, finance, and delivery in this country; understand the relationship of publicly financed health insurance to public health and the role that prevention plays in each; recognize the political and managerial challenges these programs face, including rising health care costs, managed care, an aging population, the rise in the uninsured, emergent diseases, rolling out a prescription drug benefit, and other trends influencing health care delivery in the future.
Prerequisites: none

**HCA 324 — Health Care Info Systems**
Credit Hours: 3.00
A study of record keeping practices in the hospital and physician’s office. Emphasis is placed on hospital and medical staff organization, patient record content, procedures in filing, numbering and retention of patient records, quantitative analysis, release of patient information, forms control and design, indexes and registers, reimbursement, regulatory and accrediting agencies, and alternate health care delivery systems.
Prerequisites: none

**HCA 355 — Health Care Economics**
Credit Hours: 3.00
This course will examine health care decision-making and the functioning of health care markets in the U.S. The course is not designed as a pure economic theory course but instead emphasizes how you can frame and analyze various health issues using the principles of economics. By doing so, you will gain a powerful new perspective that will help you understand the decisions made by individuals and organizations in the face of scarce resources.
Prerequisites: none

**HCA 361 — Health Care Administration**
Credit Hours: 3.00
Students in this introductory Health Care Administration course will be exposed to the industry
and its significant elements and trends of the current health care environment.
They will throughout the course of the term see the need to know who and where their patients are, how they are changing, and how they are reacting to an evolving health care environment. Students will learn to appreciate the multi-task nature of health care manager's and their responsibilities in a variety of challenges they face. Students will be able to comprehend the basics of the health care management and administration functions, both traditional and new-wave thinking. Students will also identify and define what constitutes ethical and socially responsible behavior and recognize the basic forms of ethical dilemmas. In understanding the elements in health care management they will be able to consider when evaluating an ethics-based argument in a particular health care setting and will understand how personal ethics can be influenced.
Prerequisites: none

HCA 362 — Quality Mgmt in Health Care  
Credit Hours: 3.00  
Quality is an important aspect of health care; indeed, for most people, it is the most important aspect. Quality is defined in the dictionary as "degree of excellence" or "superiority in kind." Quality of care must be a part of both the process and outcome of health care whenever possible. The issue is how does the system develop mechanisms to assure such quality? This course serves as an introduction to the process of quality management in health care organizations. Principles of total quality management and guidelines for implementing total quality in health care will be discussed. Differentiation between quality assurance and quality management will also be presented.
Prerequisites: HCA 361 Minimum Grade: C or T

HCA 363 — Health Care Finance  
Credit Hours: 3.00  
This course is devoted to the practical aspects of finance in health care, an examination of current practices in financial management of health care organizations, and managerial application to specific problems facing health care managers. The first part of the course will focus on an overview of health care finance, managerial accounting, and financial analysis. The second part will continue with managerial accounting and financial analysis and will concentrate on the various tools used in financial management. Emphasis is placed on unique issues and concerns that result from the regulatory frame-work of health care organizations. At the conclusion of this course, the student should be able to discuss the financial structure, market forces, controls and techniques used in the health care management field, be able to read and analyze financial statements and budgets and have the skill to interpret financial and operating performance.
Prerequisites: none

HCA 480 — Health Care Policy  
Credit Hours: 3.00  
This course is an introduction to health policy. It will focus on how U.S. health policy is developed, and will provide students with a general understanding of the policymaking process and debates related major U.S. health care legislations.
Prerequisites: HCA 361 Minimum Grade: C or T

HGP 110 — Development of Civ GT-HI1  
Credit Hours: 3.00  
A study of Western and Eastern civilizations from their neolithic origins to 1500, with emphasis on cultural and institutional developments.
Prerequisites: none

HGP 111 — Development of Civ GT-HI1  
Credit Hours: 3.00  
A study of Western and Eastern civilizations from 1500 to the present, with emphasis on cultural and institutional developments.
Prerequisites: none

HGP 179 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.
Prerequisites: none

HGP 192 — Workshop  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HGP 199 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HGP 279 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.
Prerequisites: none
HGP 292 — Workshop  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

HGP 299 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

HGP 316 — Methods/Teaching Soc Studies  
Credit Hours: 3.00  
An introduction to concepts and techniques of imparting state content area standards to middle school and high school students.  
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

HGP 379 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

HGP 392 — Workshop  
Credit Hours: 0.50 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

HGP 399 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

HGP 471 — Senior Seminar  
Credit Hours: 3.00  
This course is designed to be the academic capstone experience for all students who have majored in history/government. All seminar members will participate in the discussion of the assigned reading material. Each student will write a paper that reflects the student’s mastery of library usage, research methodology, breadth of knowledge, and writing ability. The students will give oral presentations of their papers to the members of the seminar. All students enrolled in the senior seminar will also write their Senior Comprehensive Examinations as part of the departmental requirement for all history/government majors. The seminar topic will be chosen by the instructor but sufficient methodological approaches will be explored to accommodate the interests of students from either a history or government emphasis.  
Prerequisites: none

HGP 479 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

HGP 492 — Workshop  
Credit Hours: 0.50 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

HGP 499 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

HIST 179 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

HIST 192 — Workshop  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

HIST 199 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

HIST 202 — American History to 1865  
Credit Hours: 3.00  
A chronological examination of American problems and progress.  
Prerequisites: none

HIST 203 — Amer History 1865 to Present  
Credit Hours: 3.00  
A chronological examination of American problems and progress.  
Prerequisites: none

HIST 279 — Special Topics  
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

HIST 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HIST 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HIST 301 — Colorado History
Credit Hours: 3.00
The development of Colorado from prehistoric times to the present.
Prerequisites: none

HIST 305 — The American West
Credit Hours: 3.00
Historical survey of the Indian, Hispanic, and English-speaking groups of the West. Emphasis is on the frontier period.
Prerequisites: none

HIST 314 — Colonial America
Credit Hours: 3.00
An examination of the development of Europe’s North American colonies from their planting to the eve of the American Revolution.
Prerequisites: none

HIST 316 — Amer Revol & Federalist Era
Credit Hours: 3.00
A comprehensive study of the period from 1763 to 1801, with particular attention given to the American Revolution, the Confederation, the Constitutional Convention, and the administrations of Presidents Washington and Adams.
Prerequisites: none

HIST 318 — Foundations of Amer Diplomacy
Credit Hours: 3.00
An examination of the United States’ relations with other nations from the American Revolution to the end of the 19th century.
Prerequisites: none

HIST 320 — History of American Women
Credit Hours: 3.00
This course is designed to examine the role of women in American History with special empha-

sis on how the story of women is told by historians over time. It examines not only the lives of many famous white women, but also the experience of women from various ethnicities and economic backgrounds. In addressing how Americans construct their understanding of women’s lives in the U.S., the course will also reassess how focusing on women’s lives might alter one’s understanding of the broader patterns and interpretations of American History.
Prerequisites: none

HIST 322 — The Gilded Age/Progressive Era
Credit Hours: 3.00
A detailed survey of American diplomatic, social, and political developments from the Civil War to the eve of the World War I, with particular attention given to the industrialization and urbanization of the United States.
Prerequisites: none

HIST 328 — Chicano History
Credit Hours: 3.00
A survey of the historical development of the character, economy, social structure, politics, culture, and ideas of the Spanish-speaking people of Mexican descent in the U.S. from settlement until the present, with particular attention given to the San Luis Valley.
Prerequisites: none

HIST 330 — The Middle Ages
Credit Hours: 3.00
A survey of the development of European civilization from the decline of the Roman Empire to the Italian Renaissance.
Prerequisites: none

HIST 331 — Renaissance and Reformation
Credit Hours: 3.00
A survey of European civilization from the end of the Middle Ages through the Renaissance and Reformation, with special emphasis on culture, religion, art, politics, science, and social history.
Prerequisites: none

HIST 334 — French Revolution & Napoleon
Credit Hours: 3.00
An examination of the many complex causes, effects, and lessons of the French Revolution, including daily life, the Estates, politics, economics and the absolute monarchy in Old Regime France, the onset of the Revolution, Napoleon and his empire.
Prerequisites: none
HIST 342 — England
Credit Hours: 3.00
A study of the social, economic, political, and constitutional development of the English state, with emphasis on the evolution of the Empire and contemporary Great Britain.
Prerequisites: none

HIST 346 — Imperial Spain
Credit Hours: 3.00
This course examines the development of the Spanish Nation, focusing on the political, religious, and cultural aspects of the Dyarchy of Ferdinand and Isabella, and the colonization and Imperial administration of the New World Territories.
Prerequisites: none

HIST 350 — History of Sport in America
Credit Hours: 3.00
This course covers the development of sports and their significance in American life from colonial period to present. It is designed both to supplement the student’s understanding of American History and to examine the role that sports has played in shaping contemporary society. Close attention will be paid to the context of sports development, especially the economic and social environment. Topics will include a study of the role of industrial society in fostering sports, and the changing gender structure of sports.
Prerequisites: none

HIST 355 — Latin America to 1830
Credit Hours: 3.00
A survey of the economic, political, and social dimensions of the colonial system. Themes include the pre-Columbian civilizations of the Americas, the imposition of European rule, the place of Latin America in the emerging Atlantic economy, and the independence movements of the early 19th century. Major emphasis will be given to the “core” areas of Mexico, Peru, and Northeastern Brazil, but other regions will also be considered.
Prerequisites: none

HIST 356 — Latin America Since 1830
Credit Hours: 3.00
This course will examine the evolution of Latin America from the aftermath of independence to the present. Major themes include: the incorporation of Latin America into the global economy, the effect of the export economy on the region’s peasant populations, the building of national states, the fate of revolutionary struggles in the 20th century, and Latin America’s “neocolonial” relationship with the United States.
Prerequisites: none

HIST 357 — Mexico
Credit Hours: 3.00
Historical survey of the social, intellectual, and political developments from the conquest to the present.
Prerequisites: none

HIST 363 — Civil War & Reconstruction
Credit Hours: 3.00
A study of the ante-bellum South, sectional discord, armed conflict, and reconstruction of the union.
Prerequisites: none

HIST 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

HIST 392 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HIST 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HIST 426 — US in the Era of World Wars
Credit Hours: 3.00
A study of the diplomatic, social, and political developments of the first half of the twentieth century, with emphasis on the impact of immigration, urbanization, technology, and America’s increasing involvement in world affairs through World War II.
Prerequisites: none

HIST 427 — US History Since 1950
Credit Hours: 3.00
A study of recent U.S. history, with emphasis on postwar social and political developments, as well as the impact of America’s role in world affairs, and with particular attention to great power rivalries, the Cold War, Korean Conflict, and Vietnam.
Prerequisites: none

Credit Hours: 3.00
A study of the major ideas of the 19th century such as liberalism, nationalism, socialism, and the actions and consequences resulting from those ideas.
Prerequisites: none

HIST 433 — Modern Europe
Credit Hours: 3.00
An advanced survey of European history between 1815 and 1945. Attention will be given to political, social, economic, and technological developments. The development of Nationalism will receive special attention.
Prerequisites: none

HIST 434 — Twentieth Century Europe
Credit Hours: 3.00
This course examines how the relationship of Europe and the world has been transformed, whether a new United States of Europe is emerging, or whether Europe is collapsing into ethnic nationalism. Current materials available through the Internet will be used in this course.
Prerequisites: none

HIST 436 — American Thought
Credit Hours: 3.00
The historical, philosophical, and literary ideas that have influenced American life and thought. (Same as Govt 436 and Phil 436).
Prerequisites: none

HIST 470 — Readings in History
Credit Hours: 3.00
Prerequisites: none

HIST 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

HIST 492 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HIST 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HPPE 100 — Foundations of Physical Educ
Credit Hours: 2.00
Acquaints freshman major and minors with the origin, scope, development, and purpose of the teacher training program in health and physical education.
Prerequisites: none

HPPE 105 — Beginning Swimming
Credit Hours: 1.00
This is a beginning swimming course designed to teach and access the fundamental skills and the five basic strokes of swimming.
Prerequisites: none

HPPE 107 — CHAMPS/Life Skills
Credit Hours: 2.00
CHAMPS/Life Skills reflects the nature and personality of the campus environment, its department of athletics, and the unique needs of its student-athletes.
Prerequisites: none

HPPE 120 — Concepts in Wellness
Credit Hours: 2.00
This course is designed to introduce the student to healthy, active lifestyles. Students will learn the vital connection between fitness and health, gain knowledge and the benefits of exercise and be provided a rational basis for choosing a healthy, active lifestyle.
Prerequisites: none

HPPE 130 — Teaching Ind/Dual Activities
Credit Hours: 3.00
This course is designed for EPLS majors with in the teaching emphasis. It will educate these majors in the basic skills, lead-up activities, and patterns of motor performance needed to successfully participate in and ultimately teach a variety of individual and dual activities.
Prerequisites: none

HPPE 131 — Teaching Ind/Dual Activities
Credit Hours: 2.00
This course is designed for EPLS majors within the teaching emphasis. It will educate these majors in the basic skills, lead-up activities, and patterns of motor performance needed to successfully participate in and ultimately teach a variety of individual and dual activities.
Prerequisites: none

HPPE 179 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none
HPPE 192 — Workshops  
Credit Hours: 0.50 to 5.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none  

HPPE 199 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none  

HPPE 209 — Care/Prevention Athletic Injury  
Credit Hours: 2.00  
Understanding the care and prevention of athletic injuries, including the evaluation, nature, types, and functions of various rehabilitation programs.  
Prerequisites: none  

HPPE 226 — Exercise Physiology  
Credit Hours: 3.00  
Introduction and overview of the physiological basis of physical education and athletics. The effects of exercise on the various systems will be considered. Practical application of exercise science to physical fitness and athletic performance will be emphasized.  
Prerequisites: none  

HPPE 230 — Teaching Team Activities  
Credit Hours: 3.00  
This course is designed for EPLS majors with the teaching emphasis. It will educate these majors in the basic skills, lead-up activities, and patterns of motor performance needed to successfully participate in and ultimately teach a variety of team activities.  
Prerequisites: none  

HPPE 245 — Athletic Training Practicum I  
Credit Hours: 1.00  
Advanced field experience in the application of learned principles in athletic training. Eight, four week rotations with Fall and Winter intercollegiate athletic teams. Completion of clinical proficiencies in the pathology of injuries and illnesses, and assessment and evaluation domains are required.  
Prerequisites: EPLS 209 Minimum Grade: C or T and EPLS 247 Minimum Grade: C or T and BIOL 205 Minimum Grade: C or T and BIOL 206 Minimum Grade: C or T and HPPE 209 Minimum Grade: C or T and HPPE 247 Minimum Grade: C or T and BIOL 205 Minimum Grade: C or T and BIOL 206 Minimum Grade: C or T  

HPPE 246 — Athletic Training Practicum II  
Credit Hours: 1.00  
Advanced field experience in the application of learned principles in athletic training. Eight, four week rotations with Winter and Spring intercollegiate athletic teams. Completion of clinical proficiencies in the pathology of injuries and illnesses, and assessment and evaluation domains are required.  
Prerequisites: EPLS 209 Minimum Grade: C or T OR HPPE 209 Minimum Grade: C or T and EPLS 247 Minimum Grade: C or T OR HPPE 247 Minimum Grade: C or T and BIOL 205 Minimum Grade: C or T and BIOL 206 Minimum Grade: C or T  

HPPE 247 — Emergency Response  
Credit Hours: 2.00  
Practical and accepted first aid methods and techniques stressing diagnosis and treatment of injuries caused by common accidents. This course covers practical and accepted first aid methods and techniques stressing evaluation and treatment of injuries caused by common accidents. Certification in Community First Aid and Safety, CPR, Profession Rescuer, Automated External Defibrillator and Oxygen Administration upon successful skill completion.  
Prerequisites: none  

HPPE 249 — Sports Writing & Statistics  
Credit Hours: 1.00 to 2.00  
Designed to give interested students an opportunity to help with statistical procedures related to various sport programs. Sport and news related writing may also be included when appropriate.  
Prerequisites: none  

HPPE 250 — Intro to Coaching  
Credit Hours: 1.00  
This course has been developed to meet one of the requisites for the Colorado High School Activities Association (CHSAA) Coaching Registration Program. As per CHSAA by-laws, anyone (either paid or unpaid) who does not hold a teaching certificate and is responsible for supervising athletic teams or competitive cheerleading in both private (8/1996) and public schools must have a “Coaching Registration” granted by CHSAA. This course will allow students to take the CHSSA Coaches Test to be filed under successful completion, with CHSAA and, if additional requisites are met, allow students the ability to apply for a 3 year coaching registration. Students in this course will receive information about the registration process and will be introduced to basic athletic coaching.
ideals and practices needed and desired to become successful and effective leaders of young athletes.
Prerequisites: none

HPPE 260 — Tests and Measurements in PE
Credit Hours: 3.00
This course exposes students to athletic training clinical experiences with concentration on Acute Care, Nutrition, and Therapeutic Modalities.
Prerequisites: none

HPPE 279 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student interests in the field.
Prerequisites: none

HPPE 292 — Workshops
Credit Hours: 0.50 to 5.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HPPE 299 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HPPE 300 — Promote a Healthy Environment
Credit Hours: 3.00
In this course licensure candidate students will receive instruction in such areas as conflict resolution and mediation, empathy and compassion, non-violent restraint training, child health and nutritional concerns, crisis intervention, basic first aid and CPR, and emergency protocol as they relate to developing safe and healthy school atmospheres.
Prerequisites: Background check completed Score of: 1

HPPE 301 — Sport & Fitness Nutrition
Credit Hours: 3.00
This course will present a review of basic nutrition and then explore the areas of sport and fitness nutrition, supplementation, sport drug abuse, weight loss diets, eating disorders, weight gain nutrition, and the metabolic nutritional requirements of various sports and fitness activities. HPPE 226 is highly recommended for registration into this course.
Prerequisites: none

HPPE 310 — K-12 Dance Fundamentals
Credit Hours: 2.00
Methods of teaching creative rhythmic activities, folk, square, and social dance - elementary and secondary.
Prerequisites: none

HPPE 311 — Methods of Teaching Health Ed
Credit Hours: 3.00
Gives the prospective teacher a foundation in school health education, elementary through secondary, including methods and materials for health instruction, promotion of healthful living, and understanding of the health service program.
Prerequisites: none

HPPE 312 — Methods of Teaching Elem PE
Credit Hours: 2.00
Theory and techniques of elementary school physical education activities based on a study of the psychological and physiological needs of children at various age levels.
Prerequisites: none

HPPE 314 — Health Promotion
Credit Hours: 3.00
This course examines the factors that influence a healthy society: heredity, environment, health care services, and lifestyle choices.
Prerequisites: none

HPPE 315 — PE in Elementary
Credit Hours: 3.00
The purpose of this course is to provide the student with an understanding of learning theories, a variety of techniques and methods of teaching elementary physical education, experience in the planning and development of lessons and practical experience in working with elementary physical education students in organized experience in a public school. A 20 hour, preprofessional, supervised, field-based experience is a course requirement. A professional field experience reflection journal will be required as a part of the final test.
Prerequisites: none

HPPE 316 — Methods of Teaching Sec PE
Credit Hours: 2.00
This course is designed to introduce preprofessional secondary physical education students to the secondary teaching process. The focus of this course is on the organizational or “content” behaviors necessary to become an effective secondary physical educator. Emphasis will be placed on lesson preparation, systematic presentation of information and material presentation development for individual and dual sports and activities. A twenty (20)-hour, supervised, field based experience along with a professional portfolio,
reflective journal, and activity file will be required for all students in this course.
Prerequisites: EPLS 130 Minimum Grade: C or T
and EPLS 131 Minimum Grade: C or T
and EPLS 230 Minimum Grade: C or T
OR HPPE 130 Minimum Grade: C or T
and HPPE 131 Minimum Grade: C or T
and HPPE 230 Minimum Grade: C or T

HPPE 317 — PE in Secondary
Credit Hours: 3.00
This course is designed to allow pre-professional secondary physical education students to continue to develop their skills within the secondary teaching process. The focus of this course is on the organizational or “content” behaviors necessary to become an effective secondary physical educator. Emphasis will be placed on teaching movement concepts, extending and refining motor tasks and providing instructional feedback in team sport activities. A twenty (20) hour, supervised, field based experience along with a professional portfolio, reflective journal, and activity file will be required for all students in this course.
Prerequisites: HPPE 316 Minimum Grade: C or T
OR  EPLS 316 Minimum Grade: C or T

HPPE 320 — Tech/Coach Offic Basketball
Credit Hours: 3.00
Basketball. Coaching and training of athletic teams. Special emphasis on recent trends and systems, offensive and defensive play, and fundamentals of individual skills and play. A study and practicum of the rules and mechanics of officiating basketball.
Prerequisites: none

HPPE 321 — Tech/Coach Offic Football
Credit Hours: 3.00
Football. Coaching and training of athletic teams. Special emphasis on recent trends and systems, offensive and defensive play, and fundamentals of individual skills and play. A study and practicum of the rules and mechanics of officiating football.
Prerequisites: none

HPPE 323 — Tech/Coach Offic Softball
Credit Hours: 3.00
Softball. Coaching and training of athletic teams. Special emphasis on recent trends and systems, offensive and defensive play, and fundamentals of individual skills and play. A study and practicum of the rules and mechanics of officiating softball.
Prerequisites: none

HPPE 324 — Tech/Coach Offic Track & Field
Credit Hours: 3.00
Track and Field. Coaching and training of athletic teams. Special emphasis on recent trends and systems, offensive and defensive play, and fundamentals of individual skills and play. A study and practicum of the rules and mechanics of officiating track and field.
Prerequisites: none

HPPE 325 — Tech/Coach Offic Volleyball
Credit Hours: 3.00
Volleyball. Coaching and training of athletic teams. Special emphasis on recent trends and systems, offensive and defensive play, and fundamentals of individual skills and play. A study and practicum of the rules and mechanics of officiating volleyball.
Prerequisites: none

HPPE 326 — Tech/Coach Offic Wrestling
Credit Hours: 3.00
Wrestling. Coaching and training of athletic teams. Special emphasis on recent trends and systems, offensive and defensive play, and fundamentals of individual skills and play. A study and practicum of the rules and mechanics of officiating wrestling.
Prerequisites: none

HPPE 327 — Tech/Coach Strength Cond
Credit Hours: 3.00
This course is designed to provide information relative to the basic foundation of coaching sports conditioning including muscle physiology, bioenergetics, training methodology, exercise technique, program design, and facility management. Students will be given the opportunity to develop a general strength coaching philosophy and to demonstrate their knowledge relative to proper lifting techniques and training procedures.
Prerequisites: none

HPPE 328 — Tech/Coach Offic Soccer
Credit Hours: 3.00
This course is a study of the theory, techniques and practical applications of coaching soccer. Covering the evolution of the game, systems of play used in the modern game as well as the principles of offense and defense and how they are applied to the game of soccer.
Prerequisites: none

HPPE 340 — Kinesiology
Credit Hours: 3.00
A focus on the nature of human movement as influenced by those motor factors, anatomical factors, and mechanical principles that apply at rest and in motion.
Prerequisites: BIOL 112 Minimum Grade: C or T
OR BIOL 205 Minimum Grade: C or T
and EPLS 226 Minimum Grade: C or T
OR HPPE 226 Minimum Grade: C or T

HPPE 341 — Human Motor Development
Credit Hours: 3.00
This course is designed to educate EPLS majors in the principles of human motor behavior and its influence on cognitive, affective, and psychomotor development throughout the lifespan. It will introduce students to factors that affect the intellectual, social, emotional, and physical development, growth and maturation of individuals relative to motor acquisition and regression.
Prerequisites: none

HPPE 345 — Athletic Training Practicum III
Credit Hours: 1.00
This course provides advanced field experience in the application of learned principles in athletic training. Students will be assigned an ASC intercollegiate athletic team (other than football) to work with through the preseason, conditioning season and post-season. Completion of clinical proficiencies in the therapeutic modalities and exercise domains are required.
Prerequisites: EPLS 245 Minimum Grade: C or T
and EPLS 246 Minimum Grade: C or T
OR HPPE 245 Minimum Grade: C or T
and HPPE 246 Minimum Grade: C or T

HPPE 346 — Athletic Training Practicum IV
Credit Hours: 1.00
This course provides advanced field experience in the application of learned principles in athletic training. Students will be assigned an ASC intercollegiate athletic team (other than football) to work with through the preseason, conditioning season and post-season. Completion of clinical proficiencies in therapeutic modalities and exercise domains are required.
Prerequisites: EPLS 245 Minimum Grade: C or T
and EPLS 246 Minimum Grade: C or T
OR (HPPE 245 Minimum Grade: C or T
and HPPE 246 Minimum Grade: C or T

HPPE 379 — Special Topics
Credit Hours: 1.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

HPPE 392 — Workshops
Credit Hours: 0.50 to 5.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HPPE 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

HPPE 422 — Exercise Eval & Fitness Manage
Credit Hours: 3.00
Designed to familiarize students with the current methods used to determine levels of fitness and to prescribe proper HPPE 226 and HPPE 340 are highly recommended for registration into this course.
Prerequisites: none

HPPE 436 — Sport and Exercise Psychology
Credit Hours: 3.00
A study of the psychological and sociological aspects of physical education and sport and the implications for effective teaching and coaching related to this knowledge.
Prerequisites: none

HPPE 438 — Soc Aspects of Sports and PE
Credit Hours: 3.00
This course is designed to introduce students to the sociological aspects of sport and encourage students to ask questions and think critically about sports as parts of social life. It is intended for those students taking their first look at sports from a sociological perspective.
Prerequisites: none

HPPE 440 — Organization/Admin of PE
Credit Hours: 3.00
This is a course in organization and administration. This course offers a solid foundation of management concepts, skills and techniques, so that students can effectively develop their leadership, decision making, organizational, and management skills for their role in the physical education/sport field. This course focuses on the administration of physical education and sport in the educational setting.
Prerequisites: none

HPPE 445 — Athletic Training Practicum V
Credit Hours: 1.00
This course provides advanced field placement in the application of learned principles in athletic training. Students will be assigned to work with a certified athletic trainer as the head student athletic trainer for 16 weeks at a college or high school under the direct supervision of a certified athletic trainer.
Prerequisites: EPLS 345 Minimum Grade: C or T
and EPLS 346 Minimum Grade: C or T
OR HPPE 345 Minimum Grade: C or T
and HPPE 346 Minimum Grade: C or T

HPPE 446 — Athletic Training Practicum VI
Credit Hours: 1.00
This course provides advanced field placement in the application of learned principles in athletic training. Students will be assigned to work with a certified athletic trainer in a physical therapy clinic, 20 hours per week for 16 weeks.
Prerequisites: EPLS 345 Minimum Grade: C or T
and EPLS 346 Minimum Grade: C or T
OR HPPE 345 Minimum Grade: C or T
and HPPE 346 Minimum Grade: C or T

HPPE 448 — Adapted Physical Activity
Credit Hours: 3.00
A survey of common deviations of posture and feet, functional disturbances, and crippling conditions found in school children. Consideration will be given to the extent and limitations of the responsibility of the teacher for their amelioration or improvement.
Prerequisites: HPPE 341 Minimum Grade: C or T
OR EPLS 341 Minimum Grade: C or T

HPPE 450 — Sr Seminar in HPPE
Credit Hours: 2.00
This course is designed as a culminating experience for preprofessional physical education students in the K-12 teaching process. The focus of this course is on the management behaviors necessary to become an effective physical educator at the k-12 level. Emphasis will be placed on student motivation, discipline, personal growth and inclusion, and assessment in the instruction process. A twenty (20) hour, supervised, field-based experience along with a professional portfolio and reflective journal will be required for all students in this course.
Prerequisites: EPLS 317 Minimum Grade: C or T
OR HPPE 317 Minimum Grade: C or T

HPPE 455 — Athletic Training Practicum IV
Credit Hours: 2.00
Designed for the development of knowledge, skills, and values that the entry-level certified athletic trainer must possess to understand and recognize the aspects of health care administration and professional development as it relates to athletics and physical activity.
Prerequisites: EPLS 209 Minimum Grade: C or T
OR HPPE 209 Minimum Grade: C or T

HPPE 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

HPPE 480 — Coaching Practicum
Credit Hours: 3.00
A structured practical experience in which the student actually assists a qualified coaching professional. Students who expect to achieve teacher certification and who will be working in the public schools must have taken the Colorado Assessment Examinations prior to the practicum assignment.
Prerequisites: none

HPPE 485 — Practicum in Sport/Exer Mgmt
Credit Hours: 3.00
This practicum is designed to provide the student with actual fieldwork experiences in sport and exercise management. It will give students the opportunity to work with actual clients thus enhancing and expanding the skills developed during their undergraduate program.
Prerequisites: EPLS 422 Minimum Grade: C or T
OR HPPE 422 Minimum Grade: C or T

HPPE 486 — Sport Psychology Practicum
Credit Hours: 3.00
This practicum is designed to provide the student with actual fieldwork experiences in sport psychology. It will give students the opportunity to work with actual client/athletes, thus enhancing and expanding the skills developed during their undergraduate program.
Prerequisites: HPPE 327 Minimum Grade: C or T
OR HPPE 422 Minimum Grade: C or T
and HPPE 320 Minimum Grade: C or T
OR HPPE 321 Minimum Grade: C or T
OR HPPE 323 Minimum Grade: C or T
OR HPPE 324 Minimum Grade: C or T
OR HPPE 325 Minimum Grade: C or T
OR HPPE 328 Minimum Grade: C or T
and HPPE 436 Minimum Grade: C or T

HPPE 492 — Workshops
Credit Hours: 0.50 to 5.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

HPPE 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none
ID 095 — College Reading and Writing I
Credit Hours: 3.00
This reading and writing course is the first in a two part sequence designed to assist students in strengthening reading and writing skills. Reading strategies and the role they play in college writing are emphasized. Additional skills for college success are also stressed, especially note-taking, test-taking and critical thinking. This course is graded S/U and does not provide degree credit.
Prerequisites: none

ID 096 — College Reading and Writing II
Credit Hours: 3.00
This reading and writing course is the second in a two part sequence designed to assist students in strengthening reading and writing skills. The course emphasizes the ability to write in response to others in a unique rhetorical situation. Additional skills for college success are also stressed, especially text annotation and library use. The course is graded S/U and does not provide degree credit.
Prerequisites: ID 095 Minimum Grade: S or T
OR ACT Reading Score of: 19
OR ACT Writing Score of: 18
OR ACRD Score of: 080
OR ACWR Score of: 095

ID 100 — First-Year Seminar
Credit Hours: 3.00
An introduction to the goals and values of a liberal arts education. Focus on learning for its own sake, learning in community, and life-long learning. Emphasis on critical thinking and reading, analytic writing, and discussions based on readings and co-curricular experiences (e.g., films, lectures, exhibitions, etc.). ID 100 sections feature a variety of themes but share a common set of objectives.
Prerequisites: none

ID 110 — Connections
Credit Hours: 1.00
This course is the first in a two-part series intended to help students transition into college life. Topics covered in the course include time management, academic etiquette, study skills, a liberal arts education, financial aid, ethics, campus diversity, student life and sexual responsibility, drug/alcohol awareness.
Prerequisites: none

ID 111 — LINCS
Credit Hours: 1.00
This course, designed as a follow-up to the Connections (ID 110) class, will help students obtain a realistic idea of where they want and need to be academically as well as personally to succeed in college. The course will focus on personal academic development through in-depth discussion about strategies for success, focusing on personal reflection on the topics and application of the strategies covered. ID 110, Connections is recommended.
Prerequisites: none

ID 179 — Selected Topics
Credit Hours: 0.50 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ID 279 — Selected Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ID 292 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ID 299 — Independent Study
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the School Dean.
Prerequisites: none

ID 379 — Selected Topics
Credit Hours: 1.00 to 4.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

ID 392 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

ID 399 — Independent Study
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

ID 479 — Selected Topics
Credit Hours: 1.00 to 4.00
Offered periodically to meet student special interests in the field.
interests in the field.
Prerequisites: none

**ID 492 — Workshop**
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**ID 499 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**JAPN 103 — Beginning Japanese**
Credit Hours: 3.00
This course will cover fundamental principles of the Japanese language, including pronunciation, basic grammar and vocabulary, and kana (katakana & hiragana) writing. The course will also introduce students to Japanese culture, including calligraphy.
Prerequisites: none

**JAPN 104 — Intermediate Japanese**
Credit Hours: 3.00
This course continues the development of skills introduced in Japn 103. Students will study and practice the key structures of Japanese sentences and practice them in conversation as well as writing, employing the Japanese writing systems (kana and kan-ji).
Prerequisites: JAPN 103 Minimum Grade: D or T

**JAPN 179 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**JAPN 199 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**JAPN 279 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interest in the field.
Prerequisites: none

**JAPN 299 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**JAPN 379 — Special Topics**
Credit Hours: 1.00 to 6.00
Prerequisites: none

**JAPN 399 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**JOUR 179 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**JOUR 192 — Workshop**
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**JOUR 199 — Individual Studies**
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**JOUR 255 — The Media and America**
Credit Hours: 3.00
The history of the news media in the United States relates journalism to the political, economic, and social development of America. Instructor permission may be obtained if prerequisite has not been met.
Prerequisites: ENG 102 Minimum Grade: C or T

**JOUR 275 — Basic Media Writing**
Credit Hours: 3.00
The fundamentals of news reporting are developed with the aid of word processing computer software. The principal concepts of this course apply to all news media. Instructor permission may be obtained if prerequisite has not been met.
Prerequisites: ENG 102 Minimum Grade: C or T
JOUR 279 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interest in the field.
Prerequisites: none

JOUR 285 — Radio Broadcasting
Credit Hours: 3.00
This is a course in producing radio news, public service announcements and underwriting. Other aspects of programming will be included.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 290 — Radio Practicum
Credit Hours: 1.00 to 3.00
Students earn one credit hour for every three hours of work weekly on KASF-FM or its website. See station manager for details.
Prerequisites: JOUR 285 Minimum Grade: C or T

JOUR 292 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites none

JOUR 297 — Newspaper Practicum
Credit Hours: 1.00 to 3.00
Students earn one credit per five stories (of 500 words apiece, or pre-approved substitutions) that they write for the South Coloradan. Students should write on a variety of topics. Also required is the attendance of three newspaper staff meetings per credit registered. Please see the newspaper faculty adviser or the student editor for further details.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

JOUR 327 — World Wide Web
Credit Hours: 3.00
The primary emphasis of this course is the hands-on production of interactive, multimedia web pages through the development of basic writing, design, and coding skills. Some emphasis on the critical analysis of the web as a cultural force. Instructor permission may be obtained if the prerequisite has not been met.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 340 — Feature Writing
Credit Hours: 3.00
This course focuses on newspaper, magazine and newsletter feature writing skills, including computer-assisted journalism. Instructor permission may be obtained if the prerequisite has not been met.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 346 — Photojournalism
Credit Hours: 3.00
This course covers the fundamentals of news photography, photo spread design, and photojournalism ethics. Students use digital cameras to photograph news subjects and events. It is recommended that students have access to a digital camera by the second week of classes. Instructor permission may be obtained to register for this course.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 350 — Media Theory and Criticism
Credit Hours: 3.00
The purpose of this course is for students to explore foundational theories of mass communication: behaviorism, propaganda theory, public opinion formation, social responsibility theory, limited effects theory, and other contemporary theories of media. Contributions from Littmann, McLuhan, and Chomsky will be analyzed and discussed to provide students with multiple frameworks for analyzing media usage, effects, and contributions.
Prerequisites: JOUR 285 Minimum Grade: C or T

JOUR 360 — Media Management
Credit Hours: 3.00
Students learn how to manage and motivate news staff, how to deal with criticism from within and without the organization, and how to unite diverse elements into a cohesive whole. Strongly recommended for candidates for media management positions on campus.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 370 — Newspaper and Magazine Editing
Credit Hours: 3.00
Students use computer desktop publishing software to edit, write headlines, scan photos, and design pages for newspaper and magazine publications. The course will cover the basic production principles applicable to newspapers and magazines. Students will apply their newly learned skills through the production of classroom publications. Instructor permission may be
obtained to register for this course.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

JOUR 385 — Broadcast News
Credit Hours: 3.00
This course is designed to introduce students to the world of broadcast writing and reporting, primarily for television news. Working together in small groups, students will write and produce TV newscasts, public service announcements, and other broadcast projects. This course requires instructor approval for registration purposes.
Prerequisites: JOUR 275 Minimum Grade: C or T

JOUR 390 — Advanced Radio Practicum
Credit Hours: 1.00 to 3.00
Students earn one credit hour for every three hours of work weekly at KASF-FM or its web site. See station manager for details. Must have at least three credits of JOUR 290 in order to enroll.
Prerequisites: JOUR 290 Minimum Grade: C or T

JOUR 392 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

JOUR 396 — Advanced Applied Journalism
Credit Hours: 1.00 to 3.00
Prerequisites: JOUR 297 Minimum Grade: D or T

JOUR 397 — Advanced Newspaper Practicum
Credit Hours: 1.00 to 3.00
Students earn one credit per five stories (of 800 words apiece, or pre-approved substitutions) that they write for the South Coloradan. Students should write on a variety of topics. Also required is the attendance of three newspaper staff meetings per credit registered. Please see the newspaper faculty adviser or the student editor for further details. Must have at least three credits of JOUR 297 in order to enroll.
Prerequisites: JOUR 275 Minimum Grade: C or T and JOUR 297 Minimum Grade: C or T

JOUR 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

JOUR 457 — Media Law & Ethics
Credit Hours: 3.00
Explores timely controversies that involve the journalist in a society where media ethics are constantly questioned by the public.
Prerequisites: none

JOUR 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

JOUR 492 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

JOUR 496 — Communications Internship
Credit Hours: 3.00
Involves the advanced communications student in a pre-employment situation designed to allow application of subject knowledge in a professional setting.
Prerequisites: JOUR 275 Minimum Grade: D or T

JOUR 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

LS 225 — Research Skills/Behavior Sci
Credit Hours: 1.00
In this one credit course, sociology and psychology majors will learn how to evaluate and use a variety of print and electronic resources specific to their discipline. Understanding the process of writing a literature review is the emphasis of the course.
Prerequisites: none

LS 251 — Information Literacy
Credit Hours: 2.00
In this ten-week course, students will find, evaluate and use a variety of print and electronic sources located in and beyond the ASC Library. Building resource lists for the academic or professional work is the emphasis of the class.
Prerequisites: none

LS 392 — Workshops
Credit Hours: 0.50 to 6.00
Prerequisites: none
LS 451 — Information Literacy
Credit Hours: 2.00
In this ten-week course, students will find, evaluate and use a variety of print and electronic sources located in and beyond the ASC Library. Building resource lists for academic or professional work is the emphasis of the class.
Prerequisites: none

MATH 095 — Pre-Algebra Skills
Credit Hours: 3.00
Numeration, operations on whole numbers, factoring, prime numbers, arithmetic operations, decimal numerals, percent, measures, ratio and proportion, and averages. Course is graded on an S/U basis and does not provide credit towards Bachelor's degrees.
Prerequisites: none

MATH 097 — Basic Algebra Skills
Credit Hours: 3.00
Numbers of ordinary arithmetic and their properties, integers and rational numbers, solutions of equations, polynomials, graphs, polynomials in several variables, fractional expressions, radical notation, and quadratic equations. Course is graded on a S/U basis and does not provide credit towards Bachelor's degrees.
Prerequisites: MATH 095 Minimum Grade: S or T OR ASC MATH PLACEMENT Score of: 040 OR SAT MATH Score of: 440 OR ACT MATH Score of: 19 OR ACCUPLACER Score of: 085

MATH 104 — Finite Mathematics GT-MA1
Credit Hours: 3.00
Topics covered include functions and their graphs, matrices, linear programming, probability, and descriptive statistics. Applications are studied from the areas of business, behavioral sciences, economics, and the social sciences. The computer will be used as a problem solving tool.
Prerequisites: MATH 099 Minimum Grade: S or T OR ASC MATH PLACEMENT Score of: 23 OR ACT MATH Score of: 22 OR SAT MATH Score of: 490 OR ACCUPLACER Score of: 109

MATH 106 — College Algebra GT-MA1
Credit Hours: 3.00
An introduction to the basic techniques of algebra. Topics include functions (linear, quadratic, polynomial, root, rational, exponential, and logarithmic), systems of equations, partial fractions, synthetic division, inequalities, and complex numbers.
Prerequisites: MATH 099 Minimum Grade: S or T OR ASC MATH PLACEMENT Score of: 23 OR ACT MATH Score of: 22 OR SAT MATH Score of: 490 OR ACCUPLACER Score of: 109

MATH 107 — Trig & Analytic Geometry
Credit Hours: 3.00
An introduction to the tools and techniques of trigonometry. Topics include trigonometric functions and their inverses, graphs, identities, trigonometric equations, solving triangles, complex numbers, De Moivre's Theorem, polar coordinates, and analytic geometry.
Prerequisites: MATH 106 Minimum Grade: C or T

MATH 120 — Single Var Calculus I GT-MA1
Credit Hours: 5.00
Limits, derivatives, integrals, and infinite series of functions. An introduction to the calculus of functions of one real variable. Topics include limits, continuity, derivatives, graphing techniques, optimization, related rates, Newton's method, indeterminate forms and l'Hopital's rule, antiderivatives, the definite integral, and the Fundamental Theorem of Calculus.
Prerequisites: MATH 107 Minimum Grade: C or T and MATH 106 Minimum Grade: C or T OR ACT MATH Score of: 26

MATH 121 — Single Var Calculus II GT-MA1
Credit Hours: 5.00
A continuation of the calculus of functions of one real variable. Topics include integration, applications of the definite integral, techniques of integration, improper integrals, arc length, surface area, volume, infinite series, and Taylor series.
Prerequisites: MATH 120 Minimum Grade: C or T

MATH 140 — Geometry Using Technology
Credit Hours: 3.00
An introduction to powerful interactive programming environments, such as LOGO and Geometer's Sketchpad, will enable the student to survey Euclidean Geometry using technology. This course will discuss major concepts in Euclidean
Geometry and introduce basic geometric proof.
Prerequisites: ACT MATH Score of: 19
OR ACCUPLACER Score of: 085
OR MATH 099 Minimum Grade: S

MATH 150 — Liberal Arts Mathematics
Credit Hours: 3.00
A quantitative and qualitative exploration of some of the great ideas and methods of mathematics. Topics covered include problem solving, infinity, logic, probability, statistics, Fibonacci numbers, the golden ratio, topology, non-Euclidean geometry, Pascal’s triangle, tiling, fractals, chaos, and higher dimensions.
Prerequisites: ACT MATH Score of: 19
OR ACCUPLACER Score of: 085
OR MATH 099 Minimum Grade: S or T

MATH 155 — Integrated Mathematics I
Credit Hours: 3.00
This is the first of a 2-course sequence presenting arithmetic and algebra from a modern perspective. Students work to understand and be able to articulate connections among mathematical structures, including natural numbers, integers, rational numbers, relations, functions and equations.
Prerequisites: ACT MATH Score of: 19
OR ASC MATH PLACEMENT Score of: 23
OR MATH 099 Minimum Grade: S or T
OR ACCUPLACER Score of: 085

MATH 156 — Integrated Mathematics II
Credit Hours: 3.00
This is the second of a 2-course sequence. Topics include probability, statistics, geometric figures, congruencies, similarities, and coordinate geometry.
Prerequisites: MATH 155 Minimum Grade: C or T

MATH 179 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

MATH 192 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

MATH 199 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

MATH 205 — Intro to Statistical Methods
Credit Hours: 3.00
Basic techniques of applied statistics, including data organization and presentation, experiment design, calculating statistical measures, choosing, applying, and interpreting statistical tests, correlation and regression, and software utilization.
Prerequisites: MATH 104 Minimum Grade: C or T
OR MATH 106 Minimum Grade: C or T
OR MATH 107 Minimum Grade: C or T
OR MATH 120 Minimum Grade: C or T

MATH 210 — C++ for Scientists & Engineers
Credit Hours: 3.00
A study of the programming language FORTRAN.
Prerequisites: MATH 106 Minimum Grade: C or T
OR MATH 107 Minimum Grade: C or T
OR MATH 120 Minimum Grade: C or T

MATH 220 — Multivariable Calculus
Credit Hours: 4.00
An introduction to the calculus of functions of several real variables. Typical topics include three-dimensional analytic geometry, vectors, parametric curves and surfaces, arc length and curvature, limits, continuity, partial derivatives, gradients, directional derivatives, tangent planes, optimization problems and Lagrange multipliers, multiple integrals, vector fields, line and surface integrals, Green’s theorem, Stokes’ theorem, and the divergence theorem.
Prerequisites: MATH 121 Minimum Grade: C or T

MATH 236 — Research in Mathematics
Credit Hours: 1.00
An independent research course. The student will work with a professor on a research project either designed by the student or the professor. The student’s research must result in a paper and a presentation before a group of peers and professors.
Prerequisites: MATH 121 Minimum Grade: C or T

MATH 250 — Intro to Mathematical Thought
Credit Hours: 3.00
This course looks at topics central to further study in mathematics. Topics include symbolic logic, especially as it applies to mathematical proof; methods of mathematical proof such as direct proof, indirect proof, and proof by induction; use and meaning of mathematical quantifiers and predicates; sets; relations; equivalence relations and partitions; order relations; and functions and their properties.
Prerequisites: MATH 120 Minimum Grade: C or T
MATH 279 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

MATH 292 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

MATH 299 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

MATH 301 — Undergraduate Seminar
Credit Hours: 1.00
Monthly seminar on topics of interest to participants and mathematics/computer science staff.
Course is graded on a pass/fail basis.
Prerequisites: MATH 120 Minimum Grade: D or T OR CSCI 150 Minimum Grade: D or T

MATH 310 — Foundations of School Math
Credit Hours: 3.00
A course designed to help future teachers recognize and develop the connections between fundamental mathematical principles and classroom practice. It will focus on a thorough development of basic mathematical ideas such as number and operations, geometry, measurement, problem solving, reasoning and proof, communication, connections and representations.
Prerequisites: MATH 104 Minimum Grade: C or T OR MATH 106 Minimum Grade: C or T OR MATH 107 Minimum Grade: C or T OR MATH 120 Minimum Grade: C or T

MATH 321 — Linear Algebra
Credit Hours: 3.00
An introduction to linear algebra. Typical topics include solution of systems of linear equations, matrix algebra, determinants, vector spaces, linear independence, span, basis, dimension, coordinates, linear transformations, matrix representations of linear transformations, eigenvalues, eigenvectors, diagonalization, Gram-Schmidt orthogonalization, orthogonal projection, and applications.
Prerequisites: MATH 121 Minimum Grade: C or T

MATH 322 — Algebraic Structures I
Credit Hours: 3.00
An introduction to the theory of groups. Typical topics include sets, mappings, binary operations, equivalence relations, partitions, the integers, induction, the well-ordering property, elementary number theory, cryptography, coding theory, groups (permutation groups, symmetry groups, matrix groups, and cyclic groups), subgroups, cosets, Lagrange's theorem, normal subgroups, homomorphisms, isomorphisms, Cayley's theorem, and the Fundamental Homomorphism Theorem.
Prerequisites: MATH 250 Minimum Grade: C or T and MATH 321 Minimum Grade: C or T

MATH 323 — Algebraic Structures II
Credit Hours: 3.00
An introduction to the theory of rings and fields. Typical topics include rings, ideals, integral domains, fields, ring homomorphisms, quotient rings, polynomial rings, division algorithms, factorization of polynomials, extensions of fields, finite fields, and Galois theory.
Prerequisites: MATH 322 Minimum Grade: C or T

MATH 327 — Differential Equations
Credit Hours: 3.00
An introduction to the study and application of ordinary differential equations. Typical topics include first order differential equations, linear differential equations, systems of equations, existence and uniqueness of solutions, bifurcations, the Laplace transform, matrix methods, and stability theorems.
Prerequisites: MATH 121 Minimum Grade: C or T

MATH 330 — Numerical Analysis
Credit Hours: 3.00
Numerical methods for the solution of mathematical problems and computer application of those methods. Typical topics include the bisection algorithm, fixed point iteration, interpolation, polynomial approximation, numerical differentiation and integration, solution of systems of linear equations, least squares approximation, and error analysis.
Prerequisites: MATH 121 Minimum Grade: C or T and CSCI 150 Minimum Grade: C or T OR CSCI 208 Minimum Grade: C or T OR MATH 210 Minimum Grade: C or T

MATH 331 — Modern Geometry
Credit Hours: 3.00
An introduction to plane geometry intended for future teachers of mathematics. Typical topics include deductive reasoning and the axiomatic
method, Euclidean geometry, parallelism, hyperbolic and other non-Euclidean geometries.
Prerequisites: MATH 121 Minimum Grade: C or T and MATH 250 Minimum Grade: C or T

MATH 335 — History of Mathematics
Credit Hours: 3.00
This course traces the historical development of mathematics from ancient to modern times, placing mathematical facts into a meaningful intellectual and historical context. Typical topics include mathematics in early civilizations such as Egypt and Babylonia; early Greek mathematics from Euclid to Archimedes; the work of Diophantus; mathematics in medieval Islam and its transmission to the Latin West; the early development of algebra; the analytic geometry of Descartes and Fermat; the development of the calculus at the hands of Newton and Leibniz; the contributions of the Bernoulli family; nineteenth-century analysis from Cauchy to Weierstrass; nineteenth-century algebra from Galois through Klein; the development of non-Euclidean geometry; and cantor's developments in set theory.
Prerequisites: MATH 121 Minimum Grade: C or T

MATH 340 — Probability & Statistics
Credit Hours: 3.00
A mathematically oriented introductory course in probability and statistics. Typical topics include counting techniques and laws of probability, independence, discrete and continuous random variables, distributions (normal, t, chi, square, F, Poisson, exponential, and sampling), regression correlation, confidence intervals and hypothesis testing, mathematical expectation, moment generating functions, the Central Limit Theorem, and point estimation.
Prerequisites: MATH 121 Minimum Grade: C or T

MATH 379 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

MATH 392 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

MATH 399 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

MATH 403 — Senior Assessment
Credit Hours: 2.00
Students will write a project paper or develop a programming project and present the results of their researches to the faculty. Students will find a project advisor at least one semester prior to enrollment and will have substantially completed the research before enrolling. Each student takes a comprehensive capstone examination that includes a nationally-normed test over the subject area and abstracting a journal article.
Prerequisites: none

MATH 420 — Advanced Analysis I
Credit Hours: 3.00
Rigorous presentation of the fundamental concepts and techniques of real analysis, including a careful study of continuity and convergence, sets and functions, sequences and series, limits and continuity, and differentiation.
Prerequisites: MATH 220 Minimum Grade: C or T and MATH 250 Minimum Grade: C or T

MATH 421 — Advanced Analysis II
Credit Hours: 3.00
A continuation of Math 420 with an emphasis on integration sequences and a series of functions, uniform convergence, infinite series, and additional topics of the instructor's choosing.
Prerequisites: MATH 420 Minimum Grade: C or T

MATH 430 — Complex Analysis
Credit Hours: 3.00
Theory of functions of one complex variable, including derivatives, integrals, power series, residues, and conformal mappings.
Prerequisites: MATH 220 Minimum Grade: C or T

MATH 436 — Research in Mathematics
Credit Hours: 1.00
An independent research course. The student will work with a professor on a research project either designed by the student or the professor. The student's research must result in a professional quality paper or project and a presentation before a group of peers and professors.
Prerequisites: none

MATH 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none
MATH 492 — Workshop
Credit Hours: 0.50 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

MATH 499 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

MUS 000 — Recital Attendance
Credit Hours: 0.00
A requirement for music majors and minors, which consists of attendance at a designated number of concerts/recitals each semester.
Prerequisites: none

MUS 100 — Intro to Music Literature
Credit Hours: 3.00
A survey of Western art music from the Middle Ages to the An introductory course in music literature which includes a survey of Western art music from the Middle Ages to the present and a survey of non-Western musics. A brief study of musical elements as well as a study of the development of musical styles, major composers and compositions is included. Listening, lectures, readings and experiencing performances are vital components of this course.
Prerequisites: none

MUS 101 — Music Fundamentals
Credit Hours: 2.00
An introductory course primarily for music majors and minors that includes the fundamentals of music theory, notation, and basic aural skills. May not be counted as credit towards a music degree.
Prerequisites: none

MUS 102 — Introduction to Jazz
Credit Hours: 3.00
A survey of jazz styles and principal performers from the development of early jazz to its emergence as a significant contribution to world music. Listening, lectures, readings, and experiencing performances are vital components of this course.
Prerequisites: none

MUS 103 — Intro to Music Technology
Credit Hours: 1.00
Introduction to basic music technology including MIDI, sequencing, music notation, and tutorials. Development of music technology skills utilizing music lab facilities and equipment.
Prerequisites: MUS 101 Minimum Grade: C or T

MUS 104 — Music Theory I
Credit Hours: 3.00
Development of basic music skills and harmony with practical application through part-writing and composition.
Prerequisites: MUS 101 Minimum Grade: C or T

MUS 108 — Aural Skills I
Credit Hours: 1.00
Foundational work in sight singing and written dictation.
Prerequisites: MUS 101 Minimum Grade: C or T

MUS 120 — Class Piano I
Credit Hours: 1.00
A study of beginning keyboard techniques with emphasis on the skills needed to fulfill the piano proficiency requirement.
Prerequisites: none

MUS 121 — Class Piano II
Credit Hours: 1.00
A study of intermediate keyboard techniques with emphasis on the skills needed to fulfill the piano proficiency requirement.
Prerequisites: MUS 120 Minimum Grade: C or T

MUS 130 — Secondary Applied Music
Credit Hours: 1.00
Private instruction in applied music. Applicable to a music degree only as secondary applied credit. May be repeated for credit (eight hours maximum).
Prerequisites: MUS 101 Minimum Grade: D or T

MUS 140 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (eight hours maximum).
Prerequisites: none

MUS 141 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (eight hours maximum).
Prerequisites: MUS 140 Minimum Grade: D or T

MUS 179 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

MUS 192 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none
MUS 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair. Prerequisites: none

MUS 204 — Music Theory II
Credit Hours: 3.00
Advanced study in music writing and analysis with emphasis on tonal and chromatic harmony. Prerequisites: MUS 104 Minimum Grade: C or T

MUS 208 — Aural Skills II
Credit Hours: 1.00
Emphasis on sight singing in parts, more difficult keys and intervals, modulations, and rhythmic patterns in dictation. Corequisites: MUS 204 Prerequisites: MUS 108 Minimum Grade: C or T

MUS 210 — Mariachi Ensemble
Credit Hours: 1.00
Open to all qualified students by audition, regardless of major field. Music chosen from standard mariachi repertoire. May be repeated for credit. Audition and permission of instructor required for registration. Prerequisites: none

MUS 212 — Jazz Improvisation I
Credit Hours: 1.00
Emphasis on basic jazz literature, chord symbols, melodic patterns, ear training, melodic concepts, and analysis of improvised solos. Prerequisites: MUS 104 Minimum Grade: C or T

MUS 220 — Class Piano III
Credit Hours: 1.00
A continuation of intermediate keyboard technique with emphasis on skills needed to fulfill the piano proficiency requirement. Prerequisites: MUS 121 Minimum Grade: C or T

MUS 226 — Languages for Singing
Credit Hours: 3.00
A study of the phonetics of languages used in singing. The course includes English, Italian, Latin, German and French diction. Prerequisites: none

MUS 240 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (eight hours maximum). Prerequisites: MUS 141 Minimum Grade: C or T

MUS 241 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (eight hours maximum). Prerequisites: MUS 240 Minimum Grade: C or T

MUS 242 — Applied Music — Composition
Credit Hours: 2.00
This course will provide private instruction in basic music composition. May be repeated for credit (four hours maximum). Prerequisites: MUS 104 Minimum Grade: C or T

MUS 243 — Applied Music — Composition
Credit Hours: 2.00
This course will provide further private instruction in basic music composition. May be repeated for credit (four hours maximum). This course requires instructor approval for registration purposes. Prerequisites: MUS 104 Minimum Grade: C or T and MUS 242 Minimum Grade: C or T

MUS 245 — Band
Credit Hours: 1.00
Open to all students, regardless of major field, who demonstrate sufficient ability on a standard wind or percussion instrument. May be repeated for credit. Prerequisites: none

MUS 246 — Jazz Ensemble
Credit Hours: 1.00
An advanced instrumental jazz ensemble, open to all qualified students by audition. Repertoire is selected from a variety of jazz styles and periods. May be repeated for credit. Prerequisites: none

MUS 247 — Concert Choir
Credit Hours: 1.00
Open to all qualified students with repertoire selected from the standard choral concert literature. May be repeated for credit. Prerequisites: none

MUS 248 — Jazz Singers
Credit Hours: 1.00
An advanced vocal jazz ensemble, open to qualified students by audition. Repertoire is selected from a variety of jazz styles and periods. May be repeated for credit. Prerequisites: none

MUS 249 — Chamber Ensemble
Credit Hours: 1.00
Selected groups including instrumental, vocal, and mixed ensembles for performance of music in specific periods and mediums. May be repeated
MUS 250 — Orchestra
Credit Hours: 1.00
Open to all students, regardless of major field, who demonstrate sufficient ability on a standard orchestral instrument. May be repeated for credit. Prerequisites: none

MUS 252 — Music Theatre Workshop
Credit Hours: 1.00
The study and production of musical theatre and opera repertoire appropriate for educational theatre. May be repeated for credit. Prerequisites: none

MUS 255 — Wind Ensemble
Credit Hours: 1.00
An advanced mixed instrumental ensemble, open to wind and percussion students by audition. Repertoire is selected from standard and contemporary wind ensemble literature. May be repeated for credit. Prerequisites: none

MUS 257 — Chamber Choir
Credit Hours: 1.00
An advanced mixed choral ensemble, open to students by audition. Repertoire is selected from standard and contemporary choral concert literature as well as music of other cultures, ethnicities and traditions. May be repeated for credit. Prerequisites: none

MUS 279 — Special Topics
Credit Hours: 0.50 to 6.00
Offered periodically to meet student special interests in the field. Prerequisites: none

MUS 292 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents. Prerequisites: none

MUS 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair. Prerequisites: none

MUS 304 — Advanced Theory/Counterpoint
Credit Hours: 3.00
Advanced tonal chromatic harmony and an introduction to 18th century counterpoint. This course requires instructor approval for registration purposes. Prerequisites: MUS 103 Minimum Grade: C or T and MUS 104 Minimum Grade: C

MUS 308 — Advanced Aural Skills
Credit Hours: 1.00
Advanced sight singing and ear training, including harmonic and melodic dictation using chromatic intervals. Prerequisites: MUS 208 Minimum Grade: C or T

MUS 312 — Jazz Improvisation II
Credit Hours: 1.00
Emphasis on the analysis and performance of intermediate jazz literature and composition in contemporary styles. Prerequisites: MUS 212 Minimum Grade: C or T

MUS 320 — Advanced Piano Class
Credit Hours: 1.00
Advanced functional keyboard technique with emphasis on skills needed to fulfill the piano proficiency requirement. Prerequisites: MUS 220 Minimum Grade: C or T

MUS 321 — Voice Methods
Credit Hours: 1.00
A course designed to enable music education majors to gain a practical knowledge of the voice and relevant pedagogy. Not open to students whose principal instrument is voice. Prerequisites: none

MUS 322 — Percussion Methods
Credit Hours: 1.00
A course designed to enable music education majors to gain a practical knowledge of percussion instruments and relevant pedagogy. Prerequisites: none

MUS 323 — Brass Methods
Credit Hours: 1.00
A course designed to enable music education majors to gain practical knowledge of brass instruments and relevant pedagogy. Prerequisites: none

MUS 324 — Woodwind Methods
Credit Hours: 1.00
A course designed to enable music education majors to gain practical knowledge of woodwind instruments and relevant pedagogy. Prerequisites: none

MUS 325 — String Methods
Credit Hours: 1.00
A course designed to enable music education majors to gain practical knowledge of string instruments and relevant pedagogy. Prerequisites: none
majors to gain a practical knowledge of string instruments and relevant pedagogy.
Prerequisites: none

MUS 326 — Music History I
Credit Hours: 3.00
A detailed survey of music history from antiquity to 1750.
Prerequisites: MUS 100 Minimum Grade: C or T and MUS 104 Minimum Grade: C or T

MUS 327 — Music History II
Credit Hours: 3.00
A detailed survey of music history from 1750 to the present.
Prerequisites: MUS 100 Minimum Grade: C or T and MUS 104 Minimum Grade: C or T

MUS 333 — Form and Analysis
Credit Hours: 2.00
The study and analysis of the structural elements of music and principle musical forms from the Renaissance through the twentieth century. Includes study of 16th and 18th-century contrapuntal forms. This course requires instructor approval for registration purposes.
Prerequisites: MUS 304 Minimum Grade: C or T

MUS 340 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (eight hours maximum).
Prerequisites: MUS 241 Minimum Grade: C or T

MUS 341 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (eight hours maximum).
Prerequisites: MUS 340 Minimum Grade: C or T

MUS 342 — Applied Music — Composition
Credit Hours: 2.00
This course will provide private instruction in advanced music composition including orchestration techniques. May be repeated for credit (four hours maximum). This course requires instructor approval for registration purposes.
Prerequisites: MUS 104 Minimum Grade: C or T and MUS 243 Minimum Grade: C or T

MUS 343 — Applied Music — Composition
Credit Hours: 2.00
This course will provide further private instruction in advanced music composition including polyphonic and non-tonal techniques. May be repeated for credit (four hours maximum). This course requires instructor approval for registration purposes.
Prerequisites: MUS 104 Minimum Grade: C or T and MUS 342 Minimum Grade: C or T

MUS 345 — Junior Recital
Credit Hours: 1.00
Preparation and presentation of a public recital of approximately one-half hour of music. Must be taken concurrently with Mus 341.
Corequisites: MUS 341
Prerequisites: MUS 340 Minimum Grade: C or T OR MUS 341 Minimum Grade: C or T

MUS 360 — Conducting Techniques
Credit Hours: 2.00
Development of fundamental conducting skills, score reading skills, musical concepts, and terminology.
Prerequisites: MUS 204 Minimum Grade: C or T and MUS 208 Minimum Grade: C or T

MUS 364 — Accompanying Practicum I
Credit Hours: 2.00
Training for the advanced pianist in vocal and instrumental accompanying skills, and related skills for dance accompanying.
Prerequisites: MUS 241 Minimum Grade: C or T

MUS 365 — Accompanying Practicum II
Credit Hours: 2.00
Training for the advanced pianist in vocal and instrumental accompanying skills, and related skills for dance accompanying.
Prerequisites: MUS 364 Minimum Grade: C or T

MUS 375 — Computer Music
Credit Hours: 3.00
The class is designed as an introduction to computer music composition techniques. Students will design sounds using both waveform and sample techniques. Sound libraries are developed and then implemented in original compositions performed twice per semester. Advanced sequencing techniques are also explored. Contemporary computer music examples are assigned for discussion and analysis.
Prerequisites: MUS 101 Minimum Grade: C or T and MUS 103 Minimum Grade: C or T

MUS 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

MUS 392 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**MUS 399 — Individual Studies**
Credit Hours: 0.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**MUS 410 — Mariachi Ensemble**
Credit Hours: 1.00
Open to all qualified students by audition, regardless of major field. Music chosen from standard mariachi repertoire. May be repeated for credit. Audition and permission of instructor required for registration.
Prerequisites: none

**MUS 421 — Elem School Music Methods**
Credit Hours: 3.00
A comprehensive study of techniques and approaches to teaching general music in the elementary schools (grades K-6). A background check must be completed through the Department of Teacher Education. This check must be completed before a student can do any field experience hours. Students must be enrolled in the Teacher Education Program.
Prerequisites: MUS 304 Minimum Grade: C or T and MUS 360 Minimum Grade: C or T

**MUS 422 — Secondary School Music Methods**
Credit Hours: 3.00
A comprehensive study of principles and procedures for teaching and administering music programs in secondary schools (grades 7-12). A background check must be completed through the Department of Teacher Education. This check must be completed before a student can do any field experience hours. Students must be enrolled in the Teacher Education Program.
Prerequisites: MUS 304 Minimum Grade: C or T and MUS 360 Minimum Grade: C or T

**MUS 423 — Choral Literature and Methods**
Credit Hours: 3.00
A study of choral literature and rehearsal techniques appropriate for secondary school choral ensembles, including resource materials, techniques for choral sound production, and effective teaching strategies.
Prerequisites: MUS 304 Minimum Grade: C or T and MUS 360 Minimum Grade: C or T

**MUS 424 — Instrumental Lit/Methods**
Credit Hours: 3.00
A study of instrumental literature and rehearsal techniques appropriate for secondary school instrumental ensembles, including resource materials, techniques for ensemble development, and effective teaching strategies.
Prerequisites: MUS 304 Minimum Grade: C or T and MUS 360 Minimum Grade: C or T

**MUS 425 — Opera Literature**
Credit Hours: 3.00
A study of operatic masterpieces from the origins of the form to the present.
Prerequisites: none

**MUS 426 — Song Literature**
Credit Hours: 3.00
Historic survey of the art of song.
Prerequisites: none

**MUS 427 — Instrumental Lit & Pedagogy**
Credit Hours: 3.00
Historical survey of the student's own instrumental category (either woodwinds, brass, percussion, guitar or strings) and a study of the pedagogical techniques for that instrumental category.
Prerequisites: none

**MUS 428 — Piano Literature and Pedagogy**
Credit Hours: 3.00
Historical survey of the repertoire for piano and a study of pedagogical techniques for the piano.
Prerequisites: none

**MUS 429 — Voice Literature and Pedagogy**
Credit Hours: 3.00
A study of pedagogical techniques and vocal problems and the assignment of appropriate literature. A survey of materials includes treatises, technique books, physiological books, repertoire, and other areas relevant to singing and to the teaching of singing.
Prerequisites: none

**MUS 430 — Secondary Applied Music**
Credit Hours: 1.00
Private instruction in applied music. Applicable to a music degree only as secondary applied credit.
Prerequisites: MUS 341 Minimum Grade: C or T

**MUS 440 — Applied Music**
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (four hours maximum).
Prerequisites: MUS 341 Minimum Grade: C or T and MUS 345 Minimum Grade: C or T
MUS 441 — Applied Music
Credit Hours: 2.00
Private instruction in applied music. May be repeated for credit (four hours maximum).
Prerequisites: MUS 345 Minimum Grade: C or T and MUS 440 Minimum Grade: C or T

MUS 444 — Senior Project — Composition
Credit Hours: 2.00
A course for the development and creation of a work for orchestra or wind ensemble. Orchestration techniques will be explored. Analysis of works within the genres will be examined and discussed. A significant written project on some aspect of contemporary music will be required. This course requires instructor approval for registration purposes.
Prerequisites: MUS 343 Minimum Grade: C or T

MUS 445 — Senior Recital
Credit Hours: 2.00
Preparation and presentation of a public recital of approximately forty-five minutes of music. Must be taken concurrently with Mus 440 or Mus 441.
Prerequisites: MUS 440 Minimum Grade: C or T and MUS 441 Minimum Grade: C or T

MUS 446 — Jazz Ensemble
Credit Hours: 1.00
An advanced instrumental jazz ensemble, open by audition to junior and senior students who perform a significant leadership role in the ensemble. Repertoire is selected from a variety of jazz styles and periods. May be repeated for credit.
Prerequisites: none

MUS 448 — Jazz Singers
Credit Hours: 1.00
An advanced vocal jazz ensemble, open by audition to junior and senior students who perform a significant leadership role in the ensemble. Repertoire is selected from a variety of jazz styles and periods. May be repeated for credit.
Prerequisites: none

MUS 449 — Chamber Ensemble
Credit Hours: 1.00
Selected groups including instrumental, vocal and mixed ensembles for performance of music in specific periods and mediums, open by audition to junior and senior students who perform a significant leadership role in the ensemble. May be repeated for credit.
Prerequisites: none

MUS 450 — Orchestra
Credit Hours: 1.00
Open by audition to Junior and Senior students who perform a significant leadership role in the orchestra. Repertoire is selected from standard orchestral literature. May be repeated for credit.
Prerequisites: none

MUS 455 — Wind Ensemble
Credit Hours: 1.00
An advanced mixed instrumental ensemble, open by audition to junior and senior students who perform a significant leadership role in the ensemble. Repertoire is selected from standard and contemporary wind ensemble literature. May be repeated for credit.
Prerequisites: none

MUS 457 — Chamber Choir
Credit Hours: 1.00
An advanced mixed choral ensemble, open by audition to junior and senior students who perform a significant leadership role in the ensemble. Repertoire is selected from standard and contemporary choral concert literature as well as music of other cultures, ethnicities and traditions. May be repeated for credit.
Prerequisites: none

MUS 460 — Advanced Choral Conducting
Credit Hours: 2.00
Advanced techniques for the choral conductor.
Prerequisites: MUS 360 Minimum Grade: C or T

MUS 461 — Advanced Instr Conducting
Credit Hours: 2.00
Advanced techniques for the instrumental conductor.
Prerequisites: MUS 360 Minimum Grade: C or T

MUS 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

MUS 486 — Marching Band Techniques
Credit Hours: 2.00
Designed to help the band director chart marching band shows and deal with the logistics and techniques needed to manage the marching band.
Prerequisites: MUS 422 Minimum Grade: C or T

MUS 492 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none
MUS 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

NURS 301 — Pharmacology
Credit Hours: 3.00
This course will focus on the nature of drug addictions. The course will provide an in-depth perspective of the pharmacokinetics and pharmacodynamics (absorption, distribution, metabolism and excretion) of medications. The students will learn to consider body weight, age, body composition, and circulatory dynamics when analyzing the drug's effect. Other topics to be included in this course include therapeutic effects, side effects, toxic effects, idiosyncratic reactions, drug effects, drug tolerance, drug interactions and drug dose response. Discussion will focus on the physiological action and effect of selected drug groups, and factors that will influence the drug actions such as physiological variables, environmental conditions, psychological factors and diet. Recommended Chem 111, Introductory to Chemistry; Biol 305, Pathophysiology.
Prerequisites: none

NURS 305 — Pathophysiology
Credit Hours: 4.00
This course provides an overview of pathophysiological processes across the major organ systems. It is divided into two content areas: general concepts and specific disease processes. General concepts include the topics of cellular environment, genetics, stress and disease, immunity, inflammation, and cellular proliferation. Common disease processes from the major organ systems are presented. BIOL 182 and CHEM 111 are highly recommended for registration into this course.
Prerequisites: BIOL 205 Minimum Grade: C or T and BIOL 206 Minimum Grade: C or T

NURS 310 — Nursing Theory
Credit Hours: 2.00
This course is an overview of nursing theorists and the application of their theories to current clinical practice. Students will do an in-depth analysis of a selected nursing theory.
Prerequisites: none

NURS 320 — Health Care Ethics
Credit Hours: 2.00
This course will focus on the moral and ethical dimensions of nursing practice in health care today. Topics to be explored include biomedical technological advances, quality of life, the nurse's role in ethical situations, client advocacy, skill competency, informed consents, advanced directives and nursing accountability. The students will also discuss how values, emotions, faith, religious beliefs, the law, culture, gender, generational issues and male and female roles influence a person's decision making in the setting of an ethical dilemma. A systematic approach to resolving ethical issues and the role of an Ethics Committee as a resource are presented. Discussion will also take place regarding the Nursing Code of Ethics and its effect on nursing practice.
Prerequisites: none

NURS 330 — Nursing Management I
Credit Hours: 3.00
The focus of this course is on the theories of nursing management and leadership and their application to everyday work practices. Content will include the basic functions of management; planning, organizing and directing. Topics such as decision-making, change, budgeting, conflict resolution and personnel issues will be explored. The students will concentrate on critical decision making and formulating independent nursing judgments in complex nursing situations. Content will also focus on supervisory skills and collaboration with other members of the health care team in the structured (hospital or nursing home) or unstructured (community assessments) health care settings.
Prerequisites: none

NURS 340 — Nursing Management II
Credit Hours: 3.00
This course will provide the student with an opportunity to apply nursing management skills and critical decision-making learned from “Nursing Management I.” The student will choose an area of interest in the arena of health care and participate in management, policymaking, and/or project completion for the agency. In most cases the course work will be completed at the site of the health care agency or employer under the direction of an on-site preceptor. Projects, policy work, etc., will be pre-approved with the Adams State nursing faculty.
Prerequisites: NURS 330 Minimum Grade: C or T

NURS 350 — Rural Health Care
Credit Hours: 2.00
Rural areas have many similarities as well as differences. This forum-based course focuses on the characteristics of nursing in rural areas using the San Luis Valley as an example. The student will
be able to assess and identify commonalities and variances of health care needs in rural populations. Subject matter will include rural and ethnic cultural considerations, understanding benefits and limitations on new technology, attitudes of health, nursing roles in rural settings, rural health systems, access issues, integration of rural and urban health systems, and considerations for traumatic and non-traumatic illnesses.

Prerequisites: none

**NURS 360 — Service Learning I**
Credit Hours: 1.00

The Service Learning project is to provide the student with a unique opportunity to further develop the nursing role as a responsible and caring citizen in the context of professional nursing. In providing service to an agency or aggregate of clients, the ASC nursing student will apply and integrate concepts learned from previous coursework in the arts, sciences, humanities, and nursing in meaningful ways. The Service Learning project enhances the ASC Nursing Program Mission with its focus on cultural diversity, community service, and rural health care.

Prerequisites: NURS 350 Minimum Grade: C or T and SOC 201 Minimum Grade: C or T

**NURS 370 — Service Learning II**
Credit Hours: 1.00

Service Learning II further provides the student with a unique opportunity to further develop the nursing role as a responsible and caring citizen in the context of professional nursing by building upon the project indicated in NURS 360. In providing service to an agency or aggregate of clients, the ASC nursing student will apply and integrate concepts learned from previous coursework in the arts, sciences, humanities, and nursing in meaningful ways. The Service Learning project enhances ASC Nursing Program Mission with its focus on cultural diversity, community service, and rural health care.

Prerequisites: NURS 360 Minimum Grade: C or T

**NURS 410 — Nursing Research**
Credit Hours: 3.00

This course provides an introduction to the research process including design and methodology. Interpretation and critique of research findings for use in nursing practice are emphasized. Research questions relevant to clinical practice are identified. This course emphasizes critical analysis of existing research to support data driven decisions and implementation of evidence-based practice.

Prerequisites: PSYC 211 Minimum Grade: C or T

**NURS 430 — Health Assess Across Lifespan**
Credit Hours: 4.00

The course will focus on the theoretical and practical aspects of acquiring data through a client health history and physical examination. A laboratory portion will consist of demonstration and actual wellness assessment with identification of needs. Students will be responsible for four independent clinical health assessments.

Prerequisites: none

**NURS 440 — Professional Practice**
Credit Hours: 3.00

Emphasis in this course is on the transition from Associate Degree Nursing to the professional nursing role of the Baccalaureate prepared nurse. It will explore in-depth the development of healthcare policy in the United States as it relates to the evolution of public and private healthcare insurance and the societal implications of these policies. Students will analyze the U.S. healthcare delivery system to determine how social, political, legal, economic policy, and regulatory factors affect health disparities and access to healthcare for the American population. Necessary critical thinking skills will be developed to understand future trends and changes affecting healthcare delivery policy and nursing practice.

Prerequisites: none

**NURS 460 — Community Health I**
Credit Hours: 3.00

This course examines the role of nurses in promoting the health of aggregates, families, and individuals. The concept of community as client is emphasized. The core public health functions of assessment, policy development, and assurance are explored through student involvement in the legislative process, community assessment, case management, health teaching, and the investigation of communicable diseases.

Prerequisites: NURS 350 Minimum Grade: C or T and NURS 430 Minimum Grade: C or T

**NURS 470 — Community Health II (field)**
Credit Hours: 2.00

This course allows students to address the concerns and health needs of the community. In a collaborative effort between the community and ASC, the students will apply knowledge gained through nursing academic coursework to implement a plan for those health concerns. Emphasis will be placed on developing interpersonal skills and achieving social changes that influence health and quality of life. The course includes a clinical practicum within a public health setting super-
NURS 480 — Senior Seminar
Credit Hours: 1.00
This course will encourage nursing to recognize and value the relationship between their general education courses and their nursing courses, recognizing that nursing builds upon the arts and sciences. The students will complete a writing project that will facilitate an appreciation of this relationship. This course will be taken during the final semester of the RN to BSN coursework.
Prerequisites: none

PE 100 — Strength and Conditioning
Credit Hours: 1.00
Enrollment in these courses is restricted to varsity athletes. Students will be instructed five days a week to improve strength, speed, power, and quickness. These courses include daily strength and conditioning activity. Strength training takes place in the weight room incorporating four core lifts. Conditioning drills are held in the field house and include agility, plyometrics, speed development, etc.
Prerequisites: none

PE 101 — Prin & Prac — Football
Credit Hours: 1.00
Football. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 102 — Prin & Prac — Basketball
Credit Hours: 1.00
Basketball. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 103 — Prin & Prac — Cross Country
Credit Hours: 1.00
Cross country. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 104 — Prin & Prac — Golf
Credit Hours: 1.00
Golf. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 105 — Prin & Prac — Soccer
Credit Hours: 1.00
Soccer. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 107 — Prin & Prac — Softball
Credit Hours: 1.00
Softball. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 108 — Prin & Prac — Volleyball
Credit Hours: 1.00
Volleyball. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 109 — Prin & Prac — Wrestling
Credit Hours: 1.00
Wrestling. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 110 — Prin & Prac — Track/Field
Credit Hours: 1.00
Track. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

PE 112 — Strength and Conditioning
Credit Hours: 1.00
Enrollment in these courses is restricted to varsity
athletes. Students will be instructed five days a week to improve strength, speed, power, and quickness. These courses include daily strength and conditioning activity. Strength training takes place in the weight room incorporating four core lifts. Conditioning drills are held in the field house and include agility, plyometrics, speed development, etc.
Prerequisites: none

PE 149 — Cheerleading
Credit Hours: 1.00
Cheerleading. Basic activity course designed to provide sport, recreational, health, physical fitness, and leisure-time pursuits and general appreciation for physical well-being associated with physical activity participation.
Prerequisites: none

PE 150 — Cheerleading
Credit Hours: 1.00
This course provides physical activity credit. Enrollment is restricted to members of the varsity cheerleading squad at Adams State College. Spirit groups serve as support groups for the intercollegiate athletic program and as such, play a very important role in the administration of athletic contests.
Prerequisites: none

PE 160 — Major Sport Football
Credit Hours: 1.00
Football. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 161 — Major Sport Basketball
Credit Hours: 1.00
Basketball. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 162 — Major Sport Track
Credit Hours: 1.00
Track. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 163 — Major Sport Softball
Credit Hours: 1.00
Softball. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 164 — Major Sport Wrestling
Credit Hours: 1.00
Wrestling. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 165 — Major Sport Golf
Credit Hours: 1.00
Golf. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 166 — Major Sport Volleyball
Credit Hours: 1.00
Volleyball. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 167 — Major Sport Cross Country
Credit Hours: 1.00
Cross country. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 168 — Major Sport Soccer
Credit Hours: 1.00
Soccer. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

PE 179 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PE 192 — Workshops
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PE 199 — Individual Studies
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PE 200 — Strength and Conditioning
Credit Hours: 1.00
Enrollment in these courses is restricted to varsity athletes. Students will be instructed five days a week to improve strength, speed, power, and quickness. These courses include daily strength and conditioning activity. Strength training takes place in the weight room incorporating four core lifts. Conditioning drills are held in the field house and include agility, plyometrics, speed development, etc.
Prerequisites: none
PE 201 — Prin & Prac — Football
Credit Hours: 1.00
Football. Fundamental skills systems, strategies, and training programs associated with sport participation. Designed for participants involved in a collegiate athletic program. One course may be substituted for PE 111-198.
Prerequisites: none

Prerequisites: none

**PE 467 — Major Sport Cross Country**  
Credit Hours: 1.00  
Cross country. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

**PE 468 — Major Sport Soccer**  
Credit Hours: 1.00  
Soccer. Designed to improve techniques and fundamentals associated with sport participation.
Prerequisites: none

**PE 479 — Special Topics**  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.
Prerequisites: none
PE 492 — Workshops
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PE 499 — Individual Studies
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PHIL 179 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PHIL 192 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PHIL 199 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PHIL 201 — Introduction to Philosophy
Credit Hours: 3.00
A survey of philosophical inquiries, theories, and major problems arising from man's attempt to understand the significance of the world in which he lives and works.
Prerequisites: none

PHIL 202 — Ethics
Credit Hours: 3.00
An examination of criteria governing ethical responses in typical situations as presented by representative thinkers. The application of principles in the development of reasonable standards of conduct and in the formulation of codes of ethics.
Prerequisites: none

PHIL 205 — Logic
Credit Hours: 3.00
An introduction to the essential principles of logical thinking, with particular attention to the fundamentals of inductive and deductive reasoning.
Prerequisites: none

PHIL 279 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PHIL 292 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PHIL 299 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PHIL 300 — Interrelations of the Arts
Credit Hours: 3.00
An examination of the ways the fine arts are interrelated, with particular attention given to the differing treatments of important literary, musical, and artistic themes. (Same as Eng 300.)
Prerequisites: none

PHIL 303 — Chinese Philosophy
Credit Hours: 3.00
A critical examination of the major philosophical traditions in China. The focus will be on the methodology and content of Chinese approaches to understanding nature, human nature, society, knowledge, and the good life.
Prerequisites: none

PHIL 304 — Religions of the World — West
Credit Hours: 3.00
A survey of the living religions of the world.
Prerequisites: none

PHIL 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PHIL 392 — Workshop
Credit Hours: 0.50 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PHIL 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: none

**PHIL 436 — American Thought**
Credit Hours: 3.00
The historical, philosophical, and literary ideas that have influenced American life and thought. (Same as Hist 436 and Govt 436.)
Prerequisites: none

**PHIL 466 — Ancient Political Theory**
Credit Hours: 3.00
Designed to provoke philosophical reflection regarding the perennial, and still fundamental, questions about man in relation to the state. The first semester will focus on the period from Plato to St. Thomas. The second semester will treat thinkers from Machiavelli through Marx. (Same as Govt 466, 467.)
Prerequisites: none

**PHIL 467 — Modern Political Theory**
Credit Hours: 3.00
Prerequisites: none

**PHIL 479 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**PHIL 492 — Workshop**
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**PHIL 499 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**PHYS 102 — Intro to Engineering Design**
Credit Hours: 2.00
This course serves as an introduction to engineering design and should be taken by all students who have elected to pursue the pre-engineering curriculum at Adams State College or who have an interest in exploring engineering as a career. Students will be engaged in the design process throughout the entire course. Using LEGO Mechanical Engineering Set and the LEGO RCX Brick, students will learn about mechanical systems and design solutions to specific problems.
Prerequisites: ACT MATH Score of: 17 OR ACCUPLACER Score of: 085 OR MATH 097 Minimum Grade: C or T

**PHYS 179 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**PHYS 192 — Workshop**
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**PHYS 199 — Individual Studies**
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**PHYS 201 — Introduction to Astronomy**
Credit Hours: 4.00
An introduction course in astronomy including historical astronomy, solar system astronomy, the life cycle of stars, the structure of the galaxy, telescope usage, identification of constellations, the apparent motion of celestial objects as seen from Earth, and other topics as time permits. Lab activities are an essential component of the course. Students are required to attend a minimum of two evening viewing sessions during the semester.
Prerequisites: none

**PHYS 210 — Computer Aided Drafting**
Credit Hours: 3.00
This course examines the drafting/design field of mechanically oriented objects. Topics include multi-view drawings, sectioning, auxiliary views, exploded assemblies, working drawing, isometric drawings, oblique drawings, and illustration techniques, and each will be presented within the framework of computer aided drafting and design. No drafting experience is required or assumed. Some freehand drawing and sketching may be covered. This course may require additional laboratory time outside of class.
Prerequisites: none

**PHYS 225 — College Physics I**
Credit Hours: 5.00
The first course of a two-semester lecture/laboratory sequence introducing the fundamental
principles of physics. In the first semester, students will be introduced to the areas of kinematics, dynamics, energy, momentum, heat, and sound. Conceptual understanding as well as problem solving techniques will be emphasized in the lecture. Laboratory sections meet for two hours each week and the exercises performed in the laboratory coincide closely with the topics presented in the lecture. Instructor permission may be obtained to register for this course.

Prerequisites: MATH 107 Minimum Grade: C or T

PHYS 225L — College Physics I Lab
Credit Hours: 0.00
Corequisites: PHYS 225
Prerequisites: none

PHYS 226 — College Physics II
Credit Hours: 5.00
The second course of a two-semester lecture-laboratory sequence introducing the fundamental principles of physics. In this second semester, students will be introduced to the areas of electricity, electric circuits, optics, and topics in modern physics. Conceptual understanding as well as problem solving techniques will be emphasized in the lecture. The laboratory sections meet for two hours each week and the exercises performed in the laboratory coincide closely with the topics presented in the lecture.

Prerequisites: PHYS 225 Minimum Grade: C or T

PHYS 226L — College Physics II Lab
Credit Hours: 0.00
Corequisites: PHYS 226
Prerequisites: none

PHYS 230 — General Physics I GT-SC1
Credit Hours: 4.00
A calculus-based study of the fundamental principles and concepts of mechanics, sound, heat. Designed for students planning additional course work in chemistry, physics, engineering, or mathematics. The laboratory (PHYS 231) must be taken concurrently.

Corequisites: PHYS 231
Prerequisites: MATH 120 Minimum Grade: D or T

PHYS 231 — General Physics I Lab GT-SC1
Credit Hours: 1.00
One two-hour laboratory per week with lab projects that coincide with the lecture material in Phys 230. A calculus-based treatment of data will be required for some lab projects. The laboratory experience provides a vital link for students in their development of an ability to apply mathematics to simple systems, allowing them to analyze the system for theoretical behavior and to account for the errors which give them the observed behavior.

Corequisites: PHYS 231
Prerequisites: PHYS 230 Minimum Grade: D or T

PHYS 232 — Gen Physics II (Cal) GT-SC1
Credit Hours: 4.00
A calculus-based study of the fundamental principles and concepts of electricity, magnetism, and light. Designed for students planning additional course work in chemistry, physics, engineering, or mathematics. The laboratory (PHYS 233) must be taken concurrently. Note that there is no coverage of topics in “modern physics” (e.g., special relativity, quantum mechanics, etc.).

Corequisites: PHYS 233
Prerequisites: PHYS 230 Minimum Grade: D or T

PHYS 233 — Gen Phys II Lab (Cal) GT-SC1
Credit Hours: 1.00
One two-hour laboratory per week with lab projects that coincide with the lecture material in Physics 232. A calculus-based treatment of data will be required for some lab projects. The laboratory experience provides a vital link for students in their development of an ability to apply mathematics to simple systems, allowing them to analyze the system for a theoretical behavior and to account for the errors which give them the observed behavior.

Corequisites: PHYS 232
Prerequisites: PHYS 230 Minimum Grade: D or T and PHYS 231 Minimum Grade: D or T

PHYS 242 — Statics
Credit Hours: 3.00
An application of transitional and rotational equilibrium of physical structures. A few well understood basic principles will be used to analyze and solve problems in a logical manner. Vector algebra is introduced and is used throughout the course.

Prerequisites: PHYS 230 Minimum Grade: D or T

PHYS 243 — Dynamics
Credit Hours: 3.00
A one, two and three dimensional study of the kinematics and dynamics of point particles, rigid-bodies, and systems of particles using the fundamental principles of classical mechanics. The emphasis is on the development of logical problem-solving techniques using both deductive and inductive reasoning. Calculus and vector algebra are used extensively.

Prerequisites: PHYS 242 Minimum Grade: D or T
PHYS 244 — Electric Circuits
Credit Hours: 3.00
A development of the concepts used to analyze DC and AC circuits. Topics will include Kirchhoff's Voltage and Current Laws, series-parallel networks, mesh analysis, network theorems (DC and AC), and resonance circuit analysis. Mathematical techniques (determinants, Gaussian elimination) are developed as needed. This is a problem-solving class and no laboratory work is associated with the class.
Prerequisites: PHYS 230 Minimum Grade: D or T and MATH 220 Minimum Grade: D or T

PHYS 279 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PHYS 292 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PHYS 299 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PHYS 300 — Electron/Electric Measure
Credit Hours: 3.00
A combined lecture and laboratory course in electronics consisting of 4 laboratory contact hours and 1 lecture contact hour per week. The course is a study in operational amplifiers, TTL integrated circuits, microprocessors and computer interfacing. The focus is on applications and circuit design. Offered in the fall of even years.
Prerequisites: PHYS 226 Minimum Grade: C or T OR PHYS 232 Minimum Grade: C or T

PHYS 302 — Mechanics
Credit Hours: 4.00
Advanced study of the laws of motion using Newtonian mechanics, an introduction to Hamilton's principle and Lagrangian dynamics. Topics include systems of particles, linear and driven oscillators, central force motion, motion in non-inertial reference frames, and dynamics of rigid bodies. Offered spring term of odd years.
Prerequisites: PHYS 230 Minimum Grade: C or T and PHYS 231 Minimum Grade: C or T

PHYS 304 — Electricity and Magnetism
Credit Hours: 4.00
Advanced theory and applications of electrostatics and magnetostatics; steady currents; scalar and vector potentials; Gauss' Law, Laplace's equation; Ampere's and Faraday's laws. This course is offered during the fall semester of odd years.
Prerequisites: PHYS 230 Minimum Grade: C or T and PHYS 231 Minimum Grade: C or T and PHYS 232 Minimum Grade: C or T and PHYS 233 Minimum Grade: C or T and MATH 327 Minimum Grade: C or T

PHYS 306 — Modern Physics
Credit Hours: 4.00
A survey of topics in modern physics including: special relativity, properties of electromagnetic radiation, and introduction to quantum mechanics with applications to barriers and atoms. Additional topics vary from year to year and may include statistical mechanics, solid state physics, properties of nuclei and their transformations, natural and induced radioactivity, and elementary particles. Offered spring semesters of even years.
Prerequisites: PHYS 231 Minimum Grade: D or T and PHYS 232 Minimum Grade: D or T and PHYS 233 Minimum Grade: D or T and MATH 120 Minimum Grade: D or T and MATH 121 Minimum Grade: D or T and CHEM 131 Minimum Grade: D or T and CHEM 132 Minimum Grade: D or T

PHYS 320 — Planetarium Operation
Credit Hours: 2.00
Techniques in the preparation and presentation of planetarium shows at the Zacheis Planetarium/Observatory. This course requires instructor approval for registration purposes.
Prerequisites: PHYS 201 Minimum Grade: D or T

PHYS 379 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PHYS 392 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none
PHYS 399 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PHYS 436 — Research in Physics
Credit Hours: 1.00
The physics “capstone” experience. An independent research course tailored to meet the needs/desires of the student. The student will work with a professor on a research project either designed by the student and the professor. This course requires instructor approval for registration purposes.
Prerequisites: none

PHYS 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PHYS 492 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PHYS 499 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PSYC 101 — Introduction to Psych GT-SS3
Credit Hours: 3.00
This course provides students with a survey of research and theory in the science of psychology. An important goal of the course is to broaden the student’s understanding of self and others. Course topics include critical thinking skills, research methods, neuroscience, sensation and perception, life-span development, learning, memory, personality, psychological disorders, and social psychology.
Prerequisites: none

PSYC 179 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PSYC 192 — Workshops
Credit Hours: 0.50 to 3.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PSYC 199 — Independent Study
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PSYC 204 — Child Development
Credit Hours: 3.00
The goal of this course is to examine the interaction of heredity and environment on human development from conception through pre-adolescence. Issues in physical, cognitive, and social development from the individual and normative perspectives are explored. Some topics include the birth process, early cognitive and language development, gender socialization, the impact of parenting styles, and moral reasoning.
Prerequisites: PSYC 101 Minimum Grade: C or T

PSYC 205 — Adolescent & Adult Development
Credit Hours: 3.00
This course continues the study of life-span development from adolescence through old age and death. Issues in physical, cognitive, and social development from the individual and normative perspectives are explored. Topics include identity formation, sexual orientation, marriage, models of aging, changes in cognition, social development, and coping with old age.
Prerequisites: PSYC 101 Minimum Grade: C or T

PSYC 211 — Introduction to Statistics
Credit Hours: 4.00
In this course, students will develop a working appreciation of statistical concepts and applications as employed in the behavioral sciences. The course presents descriptive and inferential statistics and their applications. The laboratory component of this course gives students an opportunity to develop skills in using statistical software.
Prerequisites: (PSYC 101 Minimum Grade: C or T and MATH 097 Minimum Grade: S or T OR MATH 099 Minimum Grade: S or T OR MATH 104 Minimum Grade: C or T OR MATH 106 Minimum Grade: C or T OR MATH 107 Minimum Grade: C or T OR MATH 120 Minimum Grade: C or T OR MATH 121 Minimum Grade: C or T
OR MATH 140 Minimum Grade: C or T
OR MATH 150 Minimum Grade: C or T

**PSYC 233 — Lifespan Dev for Nurses**
Credit Hours: 3.00
This is a foundational course for nursing students in human growth and development. The goal of this course is to examine the interaction of heredity and environment on biological, cognitive, and social development from conception to death.
Prerequisites: PSYC 101 Minimum Grade: C or T

**PSYC 245 — Brain and Behavior**
Credit Hours: 3.00
This course provides students with a basic overview of the biological processes underlying human behavior. This course begins by presenting fundamental nervous system structures and processes and concludes by examining the role of biology in complex behaviors. Clinical case studies are used to illustrate psychological and neurological disorders. Sample topics include evolution and genetics, neural communication, major brain structures and their functions, human brain damage, sleep and dreaming, drug addiction, memory and amnesia, and stress and illness.
Prerequisites: PSYC 101 Minimum Grade: C or T

**PSYC 279 — Special Topics**
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

**PSYC 292 — Workshops**
Credit Hours: 0.50 to 3.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

**PSYC 299 — Independent Study**
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

**PSYC 310 — Child & Adoles Abnormal Psych**
Credit Hours: 3.00
This course provides an examination of the classification, scientific theories, and research regarding abnormal behavior of children and adolescents. Distinctions between adult and childhood disorders will be explored from a developmental perspective. The study of abnormal behavior of children and adolescence (or developmental psychopathology) focuses on nature and development of mental disorders, such as depression, attention-deficit hyperactivity disorder, separation anxiety disorder, the autistic spectrum of disorders, to name just a few. Information regarding the etiology (causes) adult and childhood disorders will be explored.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T

**PSYC 315 — Multicultural Issues**
Credit Hours: 3.00
In this course, students will explore various components of a multicultural society and the impact of social and cultural forces on identity development and formation. The processes of acculturation and assimilation will be discussed. Students will also gain insight into their own cultural experiences in a pluralistic society.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T OR PSYC 205 Minimum Grade: C or T

**PSYC 316 — Drugs, Society & Human Behavior**
Credit Hours: 3.00
This course addresses the social, biological, and psychological factors of the major drugs associated with therapeutic and recreational use and abuse. Topics include drug use as a social problem, theories and treatment of addiction, how drugs work, and the detrimental health effects of drug use.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T and PSYC 245 Minimum Grade: C or T

**PSYC 330 — Professional Seminar**
Credit Hours: 1.00
This course provides psychology majors with an overview of careers and opportunities in the field of psychology. Educational requirements, career opportunities, and professional and ethical issues are discussed.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T OR PSYC 205 Minimum Grade: C or T

**PSYC 345 — Psychological Testing & Assess**
Credit Hours: 3.00
This course provides students with an introduction to the methods and issues involved in testing and assessment. Various assessment domains are presented including personality, cognitive ability, and interests/values. Topics covered in this course include the historical foundation of assessment,
reliability, validity, and test construction; and ethical considerations.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T
OR PSYC 205 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T

PSYC 350 — Industrial/Organizational Psychology
Credit Hours: 3.00
This course focuses on the application of psychological principles to the workplace. The domains of personnel psychology, organizational psychology, and human factors are presented. Research and real-world applications are discussed in relation to employee selection, training, and promotion; organizational climate and leadership; and human-computer interface.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T

PSYC 355 — Experimental Psychology
Credit Hours: 4.00
This course focuses on the procedures and potential problems associated with research in the behavioral sciences. Students learn how to develop research questions, choose an appropriate research design, collect and analyze data using statistical software, interpret results, and write a report using APA style. The laboratory component provides supervised hands-on experience in project development.
Corequisites: LS 225
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T and LS 225 Minimum Grade: C or T

PSYC 360 — Psychology of Gender
Credit Hours: 3.00
This course will examine gender development from a variety of theoretical approaches, including evolutionary, cognitive, social learning, and cross-cultural. Topics will include how gender influences thinking, communication, interpersonal relationships, education, work, and family.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T

PSYC 365 — Psychology of Sport
Credit Hours: 3.00
The purpose of this course is to provide students with an understanding of sport psychology from different theoretical perspectives. This course will include elements of experimental psychology such as motivational issues, cognitive components, personality, and learning which are also apparent in sport psychology. In this broadly oriented course, practical implications that might be useful to today’s athletes participating at different levels of competition will be examined.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T and PSYC 205 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T

PSYC 375 — Human Sexuality
Credit Hours: 3.00
In this multidisciplinary course, students will be introduced to the physiological, medical, sociological, psychological, legal, pathological, ethical and moral, and educational facets of human sexuality. Topics in this course include male and female sexual anatomy and sexual response, contraception and disease control, sexually transmitted diseases, and sexual orientation.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T and PSYC 205 Minimum Grade: C or T

PSYC 379 — Special Topics
Credit Hours: 0.50 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

PSYC 380 — Health Psychology
Credit Hours: 3.00
Health Psychology examines the psychosocial factors relevant to health. The course emphasis will be on the contribution of psychological theory to the encouragement of health and wellness and prevention of physical illness. Topics include stress management, health and behavior, chronic and life-threatening illness, treatment, and evaluation of health-related research. Psyc 211 recommended.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 205 Minimum Grade: C or T

PSYC 384 — Forensic Psychology
Credit Hours: 3.00
This course focuses upon the application and practice of psychology in both the civil and criminal justice systems with the following topics examined in depth: police and investigative psychology, family forensic psychology, psychology of crime and delinquency, victimology and victim services, legal psychology, expert witness testimony, consulting psychology, correctional psychology, and the ethical guidelines of the professional forensic psychologist.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 204 Minimum Grade: C or T
OR PSYC 205 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T
and PSYC 355 Minimum Grade: C or T
OR PSYC 455 Minimum Grade: C or T

PSYC 385 — Cognitiv/Behavior Modification
Credit Hours: 3.00
This course is designed to provide students with knowledge and understanding of cognitive behavioral assessment and intervention strategies. Students will learn and/or review the fundamentals of human learning, apply principles of cognitive behavioral modification to their own and other's behavior, and demonstrate an understanding of the role of ethics in the application of change strategies. Topics include traditional behavior modification, as well as contemporary social learning theory and cognitive-behavioral strategies.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 205 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T

PSYC 392 — Workshops
Credit Hours: 0.50 to 3.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

PSYC 399 — Independent Study
Credit Hours: 1.00 to 3.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

PSYC 410 — Social Psychology
Credit Hours: 3.00
This course will examine how social processes impact thoughts, feelings, and behavior through the survey of theory and research. Topics will include attraction, aggression, helping, obedience, attitudes, and prejudice.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 204 Minimum Grade: C or T
and PSYC 205 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T
and PSYC 355 Minimum Grade: C or T

PSYC 414 — Cognitive Psychology
Credit Hours: 3.00
This course presents the scientific study of the basic phenomena, concepts, and processes involved in perception, attention, memory, and higher cognitive functions. Cognitive theory and research methods are used in interpreting cognitive phenomena.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T
and PSYC 355 Minimum Grade: C or T

PSYC 416 — Behavioral Neuroscience
Credit Hours: 3.00
This course provides a more thorough examination of the biological basis of human behavior. The biological mechanisms of behavior are emphasized as well as the evolution, genetics, and adaptiveness of behavioral processes. The impact on society of recent developments in neuroscience is also examined.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T
and PSYC 245 Minimum Grade: C or T
and PSYC 355 Minimum Grade: C or T

PSYC 430 — Abnormal Psychology
Credit Hours: 3.00
The purpose of this course is to provide students with the historical and social background necessary to understand abnormal behavior. Students will examine the psychodynamic, behavioral, and cognitive approaches related to the development and treatment of mental disorders and their classifications. Topics will include schizophrenia, depression, bipolar, and personality disorders.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 204 Minimum Grade: C or T
and PSYC 205 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T

PSYC 450 — American Sign Language IV
Credit Hours: 3.00
Prerequisites: PSYC 215 Minimum Grade: C or T
and PSYC 321 Minimum Grade: C or T
and PSYC 351 Minimum Grade: C or T

PSYC 456 — Theories of Learning
Credit Hours: 3.00
This course presents the historical underpinnings of the major theories and principles of learning, and how they are used in applied settings. The classic learning theories and methods are contrasted with contemporary theories and research. Topics covered include classical and operant conditioning, observational learning, and motivation. Psyc 355 recommended.
Prerequisites: PSYC 101 Minimum Grade: C or T
and PSYC 204 Minimum Grade: C or T
and PSYC 205 Minimum Grade: C or T
and PSYC 211 Minimum Grade: C or T
PSYC 458 — Sensation and Perception  
Credit Hours: 3.00  
This course examines the physiological and behavioral components of basic sensory processes and the role they play in perception. These sensory systems include vision, audition, the somatic senses (touch, temperature, and pain) and the chemical senses (taste and smell). The development and clinical aspects of these sensory systems are also studied. Sample topics include receptors and neural processing, color perception, depth and size perception, perception of movement, speech perception, and the perception of pitch.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T and PSYC 245 Minimum Grade: C or T and PSYC 355 Minimum Grade: C or T

PSYC 460 — Counsel Skills for Clsrm Tchrs  
Credit Hours: 3.00  
Designed to develop knowledge of the basic theories in guidance and counseling as they apply to the classroom teacher. Special emphasis will be placed on the application of these theories and techniques with exceptional students, parents of exceptional students, and with other professionals involved in the educational process. Skills will be developed in the following major areas: 1) communication skills and group process, 2) career and vocational planning, and 3) use of school and community resources.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T OR PSYC 205 Minimum Grade: C or T

PSYC 465 — Theories of Personality  
Credit Hours: 3.00  
This course provides an introduction to the psychodynamic, trait, behavioral, biological, cognitive and humanistic approaches to personality. Specific theories and current research within each approach are reviewed. The course covers such theorists as Freud, Jung, Erikson, Skinner, Bandura, Cattell, Allport, and May.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T and PSYC 205 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T

PSYC 468 — History and Systems of Psych  
Credit Hours: 3.00  
The goals of this course are to examine the origins of modern psychology and to explore how many of psychology's modern concerns are manifestations of continuing issues that have been part of Western psychology for hundreds of years. Course topics include the development of modern science and experimentalism, Darwinian influences, functionalism, behaviorism, cognitivism, the psychoanalytic tradition, humanism, and psychobiology.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T and PSYC 205 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T

PSYC 479 — Special Topics  
Credit Hours: 1.00 to 3.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

PSYC 480 — Honors Seminar in Psychology  
Credit Hours: 3.00  
This course allows exceptional students in psychology to conduct research with a faculty member. Arrangements and approval by a faculty member are required for enrollment in this course.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T and PSYC 355 Minimum Grade: C or T

PSYC 481 — Honors Seminar in Psychology  
Credit Hours: 3.00  
This course allows exceptional students in psychology to conduct research with a faculty member. Arrangements and approval by a faculty member are required for enrollment in this course.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T and PSYC 355 Minimum Grade: C or T

PSYC 490 — Field Studies in Psychology  
Credit Hours: 1.00 to 15.00  
Senior psychology majors will gain applied experience in psychology by volunteering for a service organization.  
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 204 Minimum Grade: C or T and PSYC 205 Minimum Grade: C or T

PSYC 492 — Workshops  
Credit Hours: 0.50 to 3.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

PSYC 495 — Independent Research  
Credit Hours: 3.00  
Exceptional students will conduct independent research or a project under the guidance of a faculty member.
Prerequisites: PSYC 101 Minimum Grade: C or T and PSYC 211 Minimum Grade: C or T and PSYC 355 Minimum Grade: C or T

PSYC 499 — Independent Study
Credit Hours: 1.00 to 4.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SCI 155 — Integrated Science I: Phys Sci
Credit Hours: 4.00
This course serves as an introduction to major topics in the field of physical science, and is specifically designed for the non-science major. This course is one-half of the year-long sequence taken by most students at Adams State College to satisfy their General Education science requirement. Does not count towards a major or minor in physics or chemistry.
Prerequisites: ACT MATH Score of: 19 OR ASC MATH PLACEMENT Score of: 23 OR ACCUPLACER Score of: 085 OR MATH 099 Minimum Grade: S OR MATH 104 Minimum Grade: D OR MATH 106 Minimum Grade: D OR MATH 107 Minimum Grade: D OR MATH 120 Minimum Grade: D OR MATH 121 Minimum Grade: D OR MATH 099 Minimum Grade: T OR MATH 104 Minimum Grade: T OR MATH 106 Minimum Grade: T OR MATH 107 Minimum Grade: T OR MATH 120 Minimum Grade: T OR MATH 121 Minimum Grade: T

SCI 156 — Integrated Sci II: Natural Sci
Credit Hours: 4.00
This course serves as an introduction to major topics in the fields of biological and earth sciences, and is specifically designed for the non-science major. This course is one-half of the year-long sequence taken by most students at Adams State College to satisfy their General Education science requirement. Does not count towards a major or minor in biology or geology.
Prerequisites: SCI 155 Minimum Grade: C or T OR (SCI 101 Minimum Grade: C or T and SCI 102 Minimum Grade: C or T)

SCI 179 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

SCI 192 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

CI 199 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SCI 279 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

SCI 292 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

SCI 299 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SCI 350 — Meth of Teaching Science-Sec
Credit Hours: 3.00
This course stresses the development and implementation of strategies for inquiry-based science education in the secondary classroom. These strategies will be grounded in fundamental science concepts, learning theory, instructional and assessment strategies, correlation with national and Colorado State Science Content Standards, and a basic understanding of the nature of science. This course is restricted to students classified as juniors, seniors, or graduates who have substantially completed their science content program.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

SCI 379 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none
SCI 392 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

SCI 399 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SCI 479 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

SCI 492 — Workshop
Credit Hours: 1.00 to 4.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

SCI 499 — Individual Studies
Credit Hours: 1.00 to 5.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SCI 201 — The Soc Imagination GT-SS3
Credit Hours: 3.00
The social world is often taken for granted or reduced to explanations that stem from conventional wisdom and personal experience. This course is designed to encourage students to develop social scientific frameworks for analyzing the social world in a context that transcends conventional wisdom and personal experience. The major question is “What are the social forces, operating in society and often beyond the control of individuals, that shape individual behaviors and societal changes?” Topics include culture, socialization, social and economic inequalities, social structure, organizational behavior, social groups, deviance, and social institutions (family, religion, education, and political economy).
Prerequisites: none

SOC 251 — Social Prob/Welfare Strategies
Credit Hours: 3.00
This course is designed to provide the student with a survey of selected contemporary social problems. Social problems addressed in the class may include poverty, addiction and substance abuse, mental health, violence with a focus on family violence, crime, teen sexuality and pregnancy, and health care issues. The causes, severity, and consequences of the selected social problems are explored. In addition, social welfare strategies for alleviating social problems are presented.
Prerequisites: SOC 201 Minimum Grade: C or T and LS 225 Minimum Grade: C or T

SOC 279 — Special Topics
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: SOC 201 Minimum Grade: C or T

SOC 311 — Social Statistics
Credit Hours: 4.00
This course presents a general overview of the statistical methods most commonly used in sociology and the social sciences. As a laboratory component, students will become proficient in SPSS, a computer program designed to aid statistical analysis. These skills will enable the student to: read popular applications of statistics in the media with a critical eye; assess the use of statistics in the professional sociological literature; and use statistical tools to answer the sociological questions of interest.
Prerequisites: SOC 201 Minimum Grade: C or T and MATH 099 Minimum Grade: S or T OR MATH 104 Minimum Grade: D or T OR MATH 106 Minimum Grade: D or T OR MATH 120 Minimum Grade: D or T OR MATH 150 Minimum Grade: D or T OR MATH 155 Minimum Grade: D or T OR MATH 156 Minimum Grade: D or T

SOC 315 — Sociology of Education
Credit Hours: 3.00
This course explores the relationship between education and society with special emphasis on the effects of this relationship on the lives of students in the American education system.
Prerequisites: SOC 201 Minimum Grade: C or T
SOC 318 — “Race,” Class, and Gender
Credit Hours: 3.00
The focus of this course is on the interrelated ascribed statuses of “race,” social class, gender, and sexual orientation in American society, how they are perceived and reinforced, the social tensions that result and the dynamics of change. Prerequisites: SOC 201 Minimum Grade: C or T

SOC 320 — Marriages and Families
Credit Hours: 3.00
This course will provide an overview of the family from a sociological perspective. The family is considered to be one of the most private and pervasive institutions in society. All of us have had contact with at least one family, and many of us will be involved in several different families during our lifetime. Our experiences point to the numerous transformations in family life. To obtain a better understanding of these changes, recent sociological research and data on the family will be utilized in this course. In addition to examining the history of the family, the course will study the contemporary family and its diversity. The course will examine traditional marriage/family arrangements and alternative processes of mate selection and family formation. Finally, the course will examine parenting, the relationship between work and family, divorce and reconstituted families. Prerequisites: SOC 201 Minimum Grade: C or T

SOC 346 — Criminal Justice
Credit Hours: 3.00
The focus of this course is on the organizational structures and social processes of the American criminal justice system. It will examine, in particular, the law enforcement and judicial systems. Prerequisites: SOC 245 Minimum Grade: C or T

SOC 347 — Juvenile Delinquency
Credit Hours: 3.00
This course describes the nature of delinquency, including the trends, characteristics, and causes of juvenile delinquency. In addition, the course will examine theories of delinquency, social influences on delinquency, historical and contemporary overviews of the juvenile justice system, and the juvenile justice process from police involvement to the court system and corrections. Finally, methods of treatment and prevention will be identified. Prerequisites: SOC 201 Minimum Grade: C or T and SOC 245 Minimum Grade: C or T

SOC 352 — Human Behavior & Social Env
Credit Hours: 3.00
This course is an introduction to the nuts-and-bolts of social work practice. The course is designed with several general objectives in mind: (1) to familiarize the student with specific techniques of social work such as the person-in-environment approach and case management, (2) to provide a fundamental understanding of roles of community and family in social work practice, (3) to explore the needs of selected special populations in the community, (4) to identify the biological, psychological, and social influences on development and behavior across the life cycle, and (5) to introduce the student to fundamental social work practice skills. Prerequisites: SOC 251 Minimum Grade: C or T

SOC 370 — Poverty and Social Inequality
Credit Hours: 3.00
This course examines the historical and sociocultural factors which influence the creation and maintenance of poverty and social inequality. Emphasis will be on structural factors and theoretical explanations of poverty and inequality. This course will also focus on the implications for policy and social programs aimed at poverty and other social class issues. In addition, there will be exploration of systems of power, privilege, and domination that are central to the American social structure. Finally, the issues of empowerment, resistance, and solutions to social inequality will be assessed. Prerequisites: SOC 201 Minimum Grade: C or T and SOC 251 Minimum Grade: C or T

SOC 379 — Special Topics
Credit Hours: 0.50 to 5.00
Offered periodically to meet student special interests in the field. Prerequisites: SOC 201 Minimum Grade: C or T

SOC 395 — Pre-Professional Seminar
Credit Hours: 2.00
This course provides an introduction to the profession of sociology and the various career options available to graduates. Occupational and graduate school options are explored in detail through library research, presentations, observational and volunteer experiences, and informational interviews. Skills for job interviewing, resume development, and professional correspondence are explored. Prerequisites: SOC 201 Minimum Grade: C or T

SOC 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field.
By faculty permission and approval of the department chair.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 401 — Social Psychology**
Credit Hours: 3.00
This course will look at Social Psychology from a sociological perspective. It will consider (1) social experience gained from the individuals’ participation in social groups; (2) interactions with others; (3) the effects of the cultural environment on both social experience and interactions with others; and (4) the emergence of social structure from these interactions.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 407 — Demography**
Credit Hours: 3.00
This course examines the size, distribution, and composition of populations. It focuses on causes and implication of shifts in age, fertility, morality, and migration patterns within the United States and other countries.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 419 — Gender and Society**
Credit Hours: 3.00
The aim of the course is for students to become familiar with the continuing differences and inequalities between women and men in the contemporary United States, and to begin to explain why and how they occur. Understanding gender as it relates to race, class and sexual orientation is an important organizing framework of the course. The gendered arrangements in a variety of social contexts such as the schools, the media, the family, the economy, religion and health are studied.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 425 — Environment and Society**
Credit Hours: 3.00
The primary objective of this course is to look at the ways in which human societies - their values, behaviors, traditions, beliefs, institutions, and governments - relate to and impact the physical environment. Topics explored include: environmental movements, globalization environmental management, and government and economic policies.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 444 — Deviance and Control**
Credit Hours: 3.00
The sociology of deviance and control examines the nature of rule-making and rule-breaking in modern societies. The course includes theoretical considerations of the causes and consequences of deviance.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 445 — Sociological Theory**
Credit Hours: 3.00
The major theories of society are covered in their classical and contemporary forms.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 447 — Correctional Systems**
Credit Hours: 3.00
This course will focus on corrections as one of the components of the American criminal justice system and its operation within a democratic form of government. The philosophical and historical underpinnings of punishment and corrections will be analyzed and compared (e.g., punishment vs. rehabilitation).
Prerequisites: SOC 346 Minimum Grade: C or T and SOC 201 Minimum Grade: C or T

**SOC 455 — Sociological Research Methods**
Credit Hours: 4.00
This course is designed to expose students to a variety of research methods. Students will be instructed in the fundamentals of research design and implementation, including ethical considerations. Students will read and study the research projects of selected sociologists. Then students will engage in projects to practice research methods. Finally students will design and write a research proposal. In the lab component of the course, students will analyze and interpret sociological statistical data.
Prerequisites: SOC 201 Minimum Grade: C or T and SOC 311 Minimum Grade: C or T

**SOC 470 — Social Welfare Policy**
Credit Hours: 3.00
This course analyzes the historical development, current content, and adequacy of social welfare policies in the United States. Specific policy areas to be discussed include income maintenance (including social insurance and public assistance), mental health, health care, and aging.
Prerequisites: SOC 352 Minimum Grade: C or T

**SOC 479 — Special Topics**
Credit Hours: 1.00 to 5.00
Offered periodically to meet student special interests in the field.
Prerequisites: SOC 201 Minimum Grade: C or T

**SOC 492 - Workshops**
Credit Hours: 0.50 to 5.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: SOC 201 Minimum Grade: C or T
SOC 493 — Internship in Social Welfare  
Credit Hours: 3.00 to 6.00  
Students in the Social Welfare emphasis are placed with a human service agency in the community. One hundred and twenty volunteer hours of service with the agency are required. The student is supervised by both a Sociology faculty member and a representative from the human service agency. This course requires instructor approval for registration purposes.  
Prerequisites: SOC 201 Minimum Grade: C or T

SOC 494 — Internship in Criminology  
Credit Hours: 3.00 to 6.00  
The student is placed in a supervised internship with a criminal justice-related agency in the community. The student will contribute time and effort in return for practical experience. Agencies available for placement include adult or juvenile probation and diversion, domestic violence, law enforcement, juvenile and adult corrections, district attorney, and public defender. This course requires instructor approval for registration purposes.  
Prerequisites: SOC 201 Minimum Grade: C or T

SOC 499 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: SOC 201 Minimum Grade: C or T

SPAN 103 — Elementary Spanish I  
Credit Hours: 3.00 OR 4.00  
A study of the principles of pronunciation, basic level conversation, essentials of grammar, written composition, and reading of materials of graded difficulty.  
Prerequisites: none

SPAN 104 — Elementary Spanish II  
Credit Hours: 3.00 OR 4.00  
A continuation of Span 103. Covers the principles of pronunciation, conversation, essentials of grammar, written composition, and reading of materials of graded difficulty.  
Prerequisites: SPAN 103 Minimum Grade: C or T

SPAN 179 — Special Topics  
Credit Hours: 1.00 to 8.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

SPAN 192 — Workshop  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

SPAN 199 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

SPAN 201 — Pronunciation and Conversation  
Credit Hours: 2.00  
Instruction and practice in the basic pronunciation of the Spanish sound system. Special attention and practice will be devoted to the most difficult combinations of phonemes and morphemes of Spanish for the non-native speaker. Some practice is also devoted to a basic level of Spanish conversation.  
Prerequisites: SPAN 103 Minimum Grade: C or T

SPAN 203 — Intermediate Spanish I  
Credit Hours: 3.00  
Prerequisites: SPAN 104 Minimum Grade: C or T

SPAN 204 — Reading & Conversation  
Credit Hours: 3.00  
Readings on cultural topics, discussions, speaking activities, review of some grammatical features, attention to vocabulary building. Emphasis on understanding and speaking Spanish.  
Prerequisites: SPAN 203 Minimum Grade: C or T

SPAN 279 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

SPAN 292 — Workshop  
Credit Hours: 1.00 to 6.00  
Short courses offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

SPAN 299 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none
SPAN 309 — La Novela Picaresca
Credit Hours: 3.00
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 310 — Southwest Spanish
Credit Hours: 3.00
characteristics of oral Southwest Spanish. The course will explore the historical origins of Spanish in the Southwest including the conquest and colonization by the Spanish, the signing of the Treaty of Guadalupe Hildago, and the settlement of the San Luis Valley. Issues related to bilingualism, Spanish/English contact, and attitudes toward and effects of the maintenance and loss of Spanish will be examined.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 313 — Conversation and Composition
Credit Hours: 3.00
This course provides instruction in the development of advanced level conversation and writing skills (spelling, paragraphs, summaries, letters, reports, etc.) in Spanish. The student will acquire the useful everyday skills needed to communicate in Spanish correctly.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 315 — Spanish for Business
Credit Hours: 3.00
Instruction in the specific vocabulary, grammatical structures, and cultural insights needed to effectively deal with the common everyday business interactions between the Spanish-speaking client and English-speaking business community.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 316 — Spanish for Health Professions
Credit Hours: 3.00
Instruction in the special vocabulary, grammatical structures and cultural understanding needed to deal effectively with the Spanish speaking patient/health professional interactions. The student will learn to interact in Spanish with a variety of simulated common everyday patient/health personnel situations.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 317 — Spanish for Translation
Credit Hours: 3.00
Instruction in the specific vocabulary, grammatical structures, and cultural insights needed to effectively deal with the non-technical general translations from English/Spanish or Spanish/English. Although the student will learn that there are various approaches used in the translation of texts, this course emphasizes the translation of the underlying message and its meaning based on the cultural context.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 325 — Spanish Civ & Culture
Credit Hours: 3.00
Instruction on selected themes taken from the historical legacy and cultural institutions of the Spanish people. The cultural topics include reading on: the roman legacy, the church, the moors, the great writers of the Golden Age, the great Spanish monarchs, Franco, etc. The selected themes will determine the supplemental readings that are selected for in depth discussion and study.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 326 — Latin American Civ & Culture
Credit Hours: 3.00
Instruction on selected themes taken from the historical and literary legacy of the Latin American people. The literary topics include reading on: the Spanish conquest, the Indian, independence, social protest, women, religious faith, etc. The selected themes will determine the readings that are selected for in depth discussion and study.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 340 — Topics in Spanish Literature
Credit Hours: 3.00
Instruction on selected themes taken from the historical and literary legacy of the Spanish people. The literary topics include reading on: Spanish Heroism, Medieval Spanish beliefs, Spanish Imperialism, Spanish-Indian Relations, Great Spanish explorers, etc. The selected themes will determine the readings that are selected for in depth discussion and study.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 341 — Topics in Latin Am Literature
Credit Hours: 3.00
Instruction on selected themes taken from the historical and literary legacy of the Latin American people. The literary topics include reading on: the Spanish conquest, the Indian, independence, social protest, women, religious faith, etc. The selected themes will determine the readings that are selected for in depth discussion and study.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 350 — Advanced Grammar & Comp
Credit Hours: 3.00
Intensive course in grammar and in the writing composition of the language. Advanced grammar principles, translation from English to Spanish and other language refinements.
Prerequisites: SPAN 204 Minimum Grade: C or T
SPAN 379 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

SPAN 392 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

SPAN 395 — Spanish Phonetics--Lang Hist
Credit Hours: 3.00
Introduction to the study of the Spanish sound system including a brief background of the history and development of the Spanish language as well as some discussion of dialectal differences across the globe. Designed for those planning to teach Spanish including pedagogical concepts that can be applied in the classroom to aid students in the improvement of their Spanish pronunciation. Examine English/ Spanish contrasts and includes exercises in written transcription, oral production, and an analysis of spoken Spanish.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 396 — Methods Teaching Foreign Lang
Credit Hours: 3.00
A study of effective teaching methods and the development of a contextualized approach to language instruction that is based on meaningful language use, real-world communication, and interaction among learners. Emphasis will be placed on the National Standards for Foreign Language Learning and the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

SPAN 399 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/ study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SPAN 400 — Masterpieces of Spanish Lit
Credit Hours: 3.00
This is a senior level course that provides an in-depth study of selected complete works of Spanish literary masterpieces. Five complete literary masterpiece works by Spanish writers will be selected for an in-depth study. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 401 — Masterpieces of Latin Am Lit
Credit Hours: 3.00
This is a senior level course that provides an in-depth study of selected complete works of Latin American literary masterpieces. Five complete literary masterpiece works by Latin American writers will be selected for an in-depth study. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 411 — Contemporary Spanish Lit
Credit Hours: 3.00
This is a senior level course that provides an in-depth study of selected complete works of contemporary Spanish literary works. Five complete literary works by Spanish writers will be selected for an in-depth study.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 412 — Contemp Latin American Lit
Credit Hours: 3.00
This is a senior level course that provides an in-depth study of selected complete works of contemporary Latin American literary works. Five complete literary works by contemporary Latin American writers will be selected for an in-depth study. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 413 — La Literatura Indigenista
Credit Hours: 3.00
Study of the major themes and characteristics surrounding the social condition and plight of the Indian as portrayed in the major Latin American Indigenous Novels. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 414 — Spanish American Thought
Credit Hours: 3.00
Study of the major themes, ideas, and perspectives of major Latin American writers. The selected readings include interpretive essays, literary narratives, and philosophical works by such writers as: Sarmiento, Andres Bello, Juan Montalvo, Jose Marti, Octavio Paz, Jose Vasconcelos, Leopoldo Zea, and others. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 415 — Cervantes/El Quijote
Credit Hours: 3.00
A study of the life and important works of Cerv-
vantes with special emphasis on the Quijote. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 416 — La Novela/Revolución Mexicana
Credit Hours: 3.00
Analysis of the most important novelists of the Mexican Revolution and their impact upon the present day political, social, and economic structure of Mexico. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 419 — Golden Age Drama
Credit Hours: 3.00
A study of the themes, forms and development of Spanish national theatre of the 16th and 17th centuries. This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 423 — Modern Hispanic Short Story
Credit Hours: 3.00
This course requires instructor approval for registration purposes.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 425 — Hispanic Poetry
Credit Hours: 3.00
A course designed to analyze the techniques, styles, etc. of selected Hispanic poetic collections. Instructor permission may be sought in lieu of prerequisites.
Prerequisites: SPAN 204 Minimum Grade: C or T

SPAN 479 — Special Topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

SPAN 492 — Workshop
Credit Hours: 1.00 to 6.00
Short courses offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

SPAN 499 — Individual Studies
Credit Hours: 1.00 to 15.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

SPCH 100 — Speech Fundamentals
Credit Hours: 3.00
A course designed to develop proficiency in oral communication: interpersonal, group, and public discourse.
Prerequisites: none

SPCH 279 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

SPCH 330 — Directing Forensics/Debate
Credit Hours: 3.00
Methods in coaching and directing Forensics and Debate activities in secondary schools.
Prerequisites: none

SPED 341 — SPED for the Diverse Student
Credit Hours: 2.00
This course will focus on first and second language acquisition issues relevant to culturally/linguistically special needs students. Instructional practices for diverse populations based on effective schools research will be highlighted. Legal and legislative factors affecting culturally/linguistically diverse students will be addressed.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

SPED 342 — Teaching the SPED Student
Credit Hours: 3.00
This course is designed to provide students with the knowledge of the areas of exceptionalities needed in the special education planning process. The course will include skills necessary for identifying students’ strengths/needs in order to develop and implement Individualized Education Plans in collaboration with other special education and regular education professionals. Alternative teaching methods and approaches to instructional materials to ensure student success and achievement will be the focus of the course.
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

SPED 343 — Behavioral Mngmnt & Instruct
Credit Hours: 3.00
This course is designed to provide students with the background knowledge in behavior management theory, classroom organization and planning required to facilitate student learning and the further development of social skills.
Prerequisites: none

SPED 344 — Domains of Learning
Credit Hours: 3.00
This course will survey learning theories relevant
to the following domains; cognitive (e.g., brain-based learning), affective, social, psycho-motor and communicative. Learning styles and problem-solving processes will also be addressed in the course. The application of theoretical frameworks to enhance student outcomes will be required. Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

**SPED 440 — Assessment in SPED**  
Credit Hours: 3.00  
This course is an in-depth course applying formal, informal and performance-based processes and procedures in special education intervention and the IEP process. Issues relevant to the assessment of culturally and linguistically diverse populations will be included.  
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1 and admitted to Teacher Education Preparation Program Score of: 1

**SPED 463 — Special Education Law**  
Credit Hours: 3.00  
The principles of IDEA (Individuals with Disabilities Education Act) - Revised and implications for educational programming and instruction will be presented. Section 504 requirements and implications for special and regular education will be presented. Special attention to the educational needs of culturally and linguistically diverse special needs students will be addressed.  
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

**SPED 490 — Current Trends/Issues in SPED**  
Credit Hours: 3.00  
This capstone course is designed to allow students opportunities to practice essential professional skills involving consultation and collaboration with service providers. Activities will include the development of IEPs focusing on student academic achievement and transition plans.  
Prerequisites: admitted to Teacher Education Preparation Program Score of: 1

**SPED 495 — Student Teaching in SPED**  
Credit Hours: 3.00  
The course addresses student teacher state required field experience hours to be completed in secondary school setting. The instructional team shall be composed of the secondary special education students, student teacher, cooperating teacher, college supervisor, and the building administrator. Prerequisites: admitted to Teacher Education Preparation Program Score of: 2 and Background check completed Score of: 1

**THTR 180 — Introduction to Theatre GT-AH1**  
Credit Hours: 3.00  
This course is a study of theatre as an art with an emphasis upon its cultural and social influence in society. It examines the simultaneous evolution of several facets of theatre, including acting, directing, play writing, the physical stage, performance conditions, and dramatic literature. The course focuses on demonstrating the collaborative, eclectic nature of theatre, and on providing students with a sophisticated understanding of how live performances have evolved to meet the demands of each society through the ages.  
Prerequisites: none

**THTR 210 — Stage Makeup**  
Credit Hours: 3.00  
Fundamental Elements of design and application of theatre makeup.  
Prerequisites: none

**THTR 213 — Oral Interpretation of Lit**  
Credit Hours: 3.00  
Helps develop effectiveness in personal expression and abilities in the oral interpretation of fiction, nonfiction, and poetry.  
Prerequisites: none

**THTR 223 — Beginning Acting**  
Credit Hours: 3.00  
An introduction to the art of acting. The focus will be placed on developing technical skills necessary to perform comfortably on a stage. There will be activity sessions and discussions on acting techniques and improvisation. The final grade will not be based upon talent.  
Prerequisites: none

**THTR 242 — Voice for Performance**  
Credit Hours: 3.00  
Study of the physical nature of voice production and the sound and mechanisms of speech, including study of the International Phonetic Alphabet. Individual analysis.  
Prerequisites: none

**THTR 250 — Cinema**  
Credit Hours: 3.00
An introduction to the motion picture industry. Course will cover such topics as the history of cinema, directing for the camera, film editing techniques, film genres, acting styles, screen writing, and the motion picture industry’s responses to cultural issues.

Prerequisites: none

**THTR 255 — Women and Drama**
Credit Hours: 3.00
A survey of the history and literature associated with women in theatre. The course will include the history of actual women involved in the evolution of Western and Eastern theatre traditions as well as drama scripts which deal with the subject of women’s issues. The course will cover Greek through contemporary drama.

Prerequisites: none

**THTR 279 — Special Topics**
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.

Prerequisites: none

**THTR 285 — Stage and Theatre Management**
Credit Hours: 3.00
A study of the principles and responsibilities of the stage/ theatre manager, including theatre organization, rehearsal and production duties, box office and house management, public relations and publicity.

Prerequisites: none

**THTR 288 — Intermediate Acting I**
Credit Hours: 3.00
This course focuses on the physical aspects of acting. While previous acting courses introduced techniques dealing with creating a character, script analysis, and scene work, this course explores alternative movement-based approaches to acting. Instructor permission may be obtained to register for this course.

Prerequisites: THTR 223 Minimum Grade: C or T

**THTR 292 — Workshop**
Credit Hours: 1.00 to 6.00
A short course offered on an intermittent basis to meet the needs of special constituents.

Prerequisites: none

**THTR 310 — Intermediate Acting II**
Credit Hours: 3.00
Advanced study of the techniques of acting. Emphasis will be placed on character and script analysis using the Stanislavski system of acting. Additionally, other significant theories of acting will be introduced. Instructor permission may be obtained to register for this course.

Prerequisites: THTR 223 Minimum Grade: C or T

**THTR 325 — Styles of Acting**
Credit Hours: 3.00
Character analysis and development involved in performing tragedy, serious drama, farce, and high comedy. Instructor permission may be obtained to register for this course.

Prerequisites: THTR 233 Minimum Grade: C or T

**THTR 333 — Theatre Design**
Credit Hours: 3.00
Principles and aesthetics of generating practical, working designs of settings and lighting for the three traditional stage configurations. THTR 351 is a prerequisite that can be taken concurrently.

Prerequisites: none

**THTR 335 — Theatre Practicum**
Credit Hours: 1.00 to 3.00
Participation in college theatre productions under the supervision of the Theatre faculty. Credit may be earned for: lighting, set construction, house management, costuming, publicity, etc. May be repeated for credit. Instructor permission is required for registration into this course.

Prerequisites: none

**THTR 340 — Costume Design**
Credit Hours: 3.00
Fundamental elements of design and study of critical historical periods of costume from Greek through Victorian eras.

Prerequisites: none

**THTR 351 — Stagecraft**
Credit Hours: 3.00
A hands-on approach to the fundamentals of technical theatre. Students will have the opportunity to learn mechanical drawing, stage carpentry, set construction, stage lighting, scenery painting and the use of a variety of fasteners, hand tools, and power tools.

Prerequisites: none

**THTR 375 — Creative Dramatics**
Credit Hours: 3.00
Designed for those who will work with groups of children and adolescents, this course will teach the student to utilize the foundations of drama and dramatic technique in order to teach literary and non-literary lessons.

Prerequisites: none
THTR 379 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

THTR 385 — Play Direction  
Credit Hours: 3.00  
A comprehensive study of the numerous functions of the stage director, from pre-season play selection to post-production evaluation. The focus will be placed upon script analysis, the range of choices open to the director, and the process of adapting directional and technical resources to various performance levels and theatrical spaces.  
Prerequisites: THTR 223 Minimum Grade: C or T

THTR 392 — Workshop  
Credit Hours: 1.00 to 6.00  
A short course offered on an intermittent basis to meet the needs of special constituents.  
Prerequisites: none

THTR 399 — Individual Studies  
Credit Hours: 1.00 to 6.00  
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.  
Prerequisites: none

THTR 401 — Theatre Hist: Begin Thru 17th C  
Credit Hours: 3.00  
A study of the developments in the history of theatre from the theories of its own origins to its practices in 17th century Europe. A secondary focus of the course will be the study of selected dramas representative of these periods.  
Prerequisites: none

THTR 402 — Theatre Hist: 18th Cent-Pres Day  
Credit Hours: 3.00  
A study of the developments in the history of theatre from its practices in the 18th century to the present day. A secondary focus of the course will be the study of selected dramatics representative of these periods and of dramatic practices in non-European countries or America.  
Prerequisites: none

THTR 403 — Shakespeare  
Credit Hours: 3.00  
An advanced study of the plays of William Shakespeare. Emphasis will be placed upon analysis and interpretation of the dramatic structure, the dramatic action, and the language of representative comedies, histories, and tragedies.  
Prerequisites: none

THTR 465 — Modern Drama  
Credit Hours: 3.00  
Study of the diverse trends in playwriting and theatrical performances over the past 100 years, as viewed through the works of the major playwrights of Europe and the United States. The focus of the course will be placed equally upon script analysis and dramaturgy.  
Prerequisites: none

THTR 470 — Classical Drama  
Credit Hours: 3.00  
A chronological study of the major periods of dramatic literature, from the emergence of Greek tragedy in the 5th Century B.C. to the development of European Realism in the late 19th Century. The focus of the course will be placed equally upon script analysis and dramaturgy.  
Prerequisites: none

THTR 472 — Contemporary Drama  
Credit Hours: 3.00  
This course will require students to analyze and discuss contemporary dramas of two types; those which do not necessarily fit the typical genres, structures, and styles of modernist drama (e.g., commercial drama, television drama, commercial film script), and those which focus on the concerns of marginalized groups in America (e.g., gay and lesbian, African-American, Asian-American, Native Americans, Latino, etc.).  
Prerequisites: none

THTR 479 — Special Topics  
Credit Hours: 1.00 to 6.00  
Offered periodically to meet student special interests in the field.  
Prerequisites: none

THTR 480 — Dramatic Theory and Criticism  
Credit Hours: 3.00  
An advanced examination of selected critical writings of major theorists in Theatre.  
Prerequisites: none

THTR 490 — Senior Thesis  
Credit Hours: 3.00  
An advanced examination of a single facet of Theatre. The precise nature of the project will be designed in consultation with the student’s advisor. Theses may include a significant research and writing project or a creative performing arts project, such as the direction or technical direction of a play. Instructor permission is required for registration into this course.  
Prerequisites: none
THTR 492 — Workshop
Credit Hours: 1.00 to 6.00
A short course offered on an intermittent basis to meet the needs of special constituents.
Prerequisites: none

THTR 499 — Individual Studies
Credit Hours: 1.00 to 6.00
Provides opportunity for individual research/study into problems of special interest in the field. By faculty permission and approval of the department chair.
Prerequisites: none

WS 151 — Intro to Women's Studies
Credit Hours: 3.00 to 6.00
Prerequisites: none

WS 179 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

WS 201 — Women's Studies
Credit Hours: 3.00
An interdisciplinary analysis of women's position in society as presented through the disciplines of history, sociology, anthropology, theology, psychology, literature, and the fine arts. The course will examine theoretical approaches to the differential access to power between men and women and the existence of patriarchy in Western culture.
Prerequisites: none

WS 279 — Special topics
Credit Hours: 1.00 to 6.00
Offered periodically to meet student special interests in the field.
Prerequisites: none

WS 290 — Women and Leadership
Credit Hours: 2.00 to 5.00
Prerequisites: none

WS 301 — Feminist Theory
Credit Hours: 3.00 to 5.00
Prerequisites: none

WS 379 — Special Topics
Credit Hours: 1.00 to 3.00
Offered periodically to meet student special interests in the field.
Prerequisites: none
Administration

Catherine (Catalina) Bartlett (2005), Director, Student Support Services.

Julia Chavez (2002), Student Advisor/Records Manager, Extended Studies.

Krista Chiaravalle (2005), Student Initiative Grant Coordinator, Upward Bound. MA Adams State College, 2005.

Ray Cook (2005), Director, Girault Hall, Housing & Residence Life.

Lynn Crowder (2003), Advisor, Coordinator Undergraduate Teacher Education.

Michael Daniel (2004), Director of Student Life and Recreation.

Troy Farrar (2003), Director, Faculty Drive, Conour Hall, Housing and Residence Life. BA Graceland University, 2003.

Glenda M. Geu (1993), Systems and Automation Librarian. BS Colorado State University, 1983; MS University of Illinois at Urbana-Champaign, 1989.

Georgia Grantham, Vice President for Enrollment Management, BA Western State College, 1972; MA University of Northern Colorado, 1976; PhD Colorado State University, 1991.

David Hargis (2005), Production Coordinator, Extended Studies.

Mary Hoffman (2004), Executive Director of Community Development. BS Metropolitan State College of Denver, 1989.

Cathi Lucero (2005), Assistant to the Vice President for Enrollment Management.

Bill Mansheim (2003), Vice President, Finance & Administration. BS University of Colorado, 1985.

Tracey McMichael (2004), Program Manager, Extended Studies.

Cathi Lucero (2005), Assistant to the Vice President for Enrollment Management.

Bill Mansheim (2003), Vice President, Finance & Administration. BS University of Colorado, 1985.

Tracey McMichael (2004), Program Manager, Extended Studies.

Cathi Lucero (2005), Assistant to the Vice President for Enrollment Management.

Bill Mansheim (2003), Vice President, Finance & Administration. BS University of Colorado, 1985.

Tracey McMichael (2004), Program Manager, Extended Studies.

Cathi Lucero (2005), Assistant to the Vice President for Enrollment Management.

Bill Mansheim (2003), Vice President, Finance & Administration. BS University of Colorado, 1985.

Tracey McMichael (2004), Program Manager, Extended Studies.

Cathi Lucero (2005), Assistant to the Vice President for Enrollment Management.

Bill Mansheim (2003), Vice President, Finance & Administration. BS University of Colorado, 1985.

Tracey McMichael (2004), Program Manager, Extended Studies.

Bill Schlaufman (2004), Controller. BS University of Colorado, 1980; MBA University of Colorado, 1981.

Philip Schroeder (2003), Director, Financial Aid. BS Southeast Missouri State University, 1980; MA University of Phoenix, 1993.

Joel Shults (2007), Director of Public Safety. AA Central Missouri State University, 1978; BS Central Missouri State University, 1980; MS Central Missouri State University, 1983; ABD University of Missouri, Columbia.

Sandra Starnaman (2001), Assistant Provost for the Extended Campus. BA Michigan State University, 1986; MA Michigan State University, 1990; PhD Michigan State University, 1996.

David Svaldi (1986), President. BA University of Northern Colorado, 1970; MA University of Northern Colorado, 1972; PhD Northwestern University, 1983.

Maria Vigil (2007), Assistant Program Manager, Extended Studies. BA Adams State College, 2005.

Clay Wilson (2004), Head Athletic Trainer. BS University of Wyoming, 1998; MS Boise State University, 2001; MS Idaho State University, 2002.

Faculty

Mark Abendroth (25-AUG-2006) Assistant Professor of Education. BS Indiana University Bloomington, 1984; MA Syracuse University, 1985; EDD University of St Thomas, 2005.

Stephen Aldrich (25-AUG-2005) Assistant Professor of Mathematics. BA Colorado State Univ-Pueblo, 1995; MA University of Kentucky, 1997; PhD University of Kentucky, 2000.

Timothy Armstrong (26-JUN-1996) Associate Professor of Biology. BS Mesa State College, 1986; MS Univ of Massachusetts-Amherst, 1989; PhD Univ of Massachusetts-Amherst, 1994.

George Backen (25-AUG-2005) Assistant Professor of Philosophy. BA Eastern Washington University, 1995; MA Ohio University, 1998; PhD State Univ of NY-Buffalo, 2005.

Don Basse (22-AUG-1985) Professor of Counselor Education. BA Henderson State University, 1973; MS Ouachita Baptist University, 1974; EDD University of Arkansas, 1979.

Lasca Beck (22-AUG-2005) Nursing Education Specialist. BSN Texas Women’s University, 1958; MS Texas A&M University, 1976.

Deborah Blake (14-AUG-2002) Professor of Education. BA Univ of California-Berkeley, 1974; PhD Dominican Sch Phil & Theology, 1989.

Benita Brink (08-JUL-1994) Associate Professor of Biology. BS Aquinas College, 1984; PhD Marquette University, 1989.

Andrew Burck (25-AUG-2006) Assistant Professor of Counselor Education. BA Mercyhurst College, 1998; PhD University of Toledo, 2006.

Lisa Centeno (25-AUG-2004) Assistant Professor of Government. BA Purdue University, 1993; MA Arizona State University, 1996; PhD Arizona State University, 2003.

Joyce Centofanti (21-AUG-2003) Assistant Professor of Art. BFA Mount St Mary’s College, 1980; MA New Mexico Highlands Univ, 2000; PhD Texas Tech University, 2002.

Linda Christian (12-AUG-1998) Professor of Education. BA Louisiana Tech University, 1980; MS Louisiana Tech University, 1982; PhD Florida State University, 1989.

William Congress (25-AUG-2005) Assistant Professor of Business. BS University of MD-Univ Cllge, 1997; MS University of MD-Univ Cllge, 2000.

Gerald Corning (20-AUG-1974) Associate Professor of Business. BS Univ of Nebraska at Lincoln, 1966; MBA Western New Mexico University, 1976.

Leslie Cramblet (25-AUG-2006) Assistant Professor Psychology. BA Southwestern University, 1998; EDM Northern Arizona University, 2002; PhD Northern Arizona University, 2005.

Robert Demski (14-AUG-2002) Associate Professor of Psychology. BA Oregon State University, 1980; MA Ohio University, 1975; PhD Texas Tech University, 1998.

Margaret Doell (14-AUG-1996) Professor of Art. BFA University of Manitoba, 1980; MFA Concordia University, 1993.

Tracy Doyle (25-AUG-2005) Assistant Professor of Music. BA Univ of Massachusetts-Amherst, 1999; MM Univ of Massachusetts-Amherst, 1998; DMA LA State Univ/AM-Kentucky, 2005.

Randall Emmons (26-JUN-1989) Professor of Physics. BS Univ of Missouri-Rolla, 1974; MS Univ of Missouri-Rolla, 1976; PhD Univ of Missouri-Rolla, 1982.

Randall Engle (14-AUG-2002) Professor of Education. BS Idaho State University, 1977; MED Idaho State University, 1990; PhD Utah State University, 1996.

Rex Filer (25-AUG-1987) Professor of Counselor Education. BA Morningside College, 1969; MS Iowa State University, 1974; PhD University of Washington, 1983.

Stephanie Gonzales (21-AUG-2003) Assistant Professor of Sociology. BA Adams State College, 1994; MA Calif State Univ-Fullerton, 1999; PhD Univ of Tennessee-Knoxville, 2003.

Juan Gonzalez (25-AUG-2005) Assistant Professor of Spanish. BA University of Utah, 1996; PhD Univ of Wisconsin-Madison, 2005.

Margery Herrington (04-APR-1997) Professor of Biology. BA University of Oregon, 1967; MS Cornell University, 1968; PhD Creighton University, 1993.

Stuart Hilwig (27-JUN-2000) Associate Professor of History. BA Vanderbilt University, 1991; MA Ohio State University, 1994; PhD Ohio State University, 2000.

Christopher Jackson (25-AUG-2005) Assistant Professor of Music. DMA University of Arizona, 2005.

Amanda Jojola (01-JAN-2005) Nursing Education Specialist. BSN Regis University, 1990; MSN Regis University, 1999.

Martin Jones (26-JUN-1989) Professor of Chemistry. BS Emporia State University, 1974; MS University of New Mexico, 1977; PhD University of New Mexico, 1979.

Joel Judd (10-AUG-2000) Associate Professor of Education. BA San Jose State University, 1984; MA Brigham Young University, 1986; PhD Univ of Ill-Urbana Champaign, 1992.

Kurt Keiser (25-AUG-2004) Associate Professor of Economics. BA Western State Coll of Colorado, 1992; MA Colorado State University, 1995; PhD Colorado State University, 2005.

Brent King (25-AUG-2005) Assistant Professor of Psychology. BS Western Oregon State College, 1999; MA University of North Dakota, 2002; PhD University of North Dakota, 2005.
Anthony Laker, Professor and Chair, Human Performance and Physical Education. MS, University of Wyoming, 1980; Master of Education, University of Bristol, UK; 1988; Doctor of Education, University of Northern Colorado, 1994.

Richard Loosbrock (05-JUL-2000) Associate Professor of History. BA University of Kansas, 1988; MA University of New Mexico, 1993; PhD University of New Mexico, 2005.

Edward Lyell (16-AUG-1999) Professor of Business. BA San Francisco State University, 1968; MBA San Francisco State University, 1970; PhD University of Colorado-Boulder, 1977.

Michael Martin (28-JUN-1988) Professor of Sociology. BS Texas A&M Univ-Main Campus, 1973; MS University of Texas at Austin, 1985; PhD Washington State University, 1979.

Christina Miller (06-JUL-2001) Associate Professor of Chemistry. BS Adams State College, 1992; PhD University of Arizona, 1998.

Gina Mollet (25-AUG-2006) Assistant Professor of Psychology. BA University of South Dakota, 2002; MS Virginia Tech & State Univ, 2004; PhD Virginia Tech & State Univ, 2006.

Dena Moore (25-AUG-2006) Assistant Professor of Counselor Education.

Todd Morris (25-AUG-2004) Assistant Professor of Chemistry. BS University of Tennessee-Martin, 1999; PhD University of Alabama, 2004.

Clarence Parks (09-AUG-1983) Professor of Sociology. BS Sam Houston State University, 1969; MA Stephen F Austin State Univ, 1976; PhD Texas A&M Univ-Main Campus, 1983.

Dana Provence (21-AUG-2003) Assistant Professor of Art. BS Baylor University, 1995; MFA University of North Texas, 2001.

Eva Rayas-Ihm (10-AUG-1993) Associate Professor of Spanish. BA Universidad de Sonora, 1980; MA University of Kansas, 1987; PhD Univ of Nebraska at Lincoln, 1994.
Linda Reid (04-AUG-1997) Associate Professor of Business. CPA, 2000; BS Colorado State University, 1979; MBA Wake Forest University, 1989; DBA Nova Southeastern University, 2005.

Tracey Robinson (25-JUL-2001) Associate Professor Human Performance and Physical Education. BS University of Guelph, 1985; MS New Mexico State Un- Las Cruces, 1987; PhD Oregon State University, 1994.

Anthony Ross (2005) Assistant Professor of Business. BS, 1980 University of Illinois Urbana; MBA, 1983 DePaul University Chicago.

Raymond Rudolph (12-JUL-1979) Professor of Chemistry. BS University of New Mexico, 1968; MS University of Colorado-Boulder, 1971; PhD University of Colorado-Boulder, 1977.

Aida Sahud (2007). Nursing Program Director. BSN, Sacramento State University, 1977; MSN, University of California, San Francisco, 1980; MPH, University of California, Berkeley, 1986; Dr.P.H. University of California, Berkeley, 1989

Matthew Schildt (25-AUG-2005) Assistant Professor of Music. BA Lebanon Valley College, 1998; MA Kent State University, 2000; PhD Kent State University, 2005.

Eugene Schilling (14-AUG-1996) Professor of Art. BFA Univ of Nebraska at Lincoln, 1982; MFA Colorado State University, 1986.

George Sellman (08-JUL-1986) Assistant Professor of Computer Science. BS Univ of California-Berkeley, 1980; MS Univ of Ca-Santa Barbara, 1983.

Jeffrey Storm(25-AUG-2006) Visiting Assistant Professor of Human Performance and Physical Education. BA Boston University, 1993; MA Adams State College, 1998.

John Taylor (16-AUG-1999) Associate Professor of Theatre. BS Wichita State University, 1988; MA Ohio State University, 1990; PhD Ohio State University, 1994.

Armando Valdez (25-AUG-2006) Assistant Professor of Business. BS Colorado State University, 1997; MBA Colorado State University, 1998.

Mary Valerio (21-AUG-2003) Associate Professor of Education. BS University of New Mexico, 1973; MA University of New Mexico, 1980; PhD University of New Mexico, 1990.

Susan Varhely (10-AUG-1990) Professor of Counselor Education. BA Marymount College, 1965; MS Southwest Missouri State Univ, 1977; PhD University of North Texas, 1984.

Tony Weathers (25-AUG-2005) Assistant Professor of Mathematics. BS Mercer University-Macon, 1991; MS Auburn University, 1993; PhD Auburn University, 1998.

Stephen Weiss (25-AUG-2005) Assistant Professor of Psychology. BA University of Connecticut, 1982; MS Springfield College, 1995; PhD City University of New York, 2002.

Jin Yao (25-AUG-2005) Assistant Professor of Biology. BS Nanjing University of Tech, 1991; PhD University of Kansas, 2001.

Brent Ybarondo (18-AUG-1992) Professor of Biology. BS San Diego State University, 1975; MA Boise State University, 1984; PhD University of Vermont, 1993.

Grace Young (08-MAY-1997) Associate Professor of Sociology. BA Kalamazoo College, 1978; MA University of Chicago, 1985; PhD McGill University, 1996.

Caroline Zimmerman (25-AUG-2006) TOSA, Department of Teacher Education. BSEd Northern Arizona University, 1993; MA Adams State College, 1995.
Emeritus Faculty

Robert M. Armagast, Ed.
Professor of Industrial Arts
Emeritus since 1979

Professor of Business
Emeritus since 1994

Myron L. Clayton, MA
Vice President for Business and Financial Affairs
Emeritus since 1991

Jack K. Cooper, DDS
Lecturer in Science
Emeritus since 1994

John J. Cotton, EdD
Professor of Health, Physical Education, and Recreation
Emeritus since 1989

William Curlott, EdD
Professor of Business
Emeritus since 1996

Koos Daley, PhD
Professor of English
Emeritus since 2006

Bill Dickey
Professor of EPLS
Emeritus since 2001

Hobart N. Dixon, PhD
Professor of Biology
Emeritus since 2001

Theodore J. Ellis, PhD
Professor of Economics
Emeritus since 2005

Wayne S. Farley, EdS
Dean of Academic Services
Emeritus since 1994

Cole N. Foster, PhD
Professor of English
Emeritus since 1998

Jeffery Geiser, PhD
Professor of EPLS
Emeritus since 2006

Gordon E. Gillson, PhD
Professor of History
Emeritus since 1988

A. J. Hall, MS
Director of Physical Plant
Emeritus since 1982

Donald D. Hermanson, PhD
Professor of Education
Emeritus since 1993

Virgil I. Hoff, MA
Associate Professor of English
Emeritus since 1979

Lee Holland, EdD
Professor of Education
Emeritus since 2001

George B. Hugins, EdD
Professor of Education
Emeritus since 1981

Harry U. Hull, BA
Director of the SUB
Emeritus since 1987

Richard Jacobs, PhD
Professor of Marketing
Emeritus since 2006

Phil Jaramillo, PhD
Associate Professor of Spanish
Emeritus since 2004

Randolph F. Jones, MM
Associate Professor of Music
Emeritus since 1985

Charleen Kahre, PhD
Professor of Education
Emeritus since 1997
Eugene T. Kelly, EdD  
Professor of Education  
Emeritus since 1984

Joseph Kolupke, PhD  
Professor of English  
Emeritus since 2004

Ronald E. Loser, DA  
Professor of Mathematics  
Emeritus since 2003

Marilyn M. Loser, PhD  
Professor of Mathematics/Computer Science  
Emeritus Since 2005

Madonna E. MacGowan, MA  
Professor of Business  
Emeritus since 1978

Christine E. Moeny, MA  
Assistant Professor of Library Science  
Emeritus since 1985

Frank A. Moore, PhD  
Professor of Chemistry  
Emeritus since 1985

Marvin D. Motz, EdD  
Professor of Psychology  
Emeritus since 1994

Theodore Mueller, PhD  
Professor of Physics  
Emeritus since 1997

William I. Oba, ThD  
Professor of Sociology  
Emeritus since 1987

Lawrence E. Orr, MA  
Associate Professor of Health, Physical Education, and Recreation  
Emeritus since 1982

Norma L. Peterson, PhD, LLD  
Professor of History  
Emeritus since 1984

Richard C. Peterson, PhD  
Professor of Geology  
Emeritus since 1990

Jodine Ryan, MA  
Assistant Professor of English  
Emeritus since 1997

Lena C. Samora, EdD  
Professor of Psychology  
Emeritus since 1995

Palmer F. Smith, MA  
Associate Professor of Mathematics  
Emeritus since 1988

Cloyd E. Snook, MFA  
Professor of Art  
Emeritus since 1992

C. Lawrence Spannagel, Ed.D.  
Associate Professor of Industrial Arts  
Emeritus since 1985

Connie Spencer, MA  
Assistant Professor of Psychology  
Emeritus since 1996

Donald A. Stegman, MA  
Associate Professor of English  
Emeritus since 1993

Gary E. Stephens, EdM  
Associate Professor of Education  
Emeritus since 1984

Clarence R. Svendsen, EdD  
Professor of Industrial Arts  
Emeritus since 1985

Lloyd G. Swenson, EdD  
Assistant Vice President for Academic Affairs and Professor of Education  
Emeritus since 1985

Luis M. Trujillo, PhD  
Professor of Spanish  
Emeritus since 1988

Joe I. Vigil, PhD  
Professor of Health, Physical Education, and Recreation  
Emeritus since 1987

Kay O. Watkins, PhD  
Professor of Chemistry  
Emeritus since 1993

Arthur S. Wellbaum, MA  
Associate Professor of Business  
Emeritus since 1977

Roland E. Wick, PhD  
Professor of Business  
Emeritus since 1979

Paul H. Williams, MFA  
Professor of Art  
Emeritus since 1984

Carroll O. Worm, MA  
Associate Professor of Mathematics  
Emeritus since 1989
