Setup - Spybot - Search & Destroy

Ready to Install
Setup is now ready to begin installing Spybot - Search & Destroy on your computer.

Click Install to continue with the installation, or click Back if you want to review or change any settings.

Destination location:
C:\Program Files\Spybot - Search & Destroy

Setup type:
Custom installation

Selected components:
Main files
Additional languages
Skins to change appearance
Download updates immediately

Start Menu folder:

Setup is now ready to install Spybot. Click on "Install".
Download
Setup is now downloading additional files to your computer.

File: spybotsd_includes.exe (1 of 1)
Speed: 33 KB/s
Status: Receiving...
Elapsed Time: 0:00:23
Remaining Time: 0:00:26

Current File: 770 KB of 1,656 KB (46%)
Overall Progress: 770 KB of 1,656 KB (46%)

Since we told Setup to download the updates immediately, it starts the download process. This can take several minutes over dialup.
This will update your Spybot - Search & Destroy detection rules. Please choose the program folder:

Destination Folder

E:\Program Files\Spybot - Search & Destroy

Once the downloads have finished, Setup needs to know where Spybot is installed. Unless you changed where Spybot was installed, click on "Install".
Once the updates are installed, click on "Close".
Completing the Spybot - Search & Destroy Setup Wizard

Setup has finished installing Spybot - Search & Destroy on your computer. The application may be launched by selecting the installed icons.

Click Finish to exit Setup.

- Run SpybotSD.exe

Spybot is now installed. Click on "Finish", and Spybot will run for the first time.
Spybot warns you that some software that you have installed may require spyware to be installed for you to have legitimate use of the software.

Spybot S&D Wizard

You can now create a complete backup of your registry. This is not necessary, but can provide useful. Should spyware destroy some of your original settings, Spybot-S&D may be able to restore them from this backup.

Create registry backup

Step 3 of 7

Click on "Create registry backup". Although we haven't needed to use it, this may be useful in case Spybot causes problems with your system.

Spybot Search & Destroy 1.4

Use this button to start scanning your system for spyware and all other threats detected by Spybot - Search & Destroy.

Use this button if you notice some problems that have occurred during a recent removal of problems, and you want to undo some changes.

This is very important: it is recommended to update the detections at least once a week!
You can now create a complete backup of your registry. This is not necessary, but can provide useful. Should spyware destroy some of your original settings, Spybot-S&DD may be able to restore them from this backup.

Click on "Next".
Before you start your first scan, for your own safety it is strongly suggested that you look for updated files and download them! Just click the button below to go to the updates page and let the program search if new updates exist.

Search for updates

Download all available updates

Step 5 of 7

We installed the updates as part of the installation, so you can just click on "Next".

Spybot Search & Destroy 1.4
