ADAMS STATE COLLEGE
STRATEGIC PLAN
2006-2009

ADAMS STATE COLLEGE
Statutory Role and Mission

C.R.S. 23-51-101:
There is hereby established a college at Alamosa, to be known as
Adams State College which shall be a general baccalaureate institution
with moderately selective admission standards. Adams State College
shall offer undergraduate Liberal Arts and Sciences, Teacher
Preparation, and Business degree programs; a limited number of
master’s level programs; and two-year transfer programs with a
community college role and mission. Adams State College shall not
offer vocational education programs. Adams State College shall receive
resident credit for two-year course offerings in its commission-
approved service area. Adams State College has a significant
responsibility to provide access to Teacher Education in rural Colorado.
Adams State College shall also serve as a Regional Education Provider.
In addition, Adams State College shall offer programs, when feasible,
that preserve and promote the unique history and culture of the
region.

PREFACE
To be effective, the Strategic Plan must be flexible enough to evolve
with the needs of the College’s unique role and mission. The plan is a
living document that will be reviewed regularly and adapted to meet
the demands of an ever-changing political and budget sensitive
environment.

I. INTRODUCTION
This document is the Adams State College Strategic Plan for the years
2006–2009. Its purpose is to guide decisions concerning long-term
planning, allocation of resources (human and financial), and
institutional energy. In particular, this plan will offer guidance for
decisions concerning budgetary matters, academic programs, the 2007
HLC accreditation, College Opportunity Fund legislation, and the
identification and allocation of resources.
ASC Mission Statement
Adams State College dedicates its resources to provide opportunity and access for all students. The College is an innovative leader that recognizes the inherent educational value of diversity. It is a catalyst for the educational, cultural, and economic interests of rural Colorado, the surrounding region, and the global community.

ASC Vision Statement
We will measure our success by the success of our students. We challenge ourselves to become Colorado’s most effective state-assisted four-year college. The keystone of our efforts will be to provide a high quality educational experience in a supportive environment. Our programs will recognize the value of both continuity and change, will welcome diversity, will stimulate intellectual growth, and will promote civic virtue.

II. THE PLANNING PROCESS
The strategic planning process identifies a broad set of institutional goals and priorities to support the institutional mission and to guide the development and implementation of other plans and the allocation of institutional resources. It represents an attempt to balance our vision with the resources available for realizing it.

The current campus leadership will develop this new plan for the 2006-2009 time period. Relevant statistical data from the Colorado Commission on Higher Education (CCHE), and the ASC Office of Institutional Research, as well as input from students, faculty, and staff, will continue to inform this iterative process.

The following are proposed for continuing and future planning:

The President/Provost will appoint the Budget and Planning Committee. The BPC will conduct a yearly review of the Strategic Plan and

• Assess progress toward stated goals
• Identify efforts that appear to be counterproductive or off task
• Make planning recommendations to the Executive Team

Strategic planning should include
• Identifying goals that have been completed
• Developing and prioritizing new goals
• A 3-year cycle for revision of the Strategic Plan
III. THE STRATEGIC PLAN
ASC Institutional Goals
ASC’s Strategic Plan Goals for 2006-2009 are as follows:

1. Promote academic excellence
2. Cultivate a high-quality, student-centered environment
3. Provide educational access and opportunity for success
4. Preserve and promote the unique history and culture of the region
5. Stimulate economic development in the San Luis Valley
6. Improve organizational effectiveness
7. Build financial stability

These goals reflect the unique opportunities, strengths, and legislative mandate of the college and establish its immediate and long-term areas of emphasis. They are intended to guide the college’s academic plan, development plan, technology plan, facilities plan, and budget plan.

ASC Strategies and Tactics
In developing the action items that follow, we have tried to keep in mind the broadest possible array of strategies and tactics, all of which should support the broad institutional goals designated in this document.
